## OUR VISION

Building a better Philippines,  
one family, one community at a time.

## OUR MISSION

We are the trusted financial partner of the masang Pilipino,  
giving them a better life today and nurturing their future,  
through easy access to affordable financial solutions

# CHAIRMAN'S MESSAGE

## Staying the Course with Resilience and Shared Purpose

Dear Shareholders,

Nine years since the establishment of the new BPI Direct BanKo, Inc., we find ourselves at an important point in our journey. Looking back on the years from 2016 to 2025, we see almost a decade of steady commitment to financial inclusion. I reflect on 2025 with deep gratitude and pride. Despite a challenging economic environment and intense competition, BanKo remained committed to serving millions of Filipinos through difficult times. Our performance this year reflects the strength of that long-standing commitment and affirms that by staying true to our purpose, we can continue moving forward with the communities we serve.

In 2025, BanKo delivered solid financial results despite a demanding environment. Our net income reached ₱2.76B, up 18.5% from the previous year, while total assets grew 26% to ₱66.7B. Capital funds also increased by 33%, strengthening our ability to manage volatility and support continued expansion. These results matter not only because of the growth they show, but because they reflect our capacity to keep serving clients reliably in times of need.

As BPI's microfinance arm, BanKo continues to play an important role in reaching underserved and rural communities. With a presence in 77 of 82 provinces, we remain focused on helping more Filipinos gain access to formal financial services. At a time when many borrowers faced rising costs and uncertainty, we chose to stay close to our clients and respond to their needs. Financial inclusion for BanKo is not a temporary effort, but a long-term commitment to supporting livelihoods and building resilience.

As we look ahead, our focus remains on the hardworking Filipino. From the market vendor to the sari-sari store owner, the determination of micro-entrepreneurs continues to shape our work. Thank you for your continued trust and support. Likewise, thanks to our Board Directors for their valuable guidance, and to all BanKo people for their hard work and dedication to providing excellent service to our customers. With a clear sense of purpose, we will continue striving to help more Filipinos move forward and reach their aspirations.

Sincerely,  
**Gerardo C. Ablaza, Jr.**  
Chairman of the Board

# PRESIDENT'S MESSAGE

## 2025: Expanding Reach, Deepening Impact

Dear Stakeholders,

2025 marked an important year for Banko, defined by steady growth, wider reach, and continued progress in our mission of financial inclusion. Across our network, our channels, and our people, we saw tangible results that reflected both hard work and shared purpose.

That progress was evident in how we continued to expand both access and relevance. We opened 44 new outlets in new territories, ending the year with 412 branches and branch-lite units across 77 of 82 provinces nationwide, while our Banko-on-the-Go Mobile Caravans brought financial literacy and essential banking services closer to remote communities. At the same time, we strengthened our digital capabilities through enhancements to the Banko Mobile App, enabling existing borrowers to re-avail loans with a single click and providing more flexible repayment options aligned with their cash flow realities.

We also delivered solid results in our core business. Our loan portfolio for self-employed micro-entrepreneurs grew by 15%, releasing more than P23 billion in loans to support growth of more than 200,000 micro-businesses. Supported by improved branch productivity and disciplined cost management, this led to a 22% increase in SEME Loans net income compared with 2024, driving an 18.5% increase in total net income for the bank. CASA grew by 15%, driven by digital deposit acquisition.

Behind these results are our BankoMares and BankoPares. Their dedication, hard work, and care for our clients continue to make a real difference in the communities we serve. In 2025, we continued to invest in our more than 3,000 regular employees through expanded wellness and support programs.

We also continued to advance key strategic priorities, including governance and regulatory initiatives, innovation programs like the introduction of the employee app, risk-based credit decisioning using behavioral scoring, and partnerships with farmer cooperatives that helped expand our reach and deepen our support for underserved communities. These efforts supported our sustainability agenda and helped position Banko for continued growth and long-term institutional readiness.

As we move forward, we remain committed to making banking more accessible, relevant, and responsive for the underserved. There is still much work to do, but I am grateful for what we have achieved together and encouraged by what lies ahead. To our clients, our partners, our Board, and most especially our BankoMares and BankoPares, thank you for your trust, your hard work, and your shared belief in what Banko stands for. I take pride in what we have built together, and I look forward with hope and excitement to the work we will continue to do for the masang Pinoy.

**Yours truly,**  
**Rodolfo K. Mabiasen, Jr.**  
President

# OUR BUSINESS

## OUR BUSINESS PERFORMANCE 2025: STAYING THE COURSE, MOVING LIVES FORWARD

BPI Direct BanKo, Inc., A Savings Bank (BanKo), the microfinance arm of the Bank of the Philippine Islands (BPI), remains deeply rooted in its mission to uplift the lives of the Filipino "Masang Pilipino." The year 2025 represents our thrust to stay the course and move lives forward based on our unwavering commitment to financial inclusion. In a year characterized by a challenging economic landscape and intensifying market competition, BanKo's commitment to its purpose was more vital than ever. We recognized that our borrowers were navigating a hard time, facing rising costs and a volatile market, and we responded by reinforcing our role as a reliable ally. Reflecting on our drive of staying on the course, we ensured that even in the toughest conditions, no micro-entrepreneur was left behind.

Throughout 2025, BanKo proved that true resilience is not just about surviving a single twelve-month cycle, but about the continuous, reliable partnership we provide to Self-Employed Micro-Entrepreneurs (SEMEs) nationwide. By fostering an environment of deep trust and accessibility, we empowered our clients to protect their livelihoods, sustain their operations, and envision a forward-looking path toward long-term recovery and growth. This steady performance validates our mission-driven model, showcasing a beautiful evolution from a client's modest beginning to their steady current state.

### Digital Access: A Lifeline in a Shifting Economy

In 2025, the BanKo Mobile app served as a critical digital bridge for underserved communities, registering 403,000 new users. This milestone highlights a profound shift toward digital self-reliance among SEMEs, even as they managed severe external economic pressures. By prioritizing ease of use and empathy in our technology, we achieved a 60% growth in newly registered users, leading to a 77% increase in financial transactions. More than just a tool for convenience, the app became a pillar of financial security, echoes promise to protect our customers' hard-earned assets through advanced fraud management and robust authentication.

Whether opening a TODO Savings account with its 5% annual interest rate or a PondoKo Savings account for basic liquidity, our clients found the digital tools necessary to build a buffer against economic uncertainty. By offering free InstaPay services and low-fee bill payments, we ensured that digital banking remained an affordable necessity rather than a luxury for the Filipino micro-entrepreneur.

### Expanding Horizons: A Human Touch in Every Community

By the close of 2025, BanKo's physical presence stood as a mature testament to our "boots-on-the-ground" philosophy, based on our plan of grassroots expansion. Our network grew to 412 branches and branch-lite units, with 98% situated in provincial areas. Now covering 77 out of 81 provinces, we successfully brought banking security to over 127 cities and 285 municipalities, further supported by a network of 409 active BanKo Cash Agent outlets.

Our shared resilience is deeply embodied by our 1,092 loan officers and associates, affectionately known as our "BanKoMares" and "BanKoPares." In a year where many borrowers felt the weight of financial stress, these dedicated individuals provided more than just capital; they provided empathy, financial literacy, and a listening ear. This human-centric approach defines our brand of service: Maaasahan, Malalapitan, Nagtitiwala. We moved beyond simple transactions to achieve true community empowerment, proving that even in a tough market, the nurturing strength of our long-term relationships remains our greatest asset.

### Building Momentum: Growth Driven by Mission

Despite the entry of new players and a tightening credit environment, BanKo's ascent in the microfinance sector remained steadfast, marking a powerful milestone in our journey. Our market share grew to 35% in 2025, a magnificent leap from our early beginnings in 2016. We witnessed a 15% growth in our microfinance loan portfolio, a clear indicator that when the market gets tough, Filipinos turn to the partners they trust most.

The bank's overall loan portfolio expanded by 13%, mirrored by a healthy increase in deposit levels. These milestones are not merely numbers; they represent the collective resilience of the families and communities we serve. Aligned with BPI's vision of nation-building, BanKo continues to prove that social responsibility and sustainable business performance are inextricably linked.

## Banko's Product Overview: Supporting the Journey of Recovery

Banko stands as a steadfast ally, offering a suite of products designed to provide stability and nurture dreams when it is needed most.

### NEGOSYOKO LOAN

The **NegosyoKo Loan** remains our flagship lifeline for SEMEs, offering loan amounts from ₱2,000 to ₱500,000 with flexible tenors of 1 to 36 months to provide working capital essential for navigating market fluctuations. To further protect our borrowers from unforeseen adversities like natural disasters, we continue to bundle this loan with Secure Assist microinsurance, ensuring that a single setback does not lead to financial ruin.

### FOR THE FARMERS

For the agricultural sector, the **Agri NegosyoKo Loan** serves our small-scale farmers, providing affordable financing through purchase agreements with reputable off takers. Recognizing the unique hardships in farming, we strategically align loan disbursements with the planting season and offer incentivized repayment rates, ensuring that our farmers, who typically operate on an average farm size of 1.5 to 2 hectares, have the resources to maximize yields and contribute to the nation's food security.

### PONDOKO SAVINGS ACCOUNT

PondoKo Basic Deposit Account supports Banko's mission of advancing financial inclusion by providing an accessible, interest-bearing savings account for underserved Filipinos. With minimum initial deposit and no maintaining balance requirement, it's easier for customers to participate in the formal banking system. Through the Banko Mobile App, users can seamlessly purchase load, transfer funds via InstaPay, and manage loan repayments, making essential banking accessible to the "Masang Pilipino" regardless of their location.

### TODO SAVINGS ACCOUNT

For those looking to accelerate their financial recovery, **TODO Savings** delivers a high-impact interest rate of 5% per annum on deposits up to ₱1,000,000, helping customers grow their savings while maintaining easy access to their funds. Customers can open an account digitally via the Banko Mobile App using just one valid government-issued ID.

\*On savings ₱5,000-₱1.0M

## BANKO MOBILE APP

Tying our ecosystem together, the **Banko Mobile App** continues to redefine financial inclusivity. Its seamless loan repayment feature allows borrowers to fulfill their obligations from the comfort of their homes or businesses, maintaining financial consistency without disruption. By providing real-time access to balances and transaction histories, the app serves as a vital financial management tool, fostering literacy and responsible growth. In recognition of our unwavering commitment to digital transformation and inclusion, Banko was honored with a **Special Citation during the Digital Financial Inclusion Awards (DFIA)** in 2025.

In 2025, Banko proved that our purpose is our strength. By staying close to our customers during their most challenging times, we have not only grown as a bank but have helped our communities grow in resilience. – Rodolfo K. Mabiase Jr.

## BRAND RECOGNITION

*Banko was officially awarded Outstanding Digital CX for Financial Inclusion at the Digital CX Awards 2025. The global recognition highlights the success of Banko's hyper-local, mobile-first approach designed to empower underserved and unbanked self-employed micro-entrepreneurs (SEMES).*

## SUSTAINED RECOGNITION IN FINANCIAL INCLUSION EXCELLENCE

Building on its continuous drive to expand access to banking for underserved communities, Banko further strengthened its industry standing through multiple prestigious recognitions in 2025. These accolades underscore the institution's commitment to delivering meaningful, customer-first financial solutions for the Masang Pinoy.

In addition to the **Outstanding Digital CX for Financial Inclusion Award** in 2025, Banko was honored with the **Best Strategic Partnership Award at the Retail Banker International Asia Trailblazer Awards**, recognizing its collaborative approach in expanding financial access through strong ecosystem partnerships. The bank also received the **SME Community Support of the Year – Philippines at the Asia Banking and Finance Awards 2025**, highlighting its impactful support for small and micro-entrepreneurs across the country.

Further reinforcing its leadership in inclusive innovation, Banko was recognized with the **Best Financial Inclusion Initiative – SMEs at the Global Retail Banking Innovation Awards 2025**. This award acknowledges the bank's continued efforts to design and deliver solutions that address the evolving needs of small businesses and everyday Filipinos.

These recognitions reflect Banko's consistent mission: to empower more Filipinos through simple, accessible, and dependable banking solutions.

# BUSINESS REVIEW

## FINANCIAL PERFORMANCE

Total Resources of the Bank increased by 26% or P13.76Bn to P66.72Bn in 2025.

Loans and Receivables expanded by 11% with loans booking growing by 7% contributed by our Personal and Microfinance loans.

Deposits increased by 29.77% or P11.80Bn to reach P51.46Bn in 2025.

Net interest income is higher by P2.86Bn or 31.42%, mainly attributable to the increase in interest income on loans of P3.14Bn in line with the growth in the personal and self-employed microentrepreneur (SEME) loan.

As of the end of 2025, consolidated common equity tier 1 ratio stood at 17.29% and capital adequacy ratio was at 18.04%. These ratios are well above minimum regulatory requirements, with an adequate buffer to support the Bank's operations.

## CLIENT TESTIMONIAL

### Banko empowers Nagcarlan entrepreneur through NegosyoKo Loan

Amid today's challenging economic landscape, Banko continues to stand alongside its clients by providing access to financial solutions and opportunities that help them grow their businesses and take a more active role in their communities and in the economy.

Banko's NegosyoKo Loan offers accessible and flexible financing with minimal requirements. Loan amounts range from Php5,000 up to Php500,000, with competitive interest rates, enabling business owners to invest in inventory, expand operations, and create more livelihood opportunities within their communities.

*Employees at Constantino Food Product carefully prepare and pack baked goods, as part of a growing operation that now produces thousands of bread packs daily.*

As part of its advocacy to inspire more Filipinos to start and scale their own ventures, Banko shares real-life success stories through its *Kwentong Ngiti* series, featuring entrepreneurs whose journeys reflect resilience, determination, and the impact of accessible financing.

One such story is that of Edwin and Jenny Constantino, owners of *Constantino Food Product* in Nagcarlan, Laguna.

Starting with only two bakers, the Constantinos transformed a small bakery into a growing enterprise through the support of Banko's NegosyoKo Loan. Over six years as Banko clients, they have expanded their operations significantly—now employing nearly 45 local workers and producing around 20,000 packs of bread daily to serve not just their community but other areas, including Cavite, Quezon Province, and Cabanatuan, Nueva Ecija.

*Edwin and Jenny Constantino inside their production area in Nagcarlan, Laguna, where their small bakery has grown into a source of livelihood for their community.*

“Malayo na ang narating ng aming maliit na bakery mula sa simpleng simula. Sa tulong ng BanKo, unti-unti naming napalago ang aming negosyo. Hindi lang ito tungkol sa kita, kundi sa pagbibigay ng hanapbuhay sa aming kapwa sa Nagcarlan at sa pag-abot ng aming mga pangarap bilang pamilya,” shared Edwin.

Located in the municipality of Nagcarlan, Laguna, an area known for its rich agricultural heritage and tightly knit communities, the success of *Constantino Food Product* reflects the vital role small businesses play in driving local economic activity. By generating jobs and supporting livelihoods, enterprises like theirs contribute meaningfully to community development.

“We believe that every small business has the potential to grow,” said Mabiasen. “Katulad nina Edwin at Jenny, nais naming makatulong pa sa ibang mga negosyante na umasenso at mapalago ang kanilang mga negosyo, dahil dito sa BanKo, may ngiti ang bukas mo.”

Since 2016, BanKo has supported over 400,000 entrepreneurs nationwide. In 2025, it disbursed over Php 23.7 billion loans that continue to fuel grassroots enterprise and local economic development. Beyond financing, BanKo’s on-the-ground relationship managers, called *BanKoMares* and *BanKoPares*, provide guidance and support to help clients sustain and grow their businesses.

*From humble beginnings to a thriving enterprise, the Constantinos continue to grow their bakery business with the support of BanKo.*

# CORPORATE GOVERNANCE

## CORPORATE GOVERNANCE PHILOSOPHY

The Board of Directors and Management, employees and shareholders of BanKo believe that a sound and effective corporate governance is the cornerstone of its strength and long-term existence. It subscribes to a philosophy of adhering to honesty, integrity, and professionalism in the conduct of its business, exercising prudence in arriving at decisions, enforcing internal discipline and a system of checks and balances in its operating processes, and providing transparency to its various publics regarding basic management policies and practices, major business strategies and decisions and its operating results.

The Board of Directors and Management commit themselves to the principles and practices of the corporate governance philosophy of the bank. They shall also undertake every effort necessary to create awareness of these principles and practices within the organization in order to ensure proper internalization by every member of the organization.

## GOVERNANCE STRUCTURE

### Board of Directors

The Board of Directors (the Board) bears the primary responsibility for creating and enhancing the long-term shareholder value of BanKo and ensuring that this objective is achieved in all its business activities. It must ensure BanKo's ability to satisfy the needs of its customers, sustain its leadership and competitiveness, and uphold its reputation in order to maintain BanKo's long term success and viability as a business entity. Its mandate consists of setting the strategic business directions of BanKo, appointing its senior executive officers, confirming its organizational structure, approving all major strategies and policies, overseeing all major risk-taking activities, monitoring the financial results, measuring and rewarding the performance of management, and generating a reasonable investment return to shareholders. It should also provide an independent check on management.

The Board is headed by a competent and qualified Chairman. Under the leadership of the Chairman, the Board creates the framework within which the Bank's executive team, headed by the President, steers the business. As stated in the Bank's Corporate Governance Manual, the chairman, among other functions, ensures a) that the board meeting agenda focuses on strategic matters including discussion on risk appetites and key governance concerns; b) effective functioning of the board, including maintaining a relationship of trust with board members; c) sound decision making process and he should encourage and promote critical discussions and ensure that dissenting views can be expressed and discussed within the decision-making process; d) conduct of performance evaluation of the Board at least once a year.

### Term limits of Independent Directors

An independent director may only serve as such for a maximum cumulative term of nine (9) years. After which, the independent director shall be perpetually barred from serving as independent director but may continue to serve as a regular director.

### Policy on Directorships

Directors are bound by BanKo's Director's Code of Conduct to take into account their individual circumstances and the nature, scale and complexity of the Bank's activities in showing full commitment to the Bank - devoting the time, schedule and attention necessary to its business interests, to properly and effectively perform their duties and responsibilities and to avoid conflicts of interest.

A rigorous nomination process to ascertain fitness and propriety of candidate directors and examine their principal commitments is also done every year, prior to the Annual Stockholders Meeting. Board and committee attendance is closely monitored and reported. The Board also conducts an annual performance evaluation of itself, its committees and directors, which includes an affirmative determination of time commitments.

### **Powers of the Board of Directors**

The corporate powers of a bank shall be exercised, its business conducted and all its property controlled and held, by its board of directors. The power of the board of directors as conferred by law is original and cannot be revoked by the stockholders. The directors hold their office charged with the duty to exercise sound and objective judgment for the best interest of the bank.

### **Duties and Responsibilities**

The position of a Bank director is a position of trust. A director assumes certain responsibilities to different constituencies or stakeholders, i.e., the bank itself, its stockholders, its depositors and other creditors, its management and employees, the regulators, deposit insurer and the public at large. These constituencies or stakeholders have the right to expect that the institution is being run in a prudent and sound manner. The board of directors is primarily responsible for approving and overseeing the implementation of the Bank's strategic objectives, risk strategy, corporate governance and corporate values. Further, the board of directors is also responsible for the selection of key members of senior management and control functions as well as monitoring and overseeing the performance of senior management as the latter manages the day-to-day affairs of the institution.

### **Selection**

Our shareholder may recommend candidates for board membership for consideration by the Nominations Committee. Such recommendations are sent to the Committee through the Office of the Corporate Secretary. Candidates recommended by shareholders are evaluated in the same manner as Director Candidates identified by any other means. The Committee itself may identify and recommend qualified individuals for nomination and election to the Board. For this purpose, the Committee may utilize professional search firms and other external groups to search for qualified candidates.

The Nominations Committee pre-screens the candidates and prepares a final list of candidates prior to the Annual Stockholders Meeting. Only nominees whose names appear on the final list of candidates are eligible for election to the Board.

No other nomination shall be entertained after the final list of candidates are drawn up. No nomination shall be entertained or allowed on the floor during the Annual Stockholders Meeting.

Board members are elected by Banko stockholders who are entitled to one vote per share at the Bank's Annual Stockholders Meeting, where votes may be cumulated as provided for in the Corporation Code. The nominees receiving the highest number of votes are declared elected and hold office for one year until their successors, qualified in accordance with the by-laws, are elected at the next Annual Stockholders Meeting.

### **Board Composition and Qualification**

Pursuant to Sections 15 and 17 of R.A. No. 8791, and the Bank's Amended By-Laws, there is a maximum of nine (9) members of the Board who are elected by the stockholders entitled to vote at the annual meeting, and shall hold office for one (1) year and until their successors are elected and qualified in accordance with the Bank's By-Laws.

## BOARD OF DIRECTORS

**Gerardo C. Ablaza, Jr.**

**Position:** Chairman

**Mr. Ablaza** was elected as Director of BanKo in June 2022 and was appointed as its Chairman in October 2024. He is the Chairman of BanKo's Personnel and Compensation Committee and a member of the Audit Committee. He also serves as a Director of BPI Asset Management and Trust Corporation Doing Business under the Trade Name and Style of BPI Wealth - A Trust Corporation.

He is currently a Management Consultant of Ayala Corporation and a member of the Board of Directors of various subsidiaries of the Ayala Group, including Asiacom Philippines, Inc., AC Energy and Infrastructure Corporation, Ayala Retirement Fund Holdings, Inc., ACEN Corporation and ENEX Energy Corporation. He is also a Trustee of Ayala Foundation, Inc.

Previously, he served as a Director of BPI Family Savings Bank, Inc. from 2017 to 2021 and BPI Capital Corporation from 2017-2021, AC Infrastructure Holdings Corp. from 2014-2025, and Ayala Healthcare Holdings, Inc., from 2017-2025. During his stint as President and CEO of Manila Water Company from 2010 to 2017, he was responsible for overseeing the financial and operational growth within Manila Water's service areas in the Metro Manila East Zone and in its expansion areas. From 1998 to 2009, he was the President and CEO of Globe Telecom, Inc. where he took the company from being the fourth-ranked mobile services provider to the second-largest full-service telecom operator with a subscriber base of 25 million in 2008.

In 2004, Mr. Ablaza was recognized by CNBC as the Asia Business Leader of the Year, making him the first Filipino CEO to win the award. He was also awarded by Telecom Asia as the Best Asian Telecom CEO. In 2013, he was recognized for his consistent leadership and innovation across the banking, investment, telecommunications and utility service industries through the Citi Distinguished Alumni Award for Leadership and Ingenuity. He was the first Filipino to be awarded with such an honor. He became a member of the Board of Directors and Executive Committee of Advance Info Services, PLC based in Thailand, from 2017 to 2025.

Mr. Ablaza graduated summa cum laude from the De La Salle University in 1974 with a Bachelor of Arts degree, major in Mathematics (Honors Program). He also earned his master's degree in business administration from the University of the Philippines in 1976.

**Ignacio R. Bunye**

**Position:** Independent Director

Mr. Bunye was elected as Director of BanKo in June 2018. He is the Chairman of BanKo's Corporate Governance and Nomination Committees. He also serves as an Independent Director of BPI Capital Corporation, and BPI Wealth Builder Multi-Asset Mutual Fund, Inc.

Mr. Bunye previously served as an Independent Director of the Bank of the Philippine Islands from 2016-2024 and BPI Asset Management and Trust Corporation Doing Business under the Trade Name and Style of BPI Wealth - A Trust Corporation from 2016-2025. He was likewise a member of the Monetary Board of the Bangko Sentral ng Pilipinas from 2008 to 2014. In addition, he held the positions of Press Secretary in 2002, Presidential Spokesperson in 2003, and Presidential Political Adviser in 2008. Significant awards and recognition received by Mr. Bunye include the Asian Institute of Management Honor and Prestige Award, the Bangko Sentral Service Excellence Medal, the Gran Oden de Isabela Catolica, and the Order of Lakandula.

Mr. Bunye is a member of the Philippine Integrated Bar. He obtained his Bachelor of Arts degree in 1964 and his Bachelor of Laws degree in 1969, both from the Ateneo de Manila University. He obtained his master's in management degree in 1976 from the Asian Institute of Management.

**Karl Kendrick T. Chua**

**Position:** Non-Executive Director

**Mr. Chua** was elected as Director of Banko in August 2023. He is currently the Managing Director for Data Science and Artificial Intelligence in Ayala Corporation. He is also a Director of the Bank of the Philippine Islands, AC Industrials Technology Holdings, AC Infrastructure Holdings, Brave Connective (a Globe Telecom subsidiary), is an Independent Director of D&L Industries and LH Paragon and is likewise a Board Adviser for various LH Paragon Businesses. He previously served as a Director of Manila Water Company and AC Ventures.

Mr. Chua was a former Secretary of the National Economic and Development Authority (NEDA) and Undersecretary for Strategy, Economics, and Results at the Department of Finance (DOF), Republic of the Philippines.

He has extensive experience in the areas of analytics, economic and fiscal policy, statistical development, national identification, labor and social protection policy, poverty analysis, and digital transformation, among others. He was also an adviser for the World Bank's World Development Report and a member of the Selection Committee of the Asian Development Bank and International Economic Association Innovative Policy Research Award.

Mr. Chua was a senior official in the Government of the Philippines for six years from 2016 to 2022. As Secretary of Socioeconomic Planning and Chief Economist of the country, he provided strategic leadership on economic policy during the Covid-19 pandemic and the further liberalization of key sectors of the economy. As chair, he also oversaw the implementation of the national ID program and the national innovation strategy.

As Undersecretary in the DOF, he led the technical team in the passage of the Comprehensive Tax Reform Program covering income, consumption, transaction, and wealth taxes, and the passage of the Rice Tariffication Law, among other reforms in the government's 10-Point Socioeconomic Agenda.

Mr. Chua graduated from the Ateneo De Manila University in 2000 with a degree in B.S. Management Engineering. He earned his M.A. Economics (2003) and Ph.D. Economics (2011) from the University of the Philippines and recently studied data science at the Asian Institute of Management.

In 2018, he was awarded as one of the Ten Outstanding Young Men of the Philippines (TOYM) for economic development. He is married and has two boys named after stars.

**Jose Ferdinand B. De Luzuriaga**

**Position:** Independent Director

**Mr. de Luzuriaga**, 64 years old, was elected as Director of Banko in February 2017 up to January 2026. He is also an Independent Director of Ayala Plans Incorporated, BPI Century Tokyo Lease & Finance

Corporation (formerly BPI Leasing Corporation) and BPI Tokyo Century Rental Corporation (formerly BPI Century Tokyo Rental Corporation).

Throughout his career, Mr. de Luzuriaga has obtained significant exposure to several industries including agriculture, manufacturing, engineering, food processing, transport, commodities, property development, thrift banking, investment banking, nongovernment organizations, education, insurance, pre-need, media, publishing, private equity, venture capital, fund management, content marketing and technology companies.

**Rodell A. Garcia**

**Position:** Non-Executive Director

**Mr. Garcia** was elected as Director of BanKo in June 2023 and is currently a member of its Risk Management Committee. Mr. Garcia has more than 40 years of experience in Information Technology across banking, telecommunications, water utility and healthcare industries. He occupied key senior executive positions and led IT teams in the development and implementation of new and innovative technologies, some of which gained recognition and awards in the international community. Further, he was the Executive Lead of G-Cash, the Philippines' pioneering and award-winning mobile commerce application launched in 2004 and is one of the earliest implementations of e-money.

Mr. Garcia was recognized as Outstanding CIO of 2005-2006 by the Philippine Computer Society and one of the 100 Premier Technology Leaders of 2017 by Computerworld USA. He graduated in 1976 with a Bachelor of Science in Mathematics degree from the Ateneo de Manila University under a scholarship grant from the National Science Development Board.

**MA. CRISTINA L. GO**

**Position:** Non-Executive Director

**Ms. Go** was elected as Director of BanKo in December 2025 and is currently a member of BanKo's Corporate Governance, Nominations, and Personnel and Compensation Committees. In addition, Ms. Go is a Director and Treasurer at BPI/MS Insurance Corporation. She is also a Director of TransUnion Philippines, and a Trustee of Ayala Foundation. Ms. Go is an Executive Vice President of the Bank of the Philippine Islands. Ms. Go heads the Consumer Banking Segment, serving over 18 million clients and overseeing more than 820 branches nationwide. She is responsible for managing retail digital platforms, core retail products—including deposits, auto loans, housing loans, motorcycle loans, as well as life and non-life bancassurance—and all related support services. Ms. Go has consistently championed a client-first "phygital" transformation strategy, emphasizing the delivery of a seamless omni-channel experience for the Bank's diverse markets. This approach leverages BPI's extensive physical presence to provide trusted advice through its team of over 11,000 expert banking professionals, complemented by best-in-class digital capabilities that enhance convenience and accessibility for clients.

Under Ms. Go's leadership, 107 branches have been converted to the phygital format, redefining the in-branch customer experience and integrating digital education. A key aspect of this transformation is the shift of branch roles from transaction centers to advisory hubs, supported by ongoing manpower development. The Bank's mobile app and online platforms continue to introduce innovations, such as an improved user interface for fund transfers and payments, the addition of over 600 new billers, buy-and-sell functionality for US dollars, cardless withdrawals at retail partner stores, expanded reach for mobile check deposits, virtual privilege cards, and more. The BPI app has received high ratings on both

the App Store and Google Play Store. The Bank's digital transformation has accelerated across all channels, with robust adoption of Salesforce, Talkdesk, and the GenAI-enabled BPI Express Assist Intelligence (BEAi), all supported by streamlined processes and continuous upskilling of personnel. These initiatives have strengthened customer engagement and enhanced productivity.

The Bank's retail loan products—including housing, auto, and motorcycle loans—have achieved significant market share growth through data-driven lending programs that have simplified application processes and reduced turnaround times. New products in both life and non-life insurance, such as BPI AIA's Prime USD life insurance and BPI MS's Kaya Care, Safe Sakay, and Freelancer non-life insurance, have made notable impacts in the market.

Prior to leading Consumer Banking, Ms. Go served as President of BPI Family Savings Bank (BFSB), where she oversaw the successful merger and integration with BPI. She was previously Group Head of BFSB Retail Loans in 2015, following 11 years as Head of BPI's Payments and Unsecured Lending Group. There, she introduced innovations such as the first EMV-compliant credit cards and the launch of Real Thrills, the Bank's first instant rewards program. Her extensive experience in transformational initiatives—spanning manpower, processes, products, systems, and culture—has enabled the Bank to pursue market-creating growth opportunities and maintain a high-quality customer portfolio. With a client-first transformation strategy focused on elevating the customer experience, BPI has achieved the highest Net Promoter Score (NPS) among universal banks and fintechs in the country.

Before joining BPI, Ms. Go was Vice President at Citibank Philippines, overseeing Retail Bank Marketing, and later served in Citibank's Credit Cards Cross Sell Division in New York. She also held leadership roles at Ayala Land, establishing and heading its Market Planning and Development Division, where she contributed to the company's expansion into the middle-market segment. Ms. Go began her career at Procter & Gamble as Brand Assistant and was later promoted to Assistant Brand Manager, managing brands such as Mr. Clean, Perla, Star, and Dari Crème.

Ms. Go holds a master's degree with honors from the Harvard Business School (1996) and graduated Magna Cum Laude with a BS in Business Administration and Accountancy from the University of the Philippines Diliman. Ms. Go attended the Stanford Executive Education Program in Organization and Leadership last August 2025. She was recognized as one of the Ten Outstanding Students of the Philippines, placed first in the 1991 CPA licensure exam, and was named a Distinguished Alumna by the UP College of Business Administration in 2012. In 2016, she was honored by the Filipina Women's Network as one of the 100 Most Influential Filipina Women in the World.

**JENELYN Z. LACERNA**

**Position:** Non-Executive Director

**Ms. Lacerna** was elected as Director of Banko in October 2024. Concurrently, she is a Senior Vice President and Head of the Mass Retail Segment of BPI and Chairman of Legazpi Savings Bank, Inc. In addition, she serves as Director and President and Chairman of BPI Payments Holdings Inc. (formerly "BPI Card Finance Corporation").

Throughout her career, Ms. Lacerna has held key positions in various companies, including Sales Executive in Purefoods Corporation, Cards Marketing Officer in American Express (Philippines), and Vice President in Citibank N.A. (Thailand). Prior to joining BPI, Ms. Lacerna was the First Vice President for Global Remittances at the Philippine National Bank. At BPI, she also served as the Senior Vice President for Unsecured Lending and Cards – Products and Sales.

Ms. Lacerna earned her Bachelor of Science degree in Business Administration from the University of Santo Tomas in 1986.

**RODOLFO K. MABIASEN, JR.**

**Position:** Executive Director, President

**Mr. Mabiase** was elected and appointed as Director and President of BanKo in January 2024. He also serves as Director of Legazpi Savings Bank, Inc. and Trustee of Greentop Condominium Corporation, both subsidiaries of BPI. In addition, he is a Director of Card MRI RBI, a microfinance-oriented rural bank.

He began his career with the BPI Group in 1996 as an Assistant Manager at BPI Family Savings Bank. Prior to his secondment to BanKo, he held various key positions in BPI from 2000-2016. In BanKo, he served as Vice President from 2017-2019, Director from 2017-2019, and Senior Vice President from 2020-2024, prior to his current appointment.

Mr. Mabiase holds Bachelor of Science degrees in Accountancy and Economics from St. Louis University, graduating as Magna cum Laude. He passed the CPA Licensure Examination in 1996.

