OUR VISION

Building a better Philippines, one family, one community at a time.

OUR MISSION

We are the trusted financial partner of the masang Pilipino, giving them a better life today and nurturing their future, through easy access to affordable financial solutions.

CHAIRMAN'S MESSAGE

2024: A Banner Year of Purposeful Progress

Dear Shareholders,

Eight years since the establishment of the new BPI Direct Banko, Inc., we stand at a pivotal moment in our journey—a time marked not only by record-setting performance but by the meaningful advancement of our mission: to uplift Filipino lives through inclusive financial solutions.

In 2024, BanKo's financial performance reached historic highs. Net income surged to ₱2.3 billion—a growth of 80% from previous year—while total assets grew by 22% to ₱52.95 billion. Capital funds rose by over 50%, ensuring a solid foundation for sustained growth. These figures reflect more than financial discipline—they validate our strategy of building long-term, inclusive value.

More than ever, BanKo's role as the microfinance arm of BPI remains vital. Our physical presence in 77 out of 82 provinces, with branches reaching underserved and rural communities, exemplifies our commitment to reach those beyond the margins of traditional banking. We are proud to be

catalysts for inclusion—wherever the Filipino dream takes root.

As we look ahead, we are inspired by the ordinary Filipino— the market vendor, the sari-sari store owner, the small enterprise dreamer. Banko will continue to focus on empowering self-employed micro-entrepreneurs, ensuring access to the tools and support they need to thrive in an evolving economy.

Thank you for your unwavering trust in BanKo. Together, we move forward with purpose, progress, and the promise of financial inclusion for all.

Sincerely,

Gerardo C. Ablaza Jr.Chairman of the Board

PRESIDENT'S MESSAGE

Driving Innovation and Operational Excellence for Every Filipino

Dear Stakeholders,

It is with great pride that I reflect on 2024—a truly banner year for BPI Direct BanKo. This was a year of breakthrough execution across our operational, digital, and customer engagement fronts, all aligned with our mission to empower the self-employed micro-entrepreneur (SEME) sector.

Our reach extended to new territories as we closed the year with 368 branches and branch-lite units, covering 77 out of 82 provinces nationwide. Our BanKo-on-the-Go Mobile Caravans continue to provide Financial Literacy sessions across the country while assisting previously unbanked Filipinos in hard-to-reach areas in opening deposit accounts.

The Banko Mobile App underwent transformative upgrades that allowed borrowers to re-avail loans with a simple click of a button. New borrowers can apply for InstaCashko Multi-purpose Loan via a straight-thru digital process. These features, combined with daily-to-monthly repayment options, allowed our clients to bank in ways tailored to their lives.

New product offers and expanded reach allowed BanKo to grow its loans portfolio to self-employed micro-entrepreneurs by 53% with P21.7B in SEME loans booked this year. Portfolio growth, improved productivity in branches, and careful cost management contributed to 80% increase in net income in 2024 compared to 2023.

Crucial to all these achievements is our team of BanKoMares and BanKoPares. In 2024, we invested heavily in people development. We expanded wellness programs, introduced enhanced retirement benefits, and doubled training sessions to uplift skills and capability across our growing workforce of 3,190 regular employees. These initiatives not only improved employee satisfaction, but also enhanced productivity and service quality, contributing to our overall success.

Looking ahead, BanKo is poised to further accelerate digitalization, strengthen community banking, and refine our loan offerings for SEMEs and low-income salaried

individuals. Each step we take reaffirms our belief that financial inclusion is not just a goal—it is a mission that transforms lives.

Together, we will continue this journey, driven by innovation and anchored in service to the Filipino people.

Yours truly,

Rodolfo K. Mabiasen, Jr President

OUR BUSINESS

BPI Direct Banko, Inc., A Savings Bank (or **Banko**) is a wholly owned subsidiary and the microfinance arm of the Bank of the Philippine Islands (BPI). Since 2016, it has endeavored to strengthen the financial capacities of thousands of Filipino Self-Employed Micro-Entrepreneurs (SEMEs) nationwide by creating an enabling business environment for them. True to its mission of empowering the Negosyanteng Pinoy, Banko has provided access to easy, convenient and affordable loan products to fund their operations, and provided them with an opportunity to grow and expand their businesses.

Banko has achieved remarkable milestones, firmly establishing its commitment to sustainable growth and financial inclusion. Successfully reaching SEME, Banko has emerged as a catalyst for economic development, creating sustainable employment opportunities and leaving a lasting impact on the lives of individuals and communities.

Digital Access

In 2024, the Banko Mobile app registered 589,000 new users, demonstrating strong adoption among self-employed microentrepreneurs (SEMEs) and underserved communities. By streamlining the loan application process and enabling digital access to small business and personal loans, an 85% growth in new registered users was achieved, which led to a remarkable 104% increase in financial transactions.

The Banko Mobile app prioritizes security and user-friendliness with features such as loan monitoring, payment reminders, and robust authentication measures. We've also integrated advanced fraud management and monitoring systems, ensuring that the app remains a safe and trustworthy platform for customers' financial transactions and asset protection.

Clients can easily open accounts through the app, including the TODO Savings account with a competitive 5% annual interest rate, and the PondoKo Savings account, a basic deposit option designed for accessibility. These initiatives underscore BanKo's commitment to building financial resilience and ensuring accessible banking for everyone.

Additionally, the Banko Mobile app enriches the financial experience by offering free InstaPay services, load rebates, and low fees for bill payments. These features are crafted to keep digital financial services both accessible and affordable, reinforcing Banko's dedication to inclusive and customer-first banking.

Expanding Horizons: BanKo's Branch Network

By the close of 2024, Banko has significantly broadened its presence with a network encompassing 368 branches and branch-lite units nationwide, with a remarkable 99% located in provincial areas. Covering 76 out of 81 provinces, Banko's branches extend their reach across over 120 cities and 200 municipalities. Moreover, Banko boasts a network of 1,000 Cash Agent outlets, offering clients seamless cash transactions, loan repayments, and serving as key loan referral centers for the bank.

BanKo's strength lies not just in its physical presence but also in its dedicated workforce, comprising over 1,700 loan officers and associates affectionately known as "BanKoMares" and "BanKoPares". These individuals foster direct customer relationships and are equipped to conduct insightful financial literacy discussions at the time of loan disbursement. Their warm and friendly service can be seen in the way they explain banking products in a simple manner that clients can easily understand. That is the bank's brand of service: Maaasahan, Malalapitan, Nagtitiwala.

In conducting its operations, Banko goes beyond mere financial transactions; it empowers the communities it serves, living up to its mission of being the trusted ally of the Filipino masses, enhancing their present and future through accessible and affordable financial solutions. Banko's steadfast commitment to pioneering microfinance solutions reflects its core values, steering towards a future where financial empowerment intertwines with social responsibility.

Building Momentum: BanKo's Remarkable Growth

BanKo's ascent in the microfinance sector has been truly remarkable. From a modest 2% market share in 2016, the bank has surged ahead to command a substantial 33% share by 2024, firmly establishing its presence in the microfinance landscape. In the same year, BanKo witnessed a staggering 53% growth in its microfinance loan portfolio compared to the preceding year, further cementing its position as a key player in the banking industry.

The bank's overall loan portfolio experienced an impressive 44% expansion in 2024, accompanied by a remarkable increase in deposit levels. This extraordinary growth trajectory coincides with BanKo's aggressive expansion strategy, which saw its branch network burgeon from a mere six branches in 2016 to an extensive 368 branches and branch-lite units by the close of 2024. Reflecting this exponential growth, BanKo's total asset size ascended from 13th position in 2016 to an impressive 7th position in 2024.

Through strategic alliances, digital innovations, and pioneering financial products, BanKo epitomizes progress in the Philippine banking landscape, empowering individuals and fostering sustainable growth for a brighter tomorrow. Aligned with BPI's vision of nation-building, BanKo endeavors to contribute to a better Philippines, one family and one community at a time. By emphasizing the transformative potential of collaboration and technological advancement, BanKo not only drives individual prosperity but also catalyzes societal progress.

BanKo's journey in 2024 embodies a steadfast commitment to sustainable expansion, financial inclusivity, and community upliftment. This commitment not only fuels the economic advancement of the nation but also sets a benchmark for responsible and forward- looking banking practices in an ever-evolving landscape.

BanKo's Product Overview: A commitment to Financial Inclusion

BanKo stands as a steadfast ally to both its clients and the communities it serves, championing financial inclusion, sustainable development, and nation-building through its diverse array of products and services.

NEGOSYOKO LOAN

At the heart of BanKo's offerings lies the NegosyoKo Loan, the bank's flagship product tailored for SEMEs within the C and D socioeconomic classes. Ranging from ₱10,000 to ₱500,000, with flexible tenors spanning from 6 to 36 months, the NegosyoKo Loan serves as a vital lifeline for entrepreneurs seeking accessible working capital or avenues for business expansion. Catering to a wide spectrum of microbusinesses, including wholesale and retail trading, manual services, food services, manufacturing, and agriculture, BanKo ensures that SEMEs have the support they need to thrive.

In line with its commitment to holistic solutions, Banko goes beyond mere financial assistance by bundling the Negosyoko Loan with a microinsurance product, Secure Assist. This innovative offering provides invaluable cash assistance to mitigate the impact of property damage caused by flooding, further fortifying the resilience of SEMEs against unforeseen adversities.

BanKo's dedication to financial inclusion extends beyond providing loans; it embodies a holistic approach aimed at uplifting the socioeconomic

landscape of communities nationwide. Through its suite of products and services, BanKo empowers individuals and businesses alike, fostering sustainable growth and prosperity for a brighter future.

FOR THE FARMERS

The Agri NegosyoKo Loan or our Farmer Financing Program stands as an innovative financial solution tailored specifically for small-scale farmers who have written purchase agreements as suppliers to BPI's esteemed corporate clients, such as Jollibee Foods Corporation, or with identified reputable off-takers. This groundbreaking product aims to provide greater access to affordable financing for these farmers, enabling them to thrive in their agricultural endeavors.

Small farmers, typically operating on an average land size of 0.6 hectares, benefit from this initiative by accessing financing at more favorable terms compared to other lenders. One notable feature of this financing mechanism is the collective repayment rate, which incentivizes timely payment of amortizations. This rewards farmers who uphold their repayment commitments, fostering a culture of financial responsibility and sustainability within the farming community.

Moreover, the timing of loan disbursement is strategically aligned with the planting season, ensuring that farmers receive funds one to two months ahead of planting. This proactive approach grants farmers ample time to procure essential farm inputs such as seeds and fertilizers, crucial for maximizing yields. This is particularly significant in addressing challenges that agriculture keeps pace with the growing population in the Philippines, where timely access to resources can critically enhance productivity.

PONDOKO SAVINGS ACCOUNT

PondoKo Savings represents a cutting-edge, appbased solution, offering clients an interest-bearing basic deposit account with no maintaining balance requirement. This innovative offering empowers clients to cultivate their financial reserves and effectively manage their cash flow with ease and convenience.

Clients gain access to a comprehensive suite of banking services right at their fingertips. From the convenience of the BanKo Mobile app, clients can seamlessly execute various transactions, including purchasing load credits, transferring funds (i.e. free Instapay service), bills payments, and even managing loan repayments.

This integrated platform not only simplifies banking processes but also enhances financial accessibility for clients, ensuring that they can effortlessly navigate their financial affairs with confidence and efficiency. PondoKo Savings epitomizes BanKo's commitment to providing forward-thinking solutions that empower individuals to achieve their financial goals and aspirations.

PondoKo Savings

TODO SAVINGS

TODO Savings is tailored for Filipino individuals embarking on their savings journey. This high-impact digital savings account is designed to accelerate your path to financial prosperity.

With TODO Savings, you gain access to an impressive interest rate of 5% per annum, significantly surpassing traditional savings accounts. Deposits of up to ₱1,000,000 to earn at this competitive rate, providing a lucrative opportunity to grow your savings at an exponential rate—60 times higher than standard offerings.

Through the Banko Mobile app, you can open an account in just five minutes, requiring only one valid government ID. This streamlined process ensures that every Filipino can swiftly embark on their savings journey without unnecessary hurdles or complications.

BANKO MOBILE APP

BanKo has consistently honored its commitment to champion financial inclusivity and continuous improvement, prioritizing user convenience and access to banking solutions anytime, anywhere.

A standout feature of the enhanced BanKo Mobile App is its seamless loan repayment capability, which allows borrowers to conveniently settle their loans from home or their place of business. This functionality ensures smooth and uninterrupted financial transactions, enabling clients to manage their obligations and maintain financial consistency without disruption.

Moreover, the Banko Mobile App serves as a comprehensive financial management tool for the Masang Pilipino, providing users with real-time access to account balances, transaction history, loan balances, and other essential information. By keeping customers informed and in control of their finances, the app fosters stronger financial literacy and encourages responsible money management.

With the BanKo Mobile App, customers can securely and conveniently perform a wide array of banking transactions, including free fund transfers via InstaPay, mobile load purchases with cashback, bill payments with affordable fees, and loan payments. This paves the way for a digitally empowered banking experience that overcomes geographical limitations and disparities, ensuring sustained access to financial services.

In recognition of these significant advancements and the growth of the Banko Mobile App, the institution received a Special Citation during the 3rd Digital Financial Inclusions Awards (DFIA), held on December 13, 2024, for its pioneering digitalization efforts.

"BanKo continues to redefine banking by enhancing and expanding its digital touchpoints. With the BanKo Mobile App, customers gain access to a variety of services, including interbank money transfers, bill payments, and loan management," – Rodolfo K. Mabiasen Jr.

BUSINESS REVIEW

FINANCIAL PERFORMANCE

Total Resources of the Bank increased by 22% or P9.40Bn to P52.95Bn in 2024.

Loans and Receivables expanded by 44% with loans booking growing by 31% contributed by our Personal and Microfinance loans.

Deposits increased by 13.27% or P4.65Bn to reach P39.66Bn in 2024.

Net interest income is higher by P3.26Bn or 55.78% mainly attributable to the increase in interest income on loans of P4.03Bn in line with the growth in the personal and self- employed microentrepreneur (SEME) loan.

As of the end of 2024, consolidated common equity tier 1 ratio stood at 15.8% and capital adequacy ratio was at 16.6%. These ratios are well above minimum regulatory requirements, with an adequate buffer to support the Bank's operations.

CLIENT TESTIMONIAL

A TASTE OF INCLUSIVE BANKING

"2024 halos nasira ang weaving center. Walang maintenance, walang renovation, kasi walang makukuhanan ng budget para i-renovate. Sa ngayon, malaki ang pasasalamat namin sa BanKo na sila ay nagoffer sa amin ng loan para sa aming business.

100,000 ang first loan. So ngayon, patuloy ang products sa weaving since andyan naman si BanKo.

Maraming Salamat, BanKo, sa pagtulong at pagpanatili ng aming kabuhayan at kultura. Dahil ang BanKo ay maaasahan niya."

CORPORATE GOVERNANCE

CORPORATE GOVERNANCE PHILOSOPHY

The Board of Directors and Management, employees and shareholders of BanKo believe that a sound and effective corporate governance is the cornerstone of its strength and long-term existence. It subscribes to a philosophy of adhering to honesty, integrity, and professionalism in the conduct of its business, exercising prudence in arriving at decisions, enforcing internal discipline and a system of checks and balances in its operating processes, and providing transparency to its various publics regarding basic management policies and practices, major business strategies and decisions and its operating results.

The Board of Directors and Management, commit themselves to the principles and practices of the corporate governance philosophy of the bank. They shall also undertake every effort necessary to create awareness of these principles and practices within the organization in order to ensure proper internalization by every member of the organization.

GOVERNANCE STRUCTURE

Board of Directors

The Board of Directors (the Board) bears the primary responsibility for creating and enhancing the longterm shareholder value of BanKo and ensuring that this objective is achieved in all its business activities. It must ensure BanKo's ability to satisfy the needs of its customers, sustain its leadership and competitiveness, and uphold its reputation in order to maintain BanKo's long term success and viability as a business entity. Its mandate consists of setting the strategic business directions of BanKo, appointing its senior executive officers, confirming its organizational structure, approving all major strategies and policies, overseeing all major risk-taking activities, monitoring the financial results, measuring and rewarding the performance of management, and generating a reasonable investment return to shareholders. It shall also provide an independent check on management.

The Board is headed by a competent and qualified Chairman. Under the leadership of the Chairman, the Board creates the framework within which the Bank's executive team, headed by the President, steers the business. As stated in the Bank's Corporate Governance Manual, the chairman, among other functions, ensures a) that the board meeting agenda focuses on strategic matters including discussion on risk appetites and key governance concerns; b) effective functioning of the board, including maintaining a relationship of trust with board members; c) sound decision making process and he should encourage and promote critical discussions and ensure that dissenting views can be expressed and discussed within the decision-making process; d) conduct of performance evaluation of the Board at least once a year.

Term limits of Independent Directors

An independent director may only serve as such for a maximum cumulative term of nine (9) years. After which, the independent director shall be perpetually barred from serving as independent director but may continue to serve as a regular director.

Policy on Directorships

Directors are bound by BanKo's Director's Code of Conduct to take into account their individual circumstances and the nature, scale and complexity of the Bank's activities in showing full commitment to the Bank - devoting the time, schedule and attention necessary to its business interests, to properly and effectively perform their duties and responsibilities and to avoid conflicts of interest.

A rigorous nomination process to ascertain fitness and propriety of candidate directors and examine their principal commitments is also done every year, prior to the Annual Stockholders Meeting. Board and committee attendance is closely monitored and reported. The Board also conducts an annual performance evaluation of itself, its committees and directors, which includes an affirmative determination of time commitments.

Powers of the Board of Directors

The corporate powers of a bank shall be exercised, its business conducted and all its property controlled and held, by its board of directors. The power of the board of directors as conferred by law are original and cannot be revoked by the stockholders. The directors hold their office charged with the duty to exercise sound and objective judgment for the best interest of the bank.

Duties and Responsibilities

The position of a Bank director is a position of trust. A director assumes certain responsibilities to different constituencies or stakeholders, i.e., the bank itself, its stockholders, its depositors and other creditors, its management and employees, the regulators, deposit insurer and the public at large. These constituencies or stakeholders have the right to expect that the institution is being run in a prudent and sound manner. The board of directors is primarily responsible for approving and overseeing the implementation of the Bank's strategic objectives, risk strategy, corporate governance and corporate values. Further, the board of directors is also responsible for the selection of key members of senior management and control functions as well as monitoring and overseeing the performance of senior management as the latter manages the day to day affairs of the institution.

Selection

Our shareholder may recommend candidates for board membership for consideration by the Nominations Committee. Such recommendations are sent to the Committee through the Office of the Corporate Secretary. Candidates recommended by shareholder are evaluated in the same manner as Director Candidates identified by any other means. The Committee itself may identify and recommend qualified individuals for nomination and election to the Board. For this purpose, the Committee may utilize professional search firms and other external groups to search for qualified candidates.

The Nominations Committee pre-screens the candidates and prepares a final list of candidates prior to the Annual Stockholders Meeting. Only nominees whose names appear on the final list of candidates are eligible for election to the Board.

No other nomination shall be entertained after the final list of candidates are drawn up. No nomination shall be entertained or allowed on the floor during the Annual Stockholders Meeting.

Board members are elected by BanKo stockholders who are entitled to one vote per share at the Bank's Annual Stockholders Meeting, where votes may be cumulated as provided for in the Corporation Code. The nominees receiving the highest number of votes are declared elected and hold office for one year until their successors, qualified in accordance with the by-laws, are elected at the next Annual Stockholders Meeting.

Board Composition and Qualification

Pursuant to Sections 15 and 17 of R.A. No. 8791, and the Bank's Amended By-Laws, there is a maximum of nine (9) members of the Board who are elected by the stockholders entitled to vote at the annual meeting, and shall hold office for one (1) year and until their successors are elected and qualified in accordance with the Bank's By-Laws.

Gerardo C. Ablaza, Jr. Position: Chairman

Mr. Ablaza was elected as Director of BanKo in June 2022 and was appointed as its Chairman in October 2024. He is the Chairman of BanKo's Personnel and Compensation Committee and a member of the Audit Committee. He also serves as a Director of BPI Asset Management and Trust Corporation Doing Business under the Trade Name and Style of BPI Wealth - A Trust Corporation.

He is currently a Management Consultant of Ayala Corporation and a member of the Board of Directors of various subsidiaries of the Ayala Group, including Asiacom Philippines, Inc., AC Energy and Infrastructure Corporation, Ayala Healthcare Holdings, Inc., Ayala Retirement Fund Holdings, Inc., ACEN Corporation and ENEX Energy Corporation. He is also a Trustee of Ayala Foundation, Inc.

Previously, he served as a Director of BPI Family Savings Bank, Inc. and BPI Capital Corporation from 2017-2021. From 2010 to 2017, Mr. Ablaza was the President and CEO of Manila Water Company. He was responsible for overseeing the financial and operational growth within Manila Water's service areas in the Metro Manila East Zone and in its expansion areas. From 1998 to 2009, he was the President and CEO of Globe Telecom, Inc. During this period, he took the company from being the fourth-ranked mobile services provider to the second-largest full-service telecom operator with a subscriber base of 25 million in 2008.

In 2004, Mr. Ablaza was recognized by CNBC as the Asia Business Leader of the Year, making him the first Filipino CEO to win the award. He was also awarded by Telecom Asia as the Best Asian Telecom CEO. In 2013, he was recognized for his consistent leadership and innovation across the banking, investment, telecommunications and utility service industries through the Citi Distinguished Alumni Award for Leadership and Ingenuity. He was the first Filipino to be awarded with such an honor. In 2017, he became a member of the Board of Directors and Executive Committee of Advance Info Services, PLC based in Thailand.

Mr. Ablaza graduated summa cum laude from the De La Salle University in 1974 with a Bachelor of Arts degree, major in Mathematics (Honors Program). He also earned his Master's Degree in Business Administration from the University of the Philippines in 1976.

Marie Josephine M. Ocampo Position: Chairman

Ms. Ocampo stepped down as Chairman in October 2024. She retired in September 2024 as head of the Mass Retail Segment of BPI, where she oversaw BPI's credit, debit and prepaid card businesses as well as personal and micro finance loans. She was a member of the Board of BPI Payments Holdings Inc., Global Payments Asia-Pacific Philippines, Inc., AF Payments Inc., and CARD MRI Rizal Bank Inc. Ms. Ocampo started her career in BPI as Vice-President for Marketing and Sales of BPI Credit Cards in 1996. She soon became the President of BPI Card Corporation, the bank's credit card subsidiary where she won the prestigious Agora Award-2000 Marketing Company of the Year. In 2005, Ms. Ocampo was then crossposted to BPI's Consumer Banking Group as Head of Kiosk Banking and Head of Personal Banking. She also became the Chief Marketing Officer of BPI from 2008 until 2014 where she was responsible for the bank's data warehouse, customer analytic capabilities and the bank's CRM, advertising and digital initiatives across the breadth of products, channels and services. In 2015, she became the Payments and Remittance group head.

Prior to joining BPI, Ms. Ocampo gained over 10 years of marketing experience in Procter & Gamble and Johnson & Johnson Australia and the Philippines, where she led the expansion of J&J's Health Care, Baby Care and Sanitary Protection business.

Ms. Ocampo graduated Magna Cum Laude and received her Bachelor of Science in Business Management, Honors Program at Ateneo de Manila University. She also completed the Advanced Management Program at the Harvard Business School in 2007.

Ignacio R. Bunye
Position: Independent Director

Mr. Bunye was elected as Director of BanKo in June 2018. He is the Chairman of BanKo's Corporate Governance and Nomination Committees. He serves as an Independent Director of BPI Capital Corporation and BPI Asset Management and Trust Corporation Doing Business under the Trade Name and Style of BPI Wealth - A Trust Corporation.

Mr. Bunye previously served as an Independent Director of the Bank of the Philippine Islands from 2016-2024. He was likewise a member of the Monetary Board of the Bangko Sentral ng Pilipinas from 2008 to 2014. In addition, he held the positions of Press Secretary in 2002, Presidential Spokesperson in 2003, and Presidential Political Adviser in 2008. Significant awards and recognition received by Mr. Bunye include the Asian Institute of Management Honor and Prestige Award, the Bangko Sentral Service Excellence Medal, the Gran Oden de Isabela Catolica, and the Order of Lakandula.

Mr. Bunye is a member of the Philippine Integrated Bar. He obtained his Bachelor of Arts degree in 1964 and his Bachelor of Laws degree in 1969, both from the Ateneo de Manila University. He obtained his Master in Management degree in 1976 from the Asian Institute of Management.

Karl Kendrick T. Chua

Position: Non-Executive Director

Mr. Chua was elected as Director of Banko in August 2023. He also serves as a Board Director of Bank of the Philippine Islands. Mr. Chua is currently the Managing Director for Data Science and Artificial Intelligence in Ayala Corporation. He is also a Director of AC Ventures, AC Industrials Technology Holdings, Inc., AC Infrastructure Holdings, Corp. and an Independent Director of D&L Industries, Inc. and LH Paragon, Inc. Mr. Chua is likewise a Board Adviser for Golden ABC, Inc., Matimco, Inc., and Oakridge Realty Development Corporation. Previously, he served as Director in Manila Water Company, Inc. and an Independent Director of Golden ABC, Inc.

Mr. Chua was a former Secretary of the National Economic and Development Authority (NEDA) and Undersecretary for Strategy, Economics, and Results at the Department of Finance (DOF). He has extensive experience in the areas of economic and fiscal policy, statistical development, national identification, labor and social protection policy, poverty analysis, and digital transformation, among others.

He was formerly an adviser for the World Bank's World Development Report and former member of the Selection Committee of the Asian Development Bank and International Economic Association Innovative Policy Research Award.

Mr. Chua was a senior official in the Government of the Philippines for six years. As Secretary of Socioeconomic Planning and Chief Economist of the country, he provided strategic leadership on economic policy during the Covid-19 pandemic and the further liberalization of key sectors of the economy. He also oversaw the implementation of the national ID program.

As Undersecretary in the Department of Finance, he led the technical team in the passage of the Comprehensive Tax Reform Program and the Rice Tariffication Law. Prior to joining the government, he was with the World Bank for 12 years and was the senior economist for the Philippines.

Mr. Chua graduated from the Ateneo De Manila University in 2000 with a degree in B.S. Management Engineering. He earned his M.A. Economics (2003) and Ph.D Economics (2011) from the University of the Philippines, and recently studied data science at the Asian Institute of Management. In 2018, he was awarded as one of the Ten Outstanding Young Men of the Philippines (TOYM) for economic development.

Jose Ferdinand B. De Luzuriaga Position: Independent Director

Mr. de Luzuriaga, 63 years old, was elected as Director of BanKo in February 2017. He is also an Independent Director of Ayala Plans Incorporated, BPI Century Tokyo Lease & Finance Corporation (formerly BPI Leasing Corporation) and BPI Tokyo Century Rental Corporation (formerly BPI Century Tokyo Rental Corporation).

Four decades in diverse industries --- agriculture, manufacturing, engineering, food processing, transport, commodities, property development, thrift banking, investment banking, nongovernment organizations, education, insurance, pre-need, media, publishing, private equity, venture capital, fund management, content marketing and technology companies.

Rodell A. Garcia

Position: Non-Executive Director

Mr. Garcia was elected as Director of BanKo in June 2023. Mr. Garcia has more than 40 years of experience in Information Technology across banking, telecommunications, water utility and healthcare industries. He occupied key senior executive positions and led IT teams in the development and implementation of new and innovative technologies, some of which gained recognition and awards in the international community. Further, he was the Executive Lead of G-Cash, the Philippines' pioneering and award-winning mobile commerce application launched in 2004 and is one of the earliest implementations of e-money.

Mr. Garcia was recognized as Outstanding CIO of 2005-2006 by the Philippine Computer Society and one of the 100 Premier Technology Leaders of 2017 by Computerworld USA. He graduated in 1976 with a Bachelor of Science in Mathematics degree from the Ateneo de Manila University under a scholarship grant from the National Science Development Board.

JENELYN Z. LACERNA

Position: Non-Executive Director

Ms. Lacerna was elected as Director of BanKo in October 2024 and currently serves as a Member of its Risk Management Committee. Concurrently, she is a Senior Vice President and Head of the Mass Retail Segment of BPI, and a Director of Legazpi Savings Bank, Inc. In addition, she serves as Director and President of BPI Payments Holdings Inc. (formerly "BPI Card Finance Corporation").

Throughout her career, Ms. Lacerna has held key positions in various companies, including Sales Executive in Purefoods Corporation, Cards Marketing Officer in American Express (Philippines), and Vice President in Citibank N.A. (Thailand). Prior to joining BPI, Ms. Lacerna was the First Vice President for Global Remittances at the Philippine National Bank. At BPI, she also served as the Senior Vice President for Unsecured Lending and Cards – Products and Sales.

Ms. Lacerna earned her Bachelor of Science degree in Business Administration from the University of Santo Tomas in 1986.

RODOLFO K. MABIASEN, JR. Position: Executive Director, President

Mr. Mabiasen was elected and appointed as Director and President of BanKo in January 2024. He also serves as a Trustee of Greentop Condominium Corporation, a subsidiary of BPI. In addition, he is a Director of Card MRI RBI, a microfinance-oriented rural bank.

He began his career with the BPI Group in 1996 as an Assistant Manager at BPI Family Savings Bank. Prior to his secondment to Banko, he held various key positions in BPI from 2000-2016. In Banko, he served

as Vice President from 2017-2019, Director from 2017-2019, and Senior Vice President from 2020-2024, prior to his current appointment.

Mr. Mabiasen holds Bachelor of Science degrees in Accountancy and Economics from St. Louis University, graduating as Magna cum Laude. He passed the CPA Licensure Examination in 1996.

Jerome B. Minglana

Position: Executive Director, President

Mr. Minglana previously served as President of BPI Globe BanKO from 2015-2016 and BPI Direct Banko, Inc. from 2016 to January 2024. He also took on other roles in BPI, such as Vice President and Division Head of Retail Banking Group and served as Area Business Director of extreme North Luzon area. He is currently the President of Legazpi Savings Bank, a subsidiary of BPI.

Mr. Minglana obtained his Bachelor of Science in Accountancy and BS Commerce major in Management degrees from St. Louis University in 1994 and 1995 respectively.

Jesus V. Razon Jr.

Position: Independent Director

Mr. Razon was elected as Independent Director of Banko in February 2016. Mr. Razon is the Chairman of Banko's Audit Committee and a member of the Corporate Governance and Personnel and Compensation Committees. Mr. Razon was the Senior Vice President of the Consumer Banking Group and Human Resources Management Group of BPI. In addition, he served as a Director of various BPI subsidiaries such as BPI Family Savings Bank., Inc., FGU Insurance Corporation, and BPI Forex Corporation, among others. He also served as an Independent Director of BPI Investment Management, Inc.

Mr. Razon received his Master's Degree in Management from the Asian Institute of Management in 1990 and his Bachelor of Arts degree in Economics from the Ateneo de Manila University in 1967.

Elfren Antonio S. Sarte Jr.

Position: Non-Executive Director

Mr. Sarte was elected as Director of BanKo in October 2024. Mr. Sarte is a highly accomplished executive with over 40 years of experience in the banking industry. He became part of the BPI group following the merger between BPI and Robinsons Bank Corporation (RBC) effective January 1, 2024.

Currently, he serves as a Chairman & Director of Legazpi Savings Bank and Unicon Insurance & Reinsurance Brokers Corporation, and Vice-Chairman of the Philippine Clearing House Corporation. He was elected as Director of BPI/MS Insurance Corporation, Global Payments Asia-Pacific Philippines, Inc., BPI Holdings, Inc. (formerly BPI Card Finance Corporation), AF Payments, Inc., and Premiumbikes Corporation. He is also the BPI Payment Council Head.

Prior to joining BPI, Mr. Sarte was the President and CEO of Robinsons Bank Corporation (RBC) from 2014 to 2023. It was under his leadership when RBC began its digital transformation and embarked on its journey towards becoming digital to the core. He formed an agile culture in RBC and created new digital organization and put in place digital strategies steadfastly implemented to deliver innovative high-tech, low touch real-time and on-demand products services to the customers. Mr. Sarte delivered RBC from rank 26th in 2014 to rank 16th by end-2023 in terms of assets among Universal and Commercial banks in the Philippines which resulted to numerous recognitions from various local and international award-giving bodies. His rich banking experience includes being the President, Director, and CEO of PNB Savings Bank from 2013 to 2014. In Philippine National Bank, he was Consumer Finance Group Head from 2010 to 2013. He was with Union Bank of the Philippines from 1995 to 2010 handling various roles last of which is as Head of Consumer Credit Risk Management Division. His entry into the corporate world began with Credit Information Bureau Inc., where he honed his skills in credit.

Mr. Sarte has been a Director of various organizations namely: Bankers Association of the Philippines, Go Tyme Bank Corporation, Bancnet, Inc., Maxicare Healthcare Corporation, and Maxicare Life Insurance Corporation. He also served as the Chairman of the Operations Committee of the Bankers Association of the Philippines from 2017 up to 2023.

He graduated with a degree in Bachelor of Science Industrial Management Engineering Minor in Mechanical Engineering from De La Salle University in 1982.

Juan Carlos L. Syquia

Position: Non-Executive Director

Mr. Syquia, is the Head of Institutional Banking. Mr. Syquia's responsibilities include managing the Corporate Banking Relationship Management, Commercial Banking Relationship Management, Corporate & Commercial Credit Products, Transaction Banking (Cash Management and Trade), Remittance & Fund Transfer, and Investment Banking (which includes Equity Brokerage) units of the Bank. He is also Chairman of the Board of Directors of BPI's merchant acquiring joint venture company, Global Payments Asia-Pacific Philippines Incorporated. Mr. Syquia also serves as a member of the Board of Directors of BPI's investment banking subsidiary, BPI Capital Corporation, and the bank's microfinance subsidiary, BPI Direct BanKo, Inc., A Savings Bank.

Mr. Syquia has over 30 years of work experience in the financial services industry. Before taking on his current role, he was the President of BPI Capital Corporation and Co-Head for Investment Banking for the Bank. He re-joined the Bank via BPI Capital Corporation in June 2016. Prior to this, Mr. Syquia was

Managing Director and Country Head of Corporate Clients for Standard Chartered Bank in the Philippines serving in that role from late 2011. In that role, he was principally responsible for wholesale banking strategy of the bank in the Philippines.

Mr. Syquia spent 17 years with the ING Group where he started with Baring Brothers & Co. in 1994. Within the banking group of ING, he took on various roles in relationship management, corporate finance origination, and investment banking execution. His last role in ING Bank was as Managing Director, Head of Corporate Finance at ING Bank Manila. In 2007, he moved to a regional role based in Hong Kong as Head of Strategy and Business Development at ING Asia Pacific Ltd., the regional hub of ING Group's life insurance and asset management practice. He held Board of Director positions at ING Insurance Bhd. (Malaysia), Pacific Antai Life Insurance Co. (Shanghai, China), ING Vysya Life Insurance (India).

Mr. Syquia is a product of the BPI's Officer Training Program which he completed in 1990 during his first stint at the Bank. In 1991, he was assigned to the Cebu region where he formed part of a two-man team that established the Corporate Banking Division desk in Cebu. He carries an MBA Degree (Honors) with a concentration in Finance and International Business from Fordham University, NY as well as an AB degree in Management Economics from the Ateneo de Manila University

MARIA LOURDES P. GATMAYTAN Position: Corporate Secretary

Atty. Gatmaytan is concurrently the Co-Head of Legal / Head of Corporate Legal Affairs and Corporate Secretary of BPI. She also serves as Corporate Secretary of BPI Asset Management and Trust Corporation (also known as BPI Wealth - A Trust Corporation), BPI Investments Inc. (formerly: BPI Investment Management, Inc.), BPI/MS Insurance Corporation, and The Bank of the Philippine Islands Foundation, Inc.

Atty. Gatmaytan started her career at ACCRALAW before taking on in-house counsel and leadership roles in top corporations, such as Corporate Legal Counsel at SM Investments Corporation, Associate General Counsel at San Miguel Corporation, Head of Legal at Bahay Financial Services, Inc. and Chief Legal Counsel at Splash Corporation. She was named in Legal 500's maiden GC Powerlist Philippines in 2023 and led the BPI Legal team to be included in the GC Powerlist Southeast Asia Teams 2023 and GC Powerlist Philippines Teams 2024.

Atty. Gatmaytan received her Bachelor of Science degree in Legal Management from the Ateneo de Manila University in 1989. She earned her Juris Doctor degree from the Ateneo de Manila School of Law, graduating with honors in 1993.

^{*}Board member until 24 January 2024

Audit Committee

The Audit Committee monitors and evaluates the adequacy and effectiveness of the Bank's system of internal control systems, risk management, and governance practices. It provides oversight on the integrity of the Bank's financial statements and financial reporting process, performance of the internal and external audit functions and compliance with bank policies, applicable laws, and regulatory requirements. This Committee also reviews the external auditor's annual audit plan and scope of work, and assesses its overall performance and effectiveness. In consultation with management, this

^{***}Board member until 01 October 2024

^{****}Elected as Board member effective 01 October 2024

Corporate Governance Committee

The Corporate Governance Committee assists the Board in fulfilling its corporate governance responsibilities and ensures the Board's effectiveness and due observance of sound corporate governance principles and guidelines, as embodied in the Manual of Corporate Governance.

It also performs the function of a Related Party Transaction Committee and is charged with ensuring that the Bank's dealings with the public and various stakeholders are imbued with the highest standards of integrity. In conjunction with the Audit, Risk, and Corporate Governance Committees, this Committee endeavors to ensure compliance with Bangko Sentral regulations and guidelines on related party transactions. The committee independently reviews, vets, and endorses significant and material related party transactions—above and beyond transactions qualifying under directors, officers, shareholders, and related interest restrictions—such that these transactions are dealt on terms no less favorable to the Bank than those generally available to an unaffiliated third party under the same or similar circumstances.

Risk Management Committee

The Board appoints from its members a Risk Management Committee (RMCom) composed of at least three (3) Directors, of which majority must be Independent, including the Chairperson. Committee members should possess a range of knowledge and expertise on risk management issues and best practices. The Chairperson shall not be the Chairperson of the Board or of any other board-level committee.

The Risk Management Committee is tasked with nurturing a culture of risk management across the enterprise. It supports the Board by overseeing and managing the Bank's exposures to financial and non-financial risks, assesses new and emerging risk issues across the Bank, regularly reviews the Bank's risk management appetite, policies, structures and metrics, and monitors overall liquidity and capital adequacy, in order to meet and comply with regulatory and international standards on risk measurement and management.

Meetings and Attendance

The BPI Direct Banko Board meets regularly for the effective discharge of its obligation. Regular board meetings are convened monthly, held every fourth Wednesday of the month. Board of Directors meetings are set immediately after the Annual Stockholder Meeting to cover the full term of the newly elected or re-elected members of the Board, reckoned from the date of the current year's Annual Stockholder Meeting to that of the following year. Special meetings may be called for as needed. Discussions during the board meetings and open independent views are given due consideration. Board reference materials are made available to the directors at least five days in advance of the scheduled meeting. Independent and Non- Executive Directors of the Bank also meet at least once a year without the presence of the executive director or management. The Non-Executive Directors meeting was held on 18 December 2024.

The Board's full-year attendance at the 2024 Board Meetings and Committee Meetings are outlined as follows:

Performance Evaluation and Self-Assessment

Monitoring of governance by the Board requires a continuous review of the internal structure of the Bank to ensure that there are clear lines of accountability for management throughout the organization.

In this regard, the Board, under the guidance of the Corporate Governance Committee, annually conducts a self-assessment to ascertain the alignment of leadership fundamentals and issues, validate the Board's and Senior Management's appreciation of its roles and responsibilities and confirm that the Board and Senior Management possesses the right mix of background and competencies. Performance of the Board and Senior Management is measured on the basis of what it delivers and how it delivers, how it meets its responsibilities to all BPI Direct BanKo stakeholders, and how it addresses issues that impact the Board's and Senior Management ability to effectively fulfill its fiduciary duties.

Succession Planning and Talent Management

Financials services today face many transformative factors – regulation, market disruption, new technologies and business models, competition- that affect the business in major and long-term ways. Our Board understands that the Bank must continually evolve, adapt, and even restructure the business to remain ahead of strategic, market, technology and regulatory shifts. The Board, through its Personnel and Compensation Committee, manages the talent pipeline and assembles the required personnel capable of navigating such changes.

In consultation with the President, the Personnel and Compensation Committee reviews the Bank's talent development process for proper management. Senior management provides a report to this Committee on the results of its talent and performance review process for key management positions and other high-potential individuals. Aside from ensuring that there is a sufficient pool of qualified internal candidates to fill senior leadership positions, this review process identifies opportunities, performance gaps, and proactive measures in the Bank's executive succession planning. And as part of the same executive planning process, the Committee as a whole or a part thereof, in consultation with the Board and the President, evaluates and nominates potential successors to the President and the Senior Management.

The selection process involves a number of steps, including:

- Identifying candidates for the talent pipeline and market mapping to gain an understanding of current offerings in the marketplace in relation to the roles, skills, knowledge, experience needed; this also involves actively building and nurturing relationships with talent in order to create a list of roles that are key to the Bank's success; the Bank also utilizes referrals, and industry platforms as it tailors skillset requirements.
- Screening and vetting candidates once the requirements have been identified, through a variety
 of methods, such as reviewing resumes, conducting interviews, or administering online
 assessments; the focus here is on the fit and suitability of the candidate to the role, the current
 and future business directions, and the Bank's company culture, beyond the minimum fit and
 proper requirements and qualifications stated in the BSP Manual of Regulations for Banks;
- Making the selection decision: The final step is to make the selection decision. This decision should be based on the information gathered during the screening and interviewing process.

Induction and Director Education

Board members acquire appropriate skills at appointment, and thereafter remain abreast of relevant new laws, regulations, and changing commercial risks through in-house training and external courses. New Directors are briefed on BPI Direct BanKo's background. Organizational structure, and, in compliance with Bangko Sentral Circular No. 758, the general and specific duties and responsibilities of the Board.

They also receive briefings on relevant policies and rules governing their roles as Directors. They are given an overview of the industry, regulatory environment, business of banking, strategic plans of the Bank, its governance framework, i.e. Manual of Corporate Governance, Director's Code of Conduct, Board operations (schedules, procedures and processes), including support from the Corporate Secretary and

senior management. Continuing education of Board members includes internal meetings with senior executives and operational or functional heads, dedicated briefings, on specific areas of responsibility within the business and special presentations on current issue or regulatory initiatives with respect to Data Privacy, Cyber Risk, and Cyber Security, the Anti- Money Laundering and Terrorist Financing Prevention Program, Foreign Account Tax Compliance Act, Securities Regulations Code, SEC memorandum circulars, and Bangko Sentral regulations, among others. The Bank brings technical, subject matter experts as needed. Other in-bank courses on anti- money laundering, business continuity management, conflict of interest, risk management overview, and information security awareness. Board members also regularly attend governance conferences, and summits.

Remuneration

Our remuneration decisions for the Board and management are aligned with risk incentives and support sustainable, long-term value creation. Apart from ensuring that Board and management pay appropriately reflects industry conditions and financial performance, the Bank likewise rebalances returns back to shareholders through dividend declaration.

The shareholders approve the level of remuneration and/or benefits for directors sufficient to attract and retain directors and compensate them for their time commitments and responsibilities of their role.

Our Personnel and Compensation Committee (PerCom) recommends to the Board the fees and other compensation for directors, ensuring that compensation fairly remunerates directors for work required in a company of BanKo's size and scope. As provided by our Amended By-Laws and pursuant to approval by the stockholders, each director is entitled to receive fees and other compensation for his services as director.

Board members receive per diems for each occasion of attendance at meetings of the Board or of a board committee. All fixed or variable remuneration paid to directors may be given as approved by stockholders during the Annual Stockholders Meeting, upon recommendation of the PerCom. Other than the usual per diem arrangement for Board and Committee meetings and the aforementioned compensation of Directors, there is no standard arrangement as regards compensation of directors, directly or indirectly, for any other service provided by the directors for the last completed fiscal year.

Board members with executive responsibilities within the BPI group are compensated as fulltime officers of the company, not as Executive Directors or Non-Executive Directors. No director participates in discussions of the remuneration scheme for himself or herself. The remuneration policy is reviewed annually to ensure that it remains competitive and consistent with the Bank's high performance culture, objectives, and long-term outlook, risk assessment and strategies.

The Board, through the PerCom, annually approves the remuneration payable to the President and Senior Management who have the authority and responsibility for the Bank's overall direction and strategy execution. The PerCom monitors and assesses how the remuneration was implemented each year and ensures that it corresponds to the remuneration policy.

Code of Business Conduct and Ethics

BanKo's core values encapsulate what we believe in and what we stand for. All Directors and Employees are expected to observe the highest standards of accountability, performance, punctuality, honesty, integrity, courtesy, and teamwork, and thus contribute to the achievement of the Bank's goals of customer satisfaction, excellence and profitability.

Whistleblower Policy

The Whistleblower Program is the Bank's mechanism for preventing and detecting fraud or misconduct, and enabling fast and coordinated incident responses and avenues for establishing cause, remedial actions, and damage control procedures.

Under the Policy, it is the responsibility of all personnel, including the Board, Officers and employees, to comply with the rules and regulations of the Bank and to report violations or suspected violations in accordance with the Whistleblower Policy. Any person who knowingly aids, abets, or conceals or otherwise deliberately permits the commission of any irregular or fraudulent act directed against the Bank shall be considered as guilty as the principal perpetrators of the fraud or irregularity. Hence, all personnel, including the Board, Officers and employees, have a duty to cooperate with investigations initiated under the policy.

Anti-Bribery and Anti-Corruption Policy

The Bank puts the highest premium on sound, responsible and effective corporate governance and does not tolerate bribery, corruption or improper acts of any kind in all business dealings. As such, it has enabled and equipped the Bank's officers and Employees, with the requisite policies, programs and guidance through its Code of Business Conduct and Ethics and Standards on Conflict of Interest to combat risks in corruption and bribery.

Remuneration Structure and Policies

Remuneration for the President and Senior Management is set in the same way as for all officers, employees and staff, being contractually fixed, based on the role, the skills and experience of the individual, and reviewed annually with reference to relevant market benchmarks. Remuneration for Senior Management, as reflected in the ratio between fixed and variable components of their total compensation, changes according to performance, rank and function.

- The PerCom ensures that Senior Management remuneration and incentives reflect prudent risk-taking and effective control.
- Salary reviews (covering fixed and variable compensation) are done annually to ensure market competitiveness of the senior officer's total remuneration. The Bank also participates in Executive and Total Remuneration Surveys to benchmark on its market positioning.

The remuneration of the Head of Risk Management and Head of Compliance Department are reviewed and endorsed by the Risk Management Committee and Audit Committee respectively and subsequently approved by the Board. The performance of control functions, (Audit, Compliance and Risk) are assessed independently from the business units they support to prevent any conflicts of interests.

These principles of paying competitively and paying for performance applies equally to our Board, Senior Management, Officers and staff. Senior management and staff remuneration must reflect the interest of the shareholder and the Company, and is structured to encourage the long-term commitment of the employee as well as long term outlook and plans of the Company.

Retirement Policy

The best interests of BanKo are served by retention of directors that make very meaningful contributions to the Board and the organization, regardless of age. It is the Bank's strong view that with age often comes unmatched wisdom and experience, expert business judgement, invaluable industry and community relations and authority, and deeply ingrained appreciation of the principles of corporate governance. The Bank believes that imposing uniform and fixed limit on director tenure is counterproductive as it may force the arbitrary retirement of valuable directors.

Retirement of senior management is done with the requisite succession planning and in accordance with the Bank's policies and implementing guidelines of its retirement plan for all employees, the Bank's Amended By-Laws, Labor Code and the Corporation Code of the Philippines. Currently, the retirement age for employees of the Bank is set at 60 years of age.