**Jesus V. Razon Jr.**

**Position:** Independent Director

**Mr. Razon** was elected as Independent Director of BanKo in February 2016 up to June 2025. Mr. Razon served as the Chairman of BanKo's Audit Committee and was a member of the Corporate Governance and Personnel and Compensation Committees. Mr. Razon was the Senior Vice President of the Consumer Banking Group and Human Resources Management Group of BPI. In addition, he served as a director of various BPI subsidiaries such as BPI Family Savings Bank, Inc., FGU Insurance Corporation, and BPI Forex Corporation, among others. He also served as an Independent Director of BPI Investment Management, Inc.

Mr. Razon received his master's degree in management from the Asian Institute of Management in 1990 and his Bachelor of Arts degree in Economics from the Ateneo de Manila University in 1967.

**Elfren Antonio S. Sarte Jr.**

**Position:** Non-Executive Director

**Mr. Sarte** was elected as Director of BanKo in October 2024 up to December 2025. Mr. Sarte is a highly accomplished executive with over 40 years of experience in the banking industry. He became part of the BPI group following the merger between BPI and Robinsons Bank Corporation (RBC) effective January 1, 2024.

Prior to joining BPI, Mr. Sarte was the President and CEO of Robinsons Bank Corporation (RBC) from 2014 to 2023. It was under his leadership when RBC began its digital transformation and embarked on its journey towards becoming digital to the core. He formed an agile culture in RBC and created new digital organization and put in place digital strategies steadfastly implemented to deliver innovative high-tech, low touch real-time and on-demand products services to the customers. Mr. Sarte delivered RBC from rank 26<sup>th</sup> in 2014 to rank 16<sup>th</sup> by end-2023 in terms of assets among Universal and Commercial banks in the Philippines which resulted to numerous recognitions from various local and international

award-giving bodies. His rich banking experience includes being the President, Director, and CEO of PNB Savings Bank from 2013 to 2014. In Philippine National Bank, he was Consumer Finance Group Head from 2010 to 2013. He was with Union Bank of the Philippines from 1995 to 2010 handling various roles last of which is as Head of Consumer Credit Risk Management Division. His entry into the corporate world began with Credit Information Bureau Inc., where he honed his skills in credit.

Mr. Sarte has served as Director of various organizations namely: Bankers Association of the Philippines, Go Tyme Bank Corporation, Bancnet, Inc., Maxicare Healthcare Corporation, and Maxicare Life Insurance Corporation. He also served as the Chairman of the Operations Committee of the Bankers Association of the Philippines from 2017 up to 2023.

He graduated with a degree in Bachelor of Science Industrial Management Engineering Minor in Mechanical Engineering from De La Salle University in 1982.

**MARIA DOLORES B. YUVIENCO**

**Position:** Independent Director

**Ms. Yuvienco** was elected as Independent Director of BanKo in June 2025, where she currently serves as the Chairman of BanKo's Audit Committee and is a member of the Corporate Governance, Personnel and Compensation, and Risk Management Committees. In July 2019, Ms. Yuvienco was elected as Independent Director of BPI Asset Management and Trust Corporation (doing business under the trade name and style of BPI Wealth - A Trust Corporation) and was designated Chairman of its Audit Committee and member of the Risk Management Committee.

Ms. Yuvienco also serves as an Independent Director of Legazpi Savings Bank (LSB). She acts as the Chairperson of LSB's Risk Management Committee and member of LSB's Audit Committee. She also previously served as Independent Director of the Bank of the Philippine Islands from 2016-2025.

Ms. Yuvienco worked for 41 years with the Bangko Sentral ng Pilipinas (formerly known as Central Bank of the Philippines) under various capacities until her compulsory retirement in March 2013. She held the post of Assistant Governor in the Supervision and Examination Sector when she retired. Her exposure at the BSP was largely in bank supervision where her responsibilities ranged from the crafting of policies/regulations on banking supervision to supervising on-site examination and off-site monitoring of BSP-supervised entities. As a ranking official in the BSP, she had opportunities to meet and share ideas with her counterparts in other central banks in the region. Owing to her experience, she was tapped as a resource speaker in various training programs of the Southeast Asian Center for Banking in Kuala Lumpur.

Ms. Yuvienco graduated from St. Theresa's College, Quezon City in 1967, with a degree of Bachelor of Science in Commerce, major in accounting. She took up post-graduate studies at the University of the Philippines Diliman. She is a Certified Public Accountant and a Career Executive Service Professional.

**MARIA LOURDES P. GATMAYTAN**

**Position:** Corporate Secretary

**Atty. Gatmaytan** is concurrently the Co-Head of Legal / Head of Corporate Legal Affairs and Corporate Secretary of the Bank of the Philippine Islands. She likewise serves as Corporate Secretary of BPI Asset Management and Trust Corporation (also known as BPI Wealth - A Trust Corporation), BPI/MS Insurance Corporation, and The Bank of the Philippine Islands Foundation, Inc.

Atty. Gatmaytan began her legal career at ACCRALAW and went on to hold key legal and leadership roles in major Philippine corporations. Over the years, she served as Associate Attorney at ACCRALAW, Legal Counsel at SM Investments Corporation and its subsidiaries. Associate General Counsel at the San Miguel

Group of Companies, Head of Legal at Bahay Financial Services, Inc., and Vice President, Chief Legal Counsel, and Corporate Secretary at Splash Corporation. Her long experience as in-house counsel and corporate secretary across banking and major Philippine corporations have equipped her with a strong command of legal risk management, board processes, disclosure requirements, and institutional governance. In 2023, she was named in Legal 500's inaugural GC Powerlist Philippines, and she also led the BPI Legal team in earning recognition in the GC Powerlist Southeast Asia Teams 2023 and Philippines Teams 2024. The BPI Legal Team was recently awarded In-House Legal Team of the Year 2025 – Banking by the In-House Community.

Atty. Gatmaytan received her Bachelor of Science degree in Legal Management from the Ateneo de Manila University in 1989. She earned her Juris Doctor degree from the Ateneo de Manila School of Law, graduating with honors in 1993.

\*\*Elected as Board member effective 25 June 2025

\*\*\*Board member until 10 December 2025

\*\*\*\*Elected as Board member effective 10 December 2025

### Audit Committee

The Audit Committee monitors and evaluates the adequacy and effectiveness of the Bank's system of internal control systems, risk management, and governance practices. It provides oversight into the integrity of the Bank's financial statements and financial reporting process, performance of the internal and external audit functions and compliance with bank policies, applicable laws, and regulatory requirements. This Committee also reviews the external auditor's annual audit plan and scope of work and assesses its overall performance and effectiveness. In consultation with management, this Committee also approves the external auditor's terms of engagement and audit fees.

<b>Chairman</b>	Jesus V. Razon, Jr. (Independent) * Dolores B. Yuvienco (Independent) **
<b>Members</b>	Gerardo C. Ablaza, Jr Jose Ferdinand B. De Luzuriaga (Independent)

\*Committee Chairman until 25 June 2025

\*\*Elected as Committee Chairman effective 25 June 2025

### Corporate Governance Committee

The Corporate Governance Committee assists the Board in fulfilling its corporate governance responsibilities and ensures the Board's effectiveness and due observance of sound corporate governance principles and guidelines, as embodied in the Manual of Corporate Governance.

It also performs the function of a Related Party Transaction Committee and is charged with ensuring that the Bank's dealings with the public and various stakeholders are imbued with the highest standards of integrity. In conjunction with the Audit, Risk, and Corporate Governance Committees, this Committee endeavors to ensure compliance with Bangko Sentral regulations and guidelines on related party transactions. The committee independently reviews, vets, and endorses significant and material related party transactions—above and beyond transactions qualifying under directors, officers, shareholders, and related interest restrictions—such that these transactions are dealt on terms no less favorable to the Bank than those generally available to an unaffiliated third party under the same or similar circumstances.

\*Committee member until 10 December 2025

### Personnel and Compensation Committee

The Personnel and Compensation Committee directs and ensures the development and implementation of long-term strategies and plans for the Bank's human resources, in alignment with the Board's vision for the organization.

<b>Chairman</b>	Gerardo C. Ablaza, Jr.
<b>Members</b>	Jesus V. Razon Jr. (Independent) * Maria Dolores B. Yuvienco (Independent) ** Elfren Antonio S. Sarte, Jr.***

\*Committee member until 25 June 2025

\*\*Elected as Committee member effective 25 June 2025

\*\*\*Committee member until 10 December 2025

### Risk Management Committee

The Board appoints from its members a Risk Management Committee (RMCom) composed of at least three (3) Directors, of which majority must be Independent, including the Chairperson. Committee members should possess a range of knowledge and expertise in risk management issues and best practices. The Chairperson shall not be the Chairperson of the Board or of any other board-level committee.

The Risk Management Committee is tasked with nurturing a culture of risk management across the enterprise. It supports the Board by overseeing and managing the Bank's exposures to financial and non-financial risks, assesses new and emerging risk issues across the Bank, regularly reviews the Bank's risk management appetite, policies, structures and metrics, and monitors overall liquidity and capital adequacy, in order to meet and comply with regulatory and international standards on risk measurement and management.

<b>Chairman</b>	Jose Ferdinand B. De Luzuriaga (Independent)
<b>Members</b>	Rodell A. Garcia Jenelyn Z. Lacerna

### Meetings and Attendance

The BPI Direct Banko Board meets regularly for the effective discharge of its obligation. Regular board meetings are held monthly, held every fourth Wednesday of the month. Board of Directors meetings are set immediately after the Annual Stockholder Meeting to cover the full term of the newly elected or re-elected members of the Board, reckoned from the date of the current year's Annual Stockholder Meeting to that of the following year. Special meetings may be called for as needed. Discussions during the board meetings and open independent views are given due consideration. Board reference materials are made available to the directors at least five days in advance of the scheduled meeting. Independent and Non- Executive Directors of the Bank also meet at least once a year without the presence of the executive director or management. The Non-Executive Directors meeting was held on 10 December 2025.

The Board's full-year attendance at the 2025 Board Meetings and Committee Meetings are outlined as follows:

## Performance Evaluation and Self-Assessment

Monitoring of governance by the Board requires a continuous review of the internal structure of the Bank to ensure that there are clear lines of accountability for management throughout the organization. In this regard, the Board, under the guidance of the Corporate Governance Committee, annually conducts a self-assessment to ascertain the alignment of leadership fundamentals and issues, validate the Board's and Senior Management's appreciation of its roles and responsibilities and confirm that the Board and Senior Management possess the right mix of background and competencies. Performance of the Board and Senior Management is measured on the basis of what it delivers and how it delivers, how it meets its responsibilities to all BPI Direct Banko stakeholders, and how it addresses issues that impact the Board's and Senior Management ability to effectively fulfill its fiduciary duties.

## Succession Planning and Talent Management

Financials services today face many transformative factors – regulation, market disruption, new technologies and business models, competition- that affect the business in major and long-term ways. Our Board understands that the Bank must continually evolve, adapt, and even restructure the business to remain ahead of strategic, market, technology and regulatory shifts. The Board, through its Personnel and Compensation Committee, manages the talent pipeline and assembles the required personnel capable of navigating such changes.

In consultation with the President, the Personnel and Compensation Committee reviews the Bank's talent development process for proper management. Senior management provides a report to this Committee on the results of its talent and performance review process for key management positions and other high-potential individuals. Aside from ensuring that there is a sufficient pool of qualified internal candidates to fill senior leadership positions, this review process identifies opportunities, performance gaps, and proactive measures in the Bank's executive succession planning. And as part of the same executive planning process, the Committee as a whole or a part thereof, in consultation with the Board and the President, evaluates and nominates potential successors to the President and the Senior Management.

The selection process involves a number of steps, including:

- Identifying candidates for the talent pipeline and market mapping to gain an understanding of current offerings in the marketplace in relation to the roles, skills, knowledge, experience needed; this also involves actively building and nurturing relationships with talent in order to create a list of roles that are key to the Bank's success; the Bank also utilizes referrals, and industry platforms as it tailors skillset requirements.
- Screening and vetting candidates once the requirements have been identified, through a variety of methods, such as reviewing resumes, conducting interviews, or administering online assessments; the focus here is on the fit and suitability of the candidate to the role, the current and future business directions, and the Bank's company culture, beyond the minimum fit and proper requirements and qualifications stated in the BSP Manual of Regulations for Banks;
- Making the selection decision: The final step is to make the selection decision. This decision should be based on the information gathered during the screening and interviewing process.

## Induction and Director Education

Board members acquire appropriate skills at appointments and thereafter remain abreast of relevant new laws, regulations, and changing commercial risks through in-house training and external courses. New Directors are briefed on BPI Direct Banko's background. Organizational structure, and, in compliance with Bangko Sentral Circular No. 758, the general and specific duties and responsibilities of the Board.

They also receive briefings on relevant policies and rules governing their roles as Directors. They are given an overview of the industry, regulatory environment, business of banking, strategic plans of the Bank, and its governance framework, i.e. Manual of Corporate Governance, Director's Code of Conduct, Board operations (schedules, procedures and processes), including support from the Corporate Secretary and senior management. Continuing education of Board members includes internal meetings with senior

executives and operational or functional heads, dedicated briefings, on specific areas of responsibility within the business and special presentations on current issue or regulatory initiatives with respect to

Data Privacy, Cyber Risk, and Cyber Security, the Anti- Money Laundering and Terrorist Financing Prevention Program, Foreign Account Tax Compliance Act, Securities Regulations Code, SEC memorandum circulars, and Bangko Sentral regulations, among others. The Bank brings technical, subject matter experts as needed. Other in-bank courses are on anti- money laundering, business continuity management, conflict of interest, risk management overview, and information security awareness. Board members also regularly attend governance conferences, and summits.

### **Remuneration**

Our remuneration decisions for the Board and management are aligned with risk incentives and support sustainable, long-term value creation. Apart from ensuring that Board and management pay appropriately reflects industry conditions and financial performance, the Bank likewise rebalances returns back to shareholders through dividend declaration.

The shareholders approve the level of remuneration and/or benefits for directors sufficient to attract and retain directors and compensate them for their time commitments and responsibilities in their role.

Our Personnel and Compensation Committee (PerCom) recommends to the Board the fees and other compensation for directors, ensuring that compensation fairly remunerates directors for work required in a company of Banko's size and scope. As provided by our Amended By-Laws and pursuant to approval by the stockholders, each director is entitled to receive fees and other compensation for his services as director.

Board members receive per diems for each occasion of attendance at meetings of the Board or of a board committee. All fixed or variable remuneration paid to directors may be given as approved by stockholders during the Annual Stockholders Meeting, upon recommendation of the PerCom. Other than the usual per diem arrangement for Board and Committee meetings and the aforementioned compensation of Directors, there is no standard arrangement as regards compensation of directors, directly or indirectly, for any other service provided by the directors for the last completed fiscal year.

Board members with executive responsibilities within the BPI group are compensated as fulltime officers of the company, not as Executive Directors or Non-Executive Directors. No director participates in discussions of the remuneration scheme for himself or herself. The remuneration policy is reviewed annually to ensure that it remains competitive and consistent with the Bank's high-performance culture, objectives, and long-term outlook, risk assessment and strategies.

The Board, through the PerCom, annually approves the remuneration payable to the President and Senior Management who have the authority and responsibility for the Bank's overall direction and strategy execution. The PerCom monitors and assesses how the remuneration was implemented each year and ensures that it corresponds to the remuneration policy.

### **Code of Business Conduct and Ethics**

Banko's core values encapsulate what we believe in and what we stand for. All Directors and Employees are expected to observe the highest standards of accountability, performance, punctuality, honesty, integrity, courtesy, and teamwork, and thus contribute to the achievement of the Bank's goals of customer satisfaction, excellence and profitability.

### **Whistleblower Policy**

The Whistleblower Program is the Bank's mechanism for preventing and detecting fraud or misconduct and enabling fast and coordinated incident responses and avenues for establishing cause, remedial actions, and damage control procedures.

Under the Policy, it is the responsibility of all personnel, including the Board, Officers and employees, to comply with the rules and regulations of the Bank and to report violations or suspected violations in accordance with the Whistleblower Policy. Any person who knowingly aids, abets, or conceals or otherwise deliberately permits the commission of any irregular or fraudulent act directed against the Bank shall be considered guilty as the principal perpetrators of fraud or irregularity. Hence, all personnel, including the Board, Officers and employees, have a duty to cooperate with investigations initiated under the policy.

## Anti-Bribery and Anti-Corruption Policy

The Bank puts the highest premium on sound, responsible and effective corporate governance and does not tolerate bribery, corruption or improper acts of any kind in all business dealings. As such, it has enabled and equipped the Bank's officers and Employees, with the requisite policies, programs and guidance through its Code of Business Conduct and Ethics and Standards on Conflict of Interest to combat risks in corruption and bribery.

## Remuneration Structure and Policies

Remuneration for the President and Senior Management is set in the same way as for all officers, employees and staff, being contractually fixed, based on the role, the skills and experience of the individual, and reviewed annually with reference to relevant market benchmarks. Remuneration for Senior Management, as reflected in the ratio between fixed and variable components of their total compensation, changes according to performance, rank and function.

- The PerCom ensures that Senior Management remuneration and incentives reflect prudent risk-taking and effective control.
- Salary reviews (covering fixed and variable compensation) are done annually to ensure market competitiveness of the senior officer's total remuneration. The Bank also participates in Executive and Total Remuneration Surveys to benchmark on its market positioning.

The remuneration of the Head of Risk Management and Head of Compliance Department are reviewed and endorsed by the Risk Management Committee and Audit Committee respectively and subsequently approved by the Board. The performance of control functions, (Audit, Compliance and Risk) are assessed independently from the business units they support to prevent any conflicts of interest.

These principles of paying competitively and paying for performance applies equally to our Board, Senior Management, Officers and staff. Senior management and staff remuneration must reflect the interest of the shareholder and the Company and is structured to encourage the long-term commitment of the employee as well as the long-term outlook and plans of the Company.

In 2025, the level of remuneration for the most senior executive officers of the bank is as follows:

NAME AND PRINCIPAL POSITION	SALARY	BONUS	OTHER ANNUAL COMPENSATION
Rodolfo K. Mabiase, Jr. President			
Mykel D. Abad Senior Vice President			
Ma. Cynthia Leticia S. De Jesus Vice President	PHP 48.69M	PHP 19.98M	None
Anne A. Delos Reyes Vice President			
Arthem Edward C. Flor Vice President			
Maria Angelica G. Florentino Vice President			

The above compensation consists of the basic salary and other compensation income (guaranteed bonus, fixed allowances and performance-based bonus) and does not include benefits under the Company's Executive Stock Purchase Plan.

Unless otherwise stated, the Company has no other arrangement with regard to the remuneration of its existing officers aside from the compensation received herein.

## Retirement Policy

The best interests of BanKo are served by retention of directors that make very meaningful contributions to the Board and the organization, regardless of age. It is the Bank's strong view that with age often comes unmatched wisdom and experience, expert business judgement, invaluable industry and community relations and authority, and deeply ingrained appreciation of the principles of corporate governance. The Bank believes that imposing uniform and fixed limit on director tenure is counter-productive as it may force the arbitrary retirement of valuable directors.

Retirement of senior management is done with the requisite succession planning and in accordance with the Bank's policies and implementing guidelines of its retirement plan for all employees, the Bank's Amended By-Laws, Labor Code and the Corporation Code of the Philippines. Currently, the retirement age for employees of the Bank is set at 60 years of age.

Notwithstanding the Term Limits for Independent Directors, the Bank believes that imposing uniform and fixed limits on director tenure is counterproductive as it may force the arbitrary retirement of valuable directors.

It is the Bank's strong view that with age often comes unmatched wisdom and experience, expert business judgment, invaluable industry and community relations and authority, and that the best interest of the Bank are served by its being able to retain directors that make very meaningful contributions to the Board and the organization regardless of age.

The Bank, therefore, will set the **retirement age for Directors at eighty (80) years of age** but which the Board may opt to waive depending on the outcome of the following conditions:

- i. Consistent and robust application of more dynamic and constructive corporate governance practices such as the annual Board of Directors' performance evaluation, regular succession planning and an exhaustive nomination process/annual fit and proper assessment for more effective board refreshment.
- ii. The Board shall also evaluate all facts and circumstances when considering a director's tenure in accordance with good governance practices, including (without limitation) to accommodate the transition of a new President or new directors of to provide continuity to further strategic objectives or address external factors affecting the Bank.

Directors do not receive any retirement benefits. The Executive Director is eligible for regular retirement benefits given to employees of the Bank.

Retirement of Officers is done with the requisite succession planning and in accordance with the Bank's policies and implementing guidelines of its retirement plan for all employees, the Bank's Amended By-Laws, Labor Code and the Corporate Code of the Philippines.

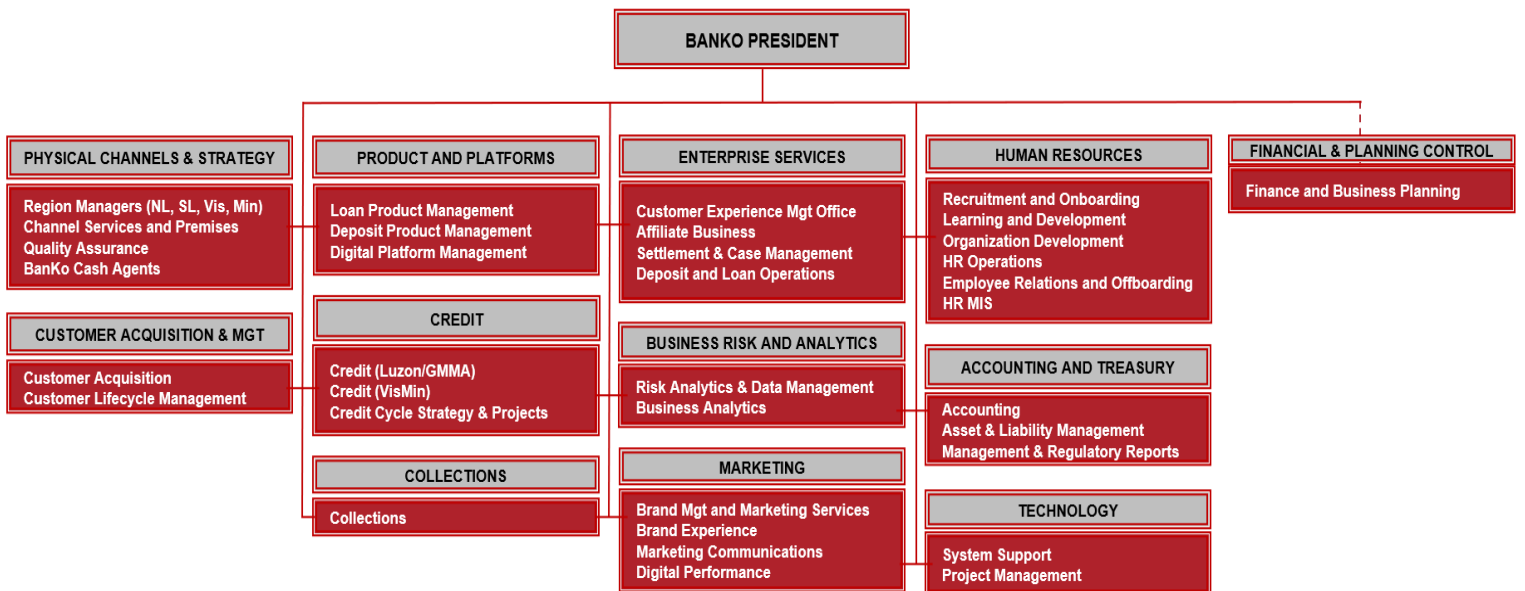

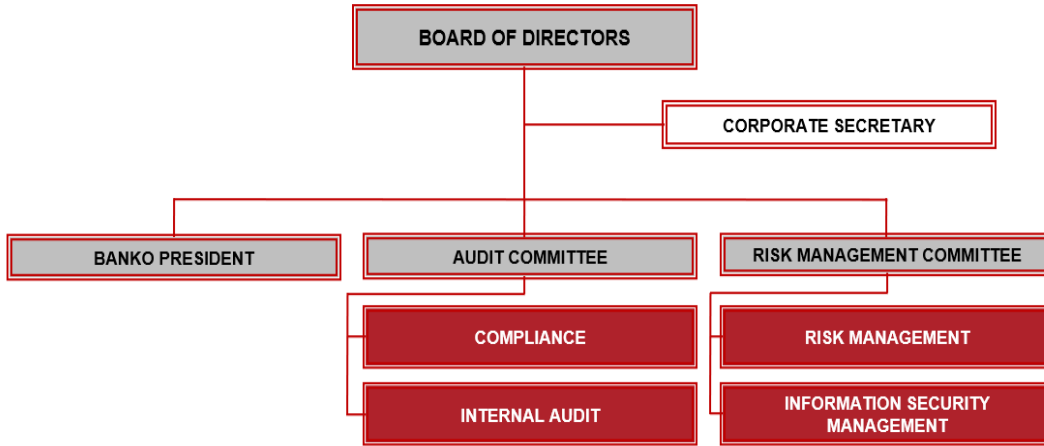

## Related Party Transactions

As part of the Bank's effort to ensure that transactions with related parties are normal banking activities and are done at arm's length, vetting is done either by the BanKo Management Vetting Committee, the Board-level Corporate Governance Committee or the BPI Related Party Transactions Committee, depending on materiality, prior to implementation.

# OPERATING MANAGEMENT

The following is an overview of the Bank’s principal activities and its functional organization. (as of December 31, 2025):

## TABLE OF ORGANIZATION

# INTERNAL AUDIT AND CONTROL

BPI Internal Audit is an independent body that supports the Audit Committee in fulfilling its oversight responsibilities by providing an objective assessment of BPI Banko's risk management, internal controls, and governance process, and evaluation of compliance with internal policies and procedures, and regulatory requirements through well-established risk-based audit plans. Internal Audit has a board-approved charter that sets forth its independence, authority, and duties and responsibilities, and is headed by the Chief Audit Executive (CAE), who reports directly to the Board through the Audit Committee.

The annual audit work plan, developed using the audit risk assessment model, is dynamic and approved by the BPI Banko Audit Committee. Internal Audit follows the Committee of Sponsoring Organizations of the Treadway Commission (COSO) internal control framework and the Control Objectives for Information and Related Technology (COBIT) framework in its assessment of the effectiveness of the internal control system. Results of the audit are communicated to the Audit Committee on a bi-monthly basis. The Committee, in the discharge of its responsibilities, reviews the audit reports prepared by Internal Audit, and ensures that significant matters are discussed, and senior management is taking the necessary corrective actions to address weaknesses and non-compliance with policies, laws, and regulations.

Internal Audit has an established Quality Assurance and Improvement Program (QAIP) that ensures its continued conformance with Institute of Internal Auditors' (IIAs) International Standards for the Professional Practice of Internal Auditing, and Code of Ethics. The program includes annual internal self-assessment conducted by IA's QAIU Team, and external assessment every 5 years conducted by a qualified independent assessor. IA has consistently maintained a rating of "generally conforms" on both internal and external assessments, indicating continuous adherence to professional standards and ethical benchmark.

# RISK MANAGEMENT

## Comprehensive Framework

BanKo, under the centralized Enterprise Risk Management (ERM) of BPI, adopts best practices in Enterprise Risk Management (ERM). Our established ERM and capital management framework enables us to systematically identify, measure, monitor, and control our significant financial and non-financial risk exposures while ensuring adequate liquidity and sufficient capital to support growth and business resilience.

The framework covers traditional risks such as credit, market and liquidity, and operational and information technology (IT) risk, as well as other risks, including reputational, conduct, model, legal and tax, and environmental and social risks. It is anchored on the regulatory guidance set by the BSP, which emphasizes effective risk management governance, robust business continuity and operational resilience standards, financial viability, and soundness. These principles are reinforced through internal capital adequacy assessments and the adoption of various risk management processes and methodologies that are regularly reviewed and updated.

### Cultivating a Risk-Aware Culture

Our risk culture is anchored on our vision of transparency, and integrity in the workplace, sustainable value creation, and delivering maximum returns to stakeholders. To fulfill our responsibilities to clients, employees, stakeholders, regulators, and the country, we exercise proactive and prudent risk management. The Bank actively promotes a culture of ethical behavior and risk management best practices, emphasizing that risk management is a shared responsibility that is integral in our day-to-day operations.

### Integrated Approach

BPI employs a top-down approach to risk management, with the Board driving risk appetite setting and overall risk strategy. The Board fulfills its risk management responsibilities through the Risk Management Committee. The RMCCom defines risk appetite statements oversees and reviews risk management structures, metrics, limits, and emerging issues in BanKo.

The RMCCom guides our risk strategy framework by emphasizing:

- Sound risk management governance
- Value-enhancing and business-enabling risk methods and process
- Risk-intelligent data and technologies.

It ensures oversight on risk exposures, monitors regulatory and internal capital adequacy, and fosters a strong risk culture in BanKo. Operating on the “Three Lines of Defense model, we manage risks through clearly delineated functions to ensure effective risk management governance and control processes across the Bank. This model defines the risk management responsibilities of each unit owning and managing the risk (1st line), overseeing the risk management function (2nd line), or providing independent assurance on the quality and effectiveness of risk management and controls (3rd line).

Management-level Committees are also established to further strengthen the Bank's risk management by aligning strategies with organizational goals and enhancing decision-making in specific business areas. Through transparent reporting, these committees cultivate a risk-aware culture, improve operational resilience, enhance crisis preparedness, and ensure strategic alignment.

### Chief Risk Officer (CRO)

The CRO of the BPI Group provides direct oversight to the Company Risk Officer of the Bank. The Company Risk Officer reports directly to the RCom and is responsible in leading the formulation of risk management policies and methodologies, aligned with the Bank's overall business strategies, ensuring a prudent and rational approach to risk-taking that is commensurate with returns on capital, and within our risk appetite. Our risk appetite represents a carefully measured level of risk we are willing to assume to achieve business objectives. Risk appetite statements are regularly reviewed and approved by the Board.

The Company Risk Officer is supported by the Risk Management Office, a team of skilled risk managers dedicated to identifying, measuring, controlling, and monitoring the bank's exposures. Through continuous training and development programs, including risk awareness campaigns, our risk managers stay informed about industry developments, emerging risks, and risk management best practices. The Company Risk Officer and the RMO actively engage the RCom, Management, and business units to effectively communicate our risk culture and best practices.

We identify risks according to three major classifications:

- Credit Risk (including concentration)
- Market (including foreign exchange, interest rate, and equity price risks) and Liquidity Risks
- Operational and Information Technology Risks

Credit Risk refers to the risk of default on obligations that may arise if a borrower or counterparty fails to make required payments such as principal and/or interest on an agreed date. Market risk is due to price movements/fluctuations in trading and distribution activities of credit securities, foreign exchange, and derivative instruments (as allowed by regulation). Liquidity risk is from the management of our cash flows and balance sheet. Operational and IT risks from inadequate or failed internal processes, people, information technology and systems, and threats from external events that pose risks of financial losses and damage to our reputation. We are likewise cognizant of other risks (e.g., environmental, social, legal and tax risks, etc.) that we may be exposed to in our day-to-day business activities and operations. In managing our financial and non-financial risks, we have established risk management processes and controls, and use various methodologies, metrics, tools, and systems to identify, measure, monitor and control our risk exposures.

In compliance with BSP Circular 989 (Conduct of Stress Testing Exercises), the RMO and the Corporate Strategy, Investor Relations, and Sustainability group have employed a formal integrated risk and capital stress testing framework, with a forward-looking assessment of risks under given stressed scenarios identified or developed by our experts. Among others, these stress testing scenarios include the impact of possible economic crisis through stressed macroeconomic variables forecasts, impacts of climate and environmental risk, and reputational risks to the Bank's portfolio. These scenarios are carefully considered to assess the financial and capital impact and to facilitate the development of the Bank's capital contingency and recovery plans.

Independent reviews are regularly conducted by our internal audit, external auditors, and regulatory examiners to verify the effectiveness of controls and risk mitigation measures. We also engage various risk management experts to independently assess our risk maturity across key areas, including business continuity, cyber and information security, and ERM.

All these efforts have been undertaken and conscientiously practiced in recognition of BSP Circular 971 (Risk Governance) and are benchmarked to the Committee of Sponsoring Organization's (COSO) ERM integrated framework. Our commitment to a robust risk management system has proven indispensable, ensuring the continued delivery of value to our stakeholders, especially during periods of unprecedented uncertainties and economic downturns.

**Credit Risk.** The Bank's Credit Risk Management Unit, supported by BPI's Credit Policy and Risk Management (CPRM) Division, is responsible for the overall management of the Bank's credit risks. The Credit Risk Management Unit is accountable to the RMCom in risk managing BPI's loan book and overall asset quality, in line with its set credit risk appetite. Additionally, the unit supports Senior Management in ensuring the overall quality of our loan and investment portfolios by adopting proper risk control strategies and proactive monitoring and reporting. The BPI's CPRM conducts independent credit reviews of business portfolios, credit products and its processes, to ensure compliance with our prudent credit evaluation, underwriting standards, and rating parameters.

In 2025, we continue to experience steady growth in loan volumes while effectively managing our overall credit risk profile and maintaining asset quality. This is evidenced by acceptable levels of non-performing loans (NPLs), which are generally on par along with adequate reserves cover. We manage credit risk of our lending programs, establishing that risks remain well within our risk appetite while actively mitigating the risks linked to our loan products and business strategies. We ensure compliance with internal and prudential requirements related to credit risk management, including adherence to Related Party Transaction (RPT) guidelines, single borrower's limits, credit risk concentration requirements, and both internal and regulatory stress tests, among others. We maintain a diversified loan portfolio with no significant concentrations, and our top borrower exposures remain within the established internal and regulatory single borrower's limits.