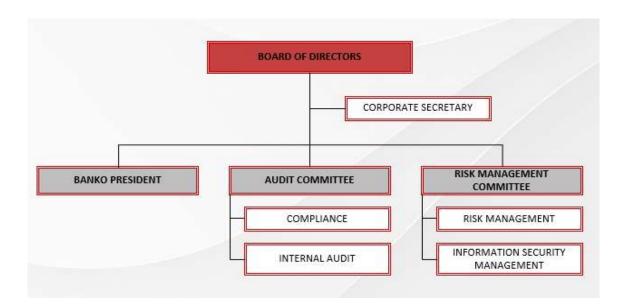

Related Party Transactions

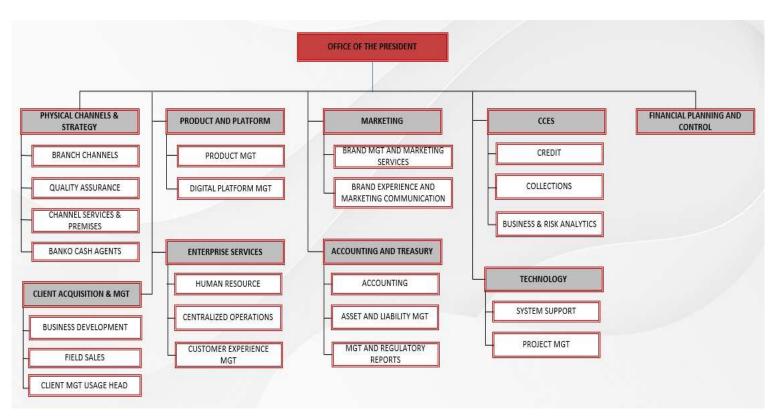

As part of the Bank's effort to ensure that transactions with related parties are normal banking activities and are done at arm's length, vetting is done either by the Banko Management Vetting Committee, the Board-level Corporate Governance Committee or the BPI Related Party Transactions Committee, depending on materiality, prior to implementation

OPERATING MANAGEMENT

The following is an overview of the Bank's principal activities and its functional organization. (as of December 31, 2024):

TABLE OF ORGANIZATION

INTERNAL AUDIT AND CONTROL

The Internal Audit Division is an independent body that supports the Audit Committees in fulfilling its oversight responsibilities by providing an objective assessment on the adequacy and effectiveness of the Bank's risk management, internal controls, and governance processes, including adherence to internal process and procedures, regulatory, and legal requirements, through well-established risk-based audit plans.

The annual audit work plan is developed using the Audit Risk Assessment Methodology or scoring model, and reviewed and approved by the Board through the Audit Committee. The workplan is dynamic and subject to periodic review. Internal Audit follows the Committee of Sponsoring Organizations of the Treadway Commission (COSO) internal control framework which includes Control Environment, Risk Assessment, Control Activities, Information and Communication, and Monitoring Activities, and the Control Objectives for Information and Related Technology (COBIT) frameworks in its assessment of the effectiveness of the internal control system.

Internal Audit reports directly to the Board through its Audit Committee. It collaborates with other assurance providers such as the Risk Management Office, Compliance Office, external auditors and other oversight units. Through this system of comprehensive monitoring and review of risks and compliance in the institution, the Board ensures that the Bank and all business units proactively manage the risks and compliance exposures impacting the business.

Internal Audit has an established quality assurance and improvement program (QAIP) that ensures its continued conformance with Institute of Internal Auditors' (IIAs) International Standards for the Professional Practice of Internal Auditing, and Code of Ethics. The program includes annual internal self-assessment conducted by IA's QAIU Team, and external assessment every 5 years conducted by a qualified independent assessor. The Audit Committee ensures that IA undergoes the external quality assessment review to confirm that audit activities conform to International Standards. IA has maintained a rating of "generally conforms" on both internal and external assessments, since its establishment of QAIP.

RISK MANAGEMENT

Comprehensive Framework

BanKo, under the centralized Enterprise Risk Management (ERM) of BPI, adopts best practices in Enterprise Risk Management (ERM). Our established ERM and capital management framework enables us to systematically identify, measure, monitor, and control our significant financial and non-financial risk exposures while ensuring adequate liquidity and sufficient capital to support growth and business resilience.

The framework covers traditional risks such as credit, market and liquidity, and operational and information technology (IT) risk, as well as other risks, including reputational, conduct, model, legal and tax, and environmental and social risks. It is anchored on the regulatory guidance set by the BSP, which emphasizes effective risk management governance, robust business continuity and operational resilience standards, financial viability, and soundness. These principles are reinforced through internal capital adequacy assessments and the adoption of various risk management processes and methodologies that are regularly reviewed and updated.

Cultivating a Risk-Aware Culture

Our risk culture is anchored on our vision of transparency, and integrity in the workplace, sustainable value creation, and delivering maximum returns to stakeholders. To fulfill our responsibilities to clients, employees, stakeholders, regulators, and the country, we exercise proactive and prudent risk management. The Bank actively promotes a culture of ethical behavior and risk management best practices, emphasizing that risk management is a shared responsibility that is integral in our day-today operations.

Integrated Approach

BPI employs a top-down approach to risk management, with the Board driving risk appetite setting and overall risk strategy. The Board fulfills its risk management responsibilities through the Risk Management Committee. The RMCom defines risk appetite statements oversees and reviews risk management structures, metrics, limits, and emerging issues in BanKo.

The RMCom guides our risk strategy framework by emphasizing:

- Sound risk management governance
- Value-enhancing and business-enabling risk methods and process
- Risk-intelligent data and technologies.

It ensures oversight on risk exposures, monitors regulatory and internal capital adequacy, and fosters a strong risk culture in BanKo. Operating on the "Three Lines of Defense model, we manage risks through clearly delineated functions to ensure effective risk management governance and control processes across the Bank. This model defines the risk management responsibilities of each unit owning and managing the risk (1st line), overseeing the risk management funaction (2nd line), or providing independent assurance on the quality and effectiveness of risk management and controls (3rd line).

Management-level Committees are also established to further strengthen the Bank's risk management by aligning strategies with organizational goals and enhancing decision-making in specific business areas. Through transparent reporting, these committees cultivate a risk-aware culture, improve operational resilience, enhance crisis preparedness, and ensure strategic alignment.

Chief Risk Officer (CRO)

The CRO of the BPI Group provides direct oversight to the Company Risk Officer of the Bank. The Company Risk Officer reports directly to the RMCom and is responsible in leading the formulation of risk management policies and methodologies, aligned with the Bank's overall business strategies, ensuring a prudent and rational approach to risk-taking that is commensurate with returns on capital, and within our risk appetite. Our risk appetite represents a carefully measured level of risk we are willing to assume to achieve business objectives. Risk appetite statements are regularly reviewed and approved by the Board.

The Company Risk Officer is supported by the Risk Management Office, a team of skilled risk managers dedicated to identifying, measuring, controlling, and monitoring the bank's exposures. Through continuous training and development programs, including risk awareness campaigns, our risk managers stay informed about industry developments, emerging risks, and risk management best practices. The Company Risk Officer and the RMO actively engage the RMCom, Management, and business units to effectively communicate our risk culture and best practices.

We identify risks according to three major classifications:

- Credit Risk (including concentration)
- Market (including foreign exchange, interest rate, and equity price risks) and Liquidity Risks
- Operational and Information Technology Risks

Credit Risk refers to the risk of default on obligations that may arise if a borrower or counterparty fails to make required payments such as principal and/or interest on an agreed date; market risk is due to price movements/fluctuations in trading and distribution activities of credit securities, foreign exchange, and derivative instruments (as allowed by regulation); liquidity risk is from the management of our cash flows and balance sheet; and operational and IT risks from inadequate or failed internal processes, people, information technology and systems, and threats from external events that pose risks of financial losses and damage to our reputation. We are likewise cognizant of other risks (e.g., environmental, social, legal and tax risks, etc.) that we may be exposed to in our day-to-day business activities and operations. In managing our financial and non-financial risks, we have established risk management processes and controls, and use various methodologies, metrics, tools, and systems to identify, measure, monitor and control our risk exposures.

In compliance with BSP Circular 989 (Conduct of Stress Testing Exercises), the RMO and the Corporate Strategy, Investor Relations, and Sustainability group have employed a formal integrated risk and capital stress testing framework, with a forward-looking assessment of risks under given stressed scenarios identified or developed by our experts. Among others, these stress testing scenarios include the impact of possible economic crisis through stressed macroeconomic variables forecasts, impacts of climate and environmental risk, and reputational risks to the Bank's portfolio. These scenarios are carefully considered to assess the financial and capital impact and to facilitate the development of the Bank's capital contingency and recovery plans.

Independent reviews are regularly conducted by our internal audit, external auditors, and regulatory examiners to verify the effectiveness of controls and risk mitigation measures. We also engage various risk management experts to independently assess our risk maturity across key areas, including business continuity, cyber and information security, and ERM.

All these efforts have been undertaken and conscientiously practiced in recognition of BSP Circular 971 (Risk Governance), as well as benchmarked to the Committee of Sponsoring Organization's (COSO) ERM integrated framework. These have likewise proven indispensable with our reliance and belief in our established risk management system to ensure continued delivery of value to our stakeholders especially during periods of unprecedented uncertainties and economic downturns.

Credit Risk. The Bank's Credit Risk Management Unit, supported by BPI's Credit Policy and Risk Management (CPRM) Division, is responsible for the overall management of the Bank's credit risks. The Credit Risk Management Unit is accountable to the RMCom for overseeing the Bank's credit risk appetite as well as monitoring credit risks and asset quality. Additionally, the unit supports Senior Management in ensuring the overall quality of our loan and investment portfolios by adopting appropriate risk control strategies and maintaining adequate monitoring and reporting processes. The BPI's CPRM conducts independent credit reviews of business portfolios, credit products and its processes, to ensure compliance with our prudent credit evaluation, underwriting standards, and rating parameters.

In 2024, we continue to experience significant growth in loan volumes while effectively managing our overall credit risk profile and maintaining asset quality. This is evidenced by acceptable levels of non-performing loans (NPLs), which are generally on par along with adequate reserves cover. We manage credit risk of our lending programs, establishing that risks remain well within our risk appetite while actively mitigating the risks linked to our loan products and business strategies. We ensure compliance with internal and prudential requirements related to credit risk management, including adherence to Related Party Transaction (RPT) guidelines, single borrower's limits, credit risk concentration requirements, and both internal and regulatory stress tests, among others. We maintain a diversified loan portfolio with no significant concentrations, and our top borrower exposures remain within the established internal and regulatory single borrower's limits.

We regularly review the appropriateness of the classification and impairment rates of defaulted or impaired accounts.

We adopt credit risk scorecards to assess borrowers' credit worthiness. Both financial and non-financial variables were considered in the scorecard development process, and all scorecards were subjected to expert judgment meetings with key business lending units. The models undergo independent validation as well as regular monitoring for predictive power and performance.

We fully implemented Philippine Financial Reporting Standards 9 (PFRS 9) - based policies, models, and ECL methodologies for all our credit and investment portfolios, rendering them compliant to both the BSP and PFRS. Loss provisioning are based on ECL, which is a function of the Probability of Default, Loss Given Default, and Exposure at Default. Any additional reserves are provided as a qualitative management overlay, based on forward-looking moderate and/or adverse stress scenarios simulated by the Bank.

We also regularly subject the portfolios to credit reviews, through the BPI credit review team, to assess that the credit processes — loan origination, credit analyses, approval, implementation and administration - conforms to the standards set in the bank's internal policies and complies with regulatory requirements. For the year, a review of credit portfolios revealed generally acceptable credit performance and overall portfolio quality.

We measure our credit risk exposures in terms of regulatory capital requirements using the standardized approach in line with Basel III and BSP standards on minimum capital requirements. Using this approach, our credit exposures to sovereigns, corporates, and banks are risk- weighted to reflect the credit assessment from reputable credit ratings agencies (Moody's, Standard & Poor's, Fitch, and PhilRatings, where applicable). This approach also allows for the use of eligible collaterals (cash, financial instruments, and guarantees) to mitigate credit risks.

We are committed in integratin environmental and social standards in our lending activities and credit risk management principles. We continouosly enhance our credit policies, processes, guidelines, and lending programs to conform with sound credit risk management, including practices that conform to the Bank's sustainability agenda not only to manage environmental and social risks, but also to pursue opportunities that would add and/or enable value for the Bank's various stakeholders by positively impacting the environment and society. Existing credit manuals are regularly revisited and updated to reflect new developments and are aligned with the Bank's financial inclusion programs and business sustainability practices.

We regularly conduct stress tests on our loan portfolio to determine the impact of changes in various macroeconomic and/or industry scenarios, surface any undue credit concentration risk, and to comply with regulatory reporting. Assessment of stress testing impact to the Bank's financials is also performed simultaneously. In the most recent exercise, results showed that the Bank's Capital Adequacy Ratio (CAR) and Common Equity Tier 1 Ratio (CET1) generally remain above or at about the minimum

regulatory capital requirements, even with assumed write-downs on the Bank's large exposures and consumer portfolios, and even with the economic scenario analyses of rising interest and inflation rates and Peso depreciation affecting the Bank's borrowers.

All these efforts have been undertaken in recognition of BSP Circular 855 (Sound Credit Risk Management Practices), BSP Circular 1085 (Sustainable Finance Framework), BSP Circular 1128 (Environmental and Social Risk Management Framework), BSP Circular 1150 (Prudential Framework for Large Exposures Monitoring Threshold), BSP Circular 1159 (Implementing Rules and Regulations of the Mandatory Agriculture, Fisheries and Rural Development Financing), and other related regulatory standards and guidelines.

Market, Interest Rate Risk in the Banking Book (IRRBB), and Liquidity Risks

RMO exercises its market, IRRBB and liquidity risk management duties and responsibilities through the BanKo RMO and BPI Market, IRRBB, and Liquidity Risk Management (MLRM) Division. The Division employs various risk metrics commensurate to the size and sophistication of the Bank's business operations which guide us to effectively manage risks. Our risk exposures are continuously monitored against approved risk limits which are regularly reviewed and updated to align with our business objectives, strategies, and overall risk appetite. We also conduct forward-looking scenario analyses, risk simulations, and stress tests to complement our risk metrics to provide a broader and holistic risk perspective to the RMCom and Management.

The treasury operation of the Bank is straightforward. We do not engage in active trading and therefore do not maintain a trading portfolio. Instead, we rigorously oversee risk exposures on non-trading portfolios. Assets are marked-to-market, and subsequent gains and losses are acknowledged through profit or loss. Market risk exposures from these portfolios are assessed using the historical simulation Value-at-Risk model, supplemented by various risk metrics such as Stop Loss and dollar duration (DV01).

IRRBB is the current and prospective risk to our capital and earnings arising from adverse movements in interest rates that affect its banking book positions. Since excessive levels of interest rate risks in the banking book can pose a significant threat to the Bank's earnings and capital base, we have established adequate risk management policies and procedures, appropriate risk measurement models, risk limit structures, and a robust risk management system to manage our IRRBB.

Interest rate exposures from banking book activities are measured through (a) Earnings-at-Risk (EaR), or the potential deterioration in net interest income over the short- to medium- term horizon (i.e., those occurring in the next one to three years) due to adverse movements in interest rates, and (b) Balance Sheet Value-at-Risk (BSVaR), or the impact on the economic value of future cash flows in the banking book due to changes in interest rates. The EaR is calculated using the parametric approach based on the volatility of the daily year-on year rate movements for the short- to medium- term horizon (i.e., one to three years) at a 99% confidence level. The BSVaR, on the other hand, is measured using the historical simulation approach based on the daily year-on-year rate movements in the historical window at a 99% confidence level. BSVaR considers both principal and interest payments while EaR considers principal payments only. Both are built on the repricing profile of the balance sheet and utilize certain behavioral assumptions such as for deposit accounts which do not have specific maturity dates (i.e., current and/or savings accounts). IRRBB levels are against RMC approved limits and regularly reported to the RMC and Senior Management.

We ensure adequate levels of liquidity and that contingency plans are in place in the event of liquidity stress. Our liquidity profile is measured and monitored through our internal metrics - the Minimum Cumulative Liquidity Gap (MCLG) and Intraday Liquidity Buffer Ratio (ILBR), and the regulatory metrics - Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR). The MCLG measures the smallest net cumulative cash inflow (if positively gapped) or the largest net cumulative cash outflow (if negatively gapped) over the next three months. This indicates the biggest funding requirement in the short term and the degree of liquidity risk present in the current cash flow profile of the Bank. In view of further strengthening our liquidity risk management, we implemented in 2022 the ILBR which was designed to promote the Bank's resilience against intraday liquidity risk by ensuring that adequate liquidity buffers are in place to meet unexpected outflows throughout the day without significantly affecting our funds or reserves management. The LCR determines the short-term resilience of our liquidity risk profile, requiring financial institutions to hold adequate levels of high-quality liquid assets to cover net cash outflows in the next thirty days. We, on a solo and consolidated basis, maintain adequate levels of liquidity to provide a sufficient buffer for critical liquidity situations. The Bank monitors and reports its significant currencies to track any potential currency mismatches that could impact on the LCR. The NSFR complements the

LCR by limiting the overreliance on short-term wholesale funding and promoting enhanced assessment of funding risk across all on- and off-balance sheet accounts.

We supplement our static ALM risk monitoring with a dynamic balance sheet for our liquidity and IRRBB metrics by considering future business plans and projections, enabling a more comprehensive understanding of our immediate and potential future risk exposure. We also perform regular stress testing activities to determine our ability to withstand and evaluate the impact of financial crises and other types of stress events. We conduct price stress tests in both the trading and banking books using a variety of interest rate shock scenarios to identify the impact of adverse movements in interest rates on our economic value, earnings and non-interest income. The design of the trading and banking book stress tests includes various interest rate shock scenarios such as steepening and flattening yield curves, parallel up/down and short rate up/down, forward-looking and other notable historical stressed events that have occurred in the financial industry. The interest rate shocks applied are calibrated for all significant currencies in which we have significant positions. We conduct liquidity stress tests using different risk events, scenario types, and stress horizons to assess our liquidity position and determine potential liquidity shortfalls during stress events. Scenario analysis and simulations are performed to provide forward-looking liquidity conditions and anticipate potential liquidity and funding requirements. The results of the stress tests are presented to the RMCom and Management as part of our overall risk management process. All these initiatives are undertaken to ensure that the relevant market, IRRBB, and liquidity risks are identified and controlled.

We have in place escalation procedures in handling potential and/or actual limit breaches in our market, IRRBB and liquidity risk metrics, enabling timely identification and reporting of risks and the formulation of appropriate action plans and strategies to prudently manage such risks and contain them at acceptable levels.

The risk management process, including its various components, is subject to regular monitoring and periodic independent review (i.e., internal/regulatory audit and model validation), and regularly updated to ensure accuracy, propriety, and timeliness of data and assumptions employed.

Liquidity Risk

Liquidity risk is the risk that the Bank will be unable to meet its payment obligations associated with its financial liabilities when they fall due, and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfill commitments to lend. The Bank's liquidity profile is observed and monitored through its metric, the Minimum Cumulative Liquidity Gap (MCLG). The MCLG is the smallest net cumulative cash inflow (if positive) or the largest net cumulative cash outflow (if negative) over the next three (3) months. The MCLG indicates the biggest funding requirement in the short term and the degree of liquidity risk present in the current cash flow profile of the Bank. A red flag is immediately raised and reported to management and the RMC when the MCLG level projected over the next 3 months is about to breach the RMC-prescribed MCLG limit.

Liquidity Risk Management Process

The liquidity management process, as carried out within the BPI Group and monitored by the RMC includes:

- day-to-day funding managed by monitoring future cash flows to ensure that requirements can be met. This includes replenishment of funds as they mature or as borrowed by customers,
- maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring liquidity gaps and ratios against internal and regulatory requirements;
- managing the concentration and profile of debt maturities; and
- performing periodic liquidity stress testing on the BPI Group's liquidity position by assuming a faster rate of withdrawals in its deposit base.

Monitoring and reporting take the form of cash flow measurement and projections for the next day, week and month as these are key periods for liquidity management. The starting point for these projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets. Sources of liquidity are regularly reviewed to maintain a wide diversification by currency, geography, counterparty, product and term as applicable.

Liquidity Coverage Ratio (LCR)

Pursuant to BSP Circular No. 905 issued in 2016, the Bank is required to hold and maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that are sufficient to meet its estimated total cash outflows over a 30 calendar-day period of liquidity stress. The LCR is the ratio of HQLAs to total net cash outflows which should be no lower than 100% on a daily basis. It is designed to promote short-term resilience of the Bank's liquidity risk profile to withstand significant liquidity shocks that may last over 30 calendar days. HQLA represent the Bank's stock of liquid assets that qualify for inclusion in the LCR which consists mainly of cash, regulatory reserves and unencumbered high-quality liquid securities. HQLAs therefore, serve as defense against potential stress events.

The main drivers of the Bank's LCR comprise the changes in the total stock of HQLA as well as changes in net cash outflows related to deposits, unsecured borrowings, and commitment facilities, if any. The bank is not actively trading and thus has no trading portfolio. The Bank's business is primarily lending, and funds are sourced through deposit-taking activity and capital from the stockholders. There are no significant changes in the Banks' business model that would cause significant concern in maintaining the Bank's liquidity profile. The Bank's liquidity profile is determined by the Bank's ability to grow and maintain the deposit level within the plan to fund the growing loan portfolio. The Bank's average liquidity coverage ratio in 2024 is 137.49% (LCR /4 quarters).

The Bank has no exposure to derivatives and interest rate swaps. As such, there are no other inflows and outflows from derivatives. Other items considered relevant for the Bank's liquidity profile such as other contractual obligations are captured as other cash outflows in the LCR calculation.

| Period | Average Liquidity Coverage Ratio |
|-------------|----------------------------------|
| 1st quarter | 174.22% |
| 2nd quarter | 148.21% |
| 3rd quarter | 106.68% |
| 4th quarter | 120.86% |
| 2024 | 137.49% |

The Financial Management Department manages the Bank's liquidity position through asset-liability management activities. A centralized approach to funding and liquidity management enhances the Bank's ability to monitor liquidity requirements, maximizes access to funding sources, minimizes borrowing costs, and facilitates timely responses to liquidity events.

Net Stable Funding Ratio (NSFR)

On January 1, 2019, the Bank adopted BSP Circular No. 1007 issued in 2018 regarding the NSFR requirement. The NSFR is aimed at strengthening the Bank's long-term resilience by maintaining a stable funding in relation to its assets and off-balance sheet items as well as to limit the maturity transformation risk of the Bank. The NSFR is expressed as the ratio of available stable funding and the required stable funding and complements the LCR as it takes a longer view of the Bank's liquidity risk profile. The Bank's capital and retail deposits are considered as stable funding sources whereas the Bank's assets including, but not limited to, performing and non-performing loans and receivables, HQLA and non-HQLA securities as well as off-balance sheet items form part of the required stable funding. The Bank's NSFR is well-above the regulatory minimum of 100%.

The Bank maintains a well-diversified funding base and has a substantial amount of core deposits, thereby avoiding undue concentrations by counterparty, maturity, and currency. The Bank manages its liquidity position through asset-liability management activities supported by a well-developed funds management practice as well as a sound risk management system. As part of risk oversight, the Bank monitors its liquidity risk on a daily basis, in terms of single currency and significant currencies, to ensure it is operating within the risk appetite set by the BOD and to assess ongoing compliance with the minimum requirement of the liquidity ratios. Furthermore, the Bank has a set of policies and escalation procedures in place that govern its day-to-day risk monitoring and reporting processes.

The table below shows the actual liquidity metrics of the Bank as of December 31:

| | 2024 | 2023 |
|--------------------------|----------------|----------------|
| Liquidity coverage ratio | 117.19% | 135.40% |
| Net stable funding ratio | 123.42% | 135.91% |
| Leverage ratio | 13.63% | 10.83% |
| Total exposure measure | 52,800,142,894 | 43,493,133,715 |

The decrease in the LCR was driven by the faster growth of the loan portfolio where a portion of the HQLA is deployed.

Cash, reserves, and due from BSP make up 100% (2024 - 100%) of the total stock of HQLA for the year ended December 31, 2024. The NSFR is stable to a slight decrease as available funds are sourced majority from retail deposits relative to required stable funding.

Operational and Information Technology Risks

The Bank's Operational Risk Management Unit together with BPI Operational Risk Management (ORM) Division monitors risks arising from inadequate or failed internal processes, people, and systems or from external threats and events such as cybercrime that led to financial losses, pandemic, natural disasters that damage physical assets, or electronic or telecommunication failures that disrupt our operations. Operational risk is inherent in all banking products and services and may include risks that give rise to adverse legal, tax, regulatory, or reputational consequences. Information Technology (IT) is a significant risk factor subsumed under operational risk, given the highly automated nature of our processes and services. We define IT risk as the risk of any potential adverse outcome arising from the use of or reliance on IT (i.e., computer hardware, software, devices, systems, applications, and networks). IT risk includes, but is not limited to, information security, service availability, reliability and availability of IT operations, completion on specification of IT development projects, and regulatory compliance pursuant to the BSP's guidelines on Information Technology Risk Management.

The Business Risk Officer (BRO) is central to the execution of the Bank's risk management program. We have BROs collaborating with and overseeing key functional areas and business units throughout the organization. They are responsible for fostering a strong risk management culture, applying ERM best practices, and ensuring the timely submission of operational and other risk reports as part of the first line of defense.

We have an established operational risk management framework that clearly defines responsibilities related to the performance of the risk management function, as well as the accountabilities, processes, and tools employed to identify and mitigate operational and IT risks in our operating units.

Subject to regular monitoring and reporting, tools include Key Risk Indicators (KRIs), loss events, incident management, Risk & Control Self-Assessment (RCSA), Risk Assessment for Business Activity (RABAct), and Outsourcing and Materiality Risk Assessment (OMRA). KRIs are used to monitor risk profiles, trigger early-warning alerts, and prompt mitigating actions. Operational loss events data collection and analysis provide meaningful information to assess the Bank's exposure to risks and the effectiveness of its controls. Operating units are required to conduct regular self-assessments to identify, assess, and mitigate risks, which include the assessment of inherent and residual risks, identification of controls, and the assessment of the design and performance effectiveness of these controls. RABAct and OMRA are conducted to provide information on the anticipated risks prior to implementation of new or changes to existing business activities (e.g., product development and service offerings, process changes/ enhancements) and outsourcing engagements, respectively. These risk assessments are aimed at safeguarding both the Bank and our clients from the risks of economic loss, operational disruption, third-party failures and damages, or compromise of personal or financial data.

To support our aggregation and reporting process, we have established risk categories and implemented a risk and control library that offers a consistent taxonomy of risks and controls. Regular training on the various ORM tools and processes is conducted, and bulletins/ advisories are shared with stakeholders to enhance the Bank's risk awareness and appreciation programs.

In our push for digitalization, we have started deploying the ORM System (ORMS) that seamlessly integrates various tools and processes such as Loss Events, Metrics/KRIs, Incident Management, Exception Approvals, Findings, Risk and Control Self-Assessment (RCSA), and Risk Aggregation

The ORMS eliminates manual processes and enables the correlation of all tools, offering improved visibility to Management and empowering them to make data-driven decisions.

To support the Bank's Environmental, Social, and Governance (ESG) initiatives, BPI has integrated E&S risks in our tools which includes BanKo. The risk library was expanded to tag operational risk titles with potential E&S-related risks. Operational loss events monitoring captures actual occurrence of E&S risks that has resulted to, or has the potential to result to, a financial or regulatory impact. In collaboration with our ESRM unit, we are consistently working to establish key metrics that provide the RMCom and Mancom with visibility into E&S risks.

Our exposure to operational risks are identified, assessed, and monitored as an integral part of the risk assessment processes. The Bank currently uses the Basel II regulatory Basic Indicator Approach to quantify operational risk-weighted assets, using the historical total annual gross income as the main measure of risk.

We regularly perform operational risk stress tests, through scenario analysis, to support the internal capital assessment for operational and IT risks, as part of our initiatives to advance risk management methodologies. Through a series of stress scenarios, we can identify, analyze, and assess the impact of unexpected and extreme operational risk events. This exercise ensures that high impact events are captured during risk assessment, especially those not yet reflected in our existing historical loss data.

The Board-level RMC is regularly apprised of the operational and IT risks through comprehensive reporting and discussions during quarterly meetings. They are also regularly updated on the latest cybercrime trends, emerging risks, industry on the latest cybercrime trends, emerging risks, industry developments, and the Bank's implemented migration measures.

Business Continuity Risk

The Bank maintains its business continuity capability and organizational resilience by means of an effective and global best practice Business Continuity Program (BCM) program. As self-assessed by the Bank, and a third-party consulting firm, this program is aligned with ISO 22301 and BSP Circular 951 (Business Continuity Management) and Good Practice Guidelines of Business Continuity Institute (BCI) UK. This program includes: (1) Business Impact Analysis (BIA) methodology, (2) prioritization of products and services, (3) recovery plans, and (4) response structures to provide adequate level of services until normal operations resume. The BIA methodology determines which products, services, processes, and resources should be prioritized during a disruption. Risk Assessment for Business Continuity (RABCon) identifies the most probable threats to the Bank and assesses the likelihood of their occurrences and their impact to key areas. Business Recovery Plan (BRP) provides a suitable solution that focuses on the impact of events and the timely restoration of building, equipment and supplies, technology, vital documents, human resources, and third-party vendors.

The Business Continuity Management is centralized in BPI covering BanKo. The resilience framework is established, and functional areas have been designated to achieve business continuity objectives and support the agreed recovery solution. Each functional area has a designated Functional Business Continuity Coordinator who handles localized risk events impacting business units in the business areas, with the support and guidance of tactical teams such as the Incident Management Teams and the Corporate BCM Unit. Should incidents escalate into a true crisis, the Crisis Resiliency Committee (CRC), central in BPI Parent, consisting of senior management officers, is activated to establish command and control.

To ensure effective crisis communication, the Bank has implemented an Automated Call Tree Process, enabling immediate communication with all affected employees across business units. This system allows for rapid dissemination of critical information, ensuring that key personnel are notified of disruptions in real time.

To further improve the Bank's resilience, BPI BCM team have set up alternate command centers in Metro Manila and in provincial areas, which also provides additional seats that can be used for business recovery. The team have also designated various evacuation sites, equipped with food, blankets, and other supplies, to assist employees during natural calamities.

The Bank employs a hybrid remote working and equips its employees with necessary access and tools to support a flexible work arrangement for a diversified BCP. Through the Bank's digital transformation journey, we have also digitized BCM processes, campaigns, business recovery plans, and other BCM documentations through the Bank's workflow management tool. This shift to digital platforms has streamlined workflows, improved real-time accessibility, and enhanced the overall efficiency of our business continuity efforts, ensuring that our teams can respond quickly to any disruption, all while maintaining a high level of preparedness for potential crises.

Information and Physical Security Risks

As we continue to transform customer experience, meet the growing demand for digital financial services, and promote financial inclusion, safeguarding the data of our customers and stakeholders remains a top priority. Protecting their information is fundamental to building and maintaining trust and confidence in our services.

Our information security management system integrates people, processes, and technology to ensure the confidentiality, integrity, and availability of our information assets. This system is built on a robust framework of continuous risk identification, assessment, treatment, and monitoring. Our information security and data privacy programs comply with industry standards and adhere to laws and regulations covering data protection, customer rights, cyber security, and risk management. Aligned with sustainability objectives, these programs aim to optimize resources in ways that effectively mitigate risks, limit costs, and maximize impact.

In the face of rising cyber threats, we are committed to continually enhancing our security infrastructure and implementing advanced technical controls to protect our physical and digital environments. Our approach includes a comprehensive suite of prevention, detection, and recovery mechanisms to manage threats proactively and respond promptly to incidents. We subject our security controls to regular assessments, both internally and through independent third-party evaluations, to ensure their relevance, effectiveness, and adherence to standard practices.

Additionally, we conduct routine reviews and simulation tests of our incident response plans to validate their viability and ensure organizational preparedness for service disruptions or cyberattacks.

Recognizing the importance of supply chain security, we maintain a comprehensive third-party and vendor risk management program. This program incorporates a rigorous vetting process for service providers and IT suppliers, followed by ongoing performance monitoring, to ensure compliance with information security and data privacy requirements. To ensure efficiency and consistency of conduct, we are investing in automation and streamlining of our third-party risk management processes.

To address the growing risks of online banking fraud, we have intensified our informational security awareness campaigns for customers. These campaigns, delivered through traditional and social media, our websites and channels, and direct customer communication, empower customers to safeguard their personal information and combat increasingly sophisticated cyber threats and modus operandi. A robust fraud management system that seeks to identify potential fraud through transaction profiling helps to mitigate risk exposure of our clients.

Internally, we aim to foster a strong culture of security by implementing continuous and timely employee awareness initiatives designed to drive behavioral change. These initiatives educate employees on current and emerging cybercrime tactics, equipping them to identify threats, and reinforcing the vital role they play in mitigating risks. We extend these awareness efforts to service provider employees to ensure they are aligned with our security practices and expectations. Additionally, we conduct regular social engineering simulations to determine employee susceptibility to these tactics. The insights gained allow us to deliver targeted training, enabling employees to recognize and respond effectively to suspicious activities.

Through these efforts, we reaffirm our commitment to protecting information assets, maintaining customer trust, and supporting the secure delivery of innovative financial services.

BPI's Facilities Services and Management (FSM) Group takes a leading role in ensuring a secure, safe, and inspiring environment for both BanKo clients and personnel. Tasked with building, maintaining, and ensuring the physical security and safety of all BanKo branches and campuses, FSM employs a proactive and integrated approach encompassing people, infrastructure, and security. This strategy addresses the

increasingly sophisticated needs of BanKo sites. In harmony with our sustainability agenda, FSM is proactive in implementing initiatives to counter the impact of climate change. These measures include embracing initiatives focused on renewable energy such as electric vehicles and other projects. FSM also reduces its footprint where it can, as seen with its pursuit of Excellence in Design for Greater Efficiencies (EDGE) certifications. Finally, FSM is also supported by a well-established Physical Security Response Plan. With properly trained personnel and proper equipment, FSM is equipped to handle various emergencies and calamities such as typhoons, earthquakes, and other natural disasters.

Legal and Tax Risk

The Bank outsourced the legal services to BPI. BPI has two specialized legal services divisions composed of highly trained legal professionals with experience in banking and corporate law and litigation that serve as BPI Group's main legal resource. These divisions play critical roles that enable us to carry out our operations while minimizing legal issues and risks.

The BPI Corporate Legal Affairs Division composed of the Documentation, Legal Risk and Advisory, Tax Compliance, Tax Advisory and Tax Risk Management units provide proactive guidance and support to effectively manage the Bank's legal and tax risks. The Documentation and Legal Advisory units ensure that the Bank's rights and obligations are protected in its contractual relations, and that the Bank is abreast of legal developments and requirements, respectively. It also conducts a legal risk assessment of potential claims against the Bank and recommends legal risk mitigation measures. It further empowers the Bank units by issuing legal and tax advisory bulletins, providing supporting training seminars that highlight legal and tax issues, new laws, and regulatory fiats that impact the Bank's products and services, and promote awareness initiatives of various regulatory agencies.

The BPI Corporate Legal Affairs continued to provide legal direction and support, working closely with Management, Risk and Compliance Offices, and the various business segments in monitoring, interpreting, and implementing laws, government regulations, and pandemic related issuances.

The Dispute Resolution Division (DRD) plays a significant role in protecting our rights and interests and in avoiding losses when the Bank is involved in disputes or cases filed by the Bank against clients and third parties or filed by clients and third parties against the Bank before regulatory entities, quasi-judicial bodies, and judicial cases in all levels of the judicial proceedings as well as from trial courts to the Supreme Court. The division handles cases that involve large enterprise loans, retail loans, and trade financing. They specialize in criminal cases, cybercrime cases, and administrative cases (including BSP and SEC cases) filed on behalf of or against the Bank. We likewise handle defensive cases filed by any party against the Bank for any reason and play a significant role in the Bank's AMLA Compliance and the Labor Relations Compliance.

Reputational Risk

The Bank defines reputational risk as the risk of potential negative public perception or uncontrollable events and developments that would have an adverse impact on the Bank's brand and reputation that can affect the Bank's ability to maintain existing business relationships or establish new business relationships and continued access to sources of funding.

We regard the Bank's reputation as a very valuable asset, since a negative reputation can harm client and investor trust, erode client base, and hinder sales. Poor reputation also correlates with increased costs for hiring and retention that can degrade operating margins and prevent higher returns. Furthermore, reputational damage increases liquidity risk which impacts stock price and ultimately causes market capitalization to decline.

We have an established Reputational Risk Management framework that provides consistent standards for the identification, assessment, and management of reputational risk issues. While all our employees have a responsibility to protect our reputation, which forms part of our Code of Business Conduct and Ethics, the primary responsibility for managing and reporting reputational risk matters lies with our business and operating units as the first line of defense. The Public Affairs and Communications unit, on the other hand, is the risk control owner of reputational risk, promoting awareness and application of our policies and standards regarding reputational risk and encouraging business units to take account of our reputation in all decision-making activities, as well as dealings with clients, suppliers, co- employees, and all other stakeholders.

Our policies ensure that reputational risk matters are managed in a consistent manner and aligned with our strategic priorities. We have established risk indicators for reputational risks that are regularly monitored and reported. These include events and developments related to products and services, channels, financial performance, human resources, brand equity, customers' awareness and loyalty that are further amplified through traditional and social media coverage.

Model Risk. The BPI parent covering BanKo maintains an active and robust model risk management system and well- articulated model review standards and methodologies. The RMCom establishes and ensures a strong model risk management structure that fits into the broader risk management culture and processes of the BPI organization, while the CRO is delegated with the responsibility to review and endorse all model risk reports to the RMCom, and model owners are responsible in managing the model risk of their respective models from initiation to retirement.

The BPI Risk Models Validation (RMV) Department is the Bank's model risk manager, owner of the model governance framework and model inventory, and is responsible for conducting the independent model validation activities.

The framework encompasses governance and control mechanisms such as Board and Senior Management oversight, policies and procedures, controls and compliance, and organizational structure; with controls carried out at the different stages of the model lifecycle. A semi-annual inventory of the Bank's models is conducted to ensure relevance, comprehensiveness, and usability across functional risk areas. These models are subject to independent validation generally prior to implementation, and revalidation as appropriate.

Given the increased regulatory expectations on model risk management, independent validation, and the Bank's focus on data-driven analytics and decision-making. RMV continuously tests the quality and robustness of our risk models. In 2024, RMV engaged a third-party consultant to conduct a maturity assessment of the current state of the Bank's model risk management benchmarked against global standards and leading industry practice to further enhance their framework and methodology.

In response to the Bank's commitment to data-driven analytics and decision-making, RMV continuously update and utilize automation tools on recurring models subjected to annual validation, develop applications to provide our stakeholders accessibility to real-time model information, consider the impact of stress and macroeconomic scenarios to latest modeling methodologies employed, and ensures that proper emphasis is placed on models supporting financial inclusion and sustainability initiatives.

Environmental and Social Risks

Despite contributing less than 1% to global CO₂ emissions¹, the Philippines faces high vulnerability to the impacts of climate change and natural disasters, emerging as one of the most-at-risk country in the world in 2024². Situated in the Pacific Risk of Fire, the proactive management of challenges arising from climate change and evolving social landscapes is crucial for the Philippines as it pursues advanced economic development. The Bank is cognizant of these challenges and has been a sustainability advocate with our commitment to integrate sustainability into our business and operational activities.

We recognize the presence of environmental and social (E&S) risks inherent in our core operations and daily activities. To safeguard the best interests of our stakeholders, we commit to a risk management strategy centered on creating long-term stakeholder value and promoting shared value for a sustainable future.

Under the Enterprise Risk Management framework and guided by BSP Circulars 1085 and 1128, we established the Bank's general policy on ESRMS, which integrates E&S risk management in our risk governance structure and promotes the updating and establishment of policies, processes, methods, and tools that integrate E&S risk management in our main business activities and decision-making processes. It is designed to support the two sustainability pillars of Responsible Banking and Responsible Operations and is critical in achieving our strategic sustainability objectives and targets. We define E&S risks as potential negative financial, legal, and reputational effects from E&S issues affecting our key business activities.

Environmental risks can be categorized as physical or transition. Physical risk is the potential
loss or damage to tangible assets arising from climate change, weather-related disturbances, and
other environmental hazards. These can either be acute events, which are event-driven risks
that have an immediate adverse impact, or chronic events which are shifts in climate patterns that

are long-term in nature. Transition risk is the potential economic adjustment cost resulting from policy, legal, technology, and market changes to meet climate change mitigation and adaptation requirements.

• Social risks are potential negative social impacts including, amongst others, hazards to human health, safety and security, and threats to communities, biodiversity, and cultural heritage.

We recognize that E&S risks can influence and/or aggravate the Bank's existing traditional financial and non-financial risks such as credit, operational, and reputational risks. Enhancements to our internal policies, standards, and processes are ongoing to integrate the identification, assessment and management of E&S risks with our other existing functional key risk areas.

²World Risk Report 2024

| DIOV CATEGORY | EXAMPLES OF ENVIRONMENTAL RISK DRIVERS | | | | | | |
|---------------|--|---|--|--|--|--|--|
| RISK CATEGORY | PHYSICAL RISK | TRANSITION RISK | | | | | |
| Credit | Deterioration in the repayment capacity of borrowers due to reduced or limited operations, profitability or value of collateral, and returns on transactions caused by climatic shifts or extreme weather events | Failure to consider the shifting regulatory and policy landscape in credit quality assessment (e.g., carbon taxes on emissions, total outright ban in activities driving E&S risk events, shift in consumer preferences, etc.) resulting to a deterioration in loar portfolio and asset quality | | | | | |
| Market | Reduced value and marketability of our assets due to physical impacts | Shift in demand and preferences of clients and other stakeholders for the Bank's products and services | | | | | |
| Operational | Business interruptions due to extreme weather events and its resulting damage to physical assets | Increased operating costs and higher capital expenditures to ensure resilience and carbon reduction measures | | | | | |
| Reputational | Negative public reaction due to perceived inadequate support for clients and communities affected by extreme weather (and other environmental) events Negative public reaction due to perceived increase in exposure to environmental hazards | Damage to our brand, reputation, and social capital due to potential perceptions of our inadequate support to transition to a low-carbon economy | | | | | |

Our approach to managing E&S risks will evolve as we progress in our risk assessment methodologies and capabilities, strengthening both our qualitative and quantitative analyses. Implementation of new or enhanced policies and processes will support these activities, ensuring alignment with relevant laws and regulations such as BSP Circulars 1085,1128, and 1149, as well as local and relevant global best practices. All these efforts are aimed at only meeting regulatory expectations but also adding value for our various stakeholders by positively impacting the environment and society.

In BanKo, the E&S considerations are integrated into our lending activities and daily operations to ensure alignment with our sustainability strategy and principles in the delivery of products and services, as well as the stability of our operations.

BanKo is the "microfinance arm" of the Bank of the Philippine Islands (BPI) Group, contributing to the Sustainability Development provision of decent work and economic growth among Filipinos. We provide an affordable source of additional capital for the micro-businesses of borrowers, spurring growth and increasing their number of employees. The business strategies and targets are focused on serving the C2D segments of self-employed microentrepreneurs (SEMEs) and salaried individuals and have no credit exposures/transactions to corporations under industries or sectors with material E&S risks. The large majority of the SEMEs is under Wholesale and Retail Trade industry (i.e. market vendors, sari-sari store owners, retailers). In general, the sector and its activities pose low risk to E&S. Please see the breakdown of industries as of December 31, 2024 below:

| 74.33% | Wholesale and Retails Trade (i.e. market vendor, sari-sari store owner, retailers) |
|--------|--|
| 8.98% | Accommodation and Food Service (i.e. carinderia) |
| 6.80% | Manufacturing (i.e. souvenir items) |
| 5.15% | Human Health and Social Work Activities & Agriculture, Forestry and Fishing |
| 4.74% | Others |
| 100% | |

¹CO₂ emissions www.ourworldindata.org/co2-emmissions

In addition, to address risk and foster E&S responsible business decisions, the following are initiatives of the Bank.

- 1. The Bank's risk appetite for Environmental and Social Risk which was subsequently approved in January 2024 specifically states: "The Bank has a high credit risk appetite for sustainable loans and bonds that highlight the importance of sustainability, high ethical and social standards, and protection of the environment. The Bank has a low credit risk appetite for industries or sectors with material E&S risks which the Bank has sustainability goals."
- 2. The Bank requires all employees to attend the training on sustainability to ensure an adequate understanding of the E&S risks.
- 3. BanKo offers simple products and services focusing on the C2D market segment.
- 4. The Bank holds caravans and financial literacy programs.

Capital Adequacy

The Bank's Financial Management Department together with Risk Management Office and in coordination with BPI parent Corporate Strategy and Planning Division oversees the management of the Bank's capital adequacy. Capital adequacy ratio, or CAR, is a measure of the Bank's total qualifying capital relative to its risk-weighted assets and indicates the ability of its capital funds to cover various business risks.

These divisions also ensures compliance with regulatory capital adequacy requirements, as well as internal capital thresholds, referred to as the Bank's internal minimum Common Equity Tier 1 (CET1) ratio, or IMCET1, and the CET1 management action trigger, or CET1MAT, which incorporate the Bank's internal capital buffers and limit triggers, and capture risks beyond Pillar 1 (credit, market, and operational).

Furthermore, these divisions are responsible for assessing and raising the strategic capital needs of the Bank, as well as initiating approvals for dividend payments to shareholders.

Dividend Policy

BanKo may declare dividends subject to the discretion of the Board. However, the SEC may direct BanKo to declare dividends when its retained earnings is in excess of 100% of its paid-in capital stock, except:

- When justified by definite corporate expansion projects or programs approved by the Board;
- When BanKo is prohibited under any loan agreement with any financial institution or creditor, whether local or foreign, from declaring dividends without its consent, and such consent has not been secured;
- When it can be clearly shown that such retention is necessary under special circumstances obtaining, such as when there is a need for a special reserve for probable contingencies.

For 2024, BanKo did not declare dividends.

Sound Capital Management

Effective capital management supports the Bank's assets and aborbs losses that may arise from credit, market and liquidity, operational and IT, and other risk exposures. The Bank's capital management framework ensures that there are always sufficient capital buffers to support the risk profiles of the various businesses of the Bank, as well as changes in the regulatory and accounting standards and other future events.

BanKo conducts a thorough internal capital adequacy assessment process (ICAAP) and submits the document to the BPI parent company for consolidation. This consolidated submission is then provided annually to the Bangko Sentral ng Pilipinas in compliance with the Pillar 2 guidelines of the Basel framework.

As of December 31, 2024, BanKo CAR stood at 16.59%, higher than the minimum regulatory of 10%.