We regularly review the appropriateness of the classification and impairment rates of defaulted or impaired accounts.

We adopt credit risk scorecards to assess borrowers' credit worthiness. Both financial and non-financial variables were considered in the scorecard development process, and all scorecards were subjected to expert judgment meetings with key business lending units. The models undergo independent validation as well as regular monitoring for predictive power and performance.

We fully implemented Philippine Financial Reporting Standards 9 (PFRS 9) - based policies, models, and ECL methodologies for all our credit and investment portfolios, rendering them compliant to both the BSP and PFRS. Loss provisioning is based on ECL, which is a function of the Probability of Default, Loss Given Default, and Exposure at Default. Any additional reserves are provided as a qualitative management overlay, based on forward-looking moderate and/or adverse stress scenarios simulated by the Bank.

We also regularly subject the portfolios to credit reviews, through the BPI credit review team, to assess that the credit processes – loan origination, credit analyses, approval, implementation and administration - conforms to the standards set in the bank's internal policies and complies with regulatory requirements. For the year, a review of credit portfolios revealed generally acceptable credit performance and overall portfolio quality.

We measure our credit risk exposures in terms of regulatory capital requirements using the standardized approach in line with Basel III and BSP standards on minimum capital requirements. Using this approach, our credit exposures to sovereigns, corporates, and banks are risk-weighted to reflect the credit assessment from reputable credit ratings agencies (Moody's, Standard & Poor's, Fitch, and PhilRatings, where applicable). This approach also allows for the use of eligible collaterals (cash, financial instruments, and guarantees) to mitigate credit risks.

We are committed to integrating environmental and social standards into our lending activities and credit risk management principles. We continuously enhance our credit policies, processes, guidelines, and lending programs to conform with sound credit risk management, including practices that conform to the Bank's sustainability agenda not only to manage environmental and social risks, but also to pursue opportunities that would add and/or enable value for the Bank's various stakeholders by positively impacting the environment and society. Existing credit manuals are regularly revisited and updated to reflect new developments and are aligned with the Bank's financial inclusion programs and business sustainability practices.

We regularly conduct stress tests on our loan portfolio to determine the impact of changes in various macroeconomic and/or industry scenarios, surface any undue credit concentration risk, and to comply with regulatory reporting. Assessment of stress testing impact to the Bank's financials is also performed simultaneously. In the most recent exercise, results showed that the Bank's Capital Adequacy Ratio (CAR) and Common Equity Tier 1 Ratio (CET1) generally remain above or at about the minimum regulatory capital requirements, even with assumed write-downs on the Bank's large exposures and consumer portfolios, and even with the economic scenario analyses of rising interest and inflation rates and Peso depreciation affecting the Bank's borrowers.

All these efforts have been undertaken in recognition of BSP Circulars on Sound Credit Risk Management Practices, Sustainable Finance Framework, Environmental and Social Risk Management Framework Prudential Framework for Large Exposures Monitoring Threshold, Implementing Rules and Regulations of the Mandatory Agriculture, Fisheries and Rural Development Financing, and other related regulatory standards and guidelines.

### **Market, Interest Rate Risk in the Banking Book (IRRBB), and Liquidity Risks**

RMO exercises its market, IRRBB and liquidity risk management duties and responsibilities through the BanKo RMO and BPI Market, IRRBB, and Liquidity Risk Management (MLRM) Division. The Division employs various risk metrics commensurate to the size and sophistication of the Bank's business operations which guide us to effectively manage risks. Our risk exposures are continuously monitored against approved risk limits which are regularly reviewed and updated to align with our business objectives, strategies, and overall risk appetite. We also conduct forward-looking scenario analyses, risk simulations, and stress tests to complement our risk metrics to provide a broader and holistic risk perspective to the RCom and Management.

The treasury operation of the Bank is straightforward. We do not engage in active trading and therefore do not maintain a trading portfolio. Instead, we rigorously oversee risk exposures on non-trading portfolios. Assets are marked-to-market, and subsequent gains and losses are acknowledged through profit or loss. Market risk exposures from these portfolios are assessed using the historical simulation Value-at-Risk model, supplemented by various risk metrics such as Stop Loss and dollar duration (DV01).

IRRBB is the current and prospective risk to our capital and earnings arising from adverse movements in interest rates that affect its banking book positions. Since excessive levels of interest rate risks in the banking book can pose a significant threat to the Bank's earnings and capital base, we have established adequate risk management policies and procedures, appropriate risk measurement models, risk limit structures, and a robust risk management system to manage our IRRBB.

Interest rate exposures from banking book activities are measured through (a) Earnings-at-Risk (EaR), or the potential deterioration in net interest income over the short- to medium- term horizon (i.e., those occurring in the next one to three years) due to adverse movements in interest rates, and (b) Balance Sheet Value-at-Risk (BSVaR), or the impact on the economic value of future cash flows in the banking book due to changes in interest rates. The EaR is calculated using the parametric approach based on the volatility of the daily year-on-year rate movements for the short- to medium- term horizon (i.e., one to three years) at a 99% confidence level. The BSVaR, on the other hand, is measured using the historical simulation approach based on the daily year-on-year rate movements in the historical window at a 99% confidence level. BSVaR considers both principal and interest payments while EaR considers principal payments only. Both metrics are built on the repricing profile of the balance sheet and utilize certain behavioral/historical patterns such as for deposit accounts which do not have specific maturity dates (i.e., current and/or savings accounts) and accounts that are subject to embedded optionality (i.e., time deposit and fixed-rate loan repayment). IRRBB levels are against RMC approved limits and regularly reported to the RMC and Senior Management.

We always ensure adequate levels of liquidity, and that contingency and recovery plans are in place in the event of liquidity stress. Our liquidity profile is measured and monitored through our internal metrics - the Minimum Cumulative Liquidity Gap (MCLG) and Intraday Liquidity Buffer Ratio (ILBR), and the regulatory metrics - Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR). The MCLG measures the smallest net cumulative cash inflow (if positively gapped) or the largest net cumulative cash outflow (if negatively gapped) over the next three months. This indicates the biggest funding requirement in the short term and the degree of liquidity risk present in the current cash flow profile of the Bank. In view of further improving our ability to identify and measure potential intraday liquidity risks, we enhanced our intraday liquidity risk monitoring tool, the ILR, in 2024, aligning it with the components utilized in regulatory reporting frameworks.

The LCR determines the short-term resilience of our liquidity risk profile, requiring financial institutions to hold adequate levels of high-quality liquid assets to cover net cash outflows in the next 30 days. We maintain adequate levels of liquidity to provide a sufficient buffer for critical liquidity situations. The Bank monitors and reports potential mismatches that could impact the LCR. The NSFR complements the LCR by limiting the overreliance on short-term wholesale funding and promoting enhanced assessment of funding risk across all on-and off-balance sheet accounts.

We supplemented our static ALM risk monitoring with a dynamic balance sheet for our liquidity and IRRBB metrics by considering future business plans and projections, enabling a more comprehensive understanding of our immediate and potential future risk exposures. We also perform regular stress

testing activities to determine our ability to withstand and evaluate the impact of financial crises and other types of stress events. We conduct price stress tests in both trading and banking books using a variety of interest rate shock scenarios to identify the impact of adverse movements in interest rates on our economic value, earnings and noninterest income. The design of the trading and banking book stress tests includes various interest rate shock scenarios such as steepening and flattening yield curves, parallel up/down and short rate up/down, forward-looking and other notable historical stressed events that have occurred in the financial industry. The interest rate shocks applied are calibrated for all significant currencies in which we have significant positions. We conduct liquidity stress tests using different risk events, scenario types, and stress horizons to assess our liquidity position and determine potential liquidity shortfalls under stress events. Scenario analysis and simulations are performed to provide forward-looking liquidity conditions and anticipate potential liquidity and funding requirements. The results of the stress tests are presented to the Board and Management as part of our overall risk management process. All these initiatives are undertaken to ensure that the relevant market, IRRBB, and liquidity risks are identified and controlled.

We have in place escalation procedures in handling potential and/or actual limit breaches in our market, IRRBB and liquidity risk metrics, enabling timely identification and reporting of risks and the formulation of appropriate action plans and strategies to prudently manage such risks and contain them at acceptable levels.

The risk management process, including its various components, is subject to regular monitoring and periodic independent review (i.e., internal/regulatory audit and model validation), and regularly updated to ensure accuracy, propriety, and timeliness of data and assumptions employed.

### **Liquidity Risk**

Liquidity risk is the risk that the Bank will be unable to meet its payment obligations associated with its financial liabilities when they fall due, and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

The Bank's liquidity profile is observed and monitored through its metric, the Minimum Cumulative Liquidity Gap (MCLG). The MCLG is the smallest net cumulative cash inflow (if positive) or the largest net cumulative cash outflow (if negative) over the next three (3) months. The MCLG indicates the biggest funding requirement in the short term and the degree of liquidity risk present in the current cash flow profile of the Bank. A red flag is immediately raised and reported to management and the RMC when the MCLG level projected over the next 3 months is about to breach the RMC-prescribed MCLG limit.

### **Liquidity Risk Management Process**

The liquidity management process, as carried out within the BPI Group and monitored by the RMC includes:

- day-to-day funding is managed by monitoring future cash flows to ensure that requirements can be met. This includes replenishment of funds as they mature or as borrowed by customers,
- maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring liquidity gaps and ratios against internal and regulatory requirements;
- managing the concentration and profile of debt maturities; and
- performing periodic liquidity stress testing on the BPI Group's liquidity position by assuming a faster rate of withdrawals in its deposit base.

Monitoring and reporting take the form of cash flow measurement and projections for the next day, week and month as these are key periods for liquidity management. The starting point for these projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets. Sources of liquidity are regularly reviewed to maintain a wide diversification by currency, geography, counterparty, product and term as applicable.

### **Liquidity Coverage Ratio (LCR)**

Pursuant to BSP Circular No. 905 issued in 2016, the Bank is required to hold and maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that are sufficient to meet its estimated total cash outflows over a 30 calendar-day period of liquidity stress. The LCR is the ratio of HQLAs to total net cash outflows which should be no lower than 100% on a daily basis. It is designed to promote short-term resilience of the Bank's liquidity risk profile to withstand significant liquidity shocks that may last over 30

calendar days. HQLA represents the Bank's stock of liquid assets that qualify for inclusion in the LCR which consists mainly of cash, regulatory reserves and unencumbered high-quality liquid securities. HQLAs therefore, serve as defense against potential stress events.

The main drivers of the Bank's LCR comprise the changes in the total stock of HQLA as well as changes in net cash outflows related to deposits, unsecured borrowings, and commitment facilities, if any. The bank is not actively trading and thus has no trading portfolio. The Bank's business is primarily lending, and funds are sourced through deposit-taking activity and capital from the stockholders. There are no significant changes in the Banks' business model that would cause significant concern in maintaining the Bank's liquidity profile. The Bank's liquidity profile is determined by the Bank's ability to grow and maintain the deposit level within the plan to fund the growing loan portfolio. The Bank's average liquidity coverage ratio in 2025 is 122.40% (LCR /4 quarters).

The Bank has no exposure to derivatives and interest rate swaps. As such, there are no other inflows and outflows from derivatives. Other items considered relevant for the Bank's liquidity profile such as other contractual obligations are captured as other cash outflows in the LCR calculation.

Period	Average Liquidity Coverage Ratio
1st quarter	117.50%
2nd quarter	119.49%
3rd quarter	120.65%
4th quarter	131.98%
2025	122.40%

The Bank manages its liquidity position through asset-liability management activities. A centralized approach to funding and liquidity management enhances the Bank's ability to monitor liquidity requirements, maximizes access to funding sources, minimizes borrowing costs, and facilitates timely responses to liquidity events.

#### Net Stable Funding Ratio (NSFR)

On January 1, 2019, the Bank adopted BSP Circular No. 1007 issued in 2018 regarding the NSFR requirement. The NSFR is aimed at strengthening the Bank's long-term resilience by maintaining stable funding in relation to its assets and off-balance sheet items as well as to limit the maturity transformation risk of the Bank. The NSFR is expressed as the ratio of available stable funding and the required stable funding and complements the LCR as it takes a longer view of the Bank's liquidity risk profile. The Bank's capital and retail deposits are considered as stable funding sources whereas the Bank's assets including, but not limited to, performing and non-performing loans and receivables, HQLA and non-HQLA securities as well as off-balance sheet items form part of the required stable funding. The Bank's NSFR is well-above the regulatory minimum of 100%.

The Bank maintains a well-diversified funding base and has a substantial amount of core deposits, thereby avoiding undue concentrations by counterparty, maturity, and currency. The Bank manages its liquidity position through asset-liability management activities supported by a well-developed funds management practice as well as a sound risk management system. As part of risk oversight, the Bank monitors its liquidity risk on a daily basis, in terms of single currency and significant currencies, to ensure it is operating within the risk appetite set by the BOD and to assess ongoing compliance with the minimum requirement of the liquidity ratios. Furthermore, the Bank has a set of policies and escalation procedures in place that govern its day-to-day risk monitoring and reporting processes.

The table below shows the actual liquidity metrics of the Bank as of December 31:

	2025	2024
Liquidity coverage ratio	131.02%	114.78%
Net stable funding ratio	143.85%	123.42%
Leverage ratio	14.29%	13.63%
Total exposure measure	66,251,305,370	52,800,142,894

The increase in the LCR was driven by deposit growth outpacing the loan growth during the year. Cash, reserves, and due from BSP make up 100% (2024 - 100%) of the total stock of HQLA for the year ended December 31, 2025. Correspondingly, the NSFR also showed improvement from the prior year.

## Operational and Information Technology Risks

The Bank's Operational Risk Management Unit monitors risks arising from inadequate or failed internal processes, people, and systems or from external threats and events such as cybercrime that led to financial losses, pandemic, natural disasters that damage physical assets, or electronic or telecommunication failures that disrupt our operations. Operational risk is inherent in all banking products and services and may include risks that give rise to adverse legal, tax, regulatory, or reputational consequences. Information Technology (IT) is a significant risk factor subsumed under operational risk, given the highly automated nature of our processes and services. We define IT risk as the risk of any potential adverse outcome arising from the use of or reliance on IT (i.e., computer hardware, software, devices, systems, applications, and networks). IT risk includes, but is not limited to, information security, service availability, reliability and availability of IT operations, completion on specification of IT development projects, and regulatory compliance pursuant to the BSP's guidelines on Information Technology Risk Management.

The Unit Risk Coordinator (URC) is central to the execution of the Bank's risk management program. We have BROs collaborating with and overseeing key functional areas and business units throughout the organization. They are responsible for fostering a strong risk management culture, applying ERM best practices, and ensuring the timely submission of operational and other risk reports generated by the first line of defense.

We have an established operational risk management framework that clearly defines the responsibilities related to the performance of the risk management function, as well as the accountabilities, processes, and tools employed to identify and mitigate operational and IT risks in our operating units.

Subject to regular monitoring and reporting, these tools include Key Risk Indicators (KRIs), Loss Events, Incident Management, Risk & Control Self-Assessment (RCSA), Risk Assessment for Business Activity (RABAct), and Outsourcing and Materiality Risk Assessment (OMRA). KRIs are used to monitor risk profiles, trigger early-warning alerts, and prompt mitigating actions. Operational loss events data collection and analysis provide meaningful information to assess the Bank's exposure to risks and the effectiveness of its controls. Operating units are required to conduct regular self-assessments to identify, assess, and mitigate risks in the processes that they perform, including the assessment of inherent and residual risks, identification of controls, and the assessment of the design and performance effectiveness of these controls. RABAct and OMRA are conducted to provide information on the anticipated risks prior to the implementation of new or changes to existing business activities (e.g., product development and service offerings, process changes/ enhancements) and outsourcing engagements, respectively. These risk assessments are aimed at safeguarding both the Bank and our clients from the risks of economic loss, operational disruption, third-party failures and damage, or the compromise of personal or financial data.

To support our aggregation and reporting process, we have established risk categories and implemented a risk and control library that offers a consistent taxonomy of risks and controls. Regular training on the various ORM tools and processes is conducted, and bulletins/ advisories are shared with stakeholders to enhance the Bank's risk awareness and appreciation programs.

In our push for digitalization, we have started deploying the ORM System (ORMS) that seamlessly integrates various tools and processes such as Loss Events, Metrics/KRIs, Incident Management, Exception Approvals, Findings, Risk and Control Self-Assessment (RCSA), and Risk Aggregation. Likewise, a Third-Party Risk Management System (TPRMS) was implemented to cover risk assessments such as the Vendor Information Security Management Assessment (VISMA) and Outsourcing Materiality & Risk Assessment (OMRA).

The ORMS and TPRMS enable the correlation of all tools, offering improved visibility to Management and empowering them to make data-driven decisions.

To support the Bank's Environmental, Social, and Governance (ESG) initiatives, BPI has integrated E&S risks into our tools which include BanKo. The risk library was expanded to tag operational risk titles with potential E&S-related risks. Operational loss events monitoring captures actual occurrences of E&S risks that have resulted in, or have the potential to result in, a financial or regulatory impact. In collaboration with our ESRM unit, we are consistently working to establish key metrics that provide the RMCom and Mancom with visibility into E&S risks. Localized sustainability initiatives in the workplace (e.g., lights off on lunch break) were implemented. Continuous support in the Group-wide sustainability programs (e.g., recyclables drive) is also observed.

Our exposure to operational risks is identified, assessed, and monitored as an integral part of the risk assessment processes. We are currently using the Basel II regulatory Basic Indicator Approach to quantify operational risk weighted assets, using the historical total annual gross income as the main measure of risk.

We regularly perform operational risk stress tests through scenario analysis to support the internal capital assessment for operational and IT risks, as part of our initiatives to advance risk management methodologies. Through a series of stress scenarios, we can identify, analyze, and assess the impact of unexpected and extreme operational risk events. This exercise ensures that high impact, low frequency events are captured during risk assessment, especially those not yet reflected in our existing historical loss data.

Our Board-level RMCom is regularly apprised of operational and IT risks through comprehensive reporting and discussions during quarterly meetings. They are also regularly updated on the latest cybercrime trends, emerging risks, industry on the latest cybercrime trends, emerging risks, industry developments, and the Bank's implemented migration measures.

### **Business Continuity Risk**

The Bank maintains strong business continuity capability and operational resilience through a mature Business Continuity Program (BCM) program aligned with ISO 22301, BSP Circular 951 (Business Continuity Management), and the Good Practice Guidelines for global standards. The BCM Program is supported by key components, including the Business Impact Analysis (BIA) which identifies and prioritizes critical products, services, and processes; recovery planning, which outlines strategies to restore operations within defined timeframes; and response structures, which ensure continuity essential services during disruptions. Complementing these is the Risk Assessment for Business Continuity (RABCon), which evaluates probable threats and their potential impact, and the Business Recovery Plan (BRP), which provides structured actions for the restoration of facilities, technology, people, and third-party services.

Through continuous assessment, exercises, and improvements, the Bank strengthens its preparedness and ensures uninterrupted delivery of critical financial services under severe but plausible scenarios.

The Business Continuity Management is centralized in BPI covering BanKo. The resilience framework is established, and functional areas have been designated to achieve business continuity objectives. Each functional area has a designated Functional Business Continuity Coordinator who manages localized operational disruptions, with guidance from Incident Management Teams and the Corporate BCM Unit. When situations escalate, the Crisis Resiliency Committee (CRC), central in BPI Parent, composed of senior executives, assumes command to ensure effective crisis leadership.

To strengthen crisis communication, the Bank implemented an Automated Call Tree System that enables rapid, organization-wide notification and timely dissemination of critical updates. The BPI-BCM team has set up alternate command centers in Metro Manila and key provincial locations, providing additional workspace for recovery operations. Designated evacuation sites are equipped with essential supplies to support employees during natural calamities.

The Bank's hybrid work model ensures that employees have secure remote access and digital tools that support flexible, diversified continuity arrangements. Through ongoing digital transformation, BCM processes, including recovery plans, documentation, and internal campaigns have been fully digitized using the Bank's workflow management platform. This shift enhances efficiency, streamlines coordination, and ensures teams can respond quickly and effectively to any disruption.

Following the issuance of BSP Circular 1203 (Guidelines on Operational Resilience), the Bank affirms the implementation of its operational resilience by leveraging on established resiliency programs and governance frameworks.

These include: (i) a comprehensive Business Continuity Management and Crisis Resiliency Program to ensure continuity of critical operations; (ii) an Information- and Cyber-security framework; (iii) a strong Information Technology Risk Management program; and (iv) a sound Vendor/Third Party Risk Management framework. Collectively, these programs are designed to meet regulatory expectations and to sustain the Bank's ability to operate within the defined impact tolerances under severe but plausible conditions.

## Information and Physical Security Risks

As we continue to enhance customer experience, respond to the growing demand for digital financial services, and promote financial inclusion, the protection of customers and stakeholder data remains a top priority. Safeguarding information is essential to maintaining the trust and confidence that underpin our long-term relationships and the integrity of our institution.

Our information security management system integrates people, processes, and technology to ensure the confidentiality, integrity, and availability of our information assets. It is anchored on a robust framework of continuous risk identification, assessment, treatment, and monitoring. Our information security and data privacy programs comply with relevant laws and regulations governing data protection, customer rights, cyber security, and risk management, and are aligned with recognized global standards. In support of our sustainability objectives, these programs are designed to optimize resource utilization, manage costs, and maximize risk mitigation impact.

In response to an evolving and increasingly complex cyber threat landscape, we continue to strengthen our security infrastructure and implement advanced technical controls to safeguard our physical and digital environments. Our comprehensive security posture encompasses preventive, detective, and recovery mechanisms that enable proactive threat management and timely incident response. To ensure the continued relevance and effectiveness of these controls, we subject them to regular internal reviews and independent third-party assessments. Our incident response and business continuity plans undergo routine reviews and simulation tests to validate their effectiveness and enhance organizational preparedness for potential cyber incidents or service disruptions.

Recognizing the importance of supply chain security, we maintain a comprehensive third-party and vendor risk management program. This program includes a rigorous due diligence and onboarding process for service providers and IT suppliers, complemented by ongoing performance monitoring, to ensure compliance with information security and data privacy requirements. To ensure efficiency and consistency, we are investing in the automation and streamlining of these third-party risk management processes.

To address the increasing risks of online banking fraud, we have intensified our customer-focused security awareness campaigns. Delivered through traditional and social media platforms, digital channels, and direct customer communications, these initiatives aim to empower customers to protect their personal information and remain vigilant against increasingly sophisticated fraud schemes. In parallel, a robust fraud management system utilizing transaction profiling enables the early identification of potentially fraudulent activities, helping to mitigate risk exposure to our clients.

Internally, we foster a strong culture of security through continuous and timely employee awareness programs designed to promote accountability and drive behavioral change. These initiatives provide regular education on emerging cyber threats and social engineering techniques reinforcing the critical role employees play in safeguarding information assets. We extend similar awareness efforts to service provider personnel to ensure alignment with our security expectations. Regular social engineering simulations are conducted to assess susceptibility, with insights used to deliver targeted training and strengthen our overall security posture.

Through these efforts, we reaffirm our commitment to protecting information assets, preserving customer trust, and enabling the secure and responsible delivery of innovative financial services.

BPI's Enterprise Support Services (ESS), formerly known as Facilities Services and Management (FSM) Group, takes a leading role in ensuring a secure, safe, and well-maintained environment across BPI the BPI Group including BanKo clients and personnel. Tasked with responsibilities in construction, maintenance, procurement of supplies and services, management of corporate leases, dealing with government units and regulatory agencies, overall Contact Center operations, process optimization, and system administration, ESS employs a proactive and integrated approach encompassing people, infrastructure, and security. This strategy addresses the increasingly sophisticated needs of BPI sites. In harmony with our sustainability agenda, ESS is proactive in implementing initiatives to address the impact of climate change. These measures include embracing initiatives focused on renewable energy, such as electric vehicles and other projects. ESS also reduces its footprint where it can, as seen with its pursuit of Excellence in Design for Greater Efficiencies (EDGE) certifications. ESS also automates workflows, standardizes operations, and ensures secure access and data integrity across enterprise systems.

It supports product initiatives, manages system performance and reporting, and oversees projects and system enhancements aligned with governance standards. Finally, ESS strengthens these by using digital tools to enhance project execution and procurement efficiency, ensuring that every branch and office provides a reliable and client-focused environment.

### **Legal and Tax Risk**

The Bank outsourced the legal services to BPI. BPI has two specialized legal services divisions composed of highly trained legal professionals with experience in banking, corporate law and litigation that serve as BPI Group's main legal resource. These divisions play critical roles that enable us to carry out our operations while minimizing legal issues and risks.

The BPI Corporate Legal Affairs Division (CLAD) composed of the Documentation, Legal Risk and Advisory, Tax Compliance, Tax Advisory and Tax Risk Management units provide proactive guidance and support to effectively manage the Bank's legal and tax risks. The Documentation and Legal Advisory units ensure that the Bank's rights and obligations are protected in its contractual relations, and that the Bank is abreast of legal developments and requirements, respectively. It also conducts legal risk assessments of potential claims against the Bank and recommends legal risk mitigation measures. It further empowers the Bank units by issuing legal and tax advisory bulletins, providing supporting training seminars that highlight legal and tax issues, new laws, and regulatory fiats that impact the Bank's products and services, and promote awareness initiatives of various regulatory agencies.

The BPI Corporate Legal Affairs provide legal direction and support, working closely with Management, Risk and Compliance Offices, and the various business segments in monitoring, interpreting, and implementing laws, government regulations, and pandemic related issuances.

The Dispute Resolution Division (DRD) plays a significant role in protecting our rights and interests and in avoiding losses when the Bank is involved in disputes or cases filed by the Bank against clients and third parties or filed by clients and third parties against the Bank before regulatory entities, quasi-judicial bodies, and judicial cases in all levels of the judicial proceedings as well as from trial courts to the Supreme Court. The division handles cases that involve large enterprise loans, retail loans, and trade financing. They specialize in criminal cases, cybercrime cases, and administrative cases (including BSP and SEC cases) filed on behalf of or against the Bank. They likewise handle defensive cases filed by any party against the Bank for any reason and play a significant role in the Bank's AML Compliance and the Labor Relations Compliance.

### **Reputational Risk**

The Bank defines reputational risk as the risk of potential negative public perception or uncontrollable events and developments that would have an adverse impact on the Bank's brand and reputation that can affect the Bank's ability to maintain existing business relationships or establish new business relationships and continued access to sources of funding.

We regard the Bank's reputation as a very valuable asset, since a negative reputation can harm client and investor trust, erode the client base, and hinder sales. Poor reputation also correlates with increased costs for hiring and retention that can degrade operating margins and prevent higher returns. Furthermore, reputational damage increases liquidity risk which impacts stock price and ultimately causes market capitalization to decline.

We have an established Reputational Risk Management framework that provides consistent standards for the identification, assessment, and management of reputational risk issues. While all our employees have a responsibility to protect our reputation, which forms part of our Code of Business Conduct and Ethics, the primary responsibility for managing and reporting reputational risk matters lies with our business and operating units as the first line of defense. The Public Affairs and Communications unit, on the other hand, is the risk and control owner of reputational risk, promoting awareness and application of our policies and standards regarding reputational risk and encouraging business units to take account of our reputation in all decision-making activities, as well as dealings with clients, suppliers, co-employees, and all other stakeholders.

Our policies ensure that reputational risk matters are managed in a consistent manner and aligned with our strategic priorities. We have established risk indicators for reputational risks that are regularly monitored and reported. These include events and developments related to products and services, channels, financial performance, human resources, brand equity, customers' awareness and loyalty that are further amplified through traditional and social media coverage.

**Model Risk.** The BPI parent covering BanKo maintains an active and robust model risk management system and well-articulated model review standards and methodologies. The RMCom establishes and ensures a strong model risk management structure that fits into the broader risk management culture

and processes of the BPI organization, while the CRO is delegated with the responsibility to review and endorse all model risk reports to the RMCom, and model owners are responsible in managing the model risk of their respective models from initiation to retirement.

The BPI Risk Models Validation (RMV) Department is the Bank's model risk manager, owner of the model governance framework and model inventory, and is responsible for conducting the independent model validation activities.

The framework encompasses key governance and control mechanisms such as Board and Senior Management oversight, policies and procedures, controls and compliance, and organizational structure; with controls carried out all stages of the model lifecycle. To ensure relevance, comprehensiveness, and usability across various functional risk areas, a semi-annual inventory of the Bank's models is conducted. These models are subject to independent validation generally prior to implementation, and revalidation as appropriate.

Given the increased regulatory expectations on model risk management, independent validation, and the Bank's focus on data-driven analytics and decision-making. RMV continuously tests the quality and robustness of our risk models. In 2025, RMV engaged a third-party consultant to conduct a maturity assessment of the current state of the Bank's model risk management benchmarked against global standards and leading industry practice to further enhance their framework and methodology. Overall, the Bank achieved a maturity rating of "Advanced" with noted strengths in Model Development, Model Approval, Model Validation, and Documentation.

In response to the Bank's commitment to data-driven analytics and decision-making, RMV continuously update and utilize automation tools on recurring models undergoing annual validation, develop applications to provide our stakeholders accessibility to real-time model information, consider the impact of stress and macroeconomic scenarios on the latest modeling methodologies employed, and ensures that proper emphasis is placed on models supporting financial inclusion and sustainability initiatives.

### **Environmental and Social Risks**

Despite contributing less than 1% to global CO<sub>2</sub> emissions<sup>1</sup>, the Philippines faces high exposure and vulnerability to the impacts of climate change and natural disasters, emerging as one of the most-at-risk country in the world in 2025<sup>2</sup>. Situated in the Pacific Risk of Fire, the proactive management of challenges arising from climate change and evolving social landscapes is crucial for the Philippines as it pursues advanced economic development. The Bank is cognizant of these challenges and has been a sustainability advocate with our commitment to integrate sustainability into our business and operational activities.

We recognize the presence of environmental and social (E&S) risks inherent in our core operations and daily activities. To safeguard the best interests of our stakeholders, we commit to a risk management strategy centered on creating long-term stakeholder value and promoting shared value for a sustainable future.

Under the Enterprise Risk Management framework and guided by BSP Circulars 1085 and 1128, we established the Bank's general policy on environmental and social risk management system (ESRMS), which integrates environmental and social (E&S) risk management in our risk governance structure and promotes the updating and establishment of policies, processes, methods, and tools that integrate E&S risk management in our main business activities and decision-making processes. It is designed to support the two sustainability pillars of Responsible Banking and Responsible Operations and is critical in achieving our strategic sustainability objectives and targets. We define E&S risks as potential negative financial, legal, and reputational effects from E&S issues affecting our key business activities<sup>3</sup>.

- Environmental risks can be categorized as physical or transition. Physical risk is the potential loss or damage to tangible assets arising from climate change, weather-related disturbances, and other environmental hazards. These can either be acute events, which are event-driven risks that have an immediate adverse impact, or chronic events which are shifts in climate patterns that are long-term in nature<sup>4</sup>. Transition risk is the potential economic adjustment cost resulting from policy, legal, technology, and market changes to meet climate change mitigation and adaptation requirements.

- Social risks are potential negative social impacts including, amongst others, hazards to human health, safety and security, and threats to communities, biodiversity, and cultural heritage.

We recognize that E&S risks can influence and/or aggravate the Bank's existing traditional financial and non-financial risks such as credit, operational, and reputational risks.

<sup>1</sup>Global Carbon Budget (2025) – with major processing by Our World in Data [https:// ourworldindata.org/grapher/annual-co2 emissions-per-country](https://ourworldindata.org/grapher/annual-co2-emissions-per-country)

<sup>2</sup>World Risk Report 2025 [https:// weltrisikobericht.de/worldriskreport/](https://weltrisikobericht.de/worldriskreport/)

<sup>3</sup>E&S risks definitions based on BSP Circular 1085

<sup>4</sup>Recommendations of the Taskforce on Climate-related Financial Disclosures (TCFD)

RISK CATEGORY	EXAMPLES OF ENVIRONMENTAL RISK DRIVERS	
	PHYSICAL RISK	TRANSITION RISK
<b>Credit</b>	Deterioration in the repayment capacity of borrowers due to reduced or limited operations, profitability or value of collateral, and returns on transactions caused by climatic shifts or extreme weather events	Failure to consider the shifting regulatory and policy landscape in credit quality assessment (e.g., carbon taxes on emissions, total outright ban in activities driving E&S risk events, shift in consumer preferences, etc.) resulting to a deterioration in loan portfolio and asset quality
<b>Market</b>	Reduced value and marketability of our assets due to physical impacts	Shift in demand and preferences of clients and other stakeholders for the Bank's products and services
<b>Operational</b>	Business interruptions due to extreme weather events and its resulting damage to physical assets	Increased operating costs and higher capital expenditures to ensure resilience and carbon reduction measures
<b>Reputational</b>	Negative public reaction due to perceived inadequate support for clients and communities affected by extreme weather (and other environmental) events  Negative public reaction due to perceived increase in exposure to environmental hazards	Damage to our brand, reputation, and social capital due to potential perceptions of our inadequate support to transition to a low-carbon economy

Our approach to managing E&S risks will evolve as we progress in our risk assessment methodologies and capabilities, strengthening both our qualitative and quantitative analyses. Implementation of new or enhanced policies and processes will support these activities, ensuring alignment with relevant laws and regulations such as BSP Circulars 1085, 1128, and 1149, as well as local and relevant global best practices. All these efforts are aimed at only meeting regulatory expectations but also adding value for our various stakeholders by positively impacting the environment and society.