The table below shows the Bank's CAR components for 2024 and 2023:

| Risk | Regulatory Capital | | | |
|------------------|--------------------|--------|--|--|
| (Php million) | 2024 | 2023 | | |
| Credit Risk | 35,426 | 25,944 | | |
| Market Risk | 72 | 56 | | |
| Operational Risk | 10,052 | 7,687 | | |
| Total | 45,550 | 33,687 | | |

| Capital Adequacy (Php Mn) | 2024 | 2023 |
|-------------------------------|--------|--------|
| CET1/Net Tier1 ¹ / | 7,196 | 4,709 |
| T2/Net Tier2 ² / | 360 | 264 |

4/ Credit risk-weighted assets
5/ Market risk-weighted assets
6/ Operational risk-weighted assets
7/ Total risk-weighted assets

The bank's types and level of risk it is willing to assume to achieve business objectives are conveyed through the risk appetite statements approved by the Risk Management Committee. This covers each important risk identified.

| Risk Area | BanKo Risk Appetite Statements |
|---|--|
| 1. Enterprise Risk | The Bank adopts an overall low to moderate risk appetite for the Bank's aggregated and total financial and non-financial risk exposures. |
| Credit Risk (Portfolio Asset Quality) | The Bank shall ensure to maintain a moderate level of non-performing loans (NPLs), and make certain that the amounts of loss reserves are sufficient to cover the NPL and ROPA levels |
| 3. Credit Risk (Regulatory Limits, Credit Counterparty Risk & Credit Concentration) | The Bank has low appetite for non-compliance to regulatory limits and ceilings on credit risk, particularly on credit portfolio concentration and credit test results. |
| 4. Credit Risk (Portfolio Acquisition - | The Bank shall ensure to maintain a moderate level of non-performing loans (NPLs) and make certain that the loss reserves amount is sufficient to cover the NPL on the acquired Personal Loan Portfolio. |
| Personal Loan) | The Bank manages the risks on non-performing loans by closely monitoring the exposure and trends in the personal loan portfolio. Strictly implements outsourcing agreements related to processes and portfolio management. |
| 5. Credit Risk (Test Program) | The Bank shall ensure to observe a moderate level of test programs running at any single time. |
| 6. Credit Risk (Environmental and Social Risk) | The Bank has a high credit risk appetite for sustainable loans and bonds that highlight the importance of sustainability, high ethical and social standards, and protection of the environment. The Bank has a low credit risk appetite for industries or sectors with material E&S risks which the Bank has sustainability goals. |
| 7. Market Risk | The Bank has a low appetite for losses from the day-to-day trading activities, which are monitored against the Bank's profit-and-loss (P&L and comprehensive income levels. |
| 8. Liquidity Risk | The Bank aims to meet regulatory and internal requirements on liquidity in terms of the ability to meet current and prospective obligations when they come due without incurring unacceptable losses or costs. |
| 9. Interest Rate Risk | The bank has a low appetite for losses due to adverse movements in the interest rates as measured by the impact on the Bank's net interest income and the underlying value of assets, liabilities, and off-balance sheet instruments. |
| 10. Model Risk | The Bank has a moderate appetite for financial losses due to the use of risk models that are work in progress. |
| 11. Business Strategic Risk | The Bank has a low appetite for losses to earnings or capital, whether current or prospective, due to adverse business decisions, improper implementation of decisions, or lack of responsiveness to industry changes in business conditions. |
| 12. Reputational Risk | The Bank has a very low appetite for reputational risk and takes immediate action to resolve clients' complaints, local and overseas regulatory concerns, and high-risk issues. |
| 13. Conduct Risk | The Bank has zero tolerance for incidents involving improper business practices. The Bank nurtures a culture of high ethical and moral standards among employees where the tone is set at the top for conducting business with honesty, decency, fairness, and integrity |
| 14. Operational Risk | The Bank strives to mitigate risks with annual aggregated operational risk losses not to exceed 1% of gross income per year. The Bank has zero tolerance for any loss incident of catastrophic proportions. |

| A. Operational Risk (Run the Bank) | The Bank aims to achieve 99.5% availability of critical customer-facing services. The Bank employs a pragmatic and flexible approach to enhance its ability to withstand, adapt to, and recover from events, which could cause significant operational failures or wide-scale disruptions. |
|---|--|
| Business Process Execution Failure | The Bank has a low operational risk appetite for process failure and a low tolerance for high-risk internal audit issues. |
| Improper Business Practices | The Bank has zero tolerance for incidents involving improper business practices. The Bank nurtures a culture of high ethical and moral standards among its employees where the tone is set at the top of conducting business with integrity and transparency. |
| 3. Regulatory and Compliance | The Bank has a low appetite for legal action against it with assessed unfavorable outcomes. The Bank aims to maintain compliance with regulatory requirements and to address any breach within the time provisions of regulators. |
| 4. Damage to Physical and Intangible Assets, Technology Failures and Damages | The Bank employs adequate tools and processes, to ensure its preparedness in handling and lessening the impact of disruptive events. The Bank pursues to have effective and tested business continuity plans, responding to cover mission-critical products/services and making these available within two (2) to four (4) hours. |
| 5. Vendor Failures and Damages | The Bank does not tolerate failure from providers of critical outsourced services and requires adequate measures to ensure the continued delivery of services. |
| 6. Trade Counterparty Failures | The Bank has a low appetite for counterparty failures. The Bank exercises due diligence when dealing with counterparties and correspondent banks. |
| B. Operational Risk (Secure the Bank) | The Bank applies industry standards in securing our assets, including physical and financial assets, customer data, and other highly sensitive data and human resources. The Bank strives to mitigate emerging risks with zero tolerance for data confidentiality and integrity breaches leading to financial loss, reports to regulators, and/or media reports. |
| Employment Practices and Workplace Safety | The Bank has zero appetite for events and work activities that compromise the health, safety, and well-being of employees, causing serious illness or injuries or loss of life. The Bank gives utmost priority to providing adequate safety equipment to prevent any accident in the workplace |
| 2. Internal Theft and Fraud | The Bank aims to employ sufficient, suitably skilled, and experienced staff with clearly defined roles and responsibilities. The Bank has zero appetite for any fraudulent activity, and all potential conflicts of interest shall be avoided and disclosed. |
| 3. External Theft and Fraud | The Bank invests in learning the latest fraud trends and works towards deploying security measures to minimize theft and fraud incidents in the Bank. The Bank strives to have zero occurrence of robberies and burglaries in any of the bank and branch premises |
| 4. Financial Crime | The Bank has zero appetite for any misconduct of employees, clients, and third parties such as bribery and corruption or activities related to money laundering or terrorist financing. The Bank is committed to combating financial crime and ensuring that offered products and services are not misused for the purpose of money laundering, terrorism financing, and fraud events. |
| C. Operational Risk (Build the Bank) | The Bank will innovate by adopting and customizing new, market- tested technologies with the key objective of providing our customers with the best banking experience and with minimum security risks. |
| IT Project Failures | The Bank has a moderate appetite for IT project failures. The Bank uses established industry practices to deliver projects with minimal time, budget, and quality variances. |

RELATED PARTY TRANSACTIONS

In the normal course of business and under the overall purview of the Corporate Governance Committee (CGCom), BanKo transacts with related parties which include its directors, officers, stockholders and related interests, subsidiaries and affiliates (including those under the Ayala Group of Companies), as well as other related parties defined in the Bank's internal policy and aligned with regulatory standards and guidelines.

Controls are in place to ensure compliance with Related Party Transactions (RPT) processes, a basic element of which are RPT Guidelines published in the policy databases as further communicated through briefing sessions and regular advisories. Another control mechanism requires the RPTCom Secretariat to verify if there is prior vetting of RPT proposals submitted for Board-level approval and/or prior to implementation of the transaction. Moreover, post-verification of vetted RPTs is conducted by both Internal Audit and Compliance Office, results of which are reported to the CGCom. Review of RPTs is likewise part of the external audit assurance process.

RPTs are monitored through various reports, such as the regulatory and internal limits monitoring for related party (RP) exposures, reports on RPTs reviewed by the vetting committees, and regulatory reporting for material RPTs.

The Bank maintains a registry of related parties (RPs), which is regularly updated based on the results of RP analyses conducted by the business units as part of the Know-Your-Customer process. Likewise, regular updating is done following the (a) annual preparation of the BPI and Ayala Group's conglomerate map and (b) any Board composition changes effected during the Annual Stockholders' Meeting and/or intra-year Board changes. Updates are also sourced from other information gathered from internal bank units and reputable external sources. Updating of the RP database for the Bank's officers' data is regularly conducted in coordination with the Bank's Human Resource Management Group for proper identification and tagging in the system. The Bank's RP database is accessible to business units and serves as a tool in the RP identification process across the Group.

As in the past years, RPTs involve credit and non-credit transactions such as loan accommodations, asset purchases and sales, ang other contractual agreements among others. Vetting is done either by the BPI RPT Com or BanKo CGCOm prior to implementation, depending on set materiality thresholds, to ensure that transactions with RPs are standard banking activities are done at arm's length basis particularly on terms and conditions comparable to those offered to non-RPs or to similar transactions in the market. In line with this, the Bank continues to review and enhance its vetting process by defining standardized terms and/or parameters for select transactions applicable to both RPs and non-RPs alike, as approved by management and subjected to vetting by the BPI RPTCom or BanKo CGCom, thereby strengthening non-preferential treatment to its RPs. During the year, the RPT vetting requirement for certain transactions were reassessed, and corresponding proposals to streamline and simplify internal processes were recommended to and approved by the BanKo CGCOM, as aligned with existing internal RP policies and regulatory guidelines.

RPT vetting is done prior to implementation either by the BPI Related Party Transaction Committee (RPTC), Banko Corporate Governance Committee (CGCom), or the Banko Management Vetting Committee (MVCom), depending on set materiality thresholds, to ensure that transactions with RPs are regular banking activities and are done at arm's length basis, particularly on terms and conditions comparable to those offered to non-RPs or to similar transactions in the market. In line with this, the Bank continues to review and enhance its vetting process by defining standardized terms and/or parameters for select transactions applicable to both RPs and non-RPs alike, as approved by management and subjected to vetting by the RPTCom, thereby strengthening non-preferential treatment to its RPs.

In 2024, both the RPTCom and CGCom had fully and consistently carried out the Committees' responsibilities in the evaluation of various RPT proposals and the and the monitoring and review of other RPT-related matters. Regular RPTCom meetings and scheduled CGCom meetings were held during the year, ensuring that business transactions with RPs are duly executed as needed with utmost independence, fairness, and integrity.

The RPTCom is composed of three independent and/or non-executive directors, majority of whom are independent including its Chairperson, and two resource persons from Management (i.e., the Chief Audit Executive and the Chief Compliance Officer). The RPTCom Secretariat, which is part of the Risk Management Officer assists the Committee in carrying out its role and responsibilities as defined in the

RPTCom Charter, particularly on strengthening corporate governance and RPT practices. The MVCom, on the other hand, is composed of the President, Head of the Physical Channels and Strategy, Head of Enterprise Services, Head of Credit and Head of Risk Management Office.

The Bank is committed in ensuring strict compliance with laws, regulations, and reporting requirements relating to DOSRI and RPTs by instituting rigorous vetting processes and establishing adequate controls and oversight mechanisms. Improvements in the RPT framework are continuously pursued with the aim of enhancing corporate governance measures including greater information awareness initiatives.

SUPPLEMENTARY SCHEDULES ON CAPITAL AND RISK MANAGEMENT DISCLOSURES PURSUANT TO THE BANKO SENTRAL'S MEMORAMDUM M-2017-011

Capital Structure

The Bank's qualifying capital for the years ended 2024 and 2023 were Php 7.56 billion and Php4.97 billion, respectively. The Bank's total qualifying capital for 2024 and 2023 was largely composed of CET1 capital and Tier1 at 95.24% and 94.69%, respectively.

The table below shows the composition of the Bank's capital structure and total qualifying capital.

| | 31-Dec-24 | | | 31-Dec-23 | | |
|--|-------------|--------|-------|-------------|--------|-------|
| Capital Structure (Php Mn) | CET1/ Tier1 | Tier 2 | TOTAL | CET1/ Tier1 | Tier 2 | TOTAL |

0/ Risk-weighted assets

Operational risk-weighted assets. We currently use the Basel regulatory basic indicator approach to quantify operational risk-weighted assets, by using the historical total annual gross income as the main measure of risk. In 2024, the Bank's total operational risk-weighted assets stood at Php10.05 billion.

The table below presents the breakdown of the Bank's operational risk-weighted assets for 2024 and 2023:

| Operational RWA (Php Mn) | Amount | Amount | | |
|-----------------------------------|--------|--------|--|--|
| Operational RWA (Filp Will) | 2024 | 2023 | | |

COMPLIANCE

Regulatory Compliance

The Bank views compliance to mean not only adherence to laws, regulations, and standards but, more importantly, the consistent conduct of the affairs of the Bank within a culture of high integrity, bounded by conformity to ethical business practice, abiding by the principles of fair dealing, accountability and transparency. This ensures that in all our areas of activity, the Bank and its stakeholders are protected from regulatory and business risks as comprehensively as possible.

Oversight of the management of the Bank's regulatory and business risks and implementation of its compliance function is the responsibility of our Board of Directors, through the Audit Committee. At the management level, the compliance function is carried out by the Compliance Office, led by our Compliance Officer.

Anti-Money Laundering Compliance

The prevention of financial crimes is a top priority of BanKo, not only because they pose a significant threat to our reputation, but because they weaken the integrity of the global financial system. Hence, our Compliance Office extends its ambit beyond the Bank, its policies, and its employees to ensure that our clients also act within the law and do not use the Bank for illegal activities.

The Compliance Office's Anti-Money Laundering Department is responsible for monitoring customer and counterparty transactions in compliance with the Anti-Money Laundering Law, its implementing rules and regulations, and BSP Circular No. 706 and all other amendments thereto. The Bank's Money Laundering and Terrorist Financing Prevention Program (MTPP) aims to implement sound anti-money laundering practices and combat terrorist financing and other financial crimes.

Data Privacy

Banko has a strong Data Privacy Policy in place, which describes to whom the policy applies to, what personal data the Bank collects and how such data is collected, how the Bank may use personal data for core business and marketing purposes, how the Bank may disclose and share such personal data, how such personal data is stored and retained, and how such data can be accessed or corrected. The Data Privacy Policy is posted on the company website and complies with the requirements of the Data Privacy Act and the National Privacy Commission.

Financial Consumer Protection Framework

BanKo remains steadfast in its commitment to empowering customers to make informed financial decisions. The Bank ensures that clients are well-informed before availing of any product or service, their rights are protected in all transactions, and they are provided with accessible channels to voice concerns regarding BanKo's offerings.

As part of BanKo's Financial Consumer Protection Policy, the Bank is committed to consistently apply the key principles that protect client welfare at every stage of the customer journey. These include providing clear and timely information, treating clients fairly, protecting personal data through strong security measures, addressing concerns through the Financial Consumer Protection Assistance Mechanism (FCPAM), and safeguarding client assets from fraud and misuse. By embedding these principles into daily operations, BanKo strengthens its client-first approach and ensures transparency, trust, and accountability.

Aligned with its parent company BPI, BanKo has also established several initiatives to enhance customers' financial protection and satisfaction, spearheaded by the Customer Experience Management Office (CXMO).

| INITIATIVE | DESCRIPTION |
|---|--|
| Managing Financial Consumer Protection | Outlines the Bank's adherence to BSP regulations on Financial Consumer Protection by providing a structured policy framework that upholds consumer rights, including fair treatment, transparent product disclosures, data privacy, protection against fraud and misuse, and timely resolution of complaints. Ensures organization-wide awareness and accountability by requiring all employees to complete an annual Financial Consumer Protection Program training, reinforcing key principles and |
| Managing the BanKo Financial | their application in daily operations. • Implements the Financial Consumer Protection |
| Consumer Protection Assistance Mechanism (FCPAM) | Assistance Mechanism (FCPAM) as the bank's primary platform for addressing concerns from financial consumers who are dissatisfied with products or services provided by the bank or its authorized third-party agents. • Establishes institutionalized guidelines to ensure that all feedback from existing and potential clients is received, documented, and addressed in a consistent and appropriate manner. • Provides multiple accessible touchpoints for consumers to submit feedback, complaints, requests, and inquiries, including via phone, email, the official website, social media platforms, and physical branches. • Establishes a structured escalation process for unresolved or complex cases, including those referred to the bank by the Bangko Sentral ng Pilipinas (BSP), to ensure timely and effective resolution in line with regulatory expectations. |

Customer Assistance Officers (CAOs) are designated in every BanKo branch to support the Customer Experience Management Office (CXMO) in implementing and monitoring consumer protection initiatives. They are responsible for ensuring compliance with financial consumer protection policies, addressing customer concerns in line with bank procedures, and promoting a customer obsessed culture. CAOs undergo regular training to stay updated on policies and best practices. Additionally, Financial Consumer Protection (FCP) bulletins and annual mandatory training are provided to all BanKo employees—including non-client-facing teams—to reinforce organization-wide awareness and accountability.

The CXMO Head oversees the end-to-end complaint management process to ensure that all concerns are handled thoroughly, fairly, and in accordance with internal guidelines. A consolidated report of complaints is regularly submitted to the Banko Management Committee, BPI CX Governance, and the Banko Board of Directors. This ensures transparency, strategic oversight, and continuous improvement in the Bank's approach to resolving customer issues.

STATISTICS OF CONCERNS RECEIVED

Through the Bank's strong commitment to financial consumer protection, both the complaint-to-concern ratio and the complaint-to-transaction ratio remained consistently low. Moreover, the Bank has maintained a **100% complaint resolution rate** demonstrating its dedication to addressing customer concerns promptly and effectively.

| Number of Concerns Received | 46,407 |
|---|------------|
| Number of Complaints | 671 |
| % of Complaints vs Concerns Received | 1.45% |
| Number of Transactions | 13,993,766 |
| % of Complaints vs Number of Transactions | .0048% |
| Complaints Resolved | 100% |

SUSTAINABILITY FINANCE FRAMEWORK

SUSTAINABILITY AGENDA

BanKo is an integral part of the BPI Group Sustainability Agenda which guides the integration of sustainability principles in the Bank's strategy, operations and risk management framework.

ESG Policy Statement

We are committed to Responsible Banking, integrating Environmental, Social, and Governance (ESG) principles into how we conduct our business – how we manage resources, how we craft the products and services we offer, how we serve our customers, and how we add value to our various stakeholders.

As a bank responsible for a meaningful share of the country's loans and deposits, how we allocate resources will have a significant impact on how we grow as a nation. Our governance is focused on the allocation of resources in a manner that promotes financial inclusion, preservation of the environment, sustainability, and social good.

Sustainability Strategy

BanKo aligned with BPI sustainability objectives that are embodied in the pillar of Responsible Banking and Responsible Operations, supporting our vision of building a better Philippines, one family, one community at a time.

Pillar of the BPI's Sustainability Strategy

Responsible Banking – financial products and services that integrate ESG criteria in business decisions while supporting economic growth

Responsible Operations – environmental and social capital efficiently for day-to-day operations.

Supporting these two pillars are Corporate Governance, Compliance and Risk Mangement, which serves as checks and balances on the implementation of the Sustainability Strategy, as well as compliance with local, national, and global standards and regulations.

Sustainability Governance

In 2024, BanKo aligned with BPI and expanded the role and coverage of the Corporate Governance Committee, to include oversight on sustainability matters. Ultimately, the Sustainability Agenda is governed by the Board, Corporate Governance and Risk Management. The CGCom oversees the overall integration of sustainability principles in the strategic direction of the bank while the RMCom is responsible for ensuring that the environmental and social (E&S) risk management is incorporated in the Bank's Risk Management Systems.

Sustainability Business Summary

Banko, with its products Pondoko and Negosyoko Loan, is dedicated to achieving Sustainable Development Goal (SDG) UN 8: Decent Work and Economic Growth for all. Since its launch in 2016, Banko has been committed to responsible banking, incorporating Environmental, Social, and Governance (ESG) principles.

Its unique sustainability formula, $ESG+E_2$, emphasizes the importance of achieving Economic Benefits (E_2) alongside sustainability initiatives. BanKo's Sustainability Agenda guides its integration of sustainability principles into strategic objectives, corporate governance, and risk management frameworks. It serves the unbanked and underbanked, providing sustainable financial solutions for microbusinesses, farmers, fishermen, and individuals in the C and D sectors.

BanKo's flagship product, the NegosyoKo Loan, supports micro-entrepreneurs in expanding their businesses. Additionally, Banko embraces digitalization, offering the PondoKo Savings account through a mobile app for financial inclusion and convenient cash flow management.

Through our extensive network of 368 branches, BanKo actively reaches out to unbanked and underserved markets, promoting internationally recognized sustainability practices while advancing financial inclusion in support of the UN Sustainable Development Goal (SDG 8) of fostering decent work and economic growth.

A major initiative this year was the expansion of a financing program for local rice farmers through a strategic partnership with Agrilever, an agri-tech company that integrates essential support systems to empower farmers. This program provides an end-to-end solution that includes agronomy services, access to financing, crop insurance, and weather systems, promoting sustainable agriculture and enhancing farmer self-sufficiency.

In 2024, the program supported 335 farmers with a total loan disbursement of PHP 51 million. The initiative spanned five provinces nationwide: Cagayan, Nueva Ecija, Tarlac, Agusan Del Sur, and Sultan Kudarat. BanKo also streamlined processes from onboarding to loan repayment, prioritizing the convenience of farmer-beneficiaries throughout the lending journey.

OVERVIEW OF THE MAJOR STOCKHOLDERS

The following is an overview of the Bank's major stockholders, including nationality, percentage of stockholdings and voting status (as of December 31, 2024):

| Shareholder | Nationality | No. of Shares | | % of Shareholding |
|--------------------|-------------|---------------|------------|-------------------|
| Bank of the | Filipino | Common A | 18,455,712 | |
| Philippine Islands | | Common B | 600,000 | 100% |

EXECUTIVE MANAGEMENT

Mykel D. Abad

Senior Vice President Business Head, Physical Channels & Strategy

Filipino, 57 years old, Mr. Abad is presently the Physical Channels and Strategy Head of the bank. He is responsible for overseeing the growth and stability of the Bank's branches and kiosks channels as well as its cash agency network.

Mr. Abad has more than 37 years of banking experience. He has been involved in corporate planning and investments, corporate banking, treasury, and branch banking operations. Prior to his secondment from BPI to Banko in February 2024, he held the role of President of Legazpi Savings Bank Inc.

Mr. Abad graduated with a degree in Bachelor of Science in Statistics from the University of the Philippines Diliman in 1988. He completed his Masteral degree in Applied Business Economics at the University of Asia and the Pacific in 1992.

Janette Y. Abad Santos

Vice President Marketing Head

Filipino, 55 years old, Ms. Abad Santos was the Head of Marketing of the bank. Prior to her secondment from BPI to Banko in January 2024, she held the role of Marketing Head of Robinsons Bank.

Ms. Abad Santos graduated with a degree in Bachelor of Science in Management Engineering from the Ateneo de Manila University in 1991.

Ma. Cynthia Leticia S. De Jesus

Vice President Compliance Officer

Filipino, 55 years old, Ms. De Jesus is the Compliance Officer and Head of the Bank's Compliance Office which oversees the implementation of the Bank's compliance programs and is composed of the following units: Regulatory Compliance, AML Compliance, Compliance Testing and Data Privacy.

Ms. De Jesus has more than 33 years of banking experience. She has been involved in various aspects of banking from marketing, product development, account management, support services, remittances and compliance. Immediately prior to her secondment from BPI to Banko in May 2020, she held the role of Group Compliance Officer for Unsecured Lending and Cards.

Ms. De Jesus graduated with a degree of Bachelor of Science in Economics, with Dean's Medal for Academic Excellence, from the University of the Philippines Diliman in 1990. She completed the Certificate Course in Strategic Compliance for the Banking Industry at the Center for Professional Development in Business of the De La Salle University in 2015.

Anne A. delos Reyes

Vice President

Head of Client Acquisition and Management

Filipino, 55 years old, is the head of Client Acquisition and Management whose primary focus is on the growth of the Bank's client base and ensuring client's stickiness through acquisition programs, strategic partnerships and rewards programs.

Ms. delos Reyes has more than 34 years of banking experience. Prior to her secondment to Banko in 2019, she held various positions in BPI where she served as Marketing Head for Remittance Business Group, Global Markets Group and as Product Head for Deposits.

Ms. delos Reyes is a graduate of De La Salle University with a degree in BS Commerce major in Applied Economics.

Maria Angelica G. Florentino

Vice President Head, Enterprise Services

Filipino, 57 years old, Ms. Florentino is the current head of the bank's Enterprise Services which includes oversight on Human Resource and Training, Premises, Centralized Operations, Customer Care and the newly formed Affiliate Business and Customer Experience Management Office (CXMO). She is also a director of BPI Payments Holdings, Inc. (BPHI).

Ms. Florentino has more than 30 years of banking experience most of which was spent in the Unsecured Lending and Cards Group (ULCG) which includes Credit Cards, Debit Card, Prepaid Payments and Personal Loans. During her stint with this group, she was assigned to head various teams from Credit Initiation, Sales Distribution, Channel Management, Provincial Card Banking, Emerging Markets, Regional Marketing, Regional Merchant Acquiring and Market & Strategy Development. Prior to her secondment from BPI to Banko in November 2022, she held the role of ULCG Customer Care and Analytics Head.

Ms. Florentino graduated with a degree of Bachelor of Science in Business Administration from the University of the Philippines Diliman in 1987. She completed her masteral degree in Business Administration also from the University of the Philippines Diliman in 1994.

Arthem Edward C. Flor

Vice President Head, Product & Platform

Filipino, 40 years old, Mr. Flor is presently the Product and Platform Head of the bank. He is responsible for overseeing the growth and development of the Bank's Products and enhancement along with the expansion of Digital Channels.

Mr. Flor has more than 10 years of banking experience in local and regional banks. In his professional career he was also able to put up 3 different startups in the online lending financial technology space.

Mr. Flor graduated with a degree in Bachelor of Science in Business Management from Philippine School of Business Administration in 2006. He completed his masteral degree in Business Administration at De La Salle University Manila in 2014.

Francisca R. Dimaala

Assistant Vice President Company Risk Officer

Filipino, 44 years old, Ms. Dimaala is the Company Risk Officer and Head of the Bank's Risk Management Office primarily responsible for the integration, monitoring, and overall management of the Bank's total risk and ensuring that all relevant financial and non-financial risks are identified, measured, monitored, and controlled within the Bank's approved risk appetite and limits.

Ms. Dimaala is a Certified Public Accountant with more than 21 years of work experience specializing on Internal Audit, Know Your Customer Process, and Risk Management within financial institutions.

Ms. Dimaala obtained her Bachelor of Science in Accountancy from Philippine Christian University in 2001 with academic award.

Annie B. Alanano

Senior Manager Treasurer

Filipino, 52 years old, Ms. Alanano is the Company Treasurer/Finance Head of the bank.

Prior joining Banko, Ms. Alanano worked with RCBC (Rizal Commercial Banking Corporation) for 15 years. She managed Rizal MicroBank Microfinance Arm of RCBC for 4 years as Chief Finance Officer and Accounting Head under Controllership for 11 years. She held various positions in Accounting and Controllership for over 20 years in the banking industry.

Ms. Alanano graduated with a degree of Bachelor of Science in Accountancy from Lyceum of the Philippines.

BPI Direct BanKo, Inc., A Savings Bank

Financial Statements
As at and for the years ended December 31, 2024 and 2023

Independent Auditor's Report

To the Board of Directors and Shareholder of **BPI Direct BanKo, Inc., A Savings Bank** 220 Ortigas Avenue, BanKo Center North Greenhills, San Juan City Metro Manila

Report on the Audits of the Financial Statements

Our Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of BPI Direct BanKo, Inc., A Savings Bank (the "Bank") as at December 31, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

What we have audited

The financial statements of the Bank comprise:

- the statements of condition as at December 31, 2024 and 2023;
- the statements of income for the years ended December 31, 2024 and 2023;
- the statements of total comprehensive income for the years ended December 31, 2024 and 2023;
- the statements of changes in capital funds for the years ended December 31, 2024 and 2023;
- the statements of cash flows for the years ended December 31, 2024 and 2023; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

Independent Auditor's Report To the Board of Directors and Shareholder of BPI Direct BanKo, Inc., A Savings Bank Page 2

Other Information

Management is responsible for other information. The other information comprises the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent Auditor's Report To the Board of Directors and Shareholder of BPI Direct BanKo, Inc., A Savings Bank Page 3

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent Auditor's Report To the Board of Directors and Shareholder of BPI Direct BanKo, Inc., A Savings Bank Page 4

Report on Other Legal and Regulatory Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Bangko Sentral ng Pilipinas (BSP) Circular No. 1074 in Note 24 and Bureau of Internal Revenue (BIR) Revenue Regulations No. 15-2010 in Note 25 to the financial statements is presented for the purposes of filing with the BSP and BIR, respectively, and is not a required part of the basic financial statements. Such supplementary information is the responsibility of management of the Bank. The supplementary information has been subjected to the auditing procedures applied in our audits of the basic financial statements, and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Notes to the Financial Statements
As at and for the years ended December 31, 2024 and 2023
(In the notes, all amounts are shown in Philippine Peso unless otherwise stated)

1 General information

1.1 Business information

BPI Direct BanKo, Inc., A Savings Bank (the "Bank") was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on March 17, 1956 primarily to engage in and carry on the general business of savings and mortgage banking.

The Bank is a wholly-owned subsidiary of Bank of the Philippine Islands ("BPI" or the "Parent Bank"), a domestic commercial bank with an expanded banking license, which is also its ultimate parent.

The Bank's registered office address, which is also its principal place of business, is 220 Ortigas Avenue, Banko Center, North Greenhills San Juan City, Metro Manila, Philippines.

The Bank has 3,192 regular employees as at December 31, 2024 (2023 - 2,915).

1.2 Approval of the Bank's financial statements

These financial statements have been approved and authorized for issuance by the Board of Directors (BOD) on March 26, 2025.

2 Cash and cash equivalents

The account as at December 31 consists of:

| | Notes | 2024 | 2023 |
|---|-------|----------------|----------------|
| Cash and other cash items | | 516,208,902 | 386,079,377 |
| Due from other banks | | 1,936,170,819 | 3,218,312,911 |
| Interbank loans receivable and securities purchased | | | |
| under agreement to resell (SPAR) | 3 | 7,505,937,500 | 3,196,962,969 |
| Due from Bangko Sentral ng Pilipinas (BSP) | 4 | 889,753,251 | 7,372,891,154 |
| | | 10.848.070.472 | 14.174.246.411 |

Due from other banks represent demand deposits that earn annual interest of 0.05% to 0.0625% in 2024 and 2023. Interest earned from due from other banks for the year ended December 31, 2024 amounts to P2,531,271 (2023 - P2,621,970).

Cash and cash equivalents are classified as current as at December 31, 2024 and 2023.

3 Interbank loans receivable and SPAR

As at December 31, 2024, interbank and loans receivable consists of government securities under reverse repurchase agreement with the BSP amounting to P7,505,397,500 (2023 - P3,196,962,969) which matures 90 days from the date of acquisition.

Interest rate on interbank loans receivable and SPAR in 2024 is 5.70% (2023 - 6.39%). For the year ended December 31, 2024, the total interest earned on interbank loans receivable and SPAR amounts to P186,371,639 (2023 - P109,730,642).

Interbank loans receivable and SPAR is classified as current.

4 Due from BSP

The account as at December 31 consists of:

| | 2024 | 2023 |
|--------------------------|-------------|---------------|
| Special deposit accounts | - | 6,000,000,000 |
| Clearing accounts | 889,753,251 | 1,372,891,154 |
| | 889,753,251 | 7,372,891,154 |

Special deposit accounts classified as cash equivalents are fixed-term demand Philippine Peso deposits maintained mainly for liquidity purposes.

Clearing accounts includes temporary deposit accounts wherein funds flow from cleared checks are credited against or debited for and deposits maintained in compliance with the simplified minimum reserve requirements of the BSP (Note 10).

As at December 31, 2024, the Bank has no special deposit placements with BSP. As at December 31, 2023, the special deposit placements have maturities of not more than 28 days and carries an average interest rate of 6.65%. For the year ended December 31, 2024, the total interest earned on due from BSP amounts to P426,052,444 (2023 - P260,444,415).

Due from BSP is classified as current as at December 31, 2024 and 2023.

5 Investment security at fair value through other comprehensive income (FVOCI)

The account consists of listed equity security which amounts to P7,772 as at December 31, 2024 (2023 - P7,548).

Movements in investment security at FVOCI for the years ended December 31 are as follows:

| | 2024 | 2023 |
|-----------------------|-------|---------|
| At January 1 | 7,548 | 14,939 |
| Fair value adjustment | 224 | (7,391) |
| At December 31 | 7,772 | 7,548 |

Investment security at FVOCI as at December 31, 2024 and 2023 is classified as current.

6 Loans and advances, net

The account as at December 31 consists of:

| | 2024 | 2023 |
|------------------------------|-----------------|-----------------|
| Retail customers | | |
| Real estate mortgages | 1,566,326,277 | 1,174,152,190 |
| Auto loans | 201,039 | 336,859 |
| Personal loans | 26,056,651,015 | 18,643,195,579 |
| Manpower/Microfinance loans | 14,525,928,658 | 9,507,502,908 |
| Corporate entities | | |
| Large corporate customers | 31,931,909 | 40,489,706 |
| Small and medium enterprises | 857,806 | 5,136,569 |
| | 42,181,896,704 | 29,370,813,811 |
| Accrued interest receivable | 1,494,897,493 | 913,795,910 |
| Unearned discount | (49,837) | (54,475) |
| | 43,676,744,360 | 30,284,555,246 |
| Allowance for impairment | (3,784,102,552) | (2,588,218,359) |
| • | 39,892,641,808 | 27,696,336,887 |

There are no loans and advances at December 31, 2024 and 2023 used as security for liabilities.

Details of the Bank's loans and advances portfolio at December 31 as to collateral (amounts net of unearned discounts and exclusive of accrued interest receivable) are as follows:

| | 2024 | 2023 |
|-----------------------------|----------------|----------------|
| Secured loans | | |
| Real estate mortgage | 1,566,326,277 | 1,174,152,190 |
| Chattel mortgage | 151,202 | 282,384 |
| Large corporate customer | 31,931,909 | 40,489,706 |
| Small and medium enterprise | 857,806 | 5,136,569 |
| · | 1,599,267,194 | 1,220,060,849 |
| Unsecured loans | | |
| Personal loans | 26,056,651,015 | 18,643,195,579 |
| Manpower/Microfinance loans | 14,525,928,658 | 9,507,502,908 |
| | 40,582,579,673 | 28,150,698,487 |
| | 42,181,846,867 | 29,370,759,336 |

The effective interest rate on loans and advances ranges from 5.50% to 65.28% for the year ended December 31, 2024 (2023 - 1.25% to 55.32%). Interest income from loans and advances amounts to P10,516,643,966 for the year ended December 31, 2024 (2023 - P6,489,309,948).

Maturity profile of loans and advances, net of accrued interest receivable and unearned discount, as at December 31 follows:

| | 2024 | 2023 |
|------------------------------|----------------|----------------|
| Current (within 12 months) | 16,378,422,574 | 10,347,310,959 |
| Non-current (over 12 months) | 27,298,321,786 | 19,937,244,287 |
| | 43,676,744,360 | 30,284,555,246 |

Movements in allowance for impairment for the years ended December 31 are as follows:

| | Note | 2024 | 2023 |
|---------------------------|--------|-----------------|-----------------|
| Balance, January 1 | | 2,588,218,359 | 1,899,210,453 |
| Provision for impairment | 21.1.7 | 3,098,818,739 | 1,776,300,693 |
| Write-offs | | (1,901,345,583) | (1,084,426,255) |

| December 31, 2023 | 61,797,839 | 168,895,251 | 2,124,213 | 12,987,001 | 370,660,241 | 616,464,545 |

The Bank recognized right-of-use assets from the long-term leases of spaces for its main office and branches presented as part of Buildings above (Note 20).

Depreciation and amortization is included in Occupancy and equipment-related expenses in the statement of income (Note 15).

Bank premises, furniture, fixtures and equipment are all non-current.

Critical accounting estimate - Useful lives of bank premises, furniture, fixtures and equipment

The Bank determines the estimated useful lives of its bank premises, furniture, fixtures and equipment based on the period over which the assets are expected to be available for use. The Bank annually reviews the estimated useful lives of bank premises, furniture, fixtures and equipment based on factors that include asset utilization, internal technical evaluation, technological changes, environmental and anticipated use of assets tempered by related industry benchmark information. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned.

The Bank considers that it is impracticable to disclose with sufficient reliability the possible effects of sensitivities surrounding the carrying values of bank premises, furniture, fixtures and equipment.

8 Deferred income tax assets

Deferred income tax assets and liabilities at December 31 consist of:

| | 2024 | 2023 |
|-----------------------------------|-------------|-------------|
| Deferred income tax assets | | |
| Allowance for impairment | 956,896,671 | 654,936,745 |
| Expense accruals and provisions | 9,091,919 | 8,581,335 |
| Amortization of past service cost | 14,361,604 | 24,233,992 |
| Deferred income tax assets | 980,350,194 | 687,752,072 |

Movements in the net deferred income tax assets for the years ended December 31 are summarized below:

| | Note | 2024 | 2023 |
|--|------|-------------|-------------|
| At January 1 | | 687,752,072 | 490,516,905 |
| Amounts credited to statement of income | | 293,833,766 | 186,560,634 |
| Amounts (charged) credited to other comprehensive income | 13 | (1,235,644) | 10,674,533 |
| At December 31 | | 980,350,194 | 687,752,072 |

The deferred tax expense in the statement of income for the years ended December 31 comprises the following temporary differences:

| | 2024 | 2023 |
|--------------------------|---------------|---------------|
| Allowance for impairment | (301,959,926) | (175,832,304) |
| Others | 8,126,160 | (10,728,330) |
| | (293,833,766) | (186,560,634) |

Critical accounting judgement - Realization of deferred income tax assets

Management reviews at each reporting date the carrying amounts of deferred tax assets. The carrying amount of deferred tax assets is reduced to the extent that the related tax assets cannot be utilized due to insufficient taxable profit against which the deferred tax losses will be applied. Management believes that sufficient taxable profit will be generated to allow all or part of the deferred income tax assets to be utilized.

9 Other assets, net

The account at December 31 consists of:

| | Note | 2024 | 2023 |
|-----------------------------|------|--------------|--------------|
| Injunction bond | | 213,158,619 | 155,920,192 |
| Prepaid expenses | | 108,635,191 | 24,754,919 |
| Accounts receivable | | 42,319,372 | 38,244,931 |

| Allowance for impairment | | (41,254,923) | (28,154,498) |
| | | 406,391,766 | 307,000,733 |

Other assets are expected to be realized as follows:

| | 2024 | 2023 |
|-------------|-------------|-------------|
| Current | 404,573,231 | 299,253,930 |
| Non-current | 43,073,458 | 35,901,301 |
| | 447,646,689 | 335,155,231 |

Injunction bond mainly pertains to the revolving fund covering transactions with a payment partner and other online transactions.

Accounts receivables mainly include employee cash advances, commissions and other receivables.

The amortization of computer software for the year ended December 31, 2024 amounts to P2,401,176 (2023 - P1,986,842) and is presented as part of Depreciation and amortization under Occupancy and equipment-related expenses in the statement of income (Note 15).

Miscellaneous assets include returned checks and float items which are expected to clear within seven days.

Allowance for impairment pertains to accounts receivables that are doubtful of collection.

The movements in the allowance for impairment as at December 31 are as follows:

| | Note | 2024 | 2023 |
|--------------------------|--------|------------|-------------|
| At January 1 | | 28,154,498 | 15,622,429 |
| Provision for impairment | 21.1.7 | 13,100,935 | 13,988,955 |
| Write-off | | (510) | (1,456,886) |
| At December 31 | | 41,254,923 | 28,154,498 |

10 Deposit liabilities

The account as at December 31 consists of:

| | 2024 | 2023 |
|---------|----------------|----------------|
| Demand | 424,554,810 | 443,893,734 |
| Savings | 12,189,461,187 | 11,717,457,576 |
| Time | 27,043,198,564 | 22,850,661,771 |
| | 39,657,214,561 | 35,012,013,081 |

Deposit liabilities are expected to be settled as follows:

| | 2024 | 2023 |
|-------------|----------------|----------------|
| Current | 31,262,716,354 | 28,083,183,067 |
| Non-current | 8,394,498,207 | 6,928,830,014 |
| | 39,657,214,561 | 35,012,013,081 |

Related interest expense on deposit liabilities for the years ended December 31 is broken down as follows:

| | 2024 | 2023 |
|---------|---------------|---------------|
| Demand | 582,951 | 291,426 |
| Savings | 59,101,406 | 49,878,157 |
| Time | 1,956,143,109 | 959,089,872 |
| | 2,015,827,466 | 1,009,259,455 |

In 2024 and 2023, the interest rate on savings and demand deposit ranges from 0.063% to 5.00% and interest rate on regular and special time deposit ranges from 0.25% to 6.75%.

BSP reserve requirement

Under current and existing BSP regulations, the Bank should comply with a minimum reserve requirement. Further, it is required that all reserves must be set aside in deposits with the BSP.

In 2023, the BSP approved reduction in reserves which brought the requirement from 3% down to 2% effective June 30, 2023 by virtue of BSP Circular No.1175. In 2024, pursuant to BSP Circular 120, reserve requirements for thrift banks was further cut down to 1%.

The required reserve as reported to BSP as at December 31, 2024 amounts to P392,944,300 (2023 - P653,520,117), which is included in Due from BSP (Note 4). The Bank is in full compliance with the reserve requirement as at December 31, 2024 and 2023.

11 Accrued taxes, interest and other expenses

The account as at December 31 consists of:

| | 2024 | 2023 |
|------------------------------|---------------|-------------|
| Accrued interest on deposits | 815,034,139 | 503,923,875 |
| Accrued income tax | 391,513,939 | 278,464,890 |
| Accrued expenses | 278,499,350 | 191,399,592 |
| Accrued taxes and licenses | 1,465,719 | 1,503,723 |
| | 1,486,513,147 | 975,292,080 |

Accrued expenses mainly pertain to accruals for utilities, and outsourced services by the Bank.

Accrued income tax includes current income tax payable and gross receipts tax payable.

The above accrued expenses are all considered current.

12 Other liabilities

The account at December 31 consists of:

| | Note | 2024 | 2023 |
|---------------------------|------|---------------|---------------|
| Accounts payable | | 2,804,627,646 | 1,613,647,008 |
| Lease liabilities | 20 | 558,720,304 | 384,131,246 |
| Withholding taxes payable | | 44,977,859 | 28,194,696 |
| Miscellaneous | | 159,065,392 | 83,027,024 |
| | | 3,567,391,201 | 2,108,999,974 |

The lease liabilities are measured at the present value of the remaining lease payments using an incremental borrowing rate applied by the Bank (Note 20).

Miscellaneous liabilities mainly include mandatory contributions payable to SSS, Medicare and Philhealth, and float items which are expected to clear within seven days.

Other liabilities are considered current, except for the non-current portion of the lease liabilities disclosed in Note 20.

| | shares | Amount | shares | Amount | |
| Common shares, at P100 par value per share | | | | | |
| Class A | 37,400,000 | 3,740,000,000 | 13,455,721 | 1,345,572,100 | |
| Class B | 2,000,000 | 200,000,000 | 600,000 | 60,000,000 | |
| | 39,400,000 | 3,940,000,000 | 14,055,721 | 1,405,572,100 | |
| Preferred shares, at P100 par value per share, 12% cumulative, participating and redeemable | , , | , , , | , , | , , , | |
| Class A | 200,000 | 20,000,000 | _ | _ | |
| Class B | 400,000 | 40,000,000 | _ | _ | |
| | 600,000 | 60,000,000 | | | |

The Class A (common and preferred) shares are available only to Philippine nationals while the Class B (common and preferred) shares may be issued to non-Filipinos. The Bank, at its option, may redeem the preferred shares after ten years from issue date.

In October 2024, the Bank received additional capital infusion from the Parent Bank amounting to P500 million. The said capital infusion has been duly approved by the BSP.

40,000,000

4.000.000.000

14.055.721

1.405.572.100

As at December 31, 2023, the Bank has a subscription receivable on Class A common shares amounting to P94,427,900, netted against amount of issued and outstanding shares. This was applied against the capital infusion in 2024. The Bank has no subscription receivable as at December 31, 2024.

Surplus

As at December 31, 2024, the Bank has surplus in excess of its paid-up capital amounting to P4,792,536,514 (2023 - P2,960,162,996). The Bank intends to use its excess surplus for future branch expansions which are expected to materialize within the next twelve months after year end. On January 24, 2024, the BOD approved the Bank's medium-term plan for business expansion to new geographic territories with opening of additional branches and branch-lite units (BLUs), launch of new product lines, and digitalization of the Bank's end process through introduction of a new application. Further, on January 22, 2025, the BOD approved the expansion plan of the Bank to open new customer touchpoints that include thirty (30) new kiosks, additional bank cash agents and twelve (12) mobile bank-on-the-go (BOTG). This plan will bring the total number of branches and branch lite units to 420 by end of 2025.

Accumulated other comprehensive loss

The movements in the account for the years ended December 31 are summarized below:

| | 2024 | 2023 |
|--|--------------|----------------|
| Fair value reserve on investment securities at FVOCI | | |
| At January 1 | (8,864) | (1,473) |
| Unrealized fair value loss | 224 | (7,391) |
| At December 31 | (8,640) | (8,864) |
| Remeasurement loss on defined benefit plan, net | | |
| At January 1 | (47,454,222) | (29,771,107) |
| Remeasurement loss before tax | (44,820,162) | (28, 357, 648) |
| Deferred income tax effect | (1,235,644) | 10,674,533 |
| At December 31 | (93,510,028) | (47,454,222) |
| | (93,518,668) | (47,463,086) |

Other reserves

Other reserves represent the difference between the consideration given and the aggregate book value of the assets and liabilities acquired from the previous merger with BPI Globe BanKo in 2016 which was accounted for under the predecessor cost method.

14 Service fee income; Miscellaneous income

Service fee income

The account comprise of processing fee and the motorized collector for both personal loans and SEME loans.

Miscellaneous income

The account for the years ended December 31 consists of:

| | 2024 | 2023 |
|--------------------|--------------|-------------|
| Recoveries | 41,484,420 | 43,711,280 |
| Other income | 140,848,850 | 56,375,923 |
| Gross receipts tax | (17,160,419) | (7,001,251) |
| | 165,172,851 | 93,085,952 |

Recoveries pertain to the collection of personal loans previously written-off.

Other income includes recoveries of accounts receivables previously written-off.

15 Occupancy and equipment-related expenses

| | Notes | 2024 | 2023 |
|---------------------------------------|-------|---------------|---------------|
| Contractual services | | 556,526,320 | 455,054,066 |
| Depreciation and amortization | 7,9 | 279,850,920 | 289,749,031 |
| Repairs and maintenance | | 177,733,255 | 163,110,324 |
| Rent | | 49,046,068 | 32,242,211 |
| Utilities | | 44,625,169 | 42,022,463 |
| Interest expense on lease liabilities | | 35,066,379 | 23,272,033 |
| Communication | | 29,019,012 | 27,761,625 |
| IT outsourced services | | 16,656,524 | 14,262,489 |
| Shared IT cost | | 9,274,360 | 12,870,692 |
| Taxes and licenses | | 1,102,590 | 734,546 |
| Insurance | | 493,066 | 9,681 |
| Miscellaneous expense | | 158,774,147 | 54,530,325 |
| | | 1,358,167,810 | 1,115,619,486 |

Miscellaneous expense pertain mainly to software as a service subscriptions.

16 Other operating expenses

The account for the years ended December 31 consists of:

| | Note | 2024 | 2023 |
|-------------------------------------|------|---------------|-------------|
| Shared operating costs | 19 | 544,554,561 | 346,745,829 |
| Service fees | | 131,467,764 | 79,121,526 |
| Travel and communications | | 131,373,960 | 126,161,727 |
| Insurance | | 97,345,911 | 62,178,002 |
| Advertising and publicity | | 83,041,741 | 61,689,146 |
| Stationery and supplies used | | 66,178,866 | 58,082,062 |
| Taxes and licenses | | 49,354,996 | 32,465,009 |
| Litigation expenses | | 9,483,088 | 7,710,170 |
| Regulatory examination fees | | 9,165,550 | 5,162,203 |
| Membership fees | | 5,469,600 | 5,329,400 |
| Fines, penalties, and other charges | | 67,500 | 1,967,227 |
| Others | | 61,340,227 | 55,685,534 |
| | | 1,188,843,764 | 842,297,835 |

Other operating expenses pertain mainly to professional fees, representation and entertainment, freight expenses and other outsourced service costs.