In BanKo, the E&S considerations are integrated into our lending activities and daily operations to ensure alignment with our sustainability strategy and principles in the delivery of products and services, as well as the stability of our operations.

BanKo is the "microfinance arm" of the Bank of the Philippine Islands (BPI) Group, contributing to the Sustainability Development provision of decent work and economic growth among Filipinos. We provide an affordable source of additional capital for the micro-businesses of borrowers, spurring growth and increasing their number of employees. The business strategies and targets are focused on serving the C2D segments of self-employed microentrepreneurs (SEMEs) and salaried individuals and have no credit exposures/transactions to corporations under industries or sectors with material E&S risks. The large majority of the SEMEs is under Wholesale and Retail Trade industry (i.e. market vendors, sari-sari store owners, retailers). In general, the sector and its activities pose low risk to E&S. Please see the breakdown of industries as of December 31, 2025, below:

73.78%	Wholesale and Retails Trade (i.e. market vendor, sari-sari store owner, retailers)
9.25%	Accommodation and Food Service Activities (i.e. carinderia)
6.84%	Manufacturing (i.e. souvenir items)
5.15%	Agriculture, Forestry and Fishing & Other Service Activities
4.74%	Others
100%	Total

In addition, to address risk and foster E&S responsible business decisions, the following are initiatives of the Bank:

1. The Bank's risk appetite for Environmental and Social Risk which was updated in October 2025 specifically states: "The Bank has a low credit risk appetite for industries or sectors with material E&S risks which the Bank has sustainability goals."
2. The Bank requires all employees to attend the training on sustainability to ensure an adequate understanding of the E&S risks.
3. BanKo offers simple products and services focusing on the C2D market segment.
4. The Bank holds caravans and financial literacy programs.

### **Capital Adequacy**

The Bank's Financial Management Department together with Risk Management Office and in coordination with BPI parent Corporate Strategy and Planning Division oversees the management of the Bank's capital adequacy. Capital adequacy ratio, or CAR, is a measure of the Bank's total qualifying capital relative to its risk-weighted assets and indicates the ability of its capital funds to cover various business risks.

These divisions also ensures compliance with regulatory capital adequacy requirements, as well as internal capital thresholds, referred to as the Bank's internal minimum Common Equity Tier 1 (CET1) ratio, or IMCET1, and the CET1 management action trigger, or CET1MAT, which incorporate the Bank's internal capital buffers and limit triggers, and capture risks beyond Pillar 1 (credit, market, and operational).

Furthermore, these divisions are responsible for assessing and raising the strategic capital needs of the Bank, as well as initiating approvals for dividend payments to shareholders.

### **Dividend Policy**

BanKo may declare dividends subject to the discretion of the Board. However, the SEC may direct BanKo to declare dividends when its retained earnings is in excess of 100% of its paid-in capital stock, except:

- When justified by definite corporate expansion projects or programs approved by the Board.
- When BanKo is prohibited under any loan agreement with any financial institution or creditor, whether local or foreign, from declaring dividends without its consent, and such consent has not been secured.
- When it can be clearly shown that such retention is necessary under special circumstances obtaining, such as when there is a need for a special reserve for probable contingencies.

For 2025, BanKo did not declare dividends.

### **Sound Capital Management**

Effective capital management supports the Bank's assets and absorbs losses that may arise from credit, market and liquidity, operational and IT, and other risk exposures. The Bank's capital management framework ensures that there are always sufficient capital buffers to support the risk profiles of the various businesses of the Bank, as well as changes in the regulatory and accounting standards and other future events.

BanKo conducts a thorough internal capital adequacy assessment process (ICAAP) and submits the document to the BPI parent company for consolidation. This consolidated submission is then provided annually to the Bangko Sentral ng Pilipinas in compliance with the Pillar 2 guidelines of the Basel framework.

As of December 31, 2025, BanKo CAR stood at 18.04%, higher than the minimum regulatory of 10%.

The table below shows the Bank's CAR components for 2025 and 2024:

	Regulatory Capital	
	2025	2024
Credit Risk	40,142	35,426
Market Risk	32	72
Operational Risk	14,579	10,052
<b>Total</b>	<b>54,752</b>	<b>45,550</b>

Capital Adequacy (Php Mn)	2025	2024

T2/Net Tier2 <sup>2/</sup>	408	360
<b>Total QC <sup>3/</sup></b>	<b>9,875</b>	<b>7,556</b>
Total CRWA <sup>4/</sup>	40,142	35,426
Total MRWA <sup>5/</sup>	32	72
Total ORWA <sup>6/</sup>	14,578	10,052
<b>TRWA <sup>7/</sup></b>	<b>54,752</b>	<b>45,550</b>

Ratios (%)	2025	2024
<b>CET1</b>	<b>17.29%</b>	<b>15.80 %</b>
<b>CAR</b>	<b>18.04</b>	<b>16.59 %</b>

<sup>1/</sup>Common Equity Tier 1 Capital/Net Tier 1

<sup>2/</sup>Tier 2 Capital/Net Tier 2

<sup>3/</sup>Qualifying Capital

<sup>4/</sup>Credit risk-weighted assets

<sup>5/</sup>Market risk-weighted assets

<sup>6/</sup>Operational risk-weighted assets

<sup>7/</sup>Total risk-weighted assets

The bank's types and level of risk it is willing to assume to achieve business objectives are conveyed through the risk appetite statements approved by the Risk Management Committee. This covers each important risk identified.

Risk Area	BanKo Risk Appetite Statements
1. Enterprise Risk	The Bank shall at all times, maintain adequate levels of capital above regulatory minimum to cover the Bank's aggregated and total financial and non-financial exposures (e.g., low risk appetite for non-compliance to minimum capital requirements)
2. Credit Risk (Portfolio Asset Quality)	The Bank shall maintain a moderate level of non-performing loans (NPLs), relative to the Philippine TB industry* and make certain that the amounts of loss reserves are sufficient to cover the NPL levels. *As of the latest available BSP published reports
3. Credit Risk (Regulatory Limits, Credit Counterparty Risk & Credit Concentration)	The Bank has low appetite for non-compliance to regulatory limits and ceilings on credit risk, including credit portfolio concentration risks. Most if not all credit risk limits outlined here are set via the regulatory or prudential limits set by the BSP, as non-compliance thereon shall subject the Bank to regulatory sanction/s.
4. Credit Risk (Portfolio Acquisition - Personal Loan)	The Bank shall ensure maintaining a moderate level of non-performing loans (NPLs) and make certain that the loss reserves amount is sufficient to cover the NPL on the acquired Personal Loan Portfolio. The Bank manages the risks on non-performing loans by closely monitoring the exposure and trends in the personal loan portfolio. Strictly implements outsourcing agreements related to processes and portfolio management.
5. Credit Risk (Test Program)	The Bank shall ensure to observe a moderate level of test programs running at any single time.
6. Credit Risk (Environmental and Social Risk)	The Bank has a low credit risk appetite for industries or sectors with material E&S risks which the Bank has sustainability goals.
7. Market Risk	The Bank has a low appetite for losses from the day-to-day trading activities, which are monitored against the Bank's profit-and-loss (P&L) and comprehensive income levels.
8. Liquidity Risk	The Bank aims to meet regulatory and internal requirements on liquidity in terms of the ability to meet current and prospective obligations when they come due without incurring unacceptable losses or costs. It has low appetite to non-compliance with regulatory and internal limits covering liquidity risks.
9. Interest Rate Risk	The bank has a low appetite for losses due to adverse movements in the interest rates as measured by the impact on the Bank's net interest income and the underlying value of assets, liabilities, and off-balance sheet instruments.
10. Model Risk	The Bank has a moderate appetite for financial losses due to the use of risk models that are working in progress.
11. Model Risk (Inventory Management)	The bank has no appetite for using unvalidated risk models.
12. Business Strategic Risk	The Bank has a low appetite for losses to earnings or capital, whether current or prospective, due to adverse business decisions, improper implementation of decisions, or lack of responsiveness to industry changes in business conditions.
13. Reputational Risk	The Bank has a very low appetite for reputational risk and takes immediate action to resolve clients' complaints, local and overseas regulatory concerns, and high-risk issues.
14. Conduct Risk	The Bank has zero tolerance for incidents involving improper business practices. The Bank nurtures a culture of high ethical and moral standards among employees where the tone is set at the top for conducting business with honesty, decency, fairness, and integrity
15. Operational Risk	The Bank strives to mitigate risks with annual aggregated operational risk losses not to exceed 1% of gross income per year. The Bank has zero tolerance for any loss incident of catastrophic proportions.

<b>A. Operational Risk (Run the Bank)</b>	The Bank aims to achieve 99.5% availability of critical customer-facing services. The Bank employs a pragmatic and flexible approach to enhance its ability to withstand, adapt to and recover from events, which could cause significant operational failures or wide-scale disruptions.
1. Business Process Execution Failures	The Bank has a low operational risk appetite for process failure high-risk internal audit issues.
2. Improper Business Practices	The Bank has zero appetite for incidents involving improper business practices. The Bank nurtures a culture of high ethical and moral standards among its employees where the tone is set at the top of conducting business with integrity and transparency.
3. Regulatory and Compliance	The Bank has low appetite for legal action against it with assessed unfavorable outcome. The Bank aims to maintain compliance with regulatory requirements and to address any breach within the time provisions of regulators.
4. Damage to Physical and Intangible Assets, Technology Failures and Damages	The Bank employs adequate tools and processes, to ensure its preparedness in handling and lessening the impact of disruptive events. The Bank pursues to have effective and tested business continuity plans, responding to cover mission-critical products / services and making these available within two (2) to four (4) hours.
5. Third Party Failures and Damages	The Bank has a low appetite for failure from providers of critical outsourced services and requires adequate measures to ensure continuous delivery of services.
6. Trade Counterparty Failures	The Bank has a low appetite for counterparty failures. The Bank exercises due diligence when dealing with counterparties and correspondent banks.
<b>B. Operational Risk (Secure the Bank)</b>	The Bank applies industry standards in securing our assets, including physical and financial assets, customer data, and other highly sensitive data and human resources.  The Bank strives to mitigate emerging risks with zero tolerance for data confidentiality and integrity breaches leading to financial loss, reports to regulators, and/or media reports.
1. Employment Practices and Workplace Safety	The Bank applies industry standards in securing our assets, including physical and financial assets, customer data and other highly sensitive data and human resources. The Bank strives to mitigate emerging risks with zero appetite for data confidentiality and integrity breaches leading to financial loss, reports to regulators and/or media reports.
2. Internal Theft and Fraud	The Bank aims to employ sufficient, suitably skilled, and experienced staff with clearly defined roles and responsibilities. The Bank has zero appetite for any fraudulent activity, and all potential conflicts of interest shall be avoided and disclosed.
3. External Theft and Fraud	The Bank invests in learning the latest fraud trends and works towards deploying security measures to minimize theft and fraud incidents in the Bank. The Bank strives to have zero occurrence of robberies and burglaries in any of the bank and branch premises
4. Financial Crime	The Bank has zero appetite for any misconduct of employees, clients, and third parties such as bribery and corruption or activities related to money laundering or terrorist financing. The Bank is committed to combating financial crime and ensuring that offered products and services are not misused for the purpose of money laundering, terrorism financing, and fraud events.
<b>C. Operational Risk (Build the Bank)</b>	The Bank will innovate by adopting and customizing new, market-tested technologies with the key objective of providing its customers with the best banking experience and with minimum security risks.
IT Project Failures	The Bank has a moderate appetite for IT project failures. The Bank uses established industry practices to deliver projects with minimal time, budget, and quality variances.

## RELATED PARTY TRANSACTIONS

In the normal course of business and under the overall purview of the Corporate Governance Committee (CGCom), BanKo transacts with related parties which include its directors, officers, stockholders and related interests, subsidiaries and affiliates (including those under the Ayala Group of Companies), as well as other related parties defined in the Bank's internal policy and aligned with regulatory standards and guidelines.

Controls are in place to ensure compliance with Related Party Transactions (RPT) processes, a basic element of which are RPT Guidelines published in the Bank's policy databases as further communicated through briefing sessions and regular advisories. Another control mechanism requires the RPTCom Secretariat to verify if there is prior vetting of RPT proposals submitted for Board-level approval and/or prior to implementation of the transaction. Moreover, post-verification of vetted RPTs is conducted by both Internal Audit and Compliance Office, results of which are reported to the CGCom. Review of RPTs is likewise part of the external audit assurance process.

RPTs are monitored through various reports, such as the regulatory and internal limits monitoring for related party (RP) exposures, reports on RPTs reviewed by the vetting committees, and regulatory reporting for material RPTs.

The Bank maintains a registry of related parties (RPs), which is regularly updated based on the results of RP analyses conducted by the business units as part of the Know-Your-Customer process. Likewise, regular updating is done following the (a) annual preparation of the BPI and Ayala Group's conglomerate map and (b) any Board composition changes effected during the Annual Stockholders' Meeting and/or intra-year Board changes. Updates are also sourced from other information gathered from internal bank units and reputable external sources. Updating of the RP database for the Bank's officers' data is regularly conducted in coordination with the Bank's Human Resource Management Group for proper identification and tagging in the system. The Bank's RP database is accessible to business units and serves as a tool in the RP identification process across the Group.

As in the past years, RPTs involve credit and non-credit transactions such as loan accommodation, asset purchases and sales, and other contractual agreements among others. Vetting is done either by the BPI Related Party Transactions Committee (RPTCom), BanKo CGCom, or the Management Vetting Committee (MVC) prior to implementation, depending on set materiality thresholds, to ensure that transactions with RPs are standard banking activities done at arm's length basis particularly on terms and conditions comparable to those offered to non-RPs or to similar transactions in the market. In line with this, the Bank continues to review and enhance its vetting process by defining standardized terms and/or parameters for select transactions applicable to both RPs and non-RPs alike, as approved by management and subjected to vetting by the BPI RPTCom or BanKo CGCom, thereby strengthening non-preferential treatment to its RPs. During the year, the RPT vetting requirement for certain transactions were reassessed, and corresponding proposals to streamline and simplify internal processes were recommended to and approved by the BanKo CGCom, aligned with existing internal RP policies and regulatory guidelines.

In 2025, both the RPTCom and CGCom had fully and consistently carried out the Committees' responsibilities in the evaluation of various RPT proposals and the monitoring and review of other RPT-related matters. Regular RPTCom meetings and scheduled CGCom meetings were held during the year, ensuring that business transactions with RPs are duly executed as needed with utmost independence, fairness, and integrity.

The RPTCom is composed of three independent and/or non-executive directors, majority of whom are independent including its chairperson, and two resource persons from Management (i.e., the Chief Audit Executive and the Chief Compliance Officer). The RPTCom Secretariat, which is part of the Risk Management Office, assists the Committee in carrying out its role and responsibilities as defined in the RPTCom Charter, particularly on strengthening corporate governance and RPT practices. The MVCom, on the other hand, is composed of the President, Head of the Physical Channels and Strategy, Head of Enterprise Services, Head of Credit and Head of Risk Management Office.

The Bank is committed to ensuring strict compliance with laws, regulations, and reporting requirements relating to DOSRI and RPTs by instituting rigorous vetting processes and establishing adequate controls and oversight mechanisms. Improvements in the RPT framework are continuously pursued with the aim of enhancing corporate governance measures including greater information awareness initiatives.

## SUPPLEMENTARY SCHEDULES ON CAPITAL AND RISK MANAGEMENT DISCLOSURES PURSUANT TO THE BANGKO SENTRAL'S MEMORANDUM M-2017-011

### Capital Structure

The Bank's qualifying capital for the years ended 2025 and 2024 were Php9.87 billion and Php 7.56 billion, respectively. The Bank's total qualifying capital for 2025 and 2024 was largely composed of CET1 capital and Tier1 at 95.95% and 95.24% respectively.

The table below shows the composition of the Bank's capital structure and total qualifying capital.

Capital Structure (Php Mn)	31-Dec-25			31-Dec-24		
	CET1/ Tier1	Tier 2	TOTAL	CET1/ Tier1	Tier 2	TOTAL

5/ Not covered by, and covered by credit risk mitigants, respectively

**Market risk-weighted assets.** In terms of capital usage using the Basel standardized approach, total market risk-weighted assets stood at Php 31.87 as of end 2025 which is attributable to foreign exposures.

The table below presents the breakdown of the Bank's market risk-weighted assets for **2025 and 2024**:

Market RWA (Php Mn)	2025	2024
<b>Using Standard Approach</b>		
Interest Rate Exposure	0	
Foreign Exposure	32	
Equity Exposure	0	72
<b>TOTAL MARKET RWA 0/</b>	<b>32</b>	<b>72</b>

0/ Risk-weighted assets

**Operational risk-weighted assets.** We currently use the Basel regulatory basic indicator approach to quantify operational risk-weighted assets, by using the historical total annual gross income as the main measure of risk. In **2025**, the Bank's total operational risk-weighted assets stood at Php14.58 billion.

The table below presents the breakdown of the Bank's operational risk-weighted assets for **2025 and 2024**:

Operational RWA (Php Mn)	2025	2024
Gross Income (a)	11,236	7,250
Capital Requirement 1/	1,685	1,087
Average capital requirement (b) 2/	1,166	804
Adjusted Capital Charge (c) 3/	1,458	1,005
<b>TOTAL OPERATIONAL RWA 4/</b>	<b>14,579</b>	<b>10,051</b>

0/ Risk-weighted assets

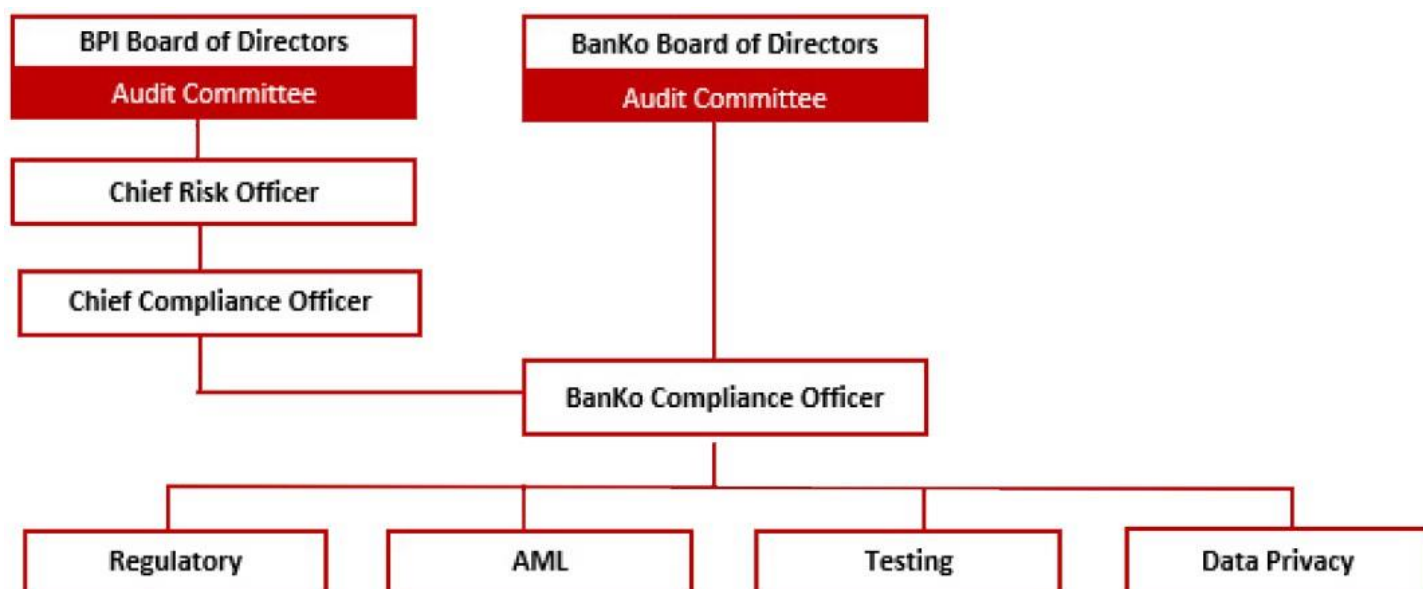

1/ (a) multiplied by 15 percent

2 / Average of 15 percent of (a) for the past(3) years

3 / (b) multiplied by 125 percent

4 / (c) multiplied by factor 10

# COMPLIANCE

## Regulatory Compliance

The Bank views compliance to mean not only adherence to laws, regulations, and standards but, more importantly, the consistent conduct of the affairs of the Bank within a culture of high integrity, bound by conformity to ethical business practice, abiding by the principles of fair dealing, accountability and transparency. This ensures that in all our areas of activity, the Bank and its stakeholders are protected from regulatory and business risks as comprehensively as possible.

Oversight of the management of the Bank's regulatory and business risks and implementation of its compliance function is the responsibility of our Board of Directors, through the Audit Committee. At the management level, the compliance function is carried out by the Compliance Office, led by our Compliance Officer.

The Bank applies a three-layered compliance testing and monitoring process while overall enforcement is through self-regulation within the business units:

- > Self-assessment testing conducted by the business units.
- > Independent testing, conducted by the Compliance Office
- > Independent periodic review conducted by the Internal Audit

Compliance testing results are regularly reported and elevated to the Audit Committee. Governance related issues are also reported to the Corporate Governance Committee.

## Anti-Money Laundering Compliance

The prevention of financial crimes is a top priority of BanKo, not only because they pose a significant threat to our reputation, but because they weaken the integrity of the global financial system. Hence, our Compliance Office extends its ambit beyond the Bank, its policies, and its employees to ensure that our clients also act within the law and do not use the Bank for illegal activities.

The Compliance Office's Anti-Money Laundering Department is responsible for monitoring customer and counterparty transactions in compliance with the Anti-Money Laundering Law, its implementing rules and regulations, and BSP Circular No. 706 and all other amendments thereto. The Bank's Money Laundering and Terrorist Financing Prevention Program (MTPP) aims to implement sound anti-money laundering practices and combat terrorist financing and other financial crimes.

## Data Privacy

BanKo has a strong Data Privacy Policy in place, which describes to whom the policy applies to, what personal data the Bank collects and how such data is collected, how the Bank may use personal data for core business and marketing purposes, how the Bank may disclose and share such personal data, how such personal data is stored and retained, and how such data can be accessed or corrected. The Data Privacy Policy is posted on the company website and complies with the requirements of the Data Privacy Act and the National Privacy Commission.

# FINANCIAL CONSUMER PROTECTION FRAMEWORK

BanKo is committed to empowering customers to make informed financial decisions, upholding their rights in all transactions, and providing clear and accessible channels for raising concerns. This commitment is embedded across the Bank's governance, policies, and operational processes.

Prior to introducing new or enhancing existing business activities, BanKo undertakes comprehensive assessments and approvals to ensure that risks to both customers and the Bank are properly identified and mitigated. The approval of business activities (including product development) is governed by the following approving bodies within the Bank:

- Board-Level: Risk Management Committee
- Management-Level: Product Approval Committee

Anchored on BanKo's Financial Consumer Protection Policy, the Bank upholds strict compliance with responsible advertising and disclosure standards, including those prescribed by the Bangko Sentral ng Pilipinas (BSP) and the Advertising Standards Council. These ensure that material information on product features, terms and conditions, and inherent risks are fully, clearly, and transparently disclosed to both existing and potential clients, reinforcing transparency and informed decision-making.

To further promote responsible financing, the Bank conducts thorough credit and financial assessments prior to granting any credit accommodation, helping safeguard customers from over-indebtedness and supporting their financial well-being.

BanKo continues to strengthen its approach to financial consumer protection through a structured framework focused on governance, risk management, and customer experience. The Financial Consumer Protection Assistance Mechanism (FCPAM), led by the Customer Experience Management Office (CXMO), institutionalizes guidelines that ensure the effective, consistent, and compliant handling of customer feedback across all channels

This framework is anchored on the following key initiatives:

INITIATIVE	DESCRIPTION
<b>Managing Financial Consumer Protection</b>	<ul style="list-style-type: none"> <li>• The policy provides a general framework on the financial consumer protection of the Bank emphasizing on the rights of consumers to equitable and fair treatment, disclosure and transparency of financial products and services, protection of consumer asset against fraud and misuse, data privacy and protection, and timely handling and redress of complaints.</li> <li>• All employees are required to take a mandatory Financial Consumer Protection Program training course annually.</li> </ul>
<b>Managing the BanKo Financial Consumer Protection Assistance Mechanism (FCPAM)</b>	<ul style="list-style-type: none"> <li>• First level recourse mechanism for financial consumers who are dissatisfied with a financial product or service of the Bank or its third-party agent or representative.</li> <li>• Institutionalized guidelines ensuring that feedback from existing and potential clients are handled appropriately.</li> <li>• Touchpoints and channels via phone, e-mail, website, social media accounts and branches whereby feedback, complaints, requests and inquiries are received.</li> <li>• Mechanism for elevating cases, as needed, including those referred to the Bank by the BSP, other regulators, and government agencies.</li> </ul>
<b>Performance Measures</b>	<ul style="list-style-type: none"> <li>• Periodic performance assessment against defined service quality goals.</li> <li>• Product, service, or process improvements to mitigate recurrences of each type of complaint and deepen customer engagement.</li> </ul>

The Board of Directors and Senior Management provide strong governance and oversight of the Bank's consumer protection framework and are responsible for the development, execution, and continuous improvement of its strategy.

Central to this is oversight of the Consumer Protection Risk Management System (CPRMS), which includes:

- Periodic assessment of framework effectiveness;
- Ensuring adequate resources to sustain the program;
- Timely resolution of identified risks and gaps.

The Board provides strategic direction by approving policies, overseeing implementation, and ensuring integration of consumer protection across the product and service lifecycle, while maintaining overall accountability.

Senior Management, in turn, executes these policies and oversees day-to-day consumer protection activities, including monitoring, reporting, escalation, and compliance with regulatory and internal audit requirements.

The CXMO, composed of Customer Care and Customer Engagement units, works collaboratively to safeguard customer interests and enhance the overall customer experience.

Customers are provided with multiple channels to share feedback, including the Contact Center (via phone, email, and social media), branches, and other service channels. Feedback is classified based on complexity, with defined turnaround times to ensure timely resolution.

Customer Assistance Officers (CAOs) are designated in every branch to support the implementation and monitoring of consumer protection initiatives, ensure policy adherence, and promote a customer-centric culture. Their capabilities are strengthened through regular training, complemented by ongoing awareness campaigns. In 2025, the enhanced Financial Consumer Protection training module delivered via BPI University achieved a 99.5% completion rate, reinforcing employee awareness and accountability. Consumer protection principles are also embedded in the Bank's Code of Conduct.

To further promote transparency and customer awareness, Banko regularly updates product information, advisories, and fraud prevention guidance across its website and social media platforms. Marketing materials are reviewed to ensure clear, accurate, and compliant disclosures.

Since the establishment of its Financial Consumer Protection Framework, Banko has maintained full compliance with applicable regulations, reinforcing customer trust and demonstrating its sustained commitment to protecting customer interests and delivering service excellence.

#### **STATISTICS OF CONCERNS RECEIVED**

Banko continues to demonstrate strong performance in complaint management. In 2025, the Bank achieved a 100% complaint resolution rate, consistent with prior-year results, with all reported complaints resolved by year-end. No confirmed incidents of regulatory non-compliance were recorded, reflecting the Bank's sustained commitment to financial consumer protection.

The Bank likewise maintained low complaint-to-concern and complaint-to-transaction ratios, underscoring the effectiveness of its customer protection measures and its continued focus on the timely and effective resolution of customer concerns.

Number of Concerns Received	44,081
Number of Complaints	2,510
% Of Complaints vs Concerns Received	5.69%
Number of Transactions	15,746,931
% Of Complaints vs Number of Transactions	0.016%
Complaints Resolved	100%

# SUSTAINABILITY FINANCE FRAMEWORK

## SUSTAINABILITY AGENDA

BanKo is an integral part of the BPI Group Sustainability Agenda which guides the integration of sustainability principles in the Bank's strategy, operations and risk management framework.

### ESG Policy Statement

We are committed to Responsible Banking, integrating Environmental, Social, and Governance (ESG) principles into how we conduct our business – how we manage resources, how we craft the products and services we offer, how we serve our customers, and how we add value to our various stakeholders.

As a bank responsible for a meaningful share of the country's loans and deposits, how we allocate resources will have a significant impact on how we grow as a nation. Our governance is focused on the allocation of resources in a manner that promotes financial inclusion, preservation of the environment, sustainability, and social good.

### Sustainability Strategy

BanKo aligned with BPI sustainability objectives that are embodied in the pillar of Responsible Banking and Responsible Operations, supporting our vision of building a better Philippines, one family, one community at a time.

### Pillar of the BPI's Sustainability Strategy

Responsible Banking – financial products and services that integrate ESG criteria in business decisions while supporting economic growth.

Responsible Operations – environmental and social capital efficiently for day-to-day operations.

Supporting these two pillars are Corporate Governance, Compliance and Risk Management, which serves as checks and balances on the implementation of the Sustainability Strategy, as well as compliance with local, national, and global standards and regulations.

### Sustainability Governance

BanKo aligned with BPI and expanded the role and coverage of the Corporate Governance Committee, to include oversight on sustainability matters. Ultimately, the Sustainability Agenda is governed by the Board, Corporate Governance and Risk Management. The CGCom oversees the overall integration of sustainability principles in the strategic direction of the bank while the RMCom is responsible for ensuring that the environmental and social (E&S) risk management is incorporated in the Bank's Risk Management Systems.

### Sustainability Business Summary

BanKo, with its products PondoKo and NegosyoKo Loan, is dedicated to achieving Sustainable Development Goal (SDG) UN 8: Decent Work and Economic Growth for all. Since its launch in 2016, Banko has been committed to responsible banking, incorporating Environmental, Social, and Governance (ESG) principles.

Its unique sustainability formula, ESG+E<sub>2</sub>, emphasizes the importance of achieving Economic Benefits (E<sub>2</sub>) alongside sustainability initiatives. BanKo's Sustainability Agenda guides its integration of sustainability principles into strategic objectives, corporate governance, and risk management frameworks. It serves the unbanked and underbanked, providing sustainable financial solutions for microbusinesses, farmers, fishermen, and individuals in the C and D sectors.

BanKo's flagship product, the NegosyoKo Loan, supports micro-entrepreneurs in expanding their businesses. Additionally, Banko embraces digitalization, offering the PondoKo Savings account through a mobile app for financial inclusion and convenient cash flow management.

Through our extensive network of 412 branches, BanKo actively reaches out to unbanked and underserved markets, promoting internationally recognized sustainability practices while advancing financial inclusion in support of the UN Sustainable Development Goal (SDG 8) of fostering decent work and economic growth.

One of the major initiatives this year was the onboarding of a digital disbursement program for corn growers through a strategic partnership with Bayer Philippines, Inc., for its Crop Science division, a leading organization in the Philippine agricultural sector committed to empowering Filipino farmers through inclusive and efficient financial solutions. Under this initiative, Bayer collaborated with BPI Banko, with support from the BPI Institutional Banking team, to improve the disbursement experience of its growers, who previously received payments via checks and had to wait six to eight days for encashment.

Through this collaboration, Bayer successfully transformed its growers' disbursement process from slow, check-based payments to fast and secure digital crediting. Funds are now deposited directly into growers' Banko accounts in as fast as two days, significantly improving liquidity, convenience, and access to formal banking services. This shift also reduces the need for growers to visit bank branches, enabling safer and more timely receipt of payments.

To support adoption, twenty-seven (27) financial inclusion caravans were conducted across key provinces, with more planned to expand access to digital financial services. As of December 2025, a total of 1,882 growers has opened Banko accounts and are now benefiting from secure, efficient, and convenient digital disbursement.

## OVERVIEW OF THE MAJOR STOCKHOLDERS

The following is an overview of the Bank's major stockholders, including nationality, percentage of stockholdings and voting status (as of December 31, 2025):

Shareholder	Nationality	No. of Shares		% of Shareholding
Bank of the Philippine Islands	Filipino	Common A	18,455,712	100%
		Common B	600,000	

# EXECUTIVE MANAGEMENT

## **Mykel D. Abad**

Senior Vice President  
Business Head, Physical Channels & Strategy

Filipino, 57 years old, is presently the Senior Vice President and Head of Physical Channels of Banko. He is responsible for overseeing the growth and stability of the Bank's branches and kiosks channels as well as its cash agency network.

Prior to his current role, Mr. Abad held senior management positions in UCPB, International Bank Exchange, Robinsons Savings Bank, and BPI, bringing extensive experience in physical channels and branch operations.

Mr. Abad earned his Bachelor of Science in Statistics from the University of the Philippines and a master's degree in applied business economics from the University of Asia and the Pacific. His professional development includes international trainings such as the Youth Marketing Seminar in Kuala Lumpur, Malaysia, and ICAAP Master Class and Asset Liability Management seminars in Singapore. He also completed the Executive Development Program of JG Summit, conducted by visiting professors from Harvard and INSEAD, and underwent extensive training in anti-money laundering, corporate governance, treasury operations, and risk management.