17 Income taxes

A reconciliation between the provision for income tax at the statutory income tax rate to the actual provision for income tax for the years ended December 31 is presented below:

| | 2024 | | 2023 | 3 |
|---|--------------|--------|--------------|--------|
| | Amount | % | Amount | % |
| Statutory income tax | 771,104,970 | 25.00 | 424,517,949 | 25.00 |
| Effect of items not subject to statutory tax rate | | | | |
| Income subject to lower tax rates | (31,834,830) | (1.03) | (18,982,090) | (1.11) |
| Others | 12,776,222 | 0.41 | 1,437,918 | 0.08 |
| Provisions for income tax | 752,046,362 | 24.38 | 406,973,777 | 23.97 |

Others mainly consist of various permanent differences and non-deductible expenses.

18 Retirement plan

The BPI and its subsidiaries (the "BPI Group"), which include the Bank, maintain both defined benefit and defined contribution retirement plans. Assets of both retirement plans are held in trust and governed by local regulations and practices in the Philippines. The key terms of these pension plans are discussed below.

a) Defined benefit retirement plan

Under this plan, the normal retirement age is 60 years. Those who elect to retire prior to the normal retirement age will require company approval, subject to meeting the eligibility conditions on age and years of credited services. Normal retirement benefit consists of a lump sum benefit equivalent to 200% of the basic monthly salary of the employee at the time of his retirement for each year of service, if he has rendered at least 10 years of service, or to 150% of his basic monthly salary, if he has rendered less than 10 years of service and cash equivalent of the accrued and unused vacation and sick leave, if any, subject to the Bank's implementing guidelines and policies. For voluntary retirement, the benefit is equivalent to 112.50% of the employee's basic monthly salary for a minimum of 10 years of service with the rate factor progressing to a maximum of 200% of basic monthly salary for service years of 25 or more. Death or disability benefit, on the other hand, shall be the highest amount among the (1) same basis as in voluntary retirement; (2) 100% of basic monthly salary of the employee at the time of his retirement for each year of service; and (3) minimum amount required by Labor Code.

b) Defined contribution retirement plan subject to the requirements of Republic Act (RA) No. 7641

All employees hired on or after the October 1, 2016 are automatically under the new defined contribution plan. Employees hired prior to the effective date shall have the option to elect to become members of the new defined contribution plan.

Upon normal or late retirement, employees are entitled to a lump sum benefit equal to the total of the following amounts:

- The greater of the (a) updated member account balance where the Bank periodically contributes 8% of the basic monthly salary and (b) the minimum legal retirement benefit under the Labor Code; and
- The updated member account balance funded by (a) voluntary employee contribution and (b) employer matching contribution; and
- Cash equivalent of the accrued and unused vacation and sick leave, if any.

The defined contribution retirement plan has a defined benefit minimum guarantee equivalent to a certain percentage of the monthly salary payable to an employee at normal retirement age with the required credited years of service based on the provisions of RA No. 7641.

The net defined benefit cost and contributions to be paid by the entities within the BPI Group are determined by an independent actuary.

Following are the amounts recognized that relate to the Bank based on the recent actuarial valuation reports:

Defined benefit retirement plan

(a) Pension asset as at December 31 recognized under Other assets in the statement of condition follows:

| | 2024 | 2023 |
|--|--------------|--------------|
| Fair value of plan assets | 67,581,822 | 52,201,826 |
| Present value of defined benefit obligation | (13,019,694) | (16,907,712) |
| Surplus | 54,562,128 | 35,294,114 |
| Effect of the asset ceiling | (19,283,773) | (4,958,334) |
| Pension asset recognized in the statement of condition | 35,278,355 | 30,335,780 |

The movements in plan assets for the years ended December 31 are summarized as follows:

| | 2024 | 2023 |
|---|------------|-------------|
| At January 1 | 52,201,826 | 48,311,534 |
| Interest income | 3,327,276 | 3,573,461 |
| Contributions | 6,070,188 | 3,858,292 |
| Remeasurement gain (loss) return on plan assets | 5,982,532 | (3,541,461) |
| At December 31 | 67,581,822 | 52,201,826 |

The carrying values of the plan assets represent their fair values as at December 31, 2024 and 2023.

The plan assets at December 31 comprise the following:

| | 202 | 2024 | | 2023 | |
|-------------------|------------|------|------------|------|--|
| | Amount | % | Amount | % | |
| Debt securities | 43,695,787 | 65% | 31,524,060 | 60% | |
| Equity securities | 17,435,213 | 26% | 15,941,446 | 31% | |
| Others | 6,450,822 | 9% | 4,736,320 | 9% | |
| | 67,581,822 | 100% | 52,201,826 | 100% | |

The plan assets of the unified retirement plan include investment in BPI's common share with aggregate fair value of P2,747 million at December 31, 2024 (2023 - P2,413 million). An officer of the Parent Bank exercises the voting rights over the plan's investment in BPI's common shares.

The movements in the present value of defined benefit obligation for the years ended December 31 are summarized as follows:

| | 2024 | 2023 |
|------------------------------------|--------------|-------------|
| At January 1 | 16,907,712 | 11,603,395 |
| Current service cost | 8,078,941 | 4,210,788 |
| Interest cost | 1,019,535 | 829,643 |
| Remeasurement (gain) loss | | |
| Changes in financial assumptions | (38,961) | 1,385,982 |
| Changes in demographic assumptions | - | (5,325,329) |
| Experience adjustments | (12,947,533) | 4,203,233 |
| At December 31 | 13,019,694 | 16,907,712 |

The Bank has no other transactions with the plan aside from the contributions for the years ended December 31, 2024 and 2023.

The retirement benefit expense recognized in the statement of income for the year ended December 31, 2024 amounts to P6,070,188 (2023 - P2,138,079).

The principal assumptions used for the actuarial valuations of the defined benefit plan of the Bank at December 31 are as follows:

| | 2024 | 2023 |
|----------------------|-------|-------|
| Discount rate | 6.12% | 6.03% |
| Salary increase rate | 6.00% | 6.00% |

Discount rate

The discount rate is determined by reference to PHP Bloomberg Valuation (BVAL) rates and adjusted to reflect the term similar to the estimated term of the benefit obligation as determined by the actuary as at the end of the reporting period as there is no deep market in high quality corporate bonds in the Philippines.

Future salary rate increases

This is the expected long-term average rate of salary increase taking into account inflation, seniority, promotion and other market factors. Salary increases comprise of the general inflationary increases plus a further increase for individual productivity, merit and promotion. The future salary increase rates are set by reference over the period over which benefits are expected to be paid.

Demographic assumptions

Assumptions regarding future mortality and disability experience are based on published statistics generally used for local actuarial valuation purposes.

The defined benefit plan typically exposes the Bank to a number of risks such as investment risk, interest rate risk and salary risk. The most significant of which relate to investment and interest rate risks. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability. A decrease in government bond yields will increase the defined benefit obligation although this will also be partially offset by an increase in the value of the plan's fixed income holdings. Hence, the present value of defined benefit obligation is directly affected by the discount rate to be applied by the Bank. However, the Bank believes that due to the long-term nature of the pension liability and the strength of the Bank itself, the mix of debt and equity securities holdings of the plan is an appropriate element of the Bank's long term strategy to manage the plan efficiently.

The Bank ensures that the investment positions are managed within an asset-liability matching framework that has been developed to achieve long-term investments that are in line with the obligations under the plan. The Bank's main objective is to match assets to the defined benefit obligation by investing primarily in long-term debt securities with maturities that match the benefit payments as they fall due. The asset-liability matching is being monitored on a regular basis and potential change in investment mix is being discussed with the trustor, as necessary, to better ensure the appropriate asset-liability matching.

The average remaining service life of employees under the BPI unified retirement plan as at December 31, 2024 is 27.4 years (2023 - 26.9 years). The Bank contributes to the plan depending on the suggested funding contribution as calculated by an independent actuary. The expected contributions for the year ending December 31, 2025 for the Bank amount to P2,836,926.

The weighted average duration of the defined benefit obligation as at December 31, 2024 is 3.94 years (2023 - 7.95 years).

The projected maturity analysis of retirement benefit payments as at December 31 is as follows:

| | 2024 | 2023 |
|--------------------------------|------------|-------------|
| Up to 1 year | 1,692,312 | 1,537,704 |
| More than 1 year to 5 years | 12,450,320 | 11,698,734 |
| More than 5 years to 10 years | 12,085,915 | 35,993,714 |
| More than 10 years to 15 years | 26,426,660 | 81,975,204 |
| More than 15 years to 20 years | 32,859,403 | 91,807,405 |
| Over 20 years | 73,487,800 | 189,262,832 |

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions follows:

| | _ | Impact on defined benefit obligation | | |
|--------------------|------------|--------------------------------------|-------------------|--|
| | Change in | Increase in | Decrease in | |
| December 31, 2024 | assumption | assumption | assumption | |
| Discount rate | 1.0% | Decrease by 3.8% | Increase by 4.1% | |
| Salary growth rate | 1.0% | Increase by 4.1% | Decrease by 3.8% | |
| | | | | |
| | _ | Impact on defined b | enefit obligation | |
| | Change in | Increase in | Decrease in | |
| December 31, 2023 | assumption | assumption | assumption | |
| Discount rate | 1.0% | Decrease by 7.4% | Increase by 8.5% | |
| Salary growth rate | 1.0% | Increase by 8.4% | Decrease by 7.4% | |

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the retirement benefit obligation recognized within the statement of condition.

Defined contribution retirement plan subject to the requirements of RA No. 7641

| | 2024 | 2023 |
|---|---------------|---------------|
| Present value of defined benefit obligation under RA No. 7641 | 241,705,940 | 22,888,759 |
| Fair value of plan assets | (239,590,265) | (197,412,281) |
| Deficit (surplus) | 2,115,675 | (174,523,522) |
| Effect of asset ceiling | - | 174,523,522 |
| Pension liability recognized in the statement of condition | 2,115,675 | - |

The pension liability is presented as part of Miscellaneous under Other liabilities in the statement of condition.

The movements in the present value of the defined benefit obligation for the years ended December 31 follow:

| | 2024 | 2023 |
|------------------------------------|--------------|--------------|
| At January 1 | 22,888,759 | 59,503,334 |
| Current service cost | 4,203,827 | 13,937,938 |
| Interest cost | 1,403,081 | 4,373,405 |
| Benefits paid from plan assets | (13,345,873) | (9,181,676) |
| Transfer to/(from) plan | 64,189 | (243,104) |
| Remeasurement loss (gain) | | |
| Changes in financial assumptions | 141,465 | 3,687,797 |
| Changes in demographic assumptions | - | (55,150,053) |
| Experience adjustments | 226,350,492 | 5,961,118 |
| At December 31 | 241,705,940 | 22,888,759 |

The movements in the fair value of plan assets for the years ended December 31 follow:

| | 2024 | 2023 |
|---|--------------|-------------|
| At January 1 | 197,412,281 | 158,575,093 |
| Interest income | 12,208,875 | 12,144,159 |
| Contributions | 51,807,577 | 32,931,693 |
| Benefits paid | (13,345,873) | (9,181,676) |
| Remeasurement (loss) gain - return on plan assets | (8,492,595) | 2,943,012 |
| At December 31 | 239,590,265 | 197,412,281 |

Total retirement benefit expense for the year ended December 31, 2024 under the defined contribution plan amounts to P4,096,325 (2023 - P13,478,680).

The principal assumptions used for the actuarial valuation of the defined contribution plan of the Bank at December 31 are as follows:

| | 2024 | 2023 |
|----------------------|-------|-------|
| Discount rate | 6.11% | 6.13% |
| Salary increase rate | 6.00% | 6.00% |

The major categories of plan assets as a percentage of the fair value of total plan assets at December 31 follow:

| | 2024 | | 2023 | | |
|-------------------|-------------|------|-------------|------|--|
| | Amount | % | Amount | % | |
| Debt securities | 45,501,166 | 19% | 130,567,145 | 66% | |
| Equity securities | 145,054,529 | 61% | 54,057,360 | 27% | |
| Others | 49,034,570 | 20% | 12,787,776 | 7% | |
| | 239,590,265 | 100% | 197,412,281 | 100% | |

The asset allocation of the plan is set and reviewed from time to time by the plan trustees taking into account the membership profile, the liquidity requirements of the plan and risk appetite of the plan sponsor.

Contributions are determined on the plan provisions. The expected contributions of the Bank for the year ending December 31, 2025 amount to P60,688,489.

Critical accounting estimates - Pension liability on defined benefit plan

The Bank estimates its pension benefit obligation and expense for defined benefit pension plans based on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described above and include, among others, the discount rate and future salary increases. The Bank determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement benefit obligation.

The present value of the defined benefit obligation of the Bank at December 31, 2024 and 2023 are determined using the market yields on Philippine government bonds with terms consistent with the expected payments of employee benefits. Plan assets are invested in either equity securities, debt securities or other forms of investments. Equity markets may experience volatility, which could affect the value of pension plan assets. This volatility may make it difficult to estimate the long-term rate of return on plan assets. Actual results that differ from the Bank's assumptions are reflected as remeasurements in other comprehensive income. The Bank's assumptions are based on actual historical experience and external data regarding compensation and discount rate trends.

19 Related party transactions

In the ordinary course of business, the Bank has transactions with its directors, officers, stockholders and related interests (DOSRI) and with its Parent Bank such as cash deposit arrangements, purchase of investment securities and outsourcing of certain services, primarily loans operations, branch operations and human resource-related functions.

Significant related party transactions are summarized below:

As at and for the year ended December 31, 2024

| | Transactions for the year | Outstanding balance | Terms and conditions |
|-------------------------------------|---------------------------|---------------------|--|
| Deposits to: Parent Bank | (1,195,803,307) | 1,842,604,465 | - These are demand deposits with interest rates ranging from 0.05% to 0.0625%. |
| Deposits from: Fellow subsidiary | (2,492,547,359) | 7,452,641 | - These are time deposits with interest rates ranging from 6.25% to 6.75%. |
| Accounts payable: Parent Bank | 262,245,801 | 323,598,856 | Shared operating costs, occupancy and equipment related costs and office rental Unsecured, unguaranteed and non-interest bearing Payable in cash at gross amount and on demand but not later than 12 months from reporting period Refer to Notes (a), (b) and (c) below |

As at and for the year ended December 31, 2023

| | Transactions for the year | Outstanding balance | Terms and conditions |
|-------------------|---------------------------|---------------------|---|
| Deposits to: | 1.10 year. | | |
| Parent Bank | 2,298,300,740 | 3,038,407,772 | These are demand deposits with interest rates ranging from 0.05% to 0.0625%. |
| Deposits from: | | | |
| Fellow subsidiary | - | 2,500,000,000 | These are time deposits with interest rates ranging from 6.25% to 6.75%. |
| Accounts payable: | | | |
| Parent Bank | (707,874,412) | 61,353,055 | Shared operating costs, occupancy and equipment related costs and office rental Unsecured, unguaranteed and noninterest bearing Payable in cash at gross amount and on demand but not later than 12 months from reporting period Refer to Notes (a), (b) and (c) below |

The aggregate amounts included in the determination of income before income tax for the years ended December 31 that resulted from transactions with each class of related parties are as follows:

| | Notes | 2024 | 2023 |
|---|-------|-------------|-------------|
| Interest income | 2 | | |
| Parent Bank | | 2,310,616 | 2,230,603 |
| Interest expense | | | |
| Fellow subsidiaries | | 102,189,249 | 96,572,287 |
| Shared operating costs [Refer to Note (a) below] | | | |
| Parent Bank | 16 | 544,554,561 | 346,745,829 |
| Occupancy and equipment related costs [Refer to Note (b) below] | | | |
| Parent Bank | | 188,326,479 | 180,089,609 |
| Office rental [Refer to Note (c) below] | | | |

| Other expense [Refer to Note (e) below] | | | |
| Parent Bank | | 29,003,280 | 24,234,093 |
| Fellow subsidiaries | | 32,169,489 | 28,864,412 |
| | | 61,172,769 | 53,098,505 |
| Retirement benefits | | 940,576 | 847,757 |
| Salaries, allowances and other short-term benefits | | | |
| Key management personnel | | 16,147,131 | 10,650,832 |
| Directors' remuneration | | 650,000 | 750,000 |

(a) Shared operating costs

These pertain to the Parent Bank's outsourcing of services relating to anti-money laundering services, accounting and securities administration services, loan operations, treasury operations, human resource-related functions and information systems. Shared operating costs are billed based on rate and terms agreed by the parties. The agreement remains in force unless terminated by the parties.

(b) Occupancy and equipment related costs

These pertain to the Parent Bank's services relating to shared technology costs. It is billed based on rate and terms agreed by the parties. The agreement remains in force unless terminated by the parties.

(c) Office rental

In 2017, the Bank transferred its office premise at BPI Greentop Condominium building, a property of the Parent Bank, for a lease period of 5 years from December 1, 2014 to November 30, 2019. The rent shall increase by 5% yearly starting on the second year and by 7% on the fourth year thereafter. The security deposit in relation to the lease is presented as part of Other assets, net, in the statement of condition. The lease was renewed starting December 1, 2024 for another 5 years with the same terms and conditions until the fourth year, with an increase by 8% on the fifth year.

(d) Other income

These pertain to the fees and commission earned by the Bank through offering insurance products of related parties along with its loan products. This is presented as part of Service fee income under Other income in the statement of income.

(e) Other expense

These pertains to reimbursable expenses paid by the Parent Bank and billed to the Bank and insurance payments to related parties. This is presented as part of Other operating expenses in the statement of income. The Bank has no DOSRI loans and loans to related parties at December 31, 2024 and 2023.

The Bank is in full compliance with the General Banking Act as at December 31, 2024 and 2023.

Personal loans were purchased from the Parent Bank to support unsecured lending system and the core business of the Bank (Note 6).

20 Other commitments and contingent liabilities

The lease term of the Bank's main office space commenced on December 1, 2014 and ended on November 30, 2019 but was renewed thereafter. Likewise, the branch office spaces have various lease agreements that are renewable under certain terms and conditions. The rent is subject to 5% to 10% escalation rate. This agreement requires the Bank to pay security deposit which is presented at Other assets, net, in the statement of condition.

Lease terms are negotiated either on a collective or individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets cannot be used as security for borrowing purposes.

The balances arising from these leases are presented below:

a) Right-of-use assets and lease liabilities (PFRS 16)

The Bank has recognized right-of-use assets and lease liabilities from its long-term leases.

Details of right-of-use assets and lease liabilities at December 31 are as follows:

| | Notes | 2024 | 2023 |
|---|-------|-------------|-------------|
| Right-of-use assets (included in Bank premises, | | | |
| furniture and equipment, net under Buildings) | 7 | 535,660,684 | 370,660,241 |
| Lease liabilities (included in Other liabilities) | 12 | | |
| Current | | 6,691,003 | 23,949,031 |
| Non-current | | 552,029,301 | 360,182,215 |
| | _ | 558,720,304 | 384,131,246 |

Additions to the right-of-use assets in 2024 aggregated P321 million (2023 - P241 million) (Note 7).

Movements in lease liabilities for the years ended December 31 are as follows:

| | 2024 | 2023 |
|---|---------------|---------------|
| Balance, January 1 | 384,131,246 | 284,416,142 |
| Additions during the year | | |
| Lease liabilities on contracts entered | 305,995,203 | 233,461,213 |
| Interest accretion on lease liabilities | 35,066,379 | 23,272,033 |
| Remeasurement | (290,483) | - |
| Pre-terminated lease | (2,265,370) | - |
| Payments during the year | | |
| Principal portion of lease liabilities | (129,266,533) | (133,583,007) |
| Interest on lease liabilities | (35,066,379) | (23,435,135) |
| Others | 416,240 | - |
| Balance, December 31 | 558,720,303 | 384,131,246 |

Total cash outflow for leases in 2024 amounted to P164.33 million (2023 - P157.02 million).

Amounts recognized under Occupancy and equipment-related expenses in the statement of income for the years ended December 31 relating to leases follow:

| | 2024 | 2023 |
|---------------------------------------|-------------|-------------|
| Depreciation expense | | |
| Buildings (Note 7) | 154,885,944 | 137,267,658 |
| Interest expense on lease liabilities | 35,066,379 | 23,272,033 |
| Expenses relating to low-value leases | 35,795,570 | 21,238,000 |

Critical accounting estimate - Determination of incremental borrowing rate

To determine the incremental borrowing rate, the Bank:

- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held which do not have recent third-party financing, and
- makes adjustments specific to the lease, (e.g. term, currency and security).

The Bank's weighted average incremental borrowing rates applied to the lease liabilities range from 2.58% to 7.74% (2023 - 3.20% to 7.71%).

The Bank considers that it is impracticable to disclose with sufficient reliability the possible effects of sensitivities surrounding its lease liabilities.

Critical accounting judgement - Determining the lease term

In determining the lease term, the Bank considers all facts and circumstances that create an economic incentive to exercise an extension option. Extension options are only included in the lease term if the lease is reasonably certain to be extended.

21 Financial risk and capital management

Risk management in the Bank covers all perceived areas of risk exposure, even as it continuously endeavors to uncover hidden risks. Capital management is understood to be a facet of risk management. The BOD is the Bank's principal risk and capital manager, and the Bank's only strategic risk taker. The BOD provides written policies for overall risk management, as well as written procedures for the management of credit risk, foreign exchange risk, interest rate risk, equity risk, liquidity risk, and contingency risk, among others.

The primary objective of the Bank is the generation of recurring acceptable returns to shareholders' capital. To this end, the Bank's policies, business strategies, and business activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various other funders and stakeholders.

To generate acceptable returns to its shareholders' capital, the Bank understands that it has to bear risk, that risk-taking is inherent in its business. Risk is understood by the Bank as the uncertainty in its future income - an uncertainty that emanates from the possibility of incurring losses that are due to unplanned and unexpected drops in revenues, increases in expenses, impairment of asset values, or increases in liabilities.

The possibility of incurring losses is, however, compensated by the possibility of earning more than expected income. Risk-taking is, therefore, not entirely a bad step to be avoided. Risk-taking presents opportunities if risks are accounted, deliberately taken, and are kept within rationalized limits.

The most important financial risks that the Bank manages are credit risk, liquidity risk and market risk.

21.1 Credit risk

The Bank takes on exposure to credit risk, which is the risk that may arise if a borrower or counterparty fails to meet its obligations in accordance with agreed terms. Credit risk is the single largest risk for the Bank's business; management therefore carefully manages its exposure to credit risk as governed by relevant regulatory requirements and international benchmarks.

Credit risk may also arise due to substantial exposures to a particular counterparty which the Bank manages by adopting proper risk controls and diversification strategies to prevent undue risk concentrations from excessive exposures to particular counterparties, industries, countries or regions.

The most evident source of credit risk is loans and advances; however, other sources of credit risk exist throughout the activities of the Bank, including in credit-related activities recorded in the banking, investment securities in the trading books and off-balance sheet transactions.

21.1.1 Credit risk management

The Credit Policy and Risk Management division of the Parent Bank supports the Credit Committees in coordination with various business lending and operations units in managing credit risk, and reports are regularly provided to the Bank's Senior Management and the BOD. A rigorous control framework is applied in the determination of expected credit loss (ECL) models. The Parent Bank has policies and procedures that govern the calculation of ECL and such policies are consistently being observed by the Bank. All ECL models are regularly reviewed by the Risk Management Office (RMO) to ensure that necessary controls are in place and the models are applied accordingly.

The review and validation are performed by groups that are independent of the team that prepares the calculations, e.g., Risk Models Validation and Internal Auditors. Expert judgements on measurement methodologies and assumptions are reviewed by a group of internal experts from various functions.

The Bank employs a range of policies and practices to mitigate credit risk. The Bank monitors its portfolio based on different segmentation to reflect the acceptable level of diversification and concentration. Credit concentration arises from substantial exposures to particular counterparties. Concentration risk in credit portfolios is inherent in banking and cannot be totally eliminated. However, said risk may be reduced by adopting proper risk control and diversification strategies to prevent undue risk concentrations from excessive exposures to particular counterparties, industries, countries or regions.

The Bank structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, and to geographical and industry segments. Such risks are monitored on a regular basis and subjected to annual or more frequent review, when deemed necessary. Limits on large exposures and credit concentration are approved by the BOD through the Risk Management Committee (RMC).

The exposure to any one borrower is further restricted by sub-limits covering on- and off-balance sheet exposures. Actual exposures against limits are monitored regularly.