### LOANS

#### Consumer

Auto Loans – A secured term loan for purchase of a vehicle

Housing Loans - A term loan for purchase of a residential real estate property

#### Microfinance

NegosyoKo Loan - A micro-credit loan granted to the basic sectors, based on the borrower's cash flow.

InstaCashKo Line – A multi-purpose revolving credit line to aid SEME and salaried individuals financially and pay either in full or partial at every end of the following month. The revolving credit line can be used to pay bills via BanKo Mobile or simply convert credit to cash which is disbursed to the client's BanKo Deposit Account.

### ELECTRONIC CHANNELS

BanKo Mobile - BanKo Mobile app is a mobile platform for clients to open an account, apply for a loan, pay for a loan, send money via InstaPay.

# BRANCH DIRECTORY

A Branch refers to any permanent office other than the Head Office where the Bank may perform activities and provide products and services that are within the scope of its authority and relevant license.

Branch Lite Unit (BLU) refers to any permanent office or place of business of the Bank, other than its Head Office or a branch. It performs limited banking activities and records its transactions in the books of the Head Office or the branch to which it is annexed to.

Audited Financial Statement

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY  
FOR FINANCIAL STATEMENTS**

The management of **BPI Direct BanKo, Inc. A Savings Bank** (the "Bank") is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein, for the years ended December 31, 2025 and 2024, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Bank's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders.

**Isla Lipana & Co.**, the independent auditor appointed by the stockholders, has audited the financial statements of the Bank in accordance with Philippine Standards on Auditing, and in their report to the stockholders, has expressed their opinion on the fairness of presentation upon completion of such audit.

**Financial Statements**

**As at and for the years ended December 31, 2025 and 2024**

## Independent Auditor's Report

To the Board of Directors and Shareholder of  
**BPI Direct BanKo, Inc., A Savings Bank**  
220 Ortigas Avenue, BanKo Center  
North Greenhills, San Juan City  
Metro Manila

### Report on the Audits of Financial Statements

#### Our Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of BPI Direct BanKo, Inc., A Savings Bank (the "Bank") as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

#### What we have audited

The financial statements of the Bank comprise:

- the statements of condition as at December 31, 2025 and 2024;
- the statements of income for the years ended December 31, 2025 and 2024;
- the statements of total comprehensive income for the years ended December 31, 2025 and 2024;
- the statements of changes in capital funds for the years ended December 31, 2025 and 2024;
- the statements of cash flows for the years ended December 31, 2025 and 2024; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Isla Lipana & Co., 29th Floor, AIA Tower, 8767 Paseo de Roxas,  
1226 Makati City, Philippines

## **Basis for Opinion**

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Independence**

We are independent of the Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to our audits of the financial statements of public interest entities in the Philippines. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

## **Other Information**

Management is responsible for other information. The other information comprises the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

## **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Report on Other Legal and Regulatory Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Bangko Sentral ng Pilipinas (BSP) Circular No. 1074 in Note 24 and Bureau of Internal Revenue (BIR) Revenue Regulations No. 15-2010 in Note 25 to the financial statements is presented for the purposes of filing with the BSP and BIR, respectively, and is not a required part of the basic financial statements. Such supplementary information is the responsibility of management of the Bank. The supplementary information has been subjected to the auditing procedures applied in our audits of the basic financial statements, and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

## **BPI Direct BanKo, Inc., A Savings Bank**

Notes to the Financial Statements

As at and for the years ended December 31, 2025 and 2024

(In the notes, all amounts are shown in Philippine Peso unless otherwise stated)

### **1 General information**

#### **1.1 Business information**

BPI Direct BanKo, Inc., A Savings Bank (the “Bank”) was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on March 17, 1956 primarily to engage in and carry on the general business of savings and mortgage banking.

The Bank is a wholly-owned subsidiary of Bank of the Philippine Islands (“BPI” or the “Parent Bank”), a domestic commercial bank with an expanded banking license, which is also its ultimate parent.

The Bank’s registered office address, which is also its principal place of business, is 220 Ortigas Avenue, BanKo Center, North Greenhills San Juan City, Metro Manila, Philippines.

The Bank has 3,432 regular employees as at December 31, 2025 (2024 - 3,192) and operates 412 branches (2024 - 368) to support its delivery of services.

On December 17, 2025, the Board of Directors (BOD) of the Parent Bank authorized the Bank’s Management to pursue its plans to merge with Legazpi Savings Bank, Inc. (LSB), entity under common control, with the Bank as the surviving entity, subject to the consideration and approval of the respective Boards of Directors and shareholders.

#### *Subsequent event*

On January 22, 2026, the BOD of the Bank approved the merger with LSB, subject to shareholder and regulatory approvals. Based on the Plan for Merger, the Bank shall issue to the LSB shareholders such number of common shares that will result in LSB shareholders collectively owning approximately 18.11% of the Bank’s outstanding common stock as of the closing date.

The merger will be effective on the first day of the calendar quarter following the completion of the regulatory approvals which is expected to be on July 1, 2026.

#### **1.2 Approval of the Bank’s financial statements**

These financial statements have been approved and authorized for issuance by the Board of Directors (BOD) on March 25, 2026.

## 2 Cash and cash equivalents

The account as at December 31 consists of:

	Notes	2025	2024
Cash and other cash items		723,490,868	516,208,902
Due from other banks		4,421,528,859	1,936,170,819
Interbank loans receivable and securities purchased under agreement to resell (SPAR)	3	-	7,505,937,500
Due from Bangko Sentral ng Pilipinas (BSP)	4	14,683,294,701	889,753,251
		19,828,314,428	10,848,070,472

Due from other banks represent demand deposits that earn annual interest of 0.05% to 0.06% in 2025 and 2024. Interest earned from due from other banks for the year ended December 31, 2025 amounts to P2,558,767 (2024 - P2,531,271).

Cash and cash equivalents are classified as current as at December 31, 2025 and 2024.

## 3 Interbank loans receivable and SPAR

As at December 31, 2024, interbank and loans receivable consists of government securities under reverse repurchase agreement with the BSP amounting to P7,505,397,500 which matures within 90 days from the date of acquisition.

The Bank has no outstanding interbank loans receivables and SPAR as at December 31, 2025.

Interest rate on interbank loans receivable and SPAR in 2025 is 4.95% to 5.80% (2024 - 5.70% to 6.72%). For the year ended December 31, 2025, the total interest earned on interbank loans receivable and SPAR amounts to P106,914,959 (2024 - P186,371,639).

Interbank loans receivable and SPAR is classified as current.

## 4 Due from BSP

The account as at December 31 consists of:

	2025	2024
Special deposit accounts	14,250,000,000	-
Clearing accounts	433,294,701	889,753,251
	14,683,294,701	889,753,251

Special deposit accounts classified as cash equivalents are fixed-term demand Philippine Peso deposits maintained mainly for liquidity purposes with maturities of 7 days to 14 days and carry interest rates ranging from 4.00% to 5.90% (2024 - 5.25% to 6.62%)

Clearing accounts include temporary deposit accounts wherein funds flow from cleared checks are credited against or debited for and deposits maintained in compliance with the minimum reserve requirements of the BSP (Note 10).

For the year ended December 31, 2025, the total interest earned on due from BSP amounts to P374,018,113 (2024 - P426,052,444).

Due from BSP is classified as current as at December 31, 2025 and 2024.

## 5 Investment security at fair value through other comprehensive income (FVOCI)

The account consists of listed equity security which amounts to P7,282 as at December 31, 2025 (2024 - P7,772).

Movements in investment security at FVOCI for the years ended December 31 are as follows:

	2025	2024
At January 1	7,772	7,548
Fair value adjustment	(490)	224
At December 31	7,282	7,772

Investment security at FVOCI as at December 31, 2025 and 2024 is classified as current.

## 6 Loans and advances, net

The account as at December 31 consists of:

	2025	2024
Retail customers		
Personal loans	29,046,012,614	26,056,651,015
Manpower/Microfinance loans	16,743,633,422	14,525,928,658
Real estate mortgages	1,924,239,788	1,566,326,277
Auto loans	21,945,452	201,039
Corporate entities		
Large corporate customers	25,180,706	31,931,909
Small and medium enterprises	723,565	857,806
	47,761,735,547	42,181,896,704
Accrued interest receivable	2,051,834,456	1,494,897,493
Unearned discount	(37,220)	(49,837)
	49,813,532,783	43,676,744,360
Allowance for impairment	(5,680,066,834)	(3,784,102,552)
	44,133,465,949	39,892,641,808

There are no loans and advances at December 31, 2025 and 2024 used as security for liabilities.

Details of the Bank's loans and advances portfolio at December 31 as to collateral (amounts net of unearned discount and exclusive of accrued interest receivable) are as follows:

	2025	2024
Secured loans		
Real estate mortgage	1,924,239,788	1,566,326,277
Chattel mortgage	21,908,232	151,202
Large corporate customer	25,180,706	31,931,909
Small and medium enterprise	723,565	857,806
	1,972,052,291	1,599,267,194
Unsecured loans		
Personal loans	29,046,012,614	26,056,651,015
Manpower/Microfinance loans	16,743,633,422	14,525,928,658
	45,789,646,036	40,582,579,673
	47,761,698,327	42,181,846,867

The effective interest rate on loans and advances ranges from 5.88% to 65.28% for the year ended December 31, 2025 (2024 - 5.50% to 65.28%). Interest income from loans and advances amounts to P13,658,212,644 for the year ended December 31, 2025 (2024 - P10,516,643,966).

Maturity profile of loans and advances as at December 31 follows:

	2025	2024
Current (within 12 months)	20,751,960,897	16,378,422,574
Non-current (over 12 months)	29,061,571,886	27,298,321,786
	49,813,532,783	43,676,744,360

Movements in allowance for impairment for the years ended December 31 are as follows:

	Note	2025	2024
Balance, January 1		3,784,102,552	2,588,218,359
Provision for impairment	21.1.7	4,800,504,164	3,098,818,739
Write-offs		(2,904,008,495)	(1,901,345,583)
Transfers/other movements		(531,387)	(1,588,963)
Balance, December 31		5,680,066,834	3,784,102,552

In 2025, the Bank purchased personal loans portfolio of its Parent Bank at gross carrying amount of P21,461,670,536 (2024 - P20,697,512,981) which is presented as part of personal loans above (Note 19).

## 7 Bank premises, furniture, fixtures and equipment, net

The movements in the account for the years ended December 31 are summarized as follows:

	2025					
	Furniture, fixtures, and equipment	Leasehold rights and improvement	Computer equipment	Leasehold rights and improvements -in-progress	Buildings (Note 20)	Total
Cost						
January 1, 2025	598,189,383	920,044,992	64,389,240	1,241,217	1,286,711,490	2,870,576,322

Net book value, December 31, 2024	70,041,992	168,523,024	1,372,081	1,241,217	535,660,684	776,838,998

The Bank recognized right-of-use assets from the long-term leases of spaces for its main office and branches presented as part of Buildings above (Note 20).

In 2025, the Bank has retired its fully depreciated right-of-use assets that have reached the end of their lease term with a cost and accumulated amortization amounting to P547.78 million.

Depreciation and amortization is included in Occupancy and equipment-related expenses in the statement of income (Note 15).

Bank premises, furniture, fixtures and equipment are all non-current.

**Critical accounting estimate - Useful lives of bank premises, furniture, fixtures and equipment**

The Bank determines the estimated useful lives of its bank premises, furniture, fixtures and equipment based on the period over which the assets are expected to be available for use. The Bank annually reviews the estimated useful lives of bank premises, furniture, fixtures and equipment based on factors that include asset utilization, internal technical evaluation, technological changes, environmental and anticipated use of assets tempered by related industry benchmark information. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned. The Bank considers that it is impracticable to disclose with sufficient reliability the possible effects of sensitivities surrounding the carrying values of bank premises, furniture, fixtures and equipment.

**8 Deferred income tax assets, net**

Deferred income tax assets, net at December 31 consist of:

	2025	2024
Allowance for impairment	1,429,191,735	956,896,671
Amortization of past service cost	11,347,916	14,361,604
Others	(5,045,797)	9,091,919
	1,435,493,854	980,350,194

Others include deferred tax (liability) asset on pension asset/liability and expense accruals and provisions.

Movements in the net deferred income tax assets, net for the years ended December 31 are summarized below:

	Note	2025	2024
At January 1		980,350,194	687,752,072
Amounts credited to statement of income		457,920,581	293,833,766
Amounts charged to other comprehensive income	13	(2,776,921)	(1,235,644)
At December 31		1,435,493,854	980,350,194

The deferred tax expense in the statement of income for the years ended December 31 comprises the following temporary differences:

	2025	2024
Allowance for impairment	(472,295,064)	(301,959,926)
Others	14,374,483	8,126,160
	(457,920,581)	(293,833,766)

**Critical accounting judgement - Realization of deferred income tax assets**

Management reviews at each reporting date the carrying amounts of deferred tax assets. The carrying amount of deferred tax assets is reduced to the extent that the related tax assets cannot be utilized due to insufficient taxable profit against which the deferred tax losses will be applied. Management believes that sufficient taxable profit will be generated to allow all or part of the deferred income tax assets to be utilized. There are no unrecognized DIT assets as at December 31, 2025 and 2024.

**9 Other assets, net**

The account at December 31 consists of:

	Note	2025	2024
Prepaid expenses		235,482,687	251,991,103
Pension asset	18	65,068,298	35,278,355
Accounts receivable		44,869,423	42,319,372
Rental deposits		42,950,672	39,465,589
Accrued interest receivable		4,751,882	12,444
Computer software		6,987,962	5,295,103
Membership shares		2,500,000	2,500,000
Injunction bond		456,712	456,712
Miscellaneous		162,801,503	70,328,011
		565,869,139	447,646,689
Allowance for impairment		(35,892,973)	(41,254,923)
		529,976,166	406,391,766

Other assets are expected to be realized as follows:

	2025	2024
Current	491,312,879	404,573,231
Non-current	74,556,260	43,073,458
	565,869,139	447,646,689

Injunction bond mainly pertains to the revolving fund covering transactions with a payment partner and other online transactions.

Prepaid expenses mainly pertain to documentary stamp taxes and assessment fees paid to the Philippine Deposit Insurance Corporation (PDIC). This also includes final withholding tax on interest expense on time deposits not yet matured as at reporting period but are already remitted to the Bureau of Internal Revenue.

Accounts receivables mainly include employee cash advances, commissions and other receivables.

The amortization of computer software for the year ended December 31, 2025 amounts to P2,292,917 (2024 - P2,401,176) and is presented as part of Depreciation and amortization under Occupancy and equipment-related expenses in the statement of income (Note 15).

Miscellaneous assets include returned checks and float items which are expected to clear within seven days.

Allowance for impairment pertains to accounts receivables that are doubtful of collection.

The movements in the allowance for impairment as at December 31 are as follows:

	Note	2025	2024
At January 1		41,254,923	28,154,498
Provision for credit and impairment losses	21.1.7	2,503,264	13,100,935
Write-off		(7,865,214)	(510)
At December 31		35,892,973	41,254,923

## 10 Deposit liabilities

The account as at December 31 consists of:

	2025	2024
Demand	420,163,609	424,554,810
Savings	13,923,881,747	12,189,461,187
Time	37,118,301,116	27,043,198,564
	51,462,346,472	39,657,214,561

Deposit liabilities are expected to be settled as follows:

	2025	2024
Current	41,981,368,807	31,262,716,354
Non-current	9,480,977,665	8,394,498,207
	51,462,346,472	39,657,214,561

Related interest expense on deposit liabilities for the years ended December 31 is broken down as follows:

	2025	2024
Demand	397,694	582,951
Savings	87,111,385	59,101,406
Time	2,074,157,532	1,956,143,109
	2,161,666,611	2,015,827,466

In 2025 and 2024, the interest rate on savings and demand deposit ranges from 0.063% to 5.00% and interest rate on regular and special time deposit ranges from 0.25% to 6.08% (2024 - 0.25% to 6.75%).

### *BSP reserve requirement*

Under current and existing BSP regulations, the Bank should comply with a minimum reserve requirement. Further, it is required that all reserves must be set aside in deposits with the BSP.

In 2024, pursuant to BSP Circular 1201, reserve requirements for thrift banks was cut down from 2% to 1%. Effective March 28, 2025, under BSP Circular No. 1211, the reserve requirements for thrift banks has been set to nil.

The required reserve as reported to BSP as at December 31, 2024 amounts to P392,944,300, which is included in Due from BSP (Note 4). The Bank is in full compliance with the reserve requirement as at December 31, 2024.

## 11 Accrued taxes, interest and other expenses

The account as at December 31 consists of:

	2025	2024
Accrued interest on deposits	750,112,760	815,034,139
Accrued income tax and gross receipts tax payable	454,580,637	391,513,939
Accrued expenses	201,475,340	278,499,350
Accrued taxes and licenses	950,000	1,465,719
	1,407,118,737	1,486,513,147

Accrued income and gross receipts tax payable includes current income tax payable and gross receipts tax payable.

Accrued expenses mainly pertain to accruals for utilities and outsourced services. The above accrued expenses are all considered current.

## 12 Other liabilities

The account at December 31 consists of:

	Note	2025	2024
Accounts payable		2,244,669,576	2,804,627,646
Lease liabilities	20	498,036,553	558,720,304
Withholding taxes payable		46,605,020	44,977,859
Miscellaneous		79,172,864	159,065,392
		2,868,484,013	3,567,391,201

Accounts payable mainly pertains to payable to Parent Bank from the purchase of personal loan portfolio.

The lease liabilities are measured at the present value of the remaining lease payments using an incremental borrowing rate applied by the Bank (Note 20).

Miscellaneous liabilities mainly include mandatory contributions payable to SSS, Medicare and Philhealth, and float items which are expected to clear within seven days.

Other liabilities are considered current, except for the non-current portion of the lease liabilities disclosed in Note 20.

### 13 Capital funds

Details of share capital at December 31, 2025 and 2024 are as follows:

	Authorized		Issued and outstanding	
	Number of shares	Amount	Number of shares	Amount
Common shares, at P100 par value per share				
Class A	37,400,000	3,740,000,000	18,455,721	1,845,572,100
Class B	2,000,000	200,000,000	600,000	60,000,000
	39,400,000	3,940,000,000	19,055,721	1,905,572,100
Preferred shares, at P100 par value per share, 12% cumulative, participating and redeemable				
Class A	200,000	20,000,000	-	-
Class B	400,000	40,000,000	-	-
	600,000	60,000,000	-	-
	40,000,000	4,000,000,000	19,055,721	1,905,572,100

The Class A (common and preferred) shares are available only to Philippine nationals while the Class B (common and preferred) shares may be issued to non-Filipinos. The Bank, at its option, may redeem the preferred shares after ten years from issue date.

In October 2024, the Bank received additional capital from the Parent Bank amounting to P500 million equivalent to 5,000,000 shares at P100 par value. The said capital infusion has been duly approved by the BSP. As at December 31, 2025, no additional capital infusion was received from the Parent Bank.

As at December 31, 2023, the Bank has a subscription receivable on Class A common shares amounting to P94,427,900, netted against amount of issued and outstanding shares. This was applied against the capital infusion in 2024. The Bank has no subscription receivable as at December 31, 2025 and 2024.

#### Surplus

As at December 31, 2025, the Bank has surplus in excess of its paid-up capital amounting to P7,556,190,193 (2024 - P4,792,536,514). On January 22, 2026, the BOD approved the Bank's plans to expand its distribution network in 2026 through 15 additional Kiosks, 30 Account Officers, and continued development of its agency banking channels, including BanKo Community Agents (BCAs). Customer acquisition will be strengthened by increasing Bank-on-the-Go (BOTG) territories and scaling the Super Sari-Sari Store network. The Bank also aims to sustain the growth of its loan portfolios and will allocate its excess surplus to support these initiatives, including the completion of the planned merger with LSB within twelve months after year-end.

On January 24, 2024, the BOD approved the Bank's medium-term plan for business expansion to new geographic territories with opening of additional branches and branch-lite units BLUs, launch of new product lines, and digitalization of the Bank's end process through introduction of a new application. In 2024, a total of twenty (20) BLUs and kiosks were opened.

Further, on January 22, 2025, the BOD approved the expansion plan of the Bank to open new customer touchpoints that include thirty (30) new kiosks, additional bank cash agents and twelve (12) mobile bank-on-the-go (BOTG). In 2025, a total of forty-four (44) BLUs and kiosks were opened bringing the BLUs and kiosks at 412 as at December 31, 2025.

### *General loan loss provision (GLLP)*

In 2018, the BSP issued Circular 1011 which mandates among others, banks to set up GLLP equal to 1% of all outstanding "Stage 1" on-balance sheet loans, except for accounts considered as credit risk-free under existing regulations. Under the said Circular, if the Philippine Financial Reporting Standards (PFRS) 9 "Stage 1" loan loss allowance is lower than the required GLLP, the deficiency shall be recognized as an appropriation of retained earnings or surplus. As at December 31, 2025 and 2024, the Bank's allowance for credit losses under PFRS 9 exceeds the General Loan Loss Provision (GLLP) required by the BSP; therefore, no additional reserves were required.

### *Accumulated other comprehensive loss*

The movements in the account for the years ended December 31 are summarized below:

	2025	2024
Fair value reserve on investment securities at FVOCI		
At January 1	(8,640)	(8,864)
Unrealized fair value (loss) gain	(490)	224
At December 31	(9,130)	(8,640)
Remeasurement loss on defined benefit plan, net		
At January 1	(93,510,028)	(47,454,222)
Remeasurement loss before tax	(22,764,938)	(44,820,162)
Deferred income tax effect	(2,776,921)	(1,235,644)
At December 31	(119,051,887)	(93,510,028)
	(119,061,017)	(93,518,668)

### *Other reserves*

Other reserves represent the difference between the consideration given and the aggregate book value of the assets and liabilities acquired from the previous merger with BPI Globe Banko in 2016 which was accounted for under the predecessor cost method.

## **14 Service fee income; Miscellaneous income**

### *Service fee income*

The account comprise of processing fee and the motorized collector for both personal loans and SEME loans.

### *Miscellaneous income*

The account for the years ended December 31 consists of:

	2025	2024
Recoveries	167,136,128	41,484,420
Other income	64,508,925	140,848,850
Gross receipts tax	(16,203,188)	(17,160,419)
	215,441,865	165,172,851

Recoveries pertain to the collection of personal loans previously written-off.

Other income includes recoveries of accounts receivables previously written-off.

## 15 Occupancy and equipment-related expenses

	Notes	2025	2024
Contractual services		647,296,190	556,526,320
Depreciation and amortization	7, 9	280,944,139	279,850,920
Repairs and maintenance		218,942,486	177,733,255
Software as a service subscriptions		143,332,775	146,205,361
Rent		72,522,800	49,046,068
Utilities		46,999,198	44,625,169
Interest expense on lease liabilities	20	39,393,904	35,066,379
Communication		36,436,028	29,019,012
Shared IT cost		10,339,458	9,274,360
IT outsourced services		7,948,460	16,656,524
Taxes and licenses		1,145,616	1,102,590
Insurance		-	493,066
Miscellaneous expense		7,694,650	12,568,786
		1,512,995,704	1,358,167,810

Contractual services refer to those provided by third-party vendors, including security, janitorial, messenger, and motorized collection services.

## 16 Other operating expenses

The account for the years ended December 31 consists of:

	Note	2025	2024
Shared operating costs	19	602,134,467	544,554,561
Service fees		225,743,831	131,467,764
Travel and communications		159,526,574	131,373,960
Insurance		112,835,257	97,345,911
Taxes and licenses		75,485,220	49,354,996
Stationery and supplies used		69,615,656	66,178,866
Advertising and publicity		47,782,920	83,041,741
Regulatory examination fees		13,925,863	9,165,550
Litigation expenses		12,171,370	9,483,088
Membership fees		6,257,883	5,469,600
Fines, penalties, and other charges		234,600	67,500
Others		125,509,858	61,340,227
		1,451,223,499	1,188,843,764

Service fees are primarily payments to third-party service providers in relation to the collection of non-performing loan accounts.

Insurance primarily refers to premiums paid to the PDIC for deposit coverage.

Taxes and licenses pertain mainly to municipal taxes paid.

Other operating expenses pertain mainly to promotional rewards, management and consultancy fees, and other outsourced service costs.

## 17 Income taxes

A reconciliation between the provision for income tax at the statutory income tax rate to the actual provision for income tax for the years ended December 31 is presented below:

	2025		2024	
	Amount	%	Amount	%
Statutory income tax	927,459,493	25.00	771,104,970	25.00
Effect of items not subject to statutory tax rate				
Income subject to lower tax rates	(24,095,498)	(00.65)	(31,834,830)	(1.03)
Others	42,820,300	01.15	12,776,222	0.41
Provisions for income tax	946,184,295	25.50	752,046,362	24.38

Others mainly consist of various permanent differences and non-deductible expenses.

## 18 Retirement plan

The BPI and its subsidiaries (the "BPI Group"), which include the Bank, maintain both defined benefit and defined contribution retirement plans. Assets of both retirement plans are held in trust and governed by local regulations and practices in the Philippines. The key terms of these pension plans are discussed below.

### a) Defined benefit retirement plan

#### BPI Group (excluding insurance operations)

BPI has a unified plan which covers all subsidiaries except insurance entities. Under this plan, the normal retirement age is 60 years. Those who elect to retire prior to the normal retirement age will require company approval, subject to meeting the eligibility conditions on age and years of credited services. Normal retirement benefit consists of a lump sum benefit equivalent to 200% of the basic monthly salary of the employee at the time of retirement for each year of service, if the employee has rendered at least 10 years of service, or to 150% of the employee's basic monthly salary, if the employee has rendered less than 10 years of service and cash equivalent of the accrued and unused vacation and sick leave, if any subject to the BPI Group's implementing guidelines and policies. For voluntary retirement, the benefit is equivalent to 112.50% of the employee's basic monthly salary for a minimum of 10 years of service with the rate factor progressing to a maximum of 200% of basic monthly salary for service years of 25 or more. Death or disability benefit, on the other hand, shall be the highest amount among the (1) same basis as in voluntary retirement; (2) 100% of basic monthly salary of the employee at the time of retirement for each year of service; and (3) minimum amount required by Labor Code.

### b) Defined contribution retirement plan subject to the requirements of Republic Act (RA) No. 7641

All non-unionized employees hired on or after the January 1, 2016 are automatically under the new defined contribution plan. Employees hired prior to the effective date shall have the option to elect to become members of the new defined contribution plan.

Upon normal or late retirement, employees are entitled to a lump sum benefit equal to the total of the following amounts:

- The greater of the (a) updated member account balance where the Bank periodically contributes 8% of the basic monthly salary and (b) the minimum legal retirement benefit under the Labor Code; and
- The updated member account balance funded by (a) voluntary employee contribution and (b) employer matching contribution; and
- Cash equivalent of the accrued and unused vacation and sick leave, if any.

The defined contribution retirement plan has a defined benefit minimum guarantee equivalent to a certain percentage of the monthly salary payable to an employee at normal retirement age with the required credited years of service based on the provisions of RA No. 7641.

The net defined benefit cost and contributions to be paid by the entities within the BPI Group are determined by an independent actuary.

Following are the amounts recognized that relate to the Bank based on the recent actuarial valuation reports:

*Defined benefit retirement plan*

(a) Pension asset as at December 31 recognized under Other assets in the statement of condition follows:

	2025	2024
Present value of defined benefit obligation	14,583,384	13,019,694
Fair value of plan assets	(93,039,618)	(67,581,822)
Surplus	(78,456,234)	(54,562,128)
Effect of the asset ceiling	32,070,190	19,283,773
Pension asset recognized in the statement of condition	(46,386,044)	(35,278,355)

The movements in the present value of defined benefit obligation for the years ended December 31 are summarized as follows:

	2025	2024
At January 1	13,019,694	16,907,712
Current service cost	3,010,546	8,078,941
Interest cost	796,805	1,019,535
Remeasurement loss (gain)		
Changes in financial assumptions	11,290	(38,961)
Experience adjustments	(2,254,951)	(12,947,533)
At December 31	14,583,384	13,019,694

The movements in plan assets for the years ended December 31 are summarized as follows:

	2025	2024
At January 1	67,581,822	52,201,826
Interest income	4,169,396	3,327,276
Contributions	818,122	6,070,188
Remeasurement gain return on plan assets	20,470,278	5,982,532
At December 31	93,039,618	67,581,822

The carrying values of the plan assets represent their fair values as at December 31, 2025 and 2024.

The plan assets at December 31 comprise the following:

	2025		2024	
	Amount	%	Amount	%
Debt securities	57,110,150	61%	43,695,787	65%
Equity securities	25,107,796	27%	17,435,213	26%
Others	10,821,672	12%	6,450,822	9%
	93,039,618	100%	67,581,822	100%

The plan assets of the unified retirement plan include investment in BPI's common share with aggregate fair value of P3,024 million at December 31, 2025 (2024 - P2,747 million). An officer of the Parent Bank exercises the voting rights over the plan's investment in BPI's common shares.

The Bank has no other transactions with the plan aside from the contributions for the years ended December 31, 2025 and 2024.

The retirement benefit expense recognized in the statement of income for the year ended December 31, 2025 amounts to P818,122 (2024 - P6,070,188).

The principal assumptions used for the actuarial valuations of the defined benefit plan of the Bank at December 31 are as follows:

	2025	2024
Discount rate	6.09%	6.12%
Salary increase rate	6.00%	6.00%

#### *Discount rate*

The discount rate is determined by reference to PHP Bloomberg Valuation (BVAL) rates and adjusted to reflect the term similar to the estimated term of the benefit obligation as determined by the actuary as at the end of the reporting period as there is no deep market in high quality corporate bonds in the Philippines.

#### *Future salary rate increases*

This is the expected long-term average rate of salary increase taking into account inflation, seniority, promotion and other market factors. Salary increases comprise of the general inflationary increases plus a further increase for individual productivity, merit and promotion. The future salary increase rates are set by reference over the period over which benefits are expected to be paid.

#### *Demographic assumptions*

Assumptions regarding future mortality and disability experience are based on published statistics generally used for local actuarial valuation purposes.

The defined benefit plan typically exposes the Bank to a number of risks such as investment risk, interest rate risk and salary risk. The most significant of which relate to investment and interest rate risks. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability. A decrease in government bond yields will increase the defined benefit obligation although this will also be partially offset by an increase in the value of the plan's fixed income holdings. Hence, the present value of defined benefit obligation is directly affected by the discount rate to be applied by the Bank. However, the Bank believes that due to the long-term nature of the pension liability and the strength of the Bank itself, the mix of debt and equity securities holdings of the plan is an appropriate element of the Bank's long term strategy to manage the plan efficiently.

The Bank ensures that the investment positions are managed within an asset-liability matching framework that has been developed to achieve long-term investments that are in line with the obligations under the plan. The Bank's main objective is to match assets to the defined benefit obligation by investing primarily in long-term debt securities with maturities that match the benefit payments as they fall due. The asset-liability matching is being monitored on a regular basis and potential change in investment mix is being discussed with the trustor, as necessary, to better ensure the appropriate asset-liability matching.

The average remaining service life of employees under the BPI unified retirement plan as at December 31, 2025 is 26.7 years (2024 - 27.4 years). The Bank contributes to the plan depending on the suggested funding contribution as calculated by an independent actuary. The expected contributions for the year ending December 31, 2026 for the Bank amount to P3,081,459.

The weighted average duration of the defined benefit obligation as at December 31, 2025 is 3.76 years (2024 - 3.94 years).

The projected maturity analysis of retirement benefit payments as at December 31 is as follows:

	2025	2024
Up to 1 year	1,829,771	1,692,312
More than 1 year to 5 years	15,294,226	12,450,320
More than 5 years to 10 years	10,215,319	12,085,915
More than 10 years to 15 years	32,088,185	26,426,660
More than 15 years to 20 years	33,099,351	32,859,403
Over 20 years	66,592,884	73,487,800

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions follows:

December 31, 2025	Change in assumption	Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption
Discount rate	1.0%	Decrease by 3.5%	Increase by 3.9%
Salary growth rate	1.0%	Increase by 3.9%	Decrease by 3.6%

December 31, 2024	Change in assumption	Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption
Discount rate	1.0%	Decrease by 3.8%	Increase by 4.1%
Salary growth rate	1.0%	Increase by 4.1%	Decrease by 3.8%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the retirement benefit obligation recognized within the statement of condition.

*Defined contribution retirement plan subject to the requirements of RA No. 7641*

	2025	2024
Present value of defined benefit obligation under RA No. 7641	319,752,400	241,705,940
Fair value of plan assets	(338,434,654)	(239,590,265)
(Surplus) deficit	(18,682,254)	2,115,675
Effect of asset ceiling	-	-
Pension (asset) liability recognized in the statement of condition	(18,682,254)	2,115,675

The pension asset represents benefits of forfeited from separated employees which will be applied against future contributions. This is presented as part of Pension asset under Other assets, net in the statement of condition (Note 9).

The pension liability is presented as part of Miscellaneous under Other liabilities in the statement of condition (Note 12).

The movements in the present value of the defined benefit obligation for the years ended December 31 follow:

	2025	2024
At January 1	241,705,940	22,888,759
Current service cost	11,412,717	4,203,827
Interest cost	14,877,233	1,403,081
Benefits paid from plan assets	(22,745,256)	(13,345,873)
Transfer to plan	-	64,189
Remeasurement (gain) loss		
Changes in financial assumptions	(1,301,682)	141,465
Experience adjustments	75,803,448	226,350,492
At December 31	319,752,400	241,705,940

The movements in the fair value of plan assets for the years ended December 31 follow:

	2025	2024
At January 1	239,590,265	197,412,281
Interest income	14,899,648	12,208,875
Contributions	66,060,856	51,807,577
Benefits paid	(22,745,256)	(13,345,873)
Remeasurement gain (loss) - return on plan assets	40,629,141	(8,492,595)
At December 31	338,434,654	239,590,265

Total retirement benefit expense for the year ended December 31, 2025 under the defined contribution plan amounts to P11,390,302 (2024 - P4,096,325).

The principal assumptions used for the actuarial valuation of the defined contribution plan of the Bank at December 31 are as follows:

	2025	2024
Discount rate	6.31%	6.11%
Salary increase rate	6.00%	6.00%

The major categories of plan assets as a percentage of the fair value of total plan assets at December 31 follow:

	2025		2024	
	Amount	%	Amount	%
Debt securities	121,289,183	36%	45,501,166	19%
Equity securities	223,987,558	66%	145,054,529	61%
Others	(6,842,087)	(2%)	49,034,570	20%
	338,434,654	100%	239,590,265	100%

The asset allocation of the plan is set and reviewed from time to time by the plan trustees taking into account the membership profile, the liquidity requirements of the plan and risk appetite of the plan sponsor.

Contributions are determined on the plan provisions. The expected contributions of the Bank for the year ending December 31, 2026 amount to P69,127,479.

**Critical accounting estimates - Pension liability on defined benefit plan**

The Bank estimates its pension benefit obligation and expense for defined benefit pension plans based on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described above and include, among others, the discount rate and future salary increases. The Bank determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement benefit obligation.

The present value of the defined benefit obligation of the Bank at December 31, 2025 and 2024 are determined using the market yields on Philippine government bonds with terms consistent with the expected payments of employee benefits. Plan assets are invested in either equity securities, debt securities or other forms of investments. Equity markets may experience volatility, which could affect the value of pension plan assets. This volatility may make it difficult to estimate the long-term rate of return on plan assets. Actual results that differ from the Bank's assumptions are reflected as remeasurements in other comprehensive income. The Bank's assumptions are based on actual historical experience and external data regarding compensation and discount rate trends.

## 19 Related party transactions

In the ordinary course of business, the Bank has transactions with its directors, officers, stockholders and related interests (DOSRI) and with its Parent Bank such as cash deposit arrangements, purchase of investment securities and outsourcing of certain services, primarily loans operations, branch operations and human resource-related functions.

Significant related party transactions are summarized below:

*As at and for the year ended December 31, 2025*

		Transactions for the year	Outstanding balance	Terms and conditions
<b>Deposits to:</b>				
<b>Parent Bank</b>		2,453,210,228	4,295,814,693	- These are demand deposits with interest rates ranging from 0.05% to 0.0625%.
<b>Loans to:</b>				
<b>Other parties</b>	<b>related</b>	25,901,858	71,007,608	- These are real estate loans with interest ranging from 6.5% to 9.5%
<b>Deposits from:</b>				
<b>Fellow subsidiary</b>		(6,812,368)	(14,265,009)	- These are time deposits with interest rates ranging from 6.25% to 6.75%.
<b>Other related parties</b>		732,000,000	(361,000,000)	- These are time deposits with interest rates ranging from 5.70% to 6.15%
<b>Accounts payable:</b>				
<b>Parent Bank</b>		1,795,493,311	2,119,092,167	- Shared operating costs, occupancy and equipment related costs and office rental - Unsecured, unguaranteed and non-interest bearing - Payable in cash at gross amount and on demand but not later than 12 months from reporting period - Refer to Notes (a), (b) and (c) below

As at and for the year ended December 31, 2024

	<b>Transactions for the year</b>	<b>Outstanding balance</b>	<b>Terms and conditions</b>
<b>Deposits to:</b>			
<b>Parent Bank</b>	(1,195,803,307)	1,842,604,465	- These are demand deposits with interest rates ranging from 0.05% to 0.0625%.
<b>Loans to:</b>			
<b>Other related parties</b>	32,662,397	45,105,750	- These are real estate loans with interest ranging from 6.5% to 9.5%
<b>Deposits from:</b>			
<b>Fellow subsidiary</b>	(1,500,000,000)	(7,452,641)	- These are time deposits with interest rates ranging from 6.25% to 6.75%.
<b>Other related parties</b>	2,123,000,000	(1,093,000,000)	- These are time deposits with interest rates ranging from 6.25% to 6.75%.
<b>Accounts payable:</b>			
<b>Parent Bank</b>	(262,245,801)	(323,598,856)	- Shared operating costs, occupancy and equipment related costs and office rental - Unsecured, unguaranteed and non-interest bearing - Payable in cash at gross amount and on demand but not later than 12 months from reporting period - Refer to Notes (a), (b) and (c) below

The aggregate amounts included in the determination of income before income tax for the years ended December 31 that resulted from transactions with each class of related parties are as follows:

	Notes	2025	2024
Interest income	2		
Parent Bank		2,541,583	2,310,616
Interest income on loans			
Other related parties		4,296,696	928,744
Interest expense			
Fellow subsidiary		5,916	30,319,368
Other related parties		38,922,171	41,883,266
Shared operating costs [Refer to Note (a) below]			
Parent Bank	16	602,134,467	544,554,561
Occupancy and equipment related costs [Refer to Note (b) below]			
Parent Bank		183,079,831	188,326,479
Office rental [Refer to Note (c) below]			
Parent Bank		11,057,094	9,687,534
Other income [Refer to Note (d) below]			
Fellow subsidiaries		2,885,075	4,142,222
Other expense [Refer to Note (e) below]			
Parent Bank		23,349,528	29,003,280
Fellow subsidiaries		44,882,428	32,169,489
		68,231,956	61,172,769
Retirement benefits		1,302,840	940,576
Salaries, allowances and other short-term benefits			
Key management personnel		19,015,700	16,147,131
Directors' remuneration		550,000	650,000

*(a) Shared operating costs*

These pertain to the Parent Bank's outsourcing of services relating to anti-money laundering services, accounting and securities administration services, loan operations, treasury operations, human resource-related functions and information systems. Shared operating costs are billed based on rate and terms agreed by the parties. The agreement remains in force unless terminated by the parties.

Personal loans were purchased from the Parent Bank to support unsecured lending system and the core business of the Bank (Note 6). These loans are payable in cash at gross amount within 7 days from billing. The remaining unpaid amount as at reporting period is presented as part of Accounts payable under Other liabilities in the statement of condition. The Parent Bank continues to manage the servicing of the loans and charges the Bank for the corresponding servicing fees.

*(b) Occupancy and equipment related costs*

These pertain to the Parent Bank's services relating to outsourced information system functions and shared technology costs. It is billed based on rate and terms agreed by the parties. The agreement remains in force unless terminated by the parties.

*(c) Office rental*

In 2017, the Bank transferred its office premise at BPI Greentop Condominium building, a property of the Parent Bank, for a lease period of 5 years from December 1, 2014 to November 30, 2019. The rent shall increase by 5% yearly starting on the second year and by 7% on the fourth year thereafter. The security deposit in relation to the lease is presented as part of Other assets, net, in the statement of condition. The lease was renewed starting December 1, 2024 for another 5 years with the same terms and conditions until the fourth year, with an increase by 8% on the fifth year.

(d) *Other income*

These pertain to the fees and commission earned by the Bank through offering insurance products of related parties along with its loan products. This is presented as part of Service fee income under Other income in the statement of income.

(e) *Other expense*

These pertains to reimbursable expenses paid by the Parent Bank and billed to the Bank and insurance payments to related parties. This is presented as part of Other operating expenses in the statement of income.

The Bank has no DOSRI loans as at December 31, 2025 and 2024. Details of loans to related parties are as follows:

	2025	2024
Outstanding loans to related parties	71,007,608	45,105,750
% to total outstanding loans and advances	0.15%	0.11%
% to total outstanding related party loans		
Unsecured related party loans	-	-
Past due related party loans	-	-
Non-performing related party loans	-	-

The Bank is in full compliance with the General Banking Act as at December 31, 2025 and 2024.

## 20 Significant contracts and agreements

### *Lease agreements*

The lease term of the Bank's main office space commenced on December 1, 2014 and ended on November 30, 2019 but was renewed thereafter. Likewise, the branch office spaces have various lease agreements that are renewable under certain terms and conditions. The rent is subject to 5% to 10% escalation rate. This agreement requires the Bank to pay security deposit which is presented at Other assets, net, in the statement of condition.

Lease terms are negotiated either on a collective or individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets cannot be used as security for borrowing purposes.

The balances arising from these leases are presented below:

### a) *Right-of-use assets and lease liabilities (PFRS 16)*

The Bank has recognized right-of-use assets and lease liabilities from its long-term leases.

Details of right-of-use assets and lease liabilities at December 31 are as follows:

	Notes	2025	2024
Right-of-use assets (included in Bank premises, furniture and equipment, net under Buildings)	7	448,860,298	535,660,684
Lease liabilities (included in Other liabilities)	12		
Current		7,086,301	6,691,003
Non-current		490,950,252	552,029,301
		498,036,553	558,720,304

Additions to the right-of-use assets in 2025 aggregated P49 million (2024 - P321 million) (Note 7).

Movements in lease liabilities for the years ended December 31 are as follows:

	2025	2024
Balance, January 1	558,720,303	384,131,246
Additions during the year		
Lease liabilities on contracts entered	86,350,921	305,995,203
Interest accretion on lease liabilities	39,393,904	35,066,379
Remeasurement	(34,341)	(290,483)
Pre-terminated lease	(415,014)	(2,265,370)
Payments during the year		
Principal portion of lease liabilities	(147,039,995)	(129,266,533)
Interest on lease liabilities	(39,393,904)	(35,066,379)
Others	454,679	416,240
Balance, December 31	498,036,553	558,720,303

Total cash outflow for leases in 2025 amounted to P186.43 million (2024 - P164.33 million).

Others pertain to remeasurement of lease liabilities as a result of lease modification and other adjustments.

In 2025, gain on pre-termination of lease contract amounted to P0.09 million (2024 - P1.90 million loss) and is presented as part of Miscellaneous income in the statement of income.

Amounts recognized under Occupancy and equipment-related expenses in the statement of income for the years ended December 31 relating to leases follow:

	2025	2024
Depreciation expense		
Buildings (Note 7)	176,959,288	154,885,944
Interest expense on lease liabilities	39,393,904	35,066,379
Expenses relating to low-value leases	58,718,602	35,795,570

**Critical accounting estimate - Determination of incremental borrowing rate**

To determine the incremental borrowing rate, the Bank:

- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held which do not have recent third-party financing, and
- makes adjustments specific to the lease, (e.g. term, currency and security).

The Bank's weighted average incremental borrowing rates applied to the lease liabilities range from 3.31% to 7.48% (2024 - 2.58% to 7.74%).

The Bank considers that it is impracticable to disclose with sufficient reliability the possible effects of sensitivities surrounding its lease liabilities.

**Critical accounting judgement - Determining the lease term**

In determining the lease term, the Bank considers all facts and circumstances that create an economic incentive to exercise an extension option. Extension options are only included in the lease term if the lease is reasonably certain to be extended.

**Other commitments and contingent liabilities**

At present, there are lawsuits, claims and tax assessments pending against the Bank. In the opinion of management, after reviewing all actions and proceedings and court decisions with legal counsels, the aggregate liability or loss, if any, arising therefrom will not have a material effect on the Bank's financial position or financial performance.

In the normal course of business, the Bank makes various commitments that may not have been presented in the financial statements. The Bank does not anticipate any material losses from these commitments.

## **21 Financial risk and capital management**

Risk management in the Bank covers all perceived areas of risk exposure, even as it continuously endeavors to uncover hidden risks. Capital management is understood to be a facet of risk management. The BOD is the Bank's principal risk and capital manager, and the Bank's only strategic risk taker. The BOD provides written policies for overall risk management, as well as written procedures for the management of credit risk, foreign exchange risk, interest rate risk, equity risk, liquidity risk, and contingency risk, among others.

The primary objective of the Bank is the generation of recurring acceptable returns to shareholders' capital. To this end, the Bank's policies, business strategies, and business activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various other funders and stakeholders.

To generate acceptable returns to its shareholders' capital, the Bank understands that it has to bear risk, that risk-taking is inherent in its business. Risk is understood by the Bank as the uncertainty in its future income - an uncertainty that emanates from the possibility of incurring losses that are due to unplanned and unexpected drops in revenues, increases in expenses, impairment of asset values, or increases in liabilities.

The possibility of incurring losses is, however, compensated by the possibility of earning more than expected income. Risk-taking is, therefore, not entirely a bad step to be avoided. Risk-taking presents opportunities if risks are accounted, deliberately taken, and are kept within rationalized limits.

The most important financial risks that the Bank manages are credit risk, liquidity risk and market risk.

### **21.1 Credit risk**

The Bank takes on exposure to credit risk, which is the risk that may arise if a borrower or counterparty fails to meet its obligations in accordance with agreed terms. Credit risk is the single largest risk for the Bank's business; management therefore carefully manages its exposure to credit risk as governed by relevant regulatory requirements and international benchmarks.

Credit risk may also arise due to substantial exposures to a particular counterparty which the Bank manages by adopting proper risk controls and diversification strategies to prevent undue risk concentrations from excessive exposures to particular counterparties, industries, countries or regions.

The most evident source of credit risk is loans and advances; however, other sources of credit risk exist throughout the activities of the Bank, including in credit-related activities recorded in the banking, investment securities in the trading books and off-balance sheet transactions.

#### **21.1.1 Credit risk management**

The Credit Policy and Risk Management division of the Parent Bank supports the Credit Committees in coordination with various business lending and operations units in managing credit risk, and reports are regularly provided to the Bank's Senior Management and the BOD. A rigorous control framework is applied in the determination of expected credit loss (ECL) models. The Parent Bank has policies and procedures that govern the calculation of ECL and such policies are consistently being observed by the Bank. All ECL models are regularly reviewed by the Risk Management Office (RMO) to ensure that necessary controls are in place and the models are applied accordingly.

The review and validation are performed by groups that are independent of the team that prepares the calculations, e.g., Risk Models Validation and Internal Auditors. Expert judgements on measurement methodologies and assumptions are reviewed by a group of internal experts from various functions.

The Bank employs a range of policies and practices to mitigate credit risk. The Bank monitors its portfolio based on different segmentation to reflect the acceptable level of diversification and concentration. Credit concentration arises from substantial exposures to particular counterparties. Concentration risk in credit portfolios is inherent in banking and cannot be totally eliminated. However, said risk may be reduced by adopting proper risk control and diversification strategies to prevent undue risk concentrations from excessive exposures to particular counterparties, industries, countries or regions.

The Bank structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, and to geographical and industry segments. Such risks are monitored on a regular basis and subjected to annual or more frequent review, when deemed necessary. Limits on large exposures and credit concentration are approved by the BOD through the Risk Management Committee (RMC).

The exposure to any one borrower is further restricted by sub-limits covering on- and off-balance sheet exposures. Actual exposures against limits are monitored regularly.

Settlement risk arises in any situation where a payment in cash, securities, foreign exchange currencies, or equities is made in the expectation of a corresponding receipt in cash, securities, foreign exchange currencies, or equities. Daily settlement limits are established for each counterparty to cover the aggregate of all settlement risk arising from the Bank's market transactions on any single day. For certain securities, the introduction of the delivery versus payment facility in the local market has brought down settlement risk significantly.

The Bank employs a range of policies and practices to mitigate credit risk. Some of these specific control and risk mitigation measures include collateral or guarantees.

#### *Collateral or guarantees*

One of the most traditional and common practice in mitigating credit risk is requiring security particularly for loans and advances. The Bank implements guidelines on the acceptability of specific classes of collateral for credit risk mitigation. The Bank assesses the valuation of the collateral obtained as part of the loan origination process. This assessment is reviewed periodically. The common collateral types for loans and advances are:

- Mortgages over physical properties (e.g., real estate and personal) and
- Mortgages over financial assets (e.g., guarantees).

In order to minimize credit loss, the Bank seeks additional collateral from the counterparty when impairment indicators are observed for the relevant individual loans and advances.

The Bank's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collaterals held by the Bank since the prior period.

#### **21.1.2 Credit risk rating**

The Bank uses internal credit risk gradings that reflect its assessment of the probability of default (PD) of individual counterparties. The Bank uses internal rating models tailored to the various categories of counterparty. Borrower and loan specific information collected at the time of application (such as disposable income, and level of collateral for retail exposures; and turnover and industry type for wholesale exposures) is fed into this rating model. In addition, the models enable expert judgement from the Credit Review Officer to be fed into the final internal credit rating for each exposure. This allows for considerations which may not be captured as part of the other data inputs into the model.

The Bank has put in place a credit classification system to promptly identify deteriorating exposures and to determine the appropriate credit losses. Classification is being done on the basis of the Bank’s existing internal credit risk rating system, credit models or determined using reputable external rating agencies. The following are the considerations observed by the Bank in classifying its exposures:

- *Standard monitoring* refers to accounts which do not have a greater-than-normal risk and do not possess the characteristics of special monitoring and defaulted loans. The counterparty has the ability to satisfy the obligation in full and therefore minimal loss, if any, is anticipated.
- *Special monitoring* are accounts which need closer and frequent monitoring to prevent any further deterioration of the credit. The counterparty is assessed to be vulnerable to highly vulnerable and its capacity to meet its financial obligations is dependent upon favorable business, financial, and economic conditions.
- *Default* refers to accounts which exhibit probable to severe weaknesses wherein possibility of non-repayment of loan obligation is ranging from high to extremely high severity.

The mapping of internal credit risk ratings with the Bank’s standard account classification is shown below:

(a) *Loans and advances*

The Bank’s internal credit risk rating system comprises a 30-scale rating with eighteen (18) ‘pass’ rating levels for large corporate accounts; and 14-scale rating system with ten (10) ‘pass’ rating grades for loans mapped based on reputable external rating agency.

The Bank uses automated scoring models to assess the level of risk for retail accounts. Behavioral indicators are considered in conjunction with other forward-looking information (e.g., industry forecast) to assess the level of risk of a financial asset. After the date of initial recognition, the payment behavior of the borrower is monitored on a periodic basis to develop a behavioral score which is mapped to a PD.

*Self-Employed Micro-Entrepreneur (SEME) Loans*

Loans for SEME is the core business of the Bank. The SEME Loans are typically in small denominations, loan amount ranges from P25,000 to P500,000 per borrower. Credit policies are in place for a standard process and management of loans. The loan evaluation and approval process is decentralized in branches. The Branch Manager has the primary responsibility of branch performance and ensures proper and complete documentation prior to loan release.

The borrower is evaluated using a SEME credit scorecard and passes thru the credit evaluation and approval process to mitigate credit risk. In 2023, the Bank updated the default definition for SEME loan portfolio from 7 days to 10 days in line with the amended cure period from 7 days to 10 days in 2022 as a result of the Cure Period Analysis study conducted by the BPI Group’s Enterprise Risk Stress Testing Department of the RMO, taking into account the changes in the BPI Group’s collection activities and impact of the Coronavirus pandemic to the borrowers.

<b>Classifications</b>	<b>PL, Auto, Housing, Max500*</b>	<b>SEME</b>
Standard monitoring	Current to 30 dpd	Current to 10 dpd
Special monitoring	31-90 dpd	>10 days
Default	>90, IL, Loss	>10 days

\*A product of the Bank classified as micro-enterprise loan

(b) *Treasury and debt securities*

Investments in high grade securities are viewed as a way to gain better credit quality mix and at the same time, maintain a readily available source to meet funding requirements. The level of credit risk for treasury and other investment debt securities and their associated PD are determined using reputable external ratings and/or available and reliable qualitative and quantitative information. In the absence of credit ratings, a comparable issuer or guarantor rating is used. Should there be a change in the credit rating of the chosen comparable, evaluation is made to ascertain whether the rating change is applicable to the security being assessed for impairment.

<b>Classifications</b>	<b>Credit Risk Grade following S&amp;P or its equivalent</b>
Standard monitoring	Investment Grade (AAA to BBB-)
Special monitoring	Non-Investment Grade (BB+ to C)
Default	Default (D)

(c) *Other financial assets*

For other financial assets (accounts receivable and rental deposits), the Bank applies the simplified approach, as permitted by PFRS 9, in measuring ECL which uses a lifetime ECL methodology. These financial assets are grouped based on shared risk characteristics and aging profile. For some of these, impairment is assessed individually at a counterparty level.

**21.1.3 Maximum exposure to credit risk**

The following tables contain an analysis of the credit risk exposure of each financial instrument for which an ECL allowance is recognized. The gross carrying amount of financial assets below also represents the Bank's maximum exposure to credit risk on these assets at December 31.

***Credit quality of loans and advances, net***

	2025			
	ECL Staging			
	Stage 1 12-month ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total

Carrying amount	10,331,861,570	-	-	10,331,861,570

### **Credit quality of other financial assets**

Credit risk exposures relating to other financial assets at December 31 are as follows:

	2025	2024
Accounts receivable	44,869,423	42,319,372
Rental deposits	42,950,672	39,465,589
Accrued interest receivable	4,751,882	12,444
Injunction bond	456,712	456,712
	93,028,689	82,254,117
Allowance for impairment	(35,892,973)	(41,254,923)
	57,135,716	40,999,194

The Bank's other financial assets generally arise from transactions with various unrated counterparties with good credit standing. The Bank applies the simplified approach, as permitted by PFRS 9, in measuring ECL which uses a lifetime expected loss methodology for other financial assets.

To measure the ECL, other financial assets have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the payment profiles of other financial assets over a period of 36 months and corresponding historical credit losses experienced within the said period. The impact of forward-looking variables on macroeconomic factors is considered insignificant in calculating ECL provisions for other financial assets.

### Critical accounting estimate - Measurement of the ECL allowance

The measurement of the ECL for loans and advances is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses).

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk (SICR);
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

### *Forward-looking scenarios*

Three distinct macroeconomic scenarios (baseline, upside and downside) are considered in the BPI Group's estimation of expected credit losses in Stage 1 and Stage 2. These scenarios are based on assumptions supported by economic theories and historical experience. The downside scenario reflects a negative macroeconomic event occurring within the forecast period. The probability of each scenario is determined using expert judgment and recession probability tools provided by reputable external service providers. The baseline case incorporates the BPI Group's outlook both for the domestic and global economy. The upside and downside scenarios take into account certain adjustments that will lead to a positive or negative economic outcome, respectively.

Other forward-looking considerations not otherwise incorporated within the above scenarios, such as the impact of any regulatory, legislative or political changes is likewise considered, if material.

The Bank has performed historical analyses and identified the key economic variables impacting credit risk and ECL for each portfolio. The most significant period-end assumptions used for the ECL estimate at December 31 are set out below. The scenarios "base", "upside" and "downside" were used for all portfolios.

### *2025*

	Base Scenario		Upside Scenario		Downside Scenario	
	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)
Real GDP growth (%)	4.4	5.9	6.1	6.6	1.8	3.1
Inflation Rate (%)	3.0	3.1	2.6	2.4	8.0	8.2
PDST-R2 5Y (%)	6.0	5.8	5.1	4.9	11.3	11.1
Exchange Rate	59.540	63.660	59.060	61.073	65.070	80.788

### *2024*

	Base Scenario		Upside Scenario		Downside Scenario	
	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)	Next 12 Months	2 to 5 years (Average)
Real GDP growth (%)	7.2	7.3	7.2	7.3	0.2	2.3
Inflation Rate (%)	3.6	3.3	2.4	2.1	10.0	9.8
PDST-R2 5Y (%)	5.7	5.3	4.0	3.5	9.2	8.8
Exchange Rate	57.500	60.433	54.686	52.006	63.996	83.640

### *Sensitivity analysis*

The Bank's loan portfolio has different sensitivities to movements in macroeconomic variables (MEVs), so the above three scenarios have varying impact on the ECL of the Bank's portfolio. The allowance for impairment is calculated as the weighted average of ECL under the baseline, upside and downside scenarios. The impact of weighting these multiple scenarios was an increase in the allowance for impairment by P12 million from the baseline scenario as at December 31, 2025 (2024 - P63 million).

### Transfers between stages

Transfers from Stage 1 and Stage 2 are based on the assessment of SICR from initial recognition. The impact of moving from 12 months ECL to lifetime ECL, or vice versa, varies by product and is dependent on the expected remaining life at the date of the transfer. Stage transfers may result in significant fluctuations in ECL.

Assuming all Stage 2 accounts are considered as Stage 1, allowance for impairment would have decreased by P2.44 million as at December 31, 2025 (2024 - P2.13 million).

#### 21.1.4 Credit impaired loans and advances

The Bank closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Bank will take possession of collateral to mitigate potential credit losses. Financial assets that are credit-impaired and related collateral held at December 31 in order to mitigate potential losses are shown below:

	2025			2024		
	Gross exposure	Impairment allowance	Carrying amount	Gross exposure	Impairment allowance	Carrying amount
Credit-impaired assets						
Corporate entities	-	-	-	-	-	-
Retail customers	5,552,400,932	(4,579,983,213)	972,417,719	3,710,075,327	(2,871,671,314)	838,404,013
Total credit-impaired assets	5,552,400,932	(4,579,983,213)	972,417,719	3,710,075,327	(2,871,671,314)	838,404,013
Fair value of collateral	39,845,604			41,522,091		

As at December 31, 2025, the Bank acquired assets by taking possession of collaterals held as security for loans and advances with carrying amount of P47,832,714 (2024 - P47,164,542). The related foreclosed collaterals at December 31, 2025 have aggregate fair value of P127,487,748 (2024 - P125,697,634).

As at December 31, 2025 and 2024, the allowance for impairment of foreclosed collateral amounts to P1,250,638 (2024 - P3,015,056). Foreclosed collaterals include real estate (land, building, and improvements).

Repossessed properties are sold as soon as practicable and are classified as assets held for sale in the statement of condition.

#### 21.1.5 Loss allowance

The loss allowance recognized in the period is affected by a variety of factors, as described below:

- Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) of credit risk or becoming credit-impaired in the period, and the consequent “step up” (or “step down”) between 12-month and lifetime ECL;
- Additional allowances for new financial instruments recognized during the period, as well as releases for financial instruments de-recognized in the period;
- Impact on the measurement of ECL due to changes in PDs, Exposure at Default (EAD) and Loss Given Default (LGD) in the period;
- Impact on the measurement of ECL due to changes made to models and assumptions;
- Foreign exchange retranslations for assets denominated in foreign currencies and other movements; and
- Financial assets derecognized during the period and write-offs of allowances related to assets that were written off during the period.

The following table summarizes the changes in the loss allowance for loans and advances between the beginning and the end of the annual period.

*For the year ended December 31, 2025*

	Stage 1 12-month ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total
Loss allowance, beginning	895,446,014	16,985,224	2,871,671,314	3,784,102,552
Provision for impairment for the year				
Transfers:				
Transfer in (out of) Stage 1	(1,804,148,341)	19,899,100	3,426,544,063	1,642,294,822
Transfer in (out of) Stage 2	390,751	(294,098,463)	462,183,445	168,475,733
Transfer in (out of) Stage 3	315,191	92,377	(22,005,162)	(21,597,594)
New financial assets originated	1,914,912,802	1,173	-	1,914,913,975
Financial assets derecognized during the year	(366,613,584)	(1,095,902)	(147,783,670)	(515,493,156)
Changes in assumptions and other movements in provision	483,767,961	283,952,667	844,189,756	1,611,910,384
	228,624,780	8,750,952	4,563,128,432	4,800,504,164
Write-offs and other movements	(45,602,544)	(4,120,805)	(2,854,816,533)	(2,904,539,882)
Loss allowance, ending	1,078,468,250	21,615,371	4,579,983,213	5,680,066,834

*For the year ended December 31, 2024*

	Stage 1 12-month ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total
Loss allowance, beginning	744,334,608	12,867,801	1,831,015,950	2,588,218,359
Provision for impairment for the year				
Transfers:				
Transfer in (out of) Stage 1	(1,397,721,159)	15,302,497	2,299,701,803	917,283,141
Transfer in (out of) Stage 2	409,463	(154,155,849)	256,238,186	102,491,800
Transfer in (out of) Stage 3	382,819	139,245	(30,074,306)	(29,552,242)
New financial assets originated	1,592,453,867	-	-	1,592,453,867
Financial assets derecognized during the year	(283,066,170)	(1,003,847)	(111,753,426)	(395,823,443)
Changes in assumptions and other movements in provision	244,856,741	143,815,785	523,293,090	911,965,616
	157,315,561	4,097,831	2,937,405,347	3,098,818,739
Write-offs and other movements	(6,204,155)	19,592	(1,896,749,983)	(1,902,934,546)
Loss allowance, ending	895,446,014	16,985,224	2,871,671,314	3,784,102,552

No movement analysis of allowance for impairment for other financial assets subject to impairment as the related loss allowance is deemed insignificant for financial reporting purposes.

*Write-off policy*

The Bank writes off financial assets when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include (i) ceasing enforcement activity and (ii) where the Bank's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Bank may write-off financial assets that are still subject to enforcement activity. The write-off of loans is approved by the Board of Directors in compliance with the BSP requirements. Loans written-off in 2025 and 2024 are fully covered with allowance.

### 21.1.6 Concentration of financial assets with credit exposure

The Bank's main credit exposures based on carrying amounts and categorized by industry sectors are summarized below (in millions of Philippine Pesos):

	Personal loans	Wholesale and retail trade, repair of motor vehicle, motorcycle	Financial activities	Manufacturing	Business services and real estate	Others	Less - Allowance	Total
At December 31, 2025								
Due from other banks	-	-	4,422	-	-	-	-	4,422
Interbank loans receivable and SPAR	-	-	-	-	-	-	-	-
Due from BSP	-	-	14,683	-	-	-	-	14,683
Loans and advances, net	30,640	12,677	8	1,177	2,019	3,292	(5,680)	44,133
Other assets, net	-	-	-	-	-	93	(36)	57
	30,640	12,677	19,113	1,177	2,019	3,385	(5,716)	63,295

	Personal loans	Wholesale and retail trade, repair of motor vehicle, motorcycle	Financial activities	Manufacturing	Business services and real estate	Others	Less - Allowance	Total
At December 31, 2024								
Due from other banks	-	-	1,936	-	-	-	-	1,936
Interbank loans receivable and SPAR	-	-	-	-	-	7,506	-	7,506
Due from BSP	-	-	890	-	-	-	-	890
Loans and advances, net	27,232	11,011	10	1,009	1,648	2,767	(3,784)	39,893
Other assets, net	-	-	-	-	-	82	(41)	41
	27,232	11,011	2,836	1,009	1,648	10,355	(3,825)	50,266

### 21.1.7 Provision for credit and impairment losses

The Bank's provision for credit and impairment losses are attributable to the following accounts:

	Notes	2025	2024
Loans and advances	6	4,800,504,164	3,098,818,739
Assets held for sale		(837,343)	(324,131)
Other assets	9	2,503,264	13,100,935
		4,802,170,085	3,111,595,543

## 21.2 Market risks

The Bank is exposed to market risk - the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is managed by the RMO who directly reports to the Risk Management Committee of the Board.

Market risk management is incumbent on the BOD through its Risk Management Committee. Market risk management in the Bank covers managing exposures to trading risk, foreign exchange risk, counterparty credit risk, interest rate risk of the banking book and liquidity risk. At the management level, the Bank's market risk exposure is managed by RMO, headed by the Company Risk Officer who reports directly to the BPI Chief Risk Officer and the Bank's Risk Management Committee. In addition, Internal Audit is responsible for the independent review of risk assessment measures and procedures and the control environment.

The Bank reviews and controls market risk exposures of both its trading and non-trading portfolios. Trading portfolios include those positions arising from the Bank's market-making transactions. Non-trading portfolios primarily arise from the interest rate management of the Bank's retail and commercial banking assets and liabilities.

Value-at-Risk (VaR) measurement is an integral part of the Bank's market risk control system. This metric estimates, at 99% confidence level, the maximum loss that a trading portfolio may incur over a trading day. This metric indicates as well that there is 1% statistical probability that the trading portfolios' actual loss would be greater than the computed VaR. In order to ensure model soundness, the VaR is periodically subject to model validation and back testing.

VaR is supplemented by other risk metrics and measurements that would provide preliminary signals to Treasury and to the management to assess the vulnerability of Bank's positions. To control the risk, the RMC sets risk limits for trading portfolios which are consistent with the Bank's goals, objectives, risk appetite, and strategy.

Stress tests indicate the potential losses that could arise in extreme conditions that would have detrimental effect to the Bank's positions. The Bank periodically performs stress testing (price risk and liquidity risk) to assess the Bank's condition on assumed stress scenarios. Contingency plans are frequently reviewed to ensure the Bank's preparedness in the event of real stress. Results of stress tests are reviewed by senior management and by the RMC.

The average daily VaR for the trading portfolios in 2025 is at P487,742 (2024 - P882,600).

### 21.2.1 Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in foreign exchange rates. It arises on financial instruments that are denominated in a foreign currency other than the functional currency which they are measured.

The Bank takes on exposure to the effects of fluctuations in the prevailing exchange rates on its foreign currency financial position and cash flows. The table below summarizes the Bank's exposure to foreign currency exchange rate risk relative to its financial assets and liabilities denominated in United States Dollar (US Dollar) at December 31.

	2025	2024
Financial assets		
Due from other banks	182,972,977	181,470,606
Other assets	135,762	144,172
	183,108,739	181,614,778
Financial liabilities		
Deposit liabilities	(155,632,475)	(156,150,113)
Accrued interest	-	(16,717)
	(155,632,475)	(156,166,830)
Net foreign exchange exposure	27,476,264	25,447,948

At December 31, 2025 and 2024, if the Philippine Peso had strengthened 1% against the US Dollar based on historical information in the last five years with all other variables held constant, net income as at and for the year ended December 31, 2025 would have been P206,072 higher/lower (2024 - P190,860 higher/lower), mainly as a result of foreign exchange gains/losses on translation of US Dollar-denominated deposits with other banks and deposit liabilities.

### 21.2.2 Interest rate risk

There are two types of interest rate risk - (i) fair value interest rate risk and (ii) cash flow interest rate risk. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Bank takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may also result in losses in the event that unexpected movements arise.

The BOD sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored daily by the RMO.

Interest rate risk in the banking book arises from the Bank's core banking activities. The main source of this type of interest rate risk is repricing risk, which reflects the fact that the Bank's assets and liabilities are of different maturities and are priced at different interest rates.

The Bank uses a simple version of the Balance Sheet VaR (BSVaR) whereby only the principal and interest payments due and relating to the banking book as at particular valuation dates are considered. The BSVaR assumes a static balance sheet, i.e., it is assumed that there will be no new transactions moving forward, and no portfolio rebalancing will be undertaken in response to future changes in market rates.

The BSVaR is founded on re-pricing gaps, or the difference between the amounts of rate sensitive assets and the amounts of rate sensitive liabilities. An asset or liability is considered to be rate-sensitive if the interest rate applied to the outstanding principal balance changes (either contractually or because of a change in a reference rate) during the interval.

The BSVaR estimates the “riskiness of the balance sheet” and compares the degree of risk-taking activity in the banking books from one period to the next. In consideration of the static framework, and the fact that income from the positions is accrued rather than generated from marking-to-market, the probable loss (that may be exceeded 1% of the time) that is indicated by the BSVaR is not realized in accounting income.

The cumulative BSVaR for the banking or non-trading book in 2025 amounts to P30,675,488 (2024 - P155,899,877).

### **21.3 Liquidity risk**

Liquidity risk is the risk that the Bank is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

The Bank’s liquidity profile is observed and monitored through its metric, the Minimum Cumulative Liquidity Gap (MCLG). The MCLG is the smallest net cumulative cash inflow (if positive) or the largest net cumulative cash outflow (if negative) over the next three (3) months. The MCLG indicates the biggest funding requirement in the short term and the degree of liquidity risk present in the current cash flow profile of the Bank. The MCLG is computed monthly and reported in the RMC meetings. A red flag is immediately raised and reported to management and the RMC when the MCLG level projected over the next 3 months breaches the RMC prescribed MCLG limit.

#### **21.3.1 Liquidity risk management process**

The Bank’s liquidity management process, as carried out within the Bank and monitored by the RMC and the RMO includes:

- day-to-day funding, which includes replenishment of funds as they mature or are borrowed by customers, managed by monitoring future cash flows to ensure that requirements can be met;
- maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring balance sheet liquidity ratios against internal and regulatory requirements;
- managing the concentration and profile of debt maturities; and
- performing periodic liquidity stress testing on the Bank’s liquidity position by assuming a faster rate of withdrawals in its deposit base.

Monitoring and reporting take the form of cash flow measurement and projections for the next day, week and month as these are key periods for liquidity management. The starting point for those projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets.

The Bank also monitors unmatched medium-term assets, the level and type of undrawn lending commitments, the usage of overdraft facilities and the impact of contingent liabilities (if any).

#### *Liquidity Coverage Ratio (LCR)*

Pursuant to BSP Circular No. 905 issued in 2016, the Bank is required to hold and maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that are sufficient to meet its estimated total cash outflows over a 30 calendar-day period of liquidity stress. The LCR is the ratio of HQLAs to total net cash outflows which should be no lower than 100% on a daily basis. It is designed to promote short-term resilience of the Bank’s liquidity risk profile to withstand significant liquidity shocks that may last over 30 calendar days. HQLA represent the Bank’s stock of liquid assets that qualify for inclusion in the LCR which consist mainly of cash, regulatory reserves and unencumbered high-quality liquid securities. HQLAs therefore, serve as defense against potential stress events.

The main drivers of the Bank's LCR comprise the changes in the total stock of HQLA as well as changes in net cash outflows related to deposits, unsecured borrowings and commitment facilities, if any.

#### *Net Stable Funding Ratio (NSFR)*

On January 1, 2019, the Bank adopted BSP Circular No. 1007 issued in 2018 regarding the NSFR requirement. The NSFR is aimed at strengthening the Bank's long-term resilience by maintaining a stable funding in relation to its assets and off-balance sheet items as well as to limit the maturity transformation risk of the Bank. The NSFR is expressed as the ratio of available stable funding and the required stable funding and complements the LCR as it takes a longer view of the Bank's liquidity risk profile. The Bank's capital and retail deposits are considered as stable funding sources whereas the Bank's assets including, but not limited to, performing and non-performing loans and receivables, HQLA and non-HQLA securities as well as off-balance sheet items form part of the required stable funding. The Bank's NSFR is well-above the regulatory minimum of 100%.

The Bank maintains a well-diversified funding base and has a substantial amount of core deposits, thereby avoiding undue concentrations by counterparty, maturity, and currency. The Bank manages its liquidity position through asset-liability management activities supported by a well-developed funds management practice as well as a sound risk management system. As part of risk oversight, the Bank monitors its liquidity risk on a daily basis, in terms of single currency and significant currencies, to ensure it is operating within the risk appetite set by the BOD and to assess ongoing compliance with the minimum requirement of the liquidity ratios. Furthermore, the Bank has a set of policies and escalation procedures in place that govern its day-to-day risk monitoring and reporting processes.

The table below shows the actual liquidity metrics of the Bank as at December 31:

	2025	2024
Liquidity coverage ratio - Philippine Peso	131.02%	114.78%
Net stable funding ratio	143.85%	123.42%
Leverage ratio	14.29%	13.63%
Total exposure measure	66,251,305,370	52,800,142,894

#### **21.3.2 Funding approach**

Sources of liquidity are regularly reviewed by the Bank to maintain a wide diversification by currency, geography, counterparty, product and term.

### 21.3.3 Non-derivative cash flows

The table below presents the maturity profile of non-derivative financial instruments at December 31 based on undiscounted cash flows, including interest, which the Bank uses to manage the inherent liquidity risk. The analysis takes into account the maturity grouping based on the remaining period from the end of the reporting period to the contractual maturity date or, if earlier, the expected date the financial asset will be realized or the financial liability will be settled.

	Up to 1 year	Over 1 up to 3 years	Over 3 years	Total

Other liabilities	2,742,706,129	-	-	2,742,706,129	2,742,706,129

2024	Carrying amount	Fair value			Total
		Level 1	Level 2	Level 3	
<b>Financial assets</b>					
Cash and other cash					
items	516,208,902	-	516,208,902	-	516,208,902
Due from other banks	1,936,170,819	-	1,936,170,819	-	1,936,170,819
Interbank loans receivable and SPAR	7,505,937,500	-	7,505,937,500	-	7,505,937,500
Due from BSP	889,753,251	-	889,753,251	-	889,753,251
Loans and advances, net	39,892,641,808	-	-	43,676,744,360	43,676,744,360
Other assets, net	40,999,194	-	-	40,999,194	40,999,194
<b>Financial liabilities</b>					
Deposit liabilities	39,657,214,561	-	-	39,025,196,462	39,025,196,462
Accrued interest and other expenses	1,093,533,489	-	1,093,533,489	-	1,093,533,489
Other liabilities	3,363,347,950	-	-	3,363,347,950	3,363,347,950

The fair value of the above financial assets classified within the Level 2 hierarchy is determined using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). The primary source of input parameters like yield curve or counterparty credit risk is Bloomberg.

The fair value of the above financial assets classified within the Level 3 hierarchy is determined using valuation techniques that incorporate significant unobservable inputs. The estimated fair values are determined based on the discounted amount of estimated future cash flows expected to be received or paid.

#### *Cash and other cash items, due from BSP and other banks, and interbank loans receivable and SPAR*

The fair value of floating rate placements and overnight deposits approximates their carrying amounts. The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using prevailing money-market interest rates for debts with similar credit risk and remaining maturity. All of these financial assets have a maturity of one year, thus their fair values approximate their carrying amounts.

#### *Loans and advances*

The estimated fair value of loans and advances represents the discounted amount of estimated future cash flows expected to be received. Expected cash flows are discounted with the use of assumptions regarding appropriate credit spread for the loan, derived from other market instruments.

### *Financial liabilities*

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand.

The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using interest rates for new debts with similar remaining maturity.

### *Other assets and other liabilities*

Carrying amounts of other assets and other liabilities which have no definite repayment dates are assumed to be their fair values.

The fair values of financial instruments that are not quoted in active markets are determined by using generally accepted valuation techniques. Where valuation techniques (for example, discounted cash flow models) are used to determine fair values, they are validated and periodically reviewed by qualified personnel independent of the area that created them. Inputs used in these models are from observable data and quoted market prices in respect of similar financial instruments.

All models are approved by the BOD before they are used, and models are calibrated to ensure that outputs reflect actual data and comparative market prices. Changes in assumptions about these factors could affect reported fair value of financial instruments.

There are no transfers between the fair value hierarchy above for the years ended December 31, 2025 and 2024.

## **22 Capital management**

Capital management is understood to be a facet of risk management. The primary objective of the Bank is the generation of recurring acceptable returns to shareholder's capital. To this end, the Bank's policies, business strategies and activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various funders and stakeholders.

Cognizant of its exposure to risks, the Bank understands that it must maintain sufficient capital to absorb unexpected losses, to stay in business for the long haul, and to satisfy regulatory requirements. The Bank further understands that its performance, as well as the performance of its various units, should be measured in terms of returns generated vis-à-vis allocated capital and the amount of risk borne in the conduct of business.

Effective January 1, 2014, the BSP, through its Circular 781, requires each bank and its financial affiliated subsidiaries to adopt new capital requirements in accordance with the provisions of Basel III. The new guidelines are meant to strengthen the composition of the Bank's capital by increasing the level of core capital and regulatory capital. The Circular sets out minimum Common Equity Tier 1 (CET1) ratio and Tier 1 Capital ratios of 6% and 7.5%, respectively. A capital conservation buffer of 2.5%, comprised of CET1 capital, was likewise imposed. The minimum required capital adequacy ratio (CAR) remains at 10% which includes the capital conservation buffer.

The table below summarizes the Bank's CAR under the Basel III framework for the years ended December 31:

	2025	2024
CET1	10,974,091,222	8,216,804,868
Less: Regulatory adjustments to CET1 capital	1,507,246,041	1,020,434,470
Tier 1 capital	9,466,845,181	7,196,370,398
Tier 2 capital	407,973,309	359,544,077
Total qualifying capital	9,874,818,490	7,555,914,475
Risk weighted assets	54,752,106,740	45,549,964,297
CET1 (%)	17.29%	15.80%
CAR (%)	18.04%	16.59%

The Bank has fully complied with the CAR requirement of the BSP as at December 31, 2025 and 2024.

## 23 Summary of material accounting policies

The material information of the principal accounting policies applied in the preparation of the Bank's financial statements are set out below. These policies have been consistently applied to both years presented, unless otherwise stated.

### 23.1 Basis of preparation

The financial statements of the Bank have been prepared in accordance Philippine Financial Reporting Standards (PFRS) Accounting Standards. PFRS Accounting Standards comprise the following authoritative literature:

- PFRS Accounting Standards
- PAS Standards, and
- Interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), Philippine Interpretations Committee (PIC), and Standing Interpretations Committee (SIC) as approved by the Financial and Sustainability Reporting Standards Council (FSRSC) and the Board of Accountancy, and adopted by the SEC.

The financial statements comprise the statement of condition, statement of income and statement of comprehensive income shown as two statements, statement of changes in capital funds, the statement of cash flows and the notes.

These financial statements of the Bank have been prepared under the historical cost convention, as modified by the revaluation of investment security at FVOCI and plan assets of the Bank's pension plans measured at fair value.

The preparation of financial statements in conformity with PFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and that the financial statements therefore fairly present the financial position and results of the Bank. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are shown below:

#### *Critical accounting estimates*

- Useful lives of bank premises, furniture, fixtures and equipment (Note 7)
- Pension liability on defined benefit obligation (Note 18)
- Determination of incremental borrowing rate (Note 20)
- Measurement of expected credit losses for loans and advances (Note 21.1.3)

#### *Critical accounting judgments*

- Realization of deferred income tax assets (Note 8)
- Determining the lease term (Note 20)

#### **23.1.1 Changes in accounting policy and disclosures**

(a) New standard and amendments to existing standards adopted by the Bank.

There are no new standards or amendments to existing standards effective January 1, 2025 that have a material impact to the Bank.

(b) New standards and amendments to existing standards are not yet adopted by the Bank.

The following new accounting standards are not mandatory for December 31, 2025 reporting period and has not been early adopted by the Bank:

- *PFRS 18, 'Presentation and Disclosure in Financial Statements'*

This is the new standard on presentation and disclosure in financial statements, which replaces PAS 1, with a focus on updates to the statement of profit or loss.

The key new concepts introduced in PFRS 18 relate to:

- The structure of the statement of profit or loss with defined subtotals;
  - Requirement to determine the most useful structure summary for presenting expenses in the statement of profit or loss
  - Required disclosures in a single note within the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
  - Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general
- *Amendments to the Classification and Measurement of Financial Instruments – Amendments to PFRS 9 and PFRS 7*

On May 30, 2024, the IASB issued targeted amendments to PFRS 9 Financial Instruments and PFRS 7 Financial Instruments: Disclosures to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities. These amendments:

- (a) Clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- (b) Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- (c) Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
- (d) Update the disclosures for equity instruments design

The adoption of PFRS 18 and amendments to PFRS 9 and PFRS 7 are not expected to have a material financial effect to the financial statements of the Bank.

There are no other standards, amendments to existing standards or interpretations effective subsequent to January 1, 2026 that are considered relevant or would be expected to have a material impact on the Bank's financial statements.

## **23.2 Financial assets**

### **23.2.1 Classification**

The Bank classifies its financial assets as in the following measurement categories:

- those to be measured subsequently at fair value through other comprehensive income (FVOCI); and
- those to be measured at amortized cost.

The classification depends on the Bank's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at FVOCI, gains and losses will be recorded in OCI. For investments in equity instruments that are not held for trading, this will depend on whether Bank has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

The Bank reclassifies debt investments when and only when its business model for managing those assets changes.

In the determination of the business model, the Bank considers its past experience on how the cash flows for these assets were collected, how the assets' performance are evaluated and how risks are assessed and managed.

### **23.2.2 Recognition**

Regular way purchases and sales of financial assets are recognized on trade date, the date on which the Bank commits to purchase or sell the asset.

### **23.2.3 Measurement**

The classification requirements for debt and equity instruments are described below:

At initial recognition, the Bank measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss.

The Bank classifies its debt instruments at amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent SPPI, and that are not designated at fair value through profit or loss (FVTPL), are measured at amortized cost. The carrying amount of these assets is adjusted by any ECL allowance recognized and measured. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

Financial assets at amortized cost at December 31, 2025 and 2024 include cash and other cash items, due from BSP, due from other banks, interbank loans receivables and SPAR, loans and advances, and other assets.

Cash and cash equivalents consist of cash and other cash items, due from BSP and other banks and interbank loans receivable and SPAR with maturities of less than three months from the date of acquisition and that are subject to insignificant risk of changes in value.

Securities sold subject to repurchase agreements are reclassified in the financial statements as pledged assets when the transferee has the right by contract or custom to sell or repledge the collateral; the counterparty liability is included in deposits from banks or deposits from customers, as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest rate method. Securities purchased under agreements to resell are recorded as loans and advances to other banks and customers and included in the statement of condition under "Interbank loans receivable and securities under agreement to resell." Securities lent to counterparties are also retained in the financial statements.

*Business model:* The business model reflects how the Bank manages the assets in order to generate cash flows. That is, whether the Bank's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at fair value through profit or loss. Factors considered by the Bank in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

*SPPI:* Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Bank considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

The Bank reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

#### *Equity instruments*

The Bank's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognized in other comprehensive income and are not subsequently reclassified to profit or loss, even on disposal. Impairment losses and reversal of impairment losses, if any, are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Bank's right to receive payments is established.

The Bank's investment in a listed equity security at December 31, 2025 and 2024 is measured at FVOCI.

#### **23.2.4 Impairment of financial assets at FVOCI and at amortized cost**

The Bank assesses impairment as follows:

- individually for loans that exceed specified thresholds - where there is an objective evidence of impairment, individually assessed provisions will be recognized; and
- collectively for loans below the specified thresholds noted above or if there is no objective evidence of impairment. These loans are included in a group of loans with similar risk characteristics and collectively assessed for impairment. If there is objective evidence that the group of loans is collectively impaired, collectively assessed provisions will be recognized.

The Bank assesses on a forward-looking basis the ECL associated with its debt instruments carried at amortized cost and FVOCI and with the exposure arising from loan commitments. The Bank recognizes a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

PFRS 9 outlines a ‘three-stage’ model for impairment based on changes in credit quality since initial recognition as summarized below:

- A financial instrument that is not credit-impaired on initial recognition is classified in “Stage 1” and has its credit risk continuously monitored by the Bank.
- If a SICR since initial recognition is identified, the financial instrument is moved to “Stage 2” but is not yet deemed to be credit-impaired. The Bank determines SICR based on prescribed benchmarks approved by the Board of the Directors.
- If the financial instrument is credit-impaired, the financial instrument is then moved to “Stage 3”.
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime ECL that results from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on ECL on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with PFRS 9 is that it should consider forward-looking information.

The Bank assesses on a forward-looking basis the ECL associated with its debt instrument assets carried at amortized cost and FVOCI. The Bank recognizes a loss allowance for such losses at each reporting date.

The following diagram summarizes the impairment requirements under PFRS 9 (other than purchased originated credit-impaired financial assets):

For ECL provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

#### *Determination of SICR*

The Bank compares the probabilities of default occurring over its expected life as at the reporting date with the probability of default occurring over its expected life on the date of initial recognition to determine significant increase in credit risk. Since comparison is made between forward-looking information at reporting date against initial recognition, the deterioration in credit risk may be triggered by the following factors:

- substantial deterioration in credit quality as measured by the applicable internal or external ratings, credit score or shift from investment grade category to non-investment grade category;
- adverse changes in business, financial and/or economic conditions of the borrower;
- early warning signs of worsening credit where the ability of the counterparty to honor his obligation is dependent upon favorable business or economic condition;
- the account has become past due beyond 30 days where an account is classified under special monitoring category; and
- expert judgment for the other quantitative and qualitative factors which may result to SICR as defined by the Bank.

### *Measuring ECL - Inputs, assumptions and estimation techniques*

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. ECLs are the discounted product of the PD, EAD and LGD, defined as follows:

- The PD represents the likelihood that the borrower will default (as per “Definition of default and credit-impaired” above), either over the next 12 months (12M PD), or over the remaining life (lifetime PD) of the asset.
- EAD is based on the amounts the Bank expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining life (lifetime EAD). For example, for a revolving commitment, the Bank includes the current drawn balance plus any further amount that is expected to be drawn up to the current contractual limit by the time of default, should it occur.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

- For amortizing products and bullet repayment loans, this is based on the contractual repayments owed by the borrower over a 12-month or lifetime basis.
- For committed credit lines, the exposure at default is predicted by taking current drawn balance and adding a “credit conversion factor” which allows for the expected drawdown of the remaining limit by the time of default.
- LGD represents the Bank’s expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default.

The LGDs are determined based on the factors which impact the recoveries made post-default.

- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.
- For unsecured products, LGDs are typically set at product level due to the limited differentiation in recoveries achieved across different borrowers. These LGDs are influenced by collection strategies and historical recoveries.

The ECL is determined by multiplying the PD, LGD and EAD together for each individual exposure or collective segment. This effectively calculates an ECL for each future year, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the life of the loans. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band.

Forward-looking economic information is also included in determining the 12-month and lifetime PD. These assumptions vary by product type.

The assumptions underlying the ECL calculation such as how the maturity profile of the PDs and how collateral values change are monitored and reviewed regularly.

The Bank’s forward-looking, point-in-time PD models are driven by internal forecasts of MEVs over the next five years. These models were previously recalibrated annually, but in view of the COVID-19 pandemic, more frequent review and update of these models were conducted starting April 2020 as MEV forecasts were revised quarterly in response to changing macroeconomic conditions. Furthermore, the pandemic was expected to dampen demand for auto and real estate collaterals and thus decrease market prices, so appropriate haircuts were applied on estimated recoveries from collaterals. These haircuts, however, did not increase the Bank’s LGD as these were offset by the Bank’s favorable collection experience.

### *Forward-looking information incorporated in the ECL models*

The Bank incorporates historical and current information, and forecasts forward-looking events and key economic variables that are assessed to impact credit risk and ECL for each portfolio. Macroeconomic variables that affect a specific portfolio's non-performing loan rate(s) are determined through statistical modelling and the application of expert judgement. The Bank's economics team establishes possible global and domestic economic scenarios. With the use of economic theories and conventions, expert judgement and external forecasts, the economics team develops assumptions to be used in forecasting variables in the next five (5) years, subsequently reverting to long run-averages. The probability-weighted ECL is calculated by running each scenario through the relevant ECL models and multiplying it by the appropriate scenario weighting.

The estimation and application of forward-looking information requires significant judgment. As with any economic forecasts, the projections and likelihood of occurrences are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The scenarios and their attributes are reassessed at each reporting date. Information regarding the forward-looking economic variables and the relevant sensitivity analysis is disclosed in Note 21.

### *Financial assets with low credit risk*

Loss allowance for financial assets at amortized cost and FVOCI that have low credit risk is limited to 12-month ECLs. Management considers "low credit risk" for listed government bonds to be an investment grade credit rating with at least one major rating agency. Other debt instruments are considered to be low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

### *Definition of default and credit-impaired assets*

The Bank considers a financial instrument in default or credit-impaired, when it meets one or more of the following criteria:

#### *Quantitative criteria*

The borrower is more than 90 days past due on its contractual payments (with the exception of micro-finance loans where a borrower is required to be over 10 days past due, respectively, to be considered in default).

#### *Qualitative criteria*

The counterparty is experiencing significant financial difficulty which may lead to non-payment of loan as may be indicated by any or combination of the following events:

- The counterparty is in long-term forbearance;
- The counterparty is insolvent;
- The counterparty is in breach of major financial covenant(s) which lead(s) to event of default;
- An active market for the security has disappeared;
- Granting of concession that would not be otherwise considered due to economic or contractual reasons relating to the counterparty's financial difficulty;
- It is becoming probable that the counterparty will enter bankruptcy or other financial reorganization; and
- Financial assets are purchased or originated at a deep discount that reflects the incurred credit losses.

The criteria above have been applied to all financial instruments held by the Bank and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the PD, EAD, and LGD throughout the Bank's ECL calculations.

The Bank's definition of default is substantially consistent with non-performing loan definition of the BSP. For treasury and debt securities, these are classified as defaulted based on combination of BSP and external credit rating agency definitions.

### **23.2.5 Modification of loans**

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Bank assesses whether or not the new terms are substantially different to the original terms. The Bank does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Bank derecognizes the original financial asset and recognizes a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Bank also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognized in the statement of income as a gain or loss on derecognition.

If the terms are not substantially different, the Bank recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in the statement of income. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

### **23.2.6 Derecognition of financial assets other than modification**

Financial assets, or a portion thereof, are derecognized when the contractual rights to receive the cash flows from the assets have ceased, or when they have been transferred and either (i) the Bank transfers substantially all the risks and rewards of ownership, or (ii) the Bank neither transfers nor retains substantially all the risks and rewards of ownership and the Bank has not retained control.

The Bank derecognizes financial assets if the principal terms and conditions have been modified in accordance with a new (restructured) agreement setting forth a new plan of payment or a schedule of payment on a periodic basis. Derecognition of loan is necessary in cases where the deterioration in the financial position of the borrower is such that the borrower can no longer service his debt, whether principal and/or interest, according to existing terms and conditions. This would have been brought about by major operating losses and/or serious and sustained impairment in cash flow, in turn caused by factors such as adverse economic and industry trends, contraction of markets or revenue sources, heavy debt burden, poor business/financial management, labor unrest, and product obsolescence which contributed to business financial difficulty.

The Bank enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Bank:

- (i) Has no obligation to make payments unless it collects equivalent amounts from the assets;
- (ii) Is prohibited from selling or pledging the assets; and
- (iii) Has an obligation to remit any cash it collects from the assets without material delay.

### **23.2.7 Write-off policy**

The Bank writes off financial assets when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include (i) ceasing enforcement activity and (ii) where the Bank's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Bank may write-off financial assets that are still subject to enforcement activity. The outstanding contractual amounts of such assets written-off during the year ended December 31, 2025 was P2,904.01 million (2024 - P1,901.35 million). The write-off of loans is being approved by the BOD in compliance with the BSP requirements.

## **23.3 Financial liabilities**

### **23.3.1 Classification**

The Bank classifies its financial liabilities at amortized cost.

Financial liabilities measured at amortized cost include deposit liabilities, accrued interest and other expenses, and other liabilities (except tax-related or statutory payables).

### **23.3.2 Recognition and measurement**

#### *Initial recognition and measurement*

Financial liabilities at amortized cost are initially recognized at fair value less transaction costs.

#### *Subsequent measurement*

Financial liabilities at amortized cost are subsequently measured at amortized cost using the effective interest rate method.

### **23.3.3 Derecognition**

Financial liabilities are derecognized when they have been redeemed or otherwise extinguished (i.e. when the obligation is discharged or is cancelled or has expired).

## **23.4 Fair value measurement**

The fair value of financial and non-financial liabilities takes into account non-performance risk, which is the risk that the entity will not fulfill an obligation.

The appropriate level is determined on the basis of the lowest level input that is significant to the fair value measurement.

For financial instruments traded in active markets, the determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations. This includes listed equity securities and quoted debt instruments on major exchanges and broker quotes mainly from PDEX and Bloomberg.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive. Indications that a market is inactive are when there is a wide bid-offer spread or significant increase in the bid-offer spread or there are few recent transactions.

For all other financial instruments, fair value is determined using valuation techniques. In these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows or other valuation techniques, using inputs (for example, LIBOR yield curve, FX rates, volatilities and counterparty spreads) existing at reporting dates. The Bank uses widely recognized valuation models for determining fair values of non-standardized financial instruments of lower complexity. For these financial instruments, inputs into models are generally market observable.

In cases when the fair value of unlisted equity instruments cannot be determined reliably, the instruments are carried at cost less impairment.

The fair value for loans and advances as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs. The fair values of contingent liabilities and irrevocable loan commitments correspond to their carrying amounts.

#### *Non-financial assets or liabilities*

The Bank uses valuation techniques that are appropriate in the circumstances and applies the technique consistently. Commonly used valuation techniques are as follows:

- Market approach - A valuation technique that uses observable inputs, such as prices, broker quotes and other relevant information generated by market transactions involving identical or comparable assets or group of assets.
- Income approach - A valuation technique that converts future amounts (e.g., cash flows or income and expenses) to a single current (i.e., discounted) amount. The fair value measurement is determined on the basis of the value indicated by current market expectations about those future amounts.
- Cost approach - A valuation technique that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

The fair values were determined in reference to observable market inputs reflecting orderly transactions, i.e. market listings, published broker quotes and transacted deals from similar and comparable assets, adjusted to determine the point within the range that is most representative of the fair value under current market conditions.

The fair values of the Bank's foreclosed assets (shown as Assets held for sale) fall under level 2 of the fair value hierarchy using market approach. The Bank has no non-financial assets or liabilities classified under Level 3 as at December 31, 2025 and 2024.

### **23.5 Bank premises, furniture, fixtures and equipment**

Bank premises, furniture, fixtures and equipment are stated at historical cost less accumulated depreciation.

Subsequent costs are included in the asset's carrying amount or are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the financial year in which they are incurred.

Depreciation on assets is calculated using the straight-line method to allocate cost of each asset less its residual value over its estimated useful life as follows:

	Estimated useful life
Leasehold, rights and improvements	Based on lease term or life of the leased item whichever is shorter
Furniture, fixtures, and equipment	60 months
Computer equipment	60 months

Leasehold rights and improvements in progress are stated at cost. Costs are accumulated in the accounts until these projects are completed upon which these are classified to the appropriate property accounts and accordingly depreciated.

Major renovations are depreciated over the remaining useful life of the related asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value-in-use.

### **23.6 Computer software**

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specified software. These costs are amortized on a straight-line basis over the expected useful lives of three to five years. Computer software is included in Other assets, net.

Costs associated with maintaining computer software programs are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.

Computer software is derecognized upon disposal or when no future economic benefits are expected from its use or disposal.

### **23.7 Impairment of non-financial assets**

Assets that have indefinite useful lives are not subject to amortization and depreciation and are tested annually for impairment. Assets that have definite useful life are subject to amortization and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For purposes of assessing impairment, assets are grouped at the lowest levels for which there is a separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

### **23.8 Foreclosed asset**

Assets foreclosed shown as Assets held for sale in the statement of condition are accounted for at the lower of cost and fair value less cost to sell, similar to the principles of PFRS 5. The cost of assets foreclosed includes the carrying amount of the related loan less allowance for impairment at the time of foreclosure. Impairment loss is recognized for any subsequent write-down of the asset to fair value less cost to sell.

These foreclosed assets are classified as assets held for sale since it is the intention of the Bank's management to principally recover the carrying amount through sale transactions and the sale is considered highly probable.

The sale is expected to be completed within one year from the date of classification. In case events or circumstances may extend the period to complete the sale beyond one year, the extension of the period to complete the sale does not preclude the asset from being classified as held-for-sale if the delay is caused by events or circumstances beyond the Bank's control and the Bank remains committed to its plan to sell the asset.

### **23.9 Provisions for legal or contractual obligations**

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events; it is probable that an outflow of assets will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects the current market assessments of the time value of money and the risk specific to the obligation. The increase in provision due to the passage of time is recognized as interest expense.

### **23.10 Interest income and expense**

Interest income and expense are recognized in the statement of income for all interest-bearing financial instruments using the effective interest rate method.

When calculating the effective interest rate, the Bank estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognized using the rate of interest used to discount future cash flows for the purpose of measuring impairment loss.

### **23.11 Service fee income**

The Bank recognized revenue when (or as) the Bank satisfies a performance obligation by transferring a promised good or service to a customer (i.e. an asset). An asset is transferred when (or as) the customer obtains control of that asset.

Service fee income are generally recognized over time when the service has been provided and the control over the service is transferred to the customer. The service being rendered by the Bank represents a single performance obligation.

Service fees are recognized on an accrual basis when the service has been provided. Services fees compose of the processing fee and the motorized collector for both personal loans and SEME loans. Service fee income arising from loans, deposits and other banking transactions are recognized as income based on agreed terms and conditions.

### **23.12 Foreign currency translation**

#### *Functional and presentation currency*

Items in the financial statements of the Bank are measured using the currency of the primary economic environment in which it operates (the functional currency). The financial statements are presented in Philippine Peso, which is the Bank's functional currency.

### **23.13 Income taxes**

#### *Current income tax*

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the country where the Bank operates and generates taxable income.

Management periodically evaluates positions taken in tax returns with respect to situations in which the applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

### *Deferred income tax*

The deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred income tax liabilities are recognized in full for all taxable temporary differences. Deferred income tax liabilities are provided on taxable temporary differences except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Bank and it is probable that the temporary difference will not reverse in the foreseeable future.

### Employee benefits

#### *(a) Short-term benefits*

The Bank recognizes a liability, net of amount already paid and an expense for services rendered by employees during the accounting period. Short-term benefits given to its employees include salaries and wages, social security contributions, short-term compensated absences and bonuses, and non-monetary benefits.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

#### *(b) Defined benefit retirement plan*

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability recognized in the statement of condition in respect of defined benefit pension plan is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets. The defined benefit obligation is calculated annually by an independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The amount of pension asset recognized in the books is reduced by the amount of asset ceiling, as applicable.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

Past-service costs are recognized immediately in profit or loss.

For individual financial reporting purposes, the unified plan assets are allocated based on the level of the defined benefit obligation attributable to each entity to arrive at the net liability or asset that should be recognized in the individual financial statements.

#### *(c) Defined contribution retirement plan*

The Bank also maintains a defined contribution plan that covers certain full-time employees. Under its defined contribution plan, the Bank pays fixed contributions based on the employees' monthly salaries. The Bank, however, is covered under RA No. 7641, otherwise known as The Philippine Retirement Pay Law, which provides for its qualified employees a defined benefit minimum guarantee. The defined benefit minimum guarantee is equivalent to a certain percentage of the monthly salary payable to an employee at normal retirement age with the required credited years of service based on the provisions of RA No. 7641. Accordingly, the Bank accounts for its retirement obligation under the higher of the defined benefit obligation relating to the minimum guarantee and the obligation arising from the defined contribution plan.

For the defined benefit minimum guarantee plan, the liability is determined based on the present value of the excess of the projected defined benefit obligation over the projected defined contribution obligation at the end of the reporting period. The defined benefit obligation is calculated annually by a qualified independent actuary using the projected unit credit method. The Bank determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability (asset) and then, it takes into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to the defined benefit plan are recognized in the statement of income.

The defined contribution liability is measured at the fair value of the defined contribution assets upon which the defined contribution benefits depend, with an adjustment for margin on asset returns, if any, where this is reflected in the defined contribution benefits.

Actuarial gains and losses arising from the remeasurements of the net defined contribution liability are recognized immediately in other comprehensive income.

*(d) Profit sharing and bonus plans*

The Bank recognizes a liability and an expense for bonuses and profit-sharing, based on a formula that takes into consideration the profit attributable to the Bank's shareholder after certain adjustments. The Bank recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

#### **23.14 Capital Funds**

*Other reserves*

Other reserves represent the difference between the consideration given and the aggregate book value of the assets and liabilities acquired from the previous merger with BPI Globe Banko in 2016 which was accounted for under the predecessor cost method.

#### **23.15 Leases**

The Bank recognizes leases as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use.

Assets and liabilities arising from long-terms leases are initially measured on a present value basis. The interest expense is recognized in the statement of income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the lease commencement date plus any initial direct costs incurred, less any lease incentives received. The right-of-use asset is subsequently depreciated on a straight-line basis over the lease term. The right-of-use asset may be reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the rate implicit in the lease or, if that rate cannot be readily determined, the Bank's incremental borrowing rate. Generally, the Bank uses its incremental borrowing rate as the discount rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

Payments associated with leases of low-value assets are recognized on a straight-line basis as an expense in the statement of income. Low-value assets comprise certain IT-equipment and office furniture.

## 24 Supplementary information required by BSP Circular No. 1074

Presented below are the additional information required by BSP Circular No. 1074 issued on January 8, 2020. This information is presented for BSP reporting purposes and is not required in the basic financial statements. The 2024 information is presented for comparative purposes only.

### (i) Basic quantitative indicators of financial performance

The key financial performance indicators as at December 31 follow:

	2025	2024
Return on average equity <sup>1</sup>	28.76%	34.06%
Return on average assets <sup>2</sup>	4.62%	4.83%
Net interest margin <sup>3</sup>	21.12%	19.88%

<sup>1</sup>Net income divided by average total equity for the period indicated. Average total equity is based on the year-on-year balance of equity for the years ended December 31, 2025 and 2024.

<sup>2</sup>Net income divided by average total assets as at period indicated. Average total assets is based on the year-on-year balance of total assets as at December 31, 2025 and 2024.

<sup>3</sup>Net interest income divided by average interest-earning assets. Average interest earning assets is based on the year-on-year balance of interest earning assets as at December 31, 2025 and 2024.

### (ii) Description of capital instrument issued

The Bank considers its common shares as capital instrument for the purpose of calculating its CAR as at December 31, 2025 and 2024.

### (iii) Significant credit exposures

Details of the Bank's loans and advances portfolio as to concentration to industry/economic sector (in %) at December 31 are as follows:

	2025	2024
Private household with employed persons	68	68
Wholesale and retail trade	25	25
Real estate, renting and other related activities	4	4
Manufacturing	2	2
Others	1	1
	100	100

Details of the loans and advances portfolio as to concentration per industry/economic sector over Tier 1 Capital (in %) as at December 31 are as follows:

	2025	2024
Private household with employed persons	324	360
Wholesale and retail trade	134	134
Real estate, renting and other related activities	21	20
Manufacturing	12	12
Others	5	5

### Breakdown of total loans

Details of the Bank's loans and advances portfolio at December 31 as to collateral (amounts net of unearned discounts and exclusive of accrued interest receivable) are as follows:

	2025	2024
<b>Secured loans</b>		
Real estate mortgage	1,924,239,788	1,566,326,277
Chattel mortgage	21,908,232	151,202
Large corporate customer	25,180,706	31,931,909
Small and medium enterprise	723,565	857,806
	1,972,052,291	1,599,267,194
<b>Unsecured loans</b>		
Personal loans	29,046,012,614	26,056,651,015
Manpower/Microfinance loans	16,743,633,422	14,525,928,658
	45,789,646,036	40,582,579,673
	47,761,698,327	42,181,846,867

Non-performing loans, net of allowance for credit losses, at December 31 are as follows:

	2025	2024
Non-performing loans (NPL)	4,625,164,259	3,122,385,636
Accounts with specific allowance for credit losses	(3,700,539,194)	(2,279,709,950)
Net NPL	924,625,065	842,675,686

BSP Circular 941, Amendments to Regulations on Past Due and Non-Performing Loans, states that loans, investments, receivables, or any financial asset shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and if there is an evidence that full repayment of principal and interest is unlikely without foreclosure of collateral. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement. Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after it has become past due. Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained.

#### (iv) Information on related party loans

The Bank has no DOSRI loans as at December 31, 2025 and 2024. Details of loans to related parties are as follows:

	2025	2024
Outstanding loans to related parties	71,007,608	45,105,750
% to total outstanding loans and advances	0.15%	0.11%
% to total outstanding related party loans		
Unsecured related party loans	-	-
Past due related party loans	-	-
Non-performing related party loans	-	-

#### (v) Liabilities and assets pledged as security

There are no loans and advances at December 31, 2025 and 2024 used as security for liabilities.

#### (vi) Contingencies and commitments arising from off-balance sheet items

The Bank does not have any contingencies and commitments arising from off-balance sheet items as at December 31, 2025 and 2024.

## 25 Supplementary information required by the Bureau of Internal Revenue (BIR)

Below is the additional information required by Revenue Regulations No. 15-2010 that is relevant to the Bank. This information is presented for the purposes of filing with the BIR and is not a required part of the basic financial statements.

### (i) Documentary stamp tax

Documentary stamp taxes paid through the Electronic Documentary Stamp Tax System for the year ended December 31, 2025 consists of:

	Amount
Deposit and loan documents	411,444,002
Others	815,478
	412,259,480

### (ii) Withholding taxes

Withholding taxes paid/accrued and/or withheld for the year ended December 31, 2025 consist of:

	Paid	Accrued	Total
Final income taxes withheld on interest on deposits and yield on deposit substitutes	362,179,837	34,177,477	396,357,314
Income taxes withheld on compensation	70,463,068	3,611,112	74,074,180
Creditable income taxes withheld (expanded)	49,000,634	5,135,978	54,136,612
Final income taxes withheld on the amount withdrawn from decedent's deposit account	6,258,339	3,680,453	9,938,792
	487,901,878	46,605,020	534,506,898

Withholding tax payable is presented under Other liabilities in the statement of condition.

### (iii) All other local and national taxes

All other local and national taxes paid/accrued for the year ended December 31, 2025 consist of:

	Paid	Accrued	Total
Gross receipts tax	802,402,026	217,555,252	1,019,957,278
Municipal taxes / Mayor's permit	75,230,220	-	75,230,220
Fringe benefits tax	1,142	-	1,142
Real property tax	1,452,155	-	1,452,155
	879,085,543	217,555,252	1,096,640,795

Except for the gross receipts tax which is netted against the related income, real property tax and municipal taxes/Mayor's permit are presented as part of Taxes and licenses and Others under Other operating expenses, respectively. Fringe benefits tax is presented as part of Compensation and fringe benefits in the statement of income.

### (iv) Tax cases and assessments

As at reporting date, the Bank has no outstanding tax cases under preliminary investigation, litigation and/or prosecution in courts or bodies outside the BIR.

### Our Opinion

In our opinion, the accompanying financial statements of the Foreign Currency Deposit Unit (FCDU) of BPI Direct BanKo, Inc., A Savings Bank (the "Bank") as at and for the years ended December 31, 2025 and 2024 are prepared, in all material respects, in accordance with the reporting guidelines of the Bangko Sentral ng Pilipinas (BSP).

### What we have audited

The financial statements comprise:

- the statements of condition as at December 31, 2025 and 2024;
- the statements of income for the years ended December 31, 2025 and 2024;
- the statements of total comprehensive income for the years ended December 31, 2025 and 2024;
- the statements of changes in due to regular banking unit for the years ended December 31, 2025 and 2024;
- the statements of cash flows for the years ended December 31, 2025 and 2024; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Isla Lipana & Co., 29th Floor, AIA Tower, 8767 Paseo de Roxas,  
1226 Makati City, Philippines

## **Basis for Opinion**

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Independence**

We are independent of the Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to our audit of the financial statements of public interest entities in the Philippines. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

### **Emphasis of Matter - Basis of Accounting and Restriction on Use**

We draw attention to Note 11 to the financial statements, which describes the basis of accounting.

The financial statements are prepared in accordance with the reporting guidelines prescribed by the BSP. As a result, the financial statements may not be suitable for another purpose. Our report is intended solely for the information and use of the management of the Bank, and for purposes of submission to the BSP and Bureau of Internal Revenue and is not intended for any other purpose. Our opinion is not modified in respect of this matter.

## **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation of the financial statements in accordance with the reporting guidelines of the BSP as described fully in Note 11 to the financial statements, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in accordance with the reporting guidelines of the BSP, as described in Note 11 to the financial statements.

Independent Auditor's Report  
To the Board of Directors and Shareholder of  
BPI Direct Banko, Inc., A Savings Bank  
Foreign Currency Deposit Unit  
Page 5

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **BPI Direct BanKo, Inc., A Savings Bank**

Foreign Currency Deposit Unit

Notes to the Financial Statements

As at and for the years ended December 31, 2025 and 2024

(In the notes, all amounts are shown in Philippine Peso unless otherwise stated)

### **1 General information**

#### **1.1 Business information**

BPI Direct BanKo, Inc., A Savings Bank (the “Bank”) was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on September 26, 1986 primarily to engage in and carry on the general business of savings and mortgage banking.

The Foreign Currency Deposit Unit (FCDU) license was granted to the Bank on October 31, 2008.

The Bank is a wholly-owned subsidiary of Bank of the Philippine Islands (“BPI” or the “Parent Bank”), a domestic commercial bank with an expanded banking license, which is also its ultimate parent.

The Bank’s registered office address, which is also its principal place of business, is 220 Ortigas Avenue, BanKo Center, North Greenhills, San Juan City, Metro Manila.

The Bank has 3,432 regular employees as at December 31, 2025 (2024 - 3,192).

#### **1.2 Approval of the Bank’s financial statements**

These financial statements have been approved and authorized for issuance by the Board of Directors on March 25, 2026.

### **2 Due from other banks**

The account consists of deposits with the Parent Bank amounting to P182,972,977 as at December 31, 2025 (2024 - P181,470,606) and earns interest at prevailing rate (Note 8).

Interest income recognized on these deposits amounts to P2,163,495 for the year ended December 31, 2025 (2024 - P1,868,154).

Due from other banks is classified as current as at December 31, 2025 and 2024.

### **3 Deposit liabilities**

The account consists of savings deposits amounting to P155,632,475 at December 31, 2025 (2024 - P156,150,113). All are payable on demand.

Interest expense recognized on deposit liabilities amounts to P407,072 for the year ended December 31, 2025 (2024 - P360,831).

The deposit liabilities under FCDU are not subject to the reserve requirement ratio of the Bangko Sentral ng Pilipinas (BSP).

#### 4 Other liabilities

The account at December 31 consists of:

	2025	2024
Inter-unit clearing account	26,279,928	24,427,700
Miscellaneous liabilities	39,867	17,994
	26,319,795	24,445,694

Inter-unit clearing account is related to the transfer of foreign currencies between regular banking unit (RBU) and FCDU and other inter-unit transactions aside from transfer of income or loss to the Bank's RBU.

Miscellaneous liabilities include withholding taxes and sundry credits.

Other liabilities are classified as current as at December 31, 2025 and 2024.

#### 5 Service fee income

The account consists of service charges on deposit accounts for failure to meet minimum balance requirements which amount to P58,397 for the year ended December 31, 2025 (2024 - P68,971).

#### 6 Miscellaneous expenses

The account mainly includes allocated costs from the Bank's RBU which amount to P311,813 for the year ended December 31, 2025 (2024 - P293,718).

#### 7 Income taxes

Income subject to tax for the year ended December 31 consists of revenue generated from on-shore transactions of the FCDU.

A reconciliation between the income tax expense at the statutory income tax rate to the actual income tax expense for the years ended December 31 are as follows:

	2025		2024	
	Amount	Rate (%)	Amount	Rate (%)
Statutory income tax	375,752	25.00	320,644	25.00
Effects of items not subjected to statutory tax rate				
Non-deductible expenses	165,121	10.99	152,067	11.86
Income subjected to lower tax rates	(194,335)	(12.93)	(192,390)	(15.00)
Income tax expense	346,538	23.06	280,321	21.86

#### 8 Related party transactions

In the ordinary course of business, the Bank has transactions with the Parent Bank and other related entities which are recognized in the FCDU books. These transactions usually arise from normal banking activities such as deposit arrangements and outsourcing of certain services primarily loans operations, branch operations and human resource-related functions. These transactions are done on an arm's length basis and are made substantially on the same terms and conditions as transactions with unaffiliated individuals and businesses of comparable risks under the same or similar circumstance.

Significant related party transactions at December 31, 2025 of the FCDU pertain to deposits with the Parent Bank amounting to P182,972,977 (2024 - P181,470,606). Related interest income is disclosed in Note 2.

## **9 Other commitments and contingent liabilities**

There are no outstanding commitments and contingent liabilities involving the Bank's FCDU as at December 31, 2025 and 2024.

## **10 Financial risk and capital management**

Risk management of the Bank, including the FCDU, covers all perceived areas of risk exposure, even as it continuously endeavors to uncover hidden risks. Capital management is understood to be a facet of risk management. The Board of Directors is the Bank's principal risk and capital manager and the Bank's only strategic risk taker. The Board of Directors provides written policies for overall risk management, as well as written procedures for the management of foreign exchange risk, interest rate risk, credit risk, equity risk, and contingency risk, among others.

The primary objective of the Bank is the generation of recurring acceptable returns to shareholder's capital. To this end, the Bank's policies, business strategies, and business activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various other funders and stakeholders.

To generate acceptable returns to its shareholder's capital, the Bank understands that it has to bear risk, that risk-taking is inherent in its business. Risk is understood by the Bank as the uncertainty in its future income - an uncertainty that emanates from the possibility of incurring losses that are due to unplanned and unexpected drops in revenues, increases in expenses, impairment of asset values, or increases in liabilities.

The possibility of incurring losses is, however, compensated by the possibility of earning more than expected income. Risk-taking is, therefore, not entirely a bad step to be avoided. Risk-taking presents opportunities if risks are accounted, deliberately taken, and are kept within rationalized limits.

The Risk Management Office is responsible for the management of market and liquidity risks. Its objective is to minimize adverse impact on the Bank's financial performance due to the unpredictability of financial markets.

Market and credit risks management in the Bank is carried out through policies approved by the Risk Management Committee and the Board of Directors. In addition, Internal Audit is responsible for the independent review of risk assessment measures and procedures and the control environment. For risk management purposes, risks emanating from Treasury activities are managed independently.

The most important risks that the Bank manages are credit risk, liquidity risk, market risk and other operational risks. Market risk includes currency exchange risk, interest rate and other price risks.

### **10.1 Credit risk**

The Bank, including the FCDU, takes on exposure to credit risk, which is the risk that may arise if a borrower or counterparty fails to meet its obligations in accordance with agreed terms. Credit risk is the single largest risk for the Bank's business; management therefore carefully manages its exposure to credit risk as governed by relevant regulatory requirements and international benchmarks.

Credit exposure in the FCDU arises principally from financial assets at amortized cost consisting of Due from other banks and related interest receivable. The Credit Policy Group works with the Credit Committee in managing credit risks, and reports are regularly provided to the Board of Directors.

The maximum credit risk exposure relates to Due from other banks and accrued interest receivable, presented as part of other assets in the statement of condition, which amounts to P182,972,977 and P1,882, respectively, as at December 31, 2025 (2024 - P181,470,606 and P12,444, respectively), which are deposited in a reputable bank and are considered fully performing (Note 2). Deposits are made with a reputable bank with a good credit rating. Management has determined that there is a low risk of default on these deposits and interest receivable and has assessed that the said counterparty has strong financial capacity to meet its contractual cash flow obligations in the near term. Low credit risk assets are at a minimum subject to 12-month expected credit loss (ECL). Based on its assessment, management has ascertained that the corresponding 12-month ECL is not material for financial reporting purposes as at December 31, 2025 and 2024.

## 10.2 Market risk

The Bank, including the FCDU, is exposed to market risk, the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

Market risk management is incumbent on the Board of Directors through its Risk Management Committee.

### 10.2.1 Interest rate risk

There are two types of interest rate risk: (i) fair value interest rate risk and (ii) cash flow interest rate risk. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Bank, including the FCDU, takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates. Interest margins may increase as a result of such changes but may also result in losses in the event that unexpected movements arise.

The Board of Directors sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored daily by the Risk Management Office.

Interest rate risk in the banking book arises from the Bank's core banking activities. The main source of this type of interest rate risk is repricing risk, which reflects the fact that the Bank's assets and liabilities are of different maturities and are priced at different interest rates.

The FCDU's financial assets and liabilities as at December 31 are all non-repricing and are broken down as follows:

	2025	2024
Financial assets		
Due from other banks	182,972,977	181,470,606
Accrued interest receivable	1,882	12,444
Total financial assets	182,974,859	181,483,050
Financial liabilities		
Deposit liabilities	155,632,475	156,150,113
Accrued interest payable	-	16,716
Total financial liabilities	155,632,475	156,166,829
Total interest repricing gap	27,342,384	25,316,221

### 10.2.2 Foreign currency exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in foreign exchange rates. It arises on financial instruments that are denominated in a foreign currency other than the functional currency which they are measured.

Foreign currency exchange risk is being managed on a Bank-wide basis. The Bank takes on exposure to the effects of fluctuations in the prevailing exchange rates on its foreign currency financial position and cash flows. As at December 31, 2025 and 2024, the amounts shown in the statement of condition represent the FCDU's exposure to foreign exchange rate risk resulting from the conversion of USD to Peso.

### 10.3 Liquidity risk

Liquidity risk is the risk that the Bank, including the FCDU, is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

The Bank's liquidity management process, as carried out within the Bank and monitored by the Risk Management Committee and the Risk Management Office includes:

- day-to-day funding, which includes replenishment of funds as they mature or are borrowed by customers, managed by monitoring future cash flows to ensure that requirements can be met;
- maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring balance sheet liquidity ratios against internal and regulatory requirements;
- managing the concentration and profile of debt maturities; and
- performing periodic liquidity stress testing on the Bank's liquidity position by assuming a faster rate of withdrawals in its deposit base.

Monitoring and reporting take the form of cash flow measurement and projections for the next days, weeks and months as these are key periods for liquidity management. The starting point for those projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets.

Sources of liquidity are regularly reviewed by the Bank to maintain a wide diversification by currency, geography, counterparty, product and term. Assets available to meet all of the liabilities include due from other banks. The Bank would also be able to meet unexpected net cash outflows by accessing additional funding sources.

The FCDU's financial liabilities at December 31, 2025, which consist of savings deposits and accrued interest payable amounting to P155,632,475 and nil respectively, (2024 - P156,150,113 and P16,716, respectively), have no stated maturity and are repayable on demand.

The Bank has sufficient liquid assets (mainly Due from other banks) to meet its financial liabilities as at December 31, 2025 and 2024.

#### *Liquidity Coverage Ratio (LCR)*

Pursuant to BSP Circular No. 905 issued in 2016, the Bank is required to hold and maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that are sufficient to meet its estimated total cash outflows over a 30 calendar-day period of liquidity stress. The LCR is the ratio of HQLAs to total net cash outflows which should be no lower than 100% on a daily basis. It is designed to promote short-term resilience of the Bank's liquidity risk profile to withstand significant liquidity shocks that may last over 30 calendar days. HQLA represent the Bank's stock of liquid assets that qualify for inclusion in the LCR which consist mainly of cash, regulatory reserves and unencumbered high-quality liquid securities. HQLAs therefore, serve as defense against potential stress events.

The main drivers of the Bank's LCR comprise the changes in the total stock of HQLA as well as changes in net cash outflows related to deposits, unsecured borrowings and commitment facilities, if any.

### *Net Stable Funding Ratio (NSFR)*

On January 1, 2019, the Bank adopted BSP Circular No. 1007 issued in 2018 regarding the NSFR requirement. The NSFR is aimed at strengthening the Bank's long-term resilience by maintaining a stable funding in relation to its assets and off-balance sheet items as well as to limit the maturity transformation risk of the Bank. The NSFR is expressed as the ratio of available stable funding and the required stable funding and complements the LCR as it takes a longer view of the Bank's liquidity risk profile. The Bank's capital, retail deposits and long-term debt are considered as stable funding sources whereas the Bank's assets including, but not limited to, performing and non-performing loans and receivables, HQLA and non-HQLA securities as well as off-balance items form part of the required stable funding. The Bank's NSFR is well-above the regulatory minimum of 100%.

The Bank maintains a well-diversified funding base and has a substantial amount of core deposits, thereby avoiding undue concentrations by counterparty, maturity, and currency. The Bank manages its liquidity position through asset-liability management activities supported by a well-developed funds management practice as well as a sound risk management system. As part of risk oversight, the Bank monitors its liquidity risk on a daily basis, in terms of single currency and significant currencies, to ensure it is operating within the risk appetite set by the BOD and to assess ongoing compliance with the minimum requirement of the liquidity ratios. Furthermore, the Bank has a set of policies and escalation procedures in place that govern its day-to-day risk monitoring and reporting processes.

The table below shows the actual liquidity metrics of the Bank (combined RBU and FCDO) as at December 31:

	2025	2024
Liquidity coverage ratio – Philippine Peso	131.02%	114.78%
Net stable funding ratio	143.85%	123.42%
Leverage ratio	14.29%	13.63%
Total exposure measure	66,251,305,370	52,800,142,894

### **10.4 Fair values of financial assets and liabilities**

As at December 31, 2025 and 2024, the carrying value of the financial asset and liabilities approximates its fair value.

There are no financial assets and liabilities measured at fair value as at December 31, 2025 and 2024.

#### *Due from other banks*

The fair value of floating rate placements and overnight deposits approximates their carrying amount. The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity.

#### *Other assets*

Carrying amounts of other assets which have no definite repayment dates are assumed to be their fair values.

#### *Deposit liabilities*

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The carrying amount of deposit liabilities approximates their fair value due to the short-term nature of these instruments.

## 10.5 Capital management

Capital management is understood to be a facet of risk management. The primary objective of the Bank, including the FCDU, is the generation of recurring acceptable returns to shareholder's capital. To this end, the Bank's policies, business strategies and activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various funders and stakeholders.

Cognizant of its exposure to risks, the Bank understands that it must maintain sufficient capital to absorb unexpected losses, to stay in business for the long haul, and to satisfy regulatory requirements. The Bank further understands that its performance, as well as the performance of its various units, should be measured in terms of returns generated vis-à-vis allocated capital and the amount of risk borne in the conduct of business.

Effective January 1, 2014, the BSP, through its Circular 781, requires each bank and its financial affiliated subsidiaries to adopt new capital requirements in accordance with the provisions of Basel III. The new guidelines are meant to strengthen the composition of the Bank's capital by increasing the level of core capital and regulatory capital. The Circular sets out minimum Common Equity Tier 1 (CET1) ratio and Tier 1 Capital ratios of 6% and 7.5%, respectively. A capital conservation buffer of 2.5%, comprised of CET1 capital, was likewise imposed. The minimum required capital adequacy ratio (CAR) remains at 10% which includes the capital conservation buffer.

The table below summarizes the Bank's CAR (combined RBU and FCDU) under the Basel III framework for the years ended December 31:

	2025	2024
CET1	10,974,091,222	8,216,804,868
Less: Regulatory adjustments to CET1 capital	1,507,246,041	1,020,434,470
Tier 1 capital	9,466,845,181	7,196,370,398
Tier 2 capital	407,973,309	359,544,077
Total qualifying capital	9,874,818,490	7,555,914,475
Risk weighted assets	54,752,106,740	45,549,964,297
CET1	17.29%	15.80%
CAR (%)	18.04%	16.59%

The Bank has fully complied with the CAR requirement of the BSP as at December 31, 2025 and 2024.

## 11 Summary of material accounting policies

The accompanying financial statements reflect the accounts maintained by the FCDU of the Bank. The material accounting policies applied in the preparation of the financial statements of the FCDU of the Bank are set out below. These policies have been consistently applied to both years presented, unless otherwise stated.

### 11.1 Basis of preparation

The financial statements of the Bank's FCDU have been prepared in accordance with the reporting guidelines of the BSP. In general, the said guidelines as they relate to the preparation and presentation of the FCDU financial statements of banks, include all applicable Philippine Financial Reporting Standards (PFRS) Accounting Standards, except with respect to the determination and translation of functional currency as discussed in Note 11.6.

PFRS Accounting Standards comprise the following authoritative literature:

- PFRS Accounting Standards
- PAS Standards, and
- Interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), Philippine Interpretations Committee (PIC), and Standing Interpretations Committee (SIC) as approved by the Financial and Sustainability Reporting Standards Council (FSRSC) and the Board of Accountancy, and adopted by the SEC.

The financial statements of the FCDU of the Bank have been prepared under the historical cost convention.

The financial statements comprise the statements of condition, statements of income and statements of total comprehensive income shown as two statements, statements of changes in due to regular banking unit, statements of cash flows and the notes.

The preparation of financial statements in conformity with PFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and that the Bank's financial statements therefore present the financial position and results fairly. There are no areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements.

#### **11.1.1 Changes in accounting policy and disclosures**

(a) New standards and amendments to existing standards adopted by the Bank.

There are no new standards or amendments to existing standards effective January 1, 2025 that have a material impact to the Bank.

(b) New standards and amendments to existing standards not yet adopted by the Bank.

The following new accounting standards are not mandatory for December 31, 2025 reporting period and has not been early adopted by the Bank:

- PFRS 18, 'Presentation and Disclosure in Financial Statements'

This is the new standard on presentation and disclosure in financial statements, which replaces PAS 1, with a focus on updates to the statement of profit or loss.

The key new concepts introduced in PFRS 18 relate to:

- The structure of the statement of profit or loss with defined subtotals;
- Requirement to determine the most useful structure summary for presenting expenses in the statement of profit or loss
- Required disclosures in a single note within the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

- Amendments to the Classification and Measurement of Financial Instruments – Amendments to PFRS 9 and PFRS 7

On May 30, 2025, the IASB issued targeted amendments to PFRS 9 Financial Instruments and PFRS 7 Financial Instruments: Disclosures to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities. These amendments:

- Clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
- Update the disclosures for equity instruments design.

The adoption of PFRS 18 and amendments to PFRS 9 and PFRS 7 are not expected to have a material financial effect to the financial statements of the Bank.

There are no other standards, amendments to existing standards or interpretations effective subsequent to January 1, 2026 that are considered relevant or would be expected to have a material impact on the Bank's financial statements.

## **11.2 Financial assets**

### **11.2.1 Classification**

The Bank, including the FCDU, classifies its financial assets as those to be measured at amortized cost.

The classification depends on the Bank's business model for managing the financial assets and the contractual terms of the cash flows.

### **11.2.2 Recognition and derecognition**

Regular way purchases and sales of financial assets are recognized on trade date, the date on which the Bank commits to purchase or sell the asset.

### **11.2.3 Measurement**

The classification requirements for debt instruments are described below:

The Bank classifies its debt instruments at amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at fair value through profit or loss (FVTPL), are measured at amortized cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognized and measured. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

Amortized cost financial assets of the FCDU as at December 31, 2025 and 2024 include due from other banks (Note 2) and other assets.

Cash and cash equivalents consist of deposits with the Parent Bank.

*Business model:* The business model reflects how the Bank, including the FCDU, manages the assets in order to generate cash flows. That is, whether the Bank's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Bank, including the FCDU, in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

*SPPI:* Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank, including the FCDU, assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Bank, including the FCDU, considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The FCDU reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

#### **11.2.4 Derecognition of financial assets other than modification**

Financial assets, or a portion thereof, are derecognized when the contractual rights to receive the cash flows from the assets have ceased, or when they have been transferred and either (i) the Bank, including the FCDU, transfers substantially all the risks and rewards of ownership, or (ii) the Bank, including the FCDU, neither transfers nor retains substantially all the risks and rewards of ownership and the Bank has not retained control.

The Bank, including the FCDU, derecognizes financial assets if the principal terms and conditions have been modified in accordance with a new (restructured) agreement setting forth a new plan of payment or a schedule of payment on a periodic basis. Derecognition of loan is necessary in cases where the deterioration in the financial position of the borrower is such that the borrower can no longer service his debt, whether principal and/or interest, according to existing terms and conditions. This would have been brought about by major operating losses and/or serious and sustained impairment in cash flow, in turn caused by factors such as adverse economic and industry trends, contraction of markets or revenue sources, heavy debt burden, poor business/financial management, labor unrest, and product obsolescence which contributed to business financial difficulty.

The Bank, including the FCDU, enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Bank, including the FCDU:

- (i) Has no obligation to make payments unless it collects equivalent amounts from the assets;
- (ii) Is prohibited from selling or pledging the assets; and
- (iii) Has an obligation to remit any cash it collects from the assets without material delay.

#### **11.2.5 Impairment and write-off**

The Bank, including the FCDU, assesses on a forward- looking basis the expected credit losses (ECL) associated with its debt instrument carried at amortized cost. The Bank, including the FCDU, recognizes a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and

- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The FCDU's financial assets pertain to due from other banks and other assets. The FCDU applies the simplified approach, as permitted by PFRS 9, in measuring ECL which uses a lifetime expected loss allowance for financial assets. To measure the expected credit losses, financial assets have been grouped based on shared credit risk characteristics and the days past due. The forward-looking information on macroeconomic factors are considered insignificant in calculating impairment of the FCDU's financial assets.

### **11.3 Financial liabilities**

#### **11.3.1 Classification**

The Bank, including the FCDU, classifies its financial liabilities at amortized cost.

Financial liabilities measured at amortized cost include deposit liabilities and accrued interest payable.

#### **11.3.2 Recognition and measurement**

##### *Initial recognition and measurement*

Financial liabilities at amortized cost are initially recognized at fair value less transaction costs.

##### *Subsequent measurement*

Financial liabilities at amortized cost are subsequently measured at amortized cost using the effective interest rate method.

#### **11.3.3 Derecognition**

A financial liability is removed from the statement of condition when it is extinguished, i.e., when the obligation is discharged or is canceled or expires.

### **11.4 Fair value measurement**

The fair value of financial liabilities takes into account non-performance risk, which is the risk that the entity will not fulfill an obligation.

The appropriate level is determined on the basis of the lowest level input that is significant to the fair value measurement.

The fair values of due from other banks, other assets and deposit liabilities correspond to their carrying amounts.

### **11.5 Interest income and expense**

Interest income and expense are recognized using the effective interest rate method.

### **11.6 Foreign currency translation**

#### *Functional and presentation currency*

Items in the financial statements are measured using the currency of the primary economic environment in which the FCDU operates (the "functional currency"). In accordance with BSP Circular 601, series of 2008, the functional currency of the FCDU is US Dollar while the financial statements are presented in Philippine Peso (the "presentation currency").

For financial reporting purposes and following the requirements under Section 84 of the Manual of Regulations on Foreign Exchange Transactions (MORFXT), the functional currency of the Bank's FCDU is the US Dollar. The FCDU accounts are translated into their equivalent amounts in Philippine Peso. In determining the presentation currency of the FCDU, the Bank's management considered the primary users of these financial statements. These financial statements are prepared mainly for submission to the BSP and for filing with the Bureau of Internal Revenue along with the annual income tax return of the FCDU, which is also presented in Philippine Peso. Consistent with the provision of PAS 21, The Effects of Changes in Foreign Exchange Rates, the Bank's FCDU adopts Philippine Peso as its presentation currency.

The results and financial position of the FCDU are translated into Philippine Peso as follows:

- assets and liabilities are translated at closing rate at year-end;
- income and expenses are translated at exchange rates at the dates of the transactions; and
- all resulting exchange differences are taken to statement of total comprehensive income under cumulative translation adjustment.

Management assessed that the impact of the translation adjustment is insignificant and decided not to present the cumulative translation adjustment separately in the FCDU's financial statements as at December 31, 2025 and 2024.

### **11.7 Service fee income**

The Bank, including the FCDU, recognizes revenue when (or as) the Bank satisfies a performance obligation by transferring a promised good or service to a customer (i.e. an asset). An asset is transferred when (or as) the customer obtains control of that asset.

Service fee income arising from deposits and other banking transactions are recognized as income based on agreed terms and conditions.

### **11.8 Income taxes**

Income earned by the FCDU is taxed as follows: (a) offshore income is tax-exempt, (b) gross onshore income is taxed at 10%, and (c) all other income not classifiable as onshore or offshore is subject to the regular corporate tax rate of 25% of net taxable income.

Income derived by the FCDU from foreign currency transactions with local commercial banks, including branches of foreign banks authorized by the BSP to transact business with the FCDU is subject to 10% final tax. Also, interest earned on deposits with foreign currency denominated units of other banks is subject to 15% final tax from January 1, 2025 up until June 30, 2025. Effective July 1, 2025, under the Capital Markets Efficiency and Promotion Act (CMEPA), interest earned on deposits with foreign currency denominated units of other banks is now subject to 20%.

### **11.9 Expense allocation**

Certain expenses of the Bank are allocated to the FCDU: which takes into consideration the specific transactions of the FCDU.