Settlement risk arises in any situation where a payment in cash, securities, foreign exchange currencies, or equities is made in the expectation of a corresponding receipt in cash, securities, foreign exchange currencies, or equities. Daily settlement limits are established for each counterparty to cover the aggregate of all settlement risk arising from the Bank's market transactions on any single day. For certain securities, the introduction of the delivery versus payment facility in the local market has brought down settlement risk significantly.

The Bank employs a range of policies and practices to mitigate credit risk. Some of these specific control and risk mitigation measures include collateral or guarantees.

Collateral or guarantees

One of the most traditional and common practice in mitigating credit risk is requiring security particularly for loans and advances. The Bank implements guidelines on the acceptability of specific classes of collateral for credit risk mitigation. The Bank assesses the valuation of the collateral obtained as part of the loan origination process. This assessment is reviewed periodically. The common collateral types for loans and advances are:

- Mortgages over physical properties (e.g., real estate and personal) and
- Mortgages over financial assets (e.g., guarantees).

In order to minimize credit loss, the Bank seeks additional collateral from the counterparty when impairment indicators are observed for the relevant individual loans and advances.

The Bank's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collaterals held by the Bank since the prior period.

21.1.2 Credit risk rating

The Bank uses internal credit risk gradings that reflect its assessment of the probability of default (PD) of individual counterparties. The Bank uses internal rating models tailored to the various categories of counterparty. Borrower and loan specific information collected at the time of application (such as disposable income, and level of collateral for retail exposures; and turnover and industry type for wholesale exposures) is fed into this rating model. In addition, the models enable expert judgement from the Credit Review Officer to be fed into the final internal credit rating for each exposure. This allows for considerations which may not be captured as part of the other data inputs into the model.

The Bank has put in place a credit classification system to promptly identify deteriorating exposures and to determine the appropriate credit losses. Classification is being done on the basis of the Bank's existing internal credit risk rating system, credit models or determined using reputable external rating agencies. The following are the considerations observed by the Bank in classifying its exposures:

- Standard monitoring refers to accounts which do not have a greater-than-normal risk and do not possess the
 characteristics of special monitoring and defaulted loans. The counterparty has the ability to satisfy the
 obligation in full and therefore minimal loss, if any, is anticipated.
- Special monitoring are accounts which need closer and frequent monitoring to prevent any further
 deterioration of the credit. The counterparty is assessed to be vulnerable to highly vulnerable and its capacity
 to meet its financial obligations is dependent upon favorable business, financial, and economic conditions.
- Default refers to accounts which exhibit probable to severe weaknesses wherein possibility of non-repayment of loan obligation is ranging from high to extremely high severity.

The mapping of internal credit risk ratings with the Bank's standard account classification is shown below:

(a) Loans and advances

The Bank's internal credit risk rating system comprises a 30-scale rating with eighteen (18) 'pass' rating levels for large corporate accounts; and 14-scale rating system with ten (10) 'pass' rating grades for loans mapped based on reputable external rating agency.

The Bank uses automated scoring models to assess the level of risk for retail accounts. Behavioral indicators are considered in conjunction with other forward-looking information (e.g., industry forecast) to assess the level of risk of a financial asset. After the date of initial recognition, the payment behavior of the borrower is monitored on a periodic basis to develop a behavioral score which is mapped to a PD.

Self-Employed Micro-Entrepreneur (SEME) Loans

Loans for SEME is the core business of the Bank. The SEME Loans are typically in small denominations, loan amount ranges from P25,000 to P500,000 per borrower. Credit policies are in place for a standard process and management of loans. The loan evaluation and approval process is decentralized in branches. The Branch Manager has the primary responsibility of branch performance and ensures proper and complete documentation prior to loan release.

The borrower is evaluated using a SEME credit scorecard and passes thru the credit evaluation and approval process to mitigate credit risk. In 2023, the Bank updated the default definition for SEME loan portfolio from 7 days to 10 days in line with the amended cure period from 7 days to 10 days in 2022 as a result of the Cure Period Analysis study conducted by the BPI Group's Enterprise Risk Stress Testing Department of the RMO, taking into account the changes in the BPI Group's collection activities and impact of the Coronavirus pandemic to the borrowers.

| Classifications | PL, Auto, Housing, Max500* | SEME |
|---------------------|----------------------------|-------------------|
| Standard monitoring | Current to 30 dpd | Current to 10 dpd |
| Special monitoring | 31-90 dpd | >10 days |
| Default | >90, IL, Loss | >10 days |

^{*}A product of the Bank classified as micro-enterprise loan

(b) Treasury and debt securities

Investments in high grade securities are viewed as a way to gain better credit quality mix and at the same time, maintain a readily available source to meet funding requirements. The level of credit risk for treasury and other investment debt securities and their associated PD are determined using reputable external ratings and/or available and reliable qualitative and quantitative information. In the absence of credit ratings, a comparable issuer or guarantor rating is used. Should there be a change in the credit rating of the chosen comparable, evaluation is made to ascertain whether the rating change is applicable to the security being assessed for impairment.

| Classifications | Credit Risk Grade following S&P or its equivalent |
|---------------------|---|
| Standard monitoring | Investment Grade (AAA to BBB-) |
| Special monitoring | Non-Investment Grade (BB+ to C) |
| Default | Default (D) |

(c) Other financial assets

For other financial assets (accounts receivable and rental deposits), the Bank applies the simplified approach, as permitted by PFRS 9, in measuring ECL which uses a lifetime ECL methodology. These financial assets are grouped based on shared risk characteristics and aging profile. For some of these, impairment is assessed individually at a counterparty level.

21.1.3 Maximum exposure to credit risk

The following tables contain an analysis of the credit risk exposure of each financial instrument for which an ECL allowance is recognized. The gross carrying amount of financial assets below also represents the Bank's maximum exposure to credit risk on these assets at December 31.

Credit quality of other financial assets

Credit risk exposures relating to other financial assets at December 31 are as follows:

| | 2024 | 2023 |
|-----------------------------|-------------|-------------|
| Accounts receivable, net | 1,064,449 | 10,090,433 |
| Rental deposits | 39,465,589 | 36,630,073 |
| Injunction bond | 213,158,619 | 155,920,192 |
| Accrued interest receivable | 12,444 | 5,547,365 |
| | 253,701,101 | 208,188,063 |

The Bank's other financial assets generally arise from transactions with various unrated counterparties with good credit standing. The Bank applies the simplified approach, as permitted by PFRS 9, in measuring ECL which uses a lifetime expected loss methodology for other financial assets.

To measure the ECL, other financial assets have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the payment profiles of other financial assets over a period of 36 months and corresponding historical credit losses experienced within the said period. The impact of forward-looking variables on macroeconomic factors is considered insignificant in calculating ECL provisions for other financial assets.

Critical accounting estimate - Measurement of the ECL allowance

The measurement of the ECL for loans and advances is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses).

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk (SICR);
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

Forward-looking scenarios

Three distinct macroeconomic scenarios (baseline, upside and downside) are considered in the Bank's estimation of ECL in Stage 1 and Stage 2. These scenarios are based on assumptions supported by economic theories and historical experience. The downside scenario reflects a negative macroeconomic event occurring within the first 12 months, with conditions deteriorating for up to two years, followed by a recovery for the remainder of the period. This scenario is grounded in historical experience and assumes a monetary policy response that returns the economy to a long-run, sustainable growth rate within the forecast period. The probability of each scenario is determined using expert judgment and recession probability tools provided by reputable external service providers. The baseline case incorporates the Bank's outlook for the domestic and global economy. The best and worst case scenarios take into account certain adjustments that will lead to a more positive or negative economic outcome.

Other forward-looking considerations not otherwise incorporated within the above scenarios, such as the impact of any regulatory, legislative or political changes is likewise considered, if material.

The Bank has performed historical analyses and identified the key economic variables impacting credit risk and ECL for each portfolio. The most significant period-end assumptions used for the ECL estimate at December 31 are set out below. The scenarios "base", "upside" and "downside" were used for all portfolios.

2024

| | Base Scenario | | Upside | Upside Scenario | | Downside Scenario | |
|---------------------------|---------------|--------------|---------|-----------------|---------|-------------------|--|
| | Next 12 | 2 to 5 years | Next 12 | 2 to 5 years | Next 12 | 2 to 5 years | |
| | Months | (Average) | Months | (Average) | Months | (Average) | |
| Real GDP growth (%) | 7.2 | 7.3 | 7.2 | 7.3 | 0,2 | 2.3 | |
| Inflation Rate (%) | 3.6 | 3.3 | 2.4 | 2.1 | 10.0 | 9.8 | |
| PDST-R2 5Y (%) | 5.7 | 5.3 | 4.0 | 3.5 | 9.2 | 8.8 | |
| US federal funds rate (%) | 3.9 | 3.8 | 2.2 | 2.0 | 7.4 | 7.3 | |
| Exchange Rate | 57.50 | 60.43 | 54.69 | 52.01 | 64.00 | 83.64 | |

2023

| | Base | Base Scenario | | Upside Scenario | | Downside Scenario | |
|---------------------|---------|---------------|---------|-----------------|---------|-------------------|--|
| | Next 12 | 2 to 5 years | Next 12 | 2 to 5 years | Next 12 | 2 to 5 years | |
| | Months | (Average) | Months | (Average) | Months | (Average) | |
| Real GDP growth (%) | 6.2 | 6.3 | 7.3 | 7.9 | 1.9 | 1.0 | |
| Inflation Rate (%) | 3.7 | 2.8 | 3.4 | 2.1 | 6.5 | 9.2 | |
| PDST-R2 5Y (%) | 6.1 | 5.3 | 4.9 | 3.4 | 7.8 | 10.1 | |
| US Treasury 5Y (%) | 4.6 | 4.0 | 3.5 | 2.1 | 6.4 | 8.8 | |
| Exchange Rate | 54.33 | 57.33 | 53.46 | 55.65 | 55.65 | 67.66 | |

The US Treasury 5Y economic variable in 2023 was no longer used as shorter term interest rates were preferred given their sensitivities to immediate market conditions and quicker response to possible policy rate changes.

Sensitivity analysis

The Bank's loan portfolio has different sensitivities to movements in macroeconomic variables (MEVs), so the above three scenarios have varying impact on the ECL of the Bank's portfolio. The allowance for impairment is calculated as the weighted average of ECL under the baseline, upside and downside scenarios. The impact of weighting these multiple scenarios was an increase in the allowance for impairment by P63 million from the baseline scenario as at December 31, 2024 (2023 - P3 million).

Transfers between stages

Transfers from Stage 1 and Stage 2 are based on the assessment of SICR from initial recognition. The impact of moving from 12 months ECL to lifetime ECL, or vice versa, varies by product and is dependent on the expected remaining life at the date of the transfer. Stage transfers may result in significant fluctuations in ECL. Assuming all Stage 2 accounts are considered as Stage 1, allowance for impairment would have decreased by P2.13 million as at December 31, 2024 (2023 - P2.43 million).

21.1.4 Credit impaired loans and advances

The Bank closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Bank will take possession of collateral to mitigate potential credit losses. Financial assets that are credit-impaired and related collateral held at December 31 in order to mitigate potential losses are shown below:

| | 2024 | | | • | 2023 | | |
|---|----------------|----------------------|-----------------|-------------------|----------------------|--------------------|--|
| | Gross exposure | Impairment allowance | Carrying amount | Gross exposure | Impairment allowance | Carrying amount | |
| Credit-impaired assets Corporate entities | - | - | _ | - | - | - | |
| Retail customers | 3,710,075,327 | (2,871,671,314) | 838,404,013 | 2,554,917,175 | (1,831,015,950) | 723,901,225 | |
| Total credit-impaired assets | 3,710,075,327 | (2,871,671,314) | 838,404,013 | 2,554,917,175 | (1,831,015,950) | 723,901,225 | |
| Fair value of collateral | 41,522,091 | | | 58,534,516 | | | |

As at December 31, 2024, the Bank acquired assets by taking possession of collaterals held as security for loans and advances with carrying amount of P47,164,542 (2023 - P68,525,646). The related foreclosed collaterals at December 31, 2024 have aggregate fair value of P125,697,634 (2023 - P156,519,768).

As at December 31, 2024 and 2023, the allowance for impairment of foreclosed collateral amounts to P3,015,056 (2023 - P4,159,967). Foreclosed collaterals include real estate (land, building, and improvements).

Repossessed properties are sold as soon as practicable and are classified as assets held for sale in the statement of condition.

21.1.5 Loss allowance

The loss allowance recognized in the period is affected by a variety of factors, as described below:

- Transfers between Stage 1 and Stages 2 or 3 due to financial instruments experiencing significant increases (or decreases) of credit risk or becoming credit-impaired in the period, and the consequent "step up" (or "step down") between 12-month and lifetime ECL;
- Additional allowances for new financial instruments recognized during the period, as well as releases for financial instruments de-recognized in the period;
- Impact on the measurement of ECL due to changes in PDs, Exposure at Default (EAD) and Loss Given Default (LGD) in the period;
- Impact on the measurement of ECL due to changes made to models and assumptions;
- Foreign exchange retranslations for assets denominated in foreign currencies and other movements; and
- Financial assets derecognized during the period and write-offs of allowances related to assets that were written off during the period.

The following table summarizes the changes in the loss allowance for loans and advances between the beginning and the end of the annual period.

For the year ended December 31, 2024

| | Stage 1 | Stage 2 | Stage 3 | |
|---|-----------------|---------------|-----------------|-----------------|
| | 12-month ECL | Lifetime ECL | Lifetime ECL | Total |
| Loss allowance, beginning | 744,334,608 | 12,867,801 | 1,831,015,950 | 2,588,218,359 |

For the year ended December 31, 2023

| | Stage 1 12-month ECL | Stage 2 Lifetime ECL | Stage 3 Lifetime ECL | Total |
|---|-------------------------|-------------------------|-------------------------|-----------------|
| Loss allowance, beginning | 537,015,472 | 7,088,513 | 1,355,106,468 | 1,899,210,453 |
| Provision for impairment for the year | | | | |
| Transfers: | | | | |
| Transfer in (out of) Stage 1 | (790,044,291) | 11,443,943 | 1,254,246,126 | 475,645,778 |
| Transfer in (out of) Stage 2 | 300,418 | (46,462,844) | 83,741,347 | 37,578,921 |
| Transfer in (out of) Stage 3 | 263,859 | 437,455 | (13,921,916) | (13,220,602) |
| New financial assets originated | 1,218,637,883 | = | - | 1,218,637,883 |
| Financial assets derecognized during the year | (283,212,041) | (1,148,745) | (86,923,080) | (371,283,866) |
| Changes in assumptions and other movements | | | | |
| in provision | 68,942,267 | 41,564,637 | 318,435,675 | 428,942,579 |
| | 214,888,095 | 5,834,446 | 1,555,578,152 | 1,776,300,693 |
| Write-offs and other movements | (7,568,959) | (55,158) | (1,079,668,670) | (1,087,292,787) |
| Loss allowance, ending | 744,334,608 | 12,867,801 | 1,831,015,950 | 2,588,218,359 |

No movement analysis of allowance for impairment for other financial assets subject to impairment as the related loss allowance is deemed insignificant for financial reporting purposes.

Write-off policy

The Bank writes off financial assets when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include (i) ceasing enforcement activity and (ii) where the Bank's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Bank may write-off financial assets that are still subject to enforcement activity. The write-off of loans is approved by the Board of Directors in compliance with the BSP requirements. Loans written-off in 2024 and 2023 are fully covered with allowance.

21.1.6 Concentration of financial assets with credit exposure

The Bank's main credit exposures based on carrying amounts and categorized by industry sectors are summarized below:

| | Financial activities | Manufacturing | Business services and real estate | Others | Less - Allowance | Total |
|---|----------------------|---------------|--|----------------|---------------------|----------------|
| At December 31, 2024 | | | | | | |
| Due from other banks Interbank loans receivable and | 1,936,170,819 | - | - | - | - | 1,936,170,819 |
| SPAR | - | - | - | 7,505,937,500 | - | 7,505,937,500 |
| Due from BSP Loans and advances, | 889,753,251 | - | - | · · · · - | - | 889,753,251 |

21.1.7 Provision for credit and impairment losses

The Bank's provision for credit and impairment losses are attributable to the following accounts:

| | Notes | 2024 | 2023 |
|----------------------|-------|---------------|---------------|
| Loans and advances | 6 | 3,098,818,739 | 1,776,300,693 |
| Other assets | 9 | 13,100,935 | 13,988,955 |
| Assets held for sale | | (324,131) | 455,399 |
| | | 3,111,595,543 | 1,790,745,047 |

21.2 Market risks

The Bank is exposed to market risk - the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is managed by the RMO who directly reports to the Risk Management Committee of the Board.

Market risk management is incumbent on the BOD through its Risk Management Committee. Market risk management in the Bank covers managing exposures to trading risk, foreign exchange risk, counterparty credit risk, interest rate risk of the banking book and liquidity risk. At the management level, the Bank's market risk exposure is managed by RMO, headed by the Company Risk Officer who reports directly to the BPI Chief Risk Officer and Banko Risk Management Committee. In addition, Internal Audit is responsible for the independent review of risk assessment measures and procedures and the control environment.

The Bank reviews and controls market risk exposures of both its trading and non-trading portfolios. Trading portfolios include those positions arising from the Bank's market-making transactions. Non-trading portfolios primarily arise from the interest rate management of the Bank's retail and commercial banking assets and liabilities.

Value-at-Risk (VaR) measurement is an integral part of the Bank's market risk control system. This metric estimates, at 99% confidence level, the maximum loss that a trading portfolio may incur over a trading day. This metric indicates as well that there is 1% statistical probability that the trading portfolios' actual loss would be greater than the computed VaR. In order to ensure model soundness, the VaR is periodically subject to model validation and back testing. VaR is supplemented by other risk metrics and measurements that would provide preliminary signals to Treasury and to the management to assess the vulnerability of Bank's positions. To control the risk, the RMC sets risk limits for trading portfolios which are consistent with the Bank's goals, objectives, risk appetite, and strategy.

Stress tests indicate the potential losses that could arise in extreme conditions that would have detrimental effect to the Bank's positions. The Bank periodically performs stress testing (price risk and liquidity risk) to assess the Bank's condition on assumed stress scenarios. Contingency plans are frequently reviewed to ensure the Bank's preparedness in the event of real stress. Results of stress tests are reviewed by senior management and by the RMC.

The average daily VaR for the trading portfolios in 2024 is at P882,600 (2023 - P814,125).

21.2.1 Foreign exchange risk

Foreign exchange risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in foreign exchange rates. It arises on financial instruments that are denominated in a foreign currency other than the functional currency which they are measured.

The Bank takes on exposure to the effects of fluctuations in the prevailing exchange rates on its foreign currency financial position and cash flows. The table below summarizes the Bank's exposure to foreign currency exchange rate risk relative to its financial assets and liabilities denominated in United States Dollar (US Dollar) at December 31.

| | 2024 | 2023 |
|-------------------------------|-------------|-------------|
| Financial assets | | |
| Due from other banks | 181,470,606 | 168,442,075 |
| Other assets | 144,172 | 131,791 |
| | 181,614,778 | 168,573,866 |
| Financial liabilities | | |
| Deposit liabilities | 156,150,113 | 145,504,618 |
| Accrued interest | 16,717 | 126,075 |
| | 156,166,830 | 145,630,693 |
| Net foreign exchange exposure | 25,447,948 | 22,943,173 |

At December 31, 2024, if the Philippine Peso had strengthened by 1% (2023 - 1%) against the US Dollar based on historical information in the last five years with all other variables held constant, net income as at and for the year ended December 31, 2024 would have been P190,860 higher/lower (2023 - P172,074 higher/lower), mainly as a result of foreign exchange gains/losses on translation of US Dollar-denominated deposits with other banks and deposit liabilities.

21.2.2 Interest rate risk

There are two types of interest rate risk - (i) fair value interest rate risk and (ii) cash flow interest rate risk. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Bank takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may also result in losses in the event that unexpected movements arise.

The BOD sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored daily by the RMO.

Interest rate risk in the banking book arises from the Bank's core banking activities. The main source of this type of interest rate risk is repricing risk, which reflects the fact that the Bank's assets and liabilities are of different maturities and are priced at different interest rates.

The Bank uses a simple version of the Balance Sheet VaR (BSVaR) whereby only the principal and interest payments due and relating to the banking book as at particular valuation dates are considered. The BSVaR assumes a static balance sheet, i.e., it is assumed that there will be no new transactions moving forward, and no portfolio rebalancing will be undertaken in response to future changes in market rates.

The BSVaR is founded on re-pricing gaps, or the difference between the amounts of rate sensitive assets and the amounts of rate sensitive liabilities. An asset or liability is considered to be rate-sensitive if the interest rate applied to the outstanding principal balance changes (either contractually or because of a change in a reference rate) during the interval.

The BSVaR estimates the "riskiness of the balance sheet" and compares the degree of risk-taking activity in the banking books from one period to the next. In consideration of the static framework, and the fact that income from the positions is accrued rather than generated from marking-to-market, the probable loss (that may be exceeded 1% of the time) that is indicated by the BSVaR is not realized in accounting income.

The cumulative BSVaR for the banking or non-trading book in 2024 amounts to P155,899,877 (2023 - P500.482.183).

21.3 Liquidity risk

Liquidity risk is the risk that the Bank is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

The Bank's liquidity profile is observed and monitored through its metric, the Minimum Cumulative Liquidity Gap (MCLG). The MCLG is the smallest net cumulative cash inflow (if positive) or the largest net cumulative cash outflow (if negative) over the next three (3) months. The MCLG indicates the biggest funding requirement in the short term and the degree of liquidity risk present in the current cash flow profile of the Bank. The MCLG is computed monthly and reported in the RMC meetings. A red flag is immediately raised and reported to management and the RMC when the MCLG level projected over the next 3 months breaches the RMC prescribed MCLG limit.

21.3.1 Liquidity risk management process

The Bank's liquidity management process, as carried out within the Bank and monitored by the RMC and the RMO includes:

- day-to-day funding, which includes replenishment of funds as they mature or are borrowed by customers, managed by monitoring future cash flows to ensure that requirements can be met;
- maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring balance sheet liquidity ratios against internal and regulatory requirements;
- managing the concentration and profile of debt maturities; and
- performing periodic liquidity stress testing on the Bank's liquidity position by assuming a faster rate of withdrawals in its deposit base.

Monitoring and reporting take the form of cash flow measurement and projections for the next day, week and month as these are key periods for liquidity management. The starting point for those projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets.

The Bank also monitors unmatched medium-term assets, the level and type of undrawn lending commitments, the usage of overdraft facilities and the impact of contingent liabilities (if any).

Liquidity Coverage Ratio (LCR)

Pursuant to BSP Circular No. 905 issued in 2016, the Bank is required to hold and maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that are sufficient to meet its estimated total cash outflows over a 30 calendar-day period of liquidity stress. The LCR is the ratio of HQLAs to total net cash outflows which should be no lower than 100% on a daily basis. It is designed to promote short-term resilience of the Bank's liquidity risk profile to withstand significant liquidity shocks that may last over 30 calendar days. HQLA represent the Bank's stock of liquid assets that qualify for inclusion in the LCR which consist mainly of cash, regulatory reserves and unencumbered high-quality liquid securities. HQLAs therefore, serve as defense against potential stress events.

The main drivers of the Bank's LCR comprise the changes in the total stock of HQLA as well as changes in net cash outflows related to deposits, unsecured borrowings and commitment facilities, if any.

Net Stable Funding Ratio (NSFR)

On January 1, 2019, the Bank adopted BSP Circular No. 1007 issued in 2018 regarding the NSFR requirement. The NSFR is aimed at strengthening the Bank's long-term resilience by maintaining a stable funding in relation to its assets and off-balance sheet items as well as to limit the maturity transformation risk of the Bank. The NSFR is expressed as the ratio of available stable funding and the required stable funding and complements the LCR as it takes a longer view of the Bank's liquidity risk profile. The Bank's capital and retail deposits are considered as stable funding sources whereas the Bank's assets including, but not limited to, performing and non-performing loans and receivables, HQLA and non-HQLA securities as well as off-balance sheet items form part of the required stable funding. The Bank's NSFR is well-above the regulatory minimum of 100%.

The Bank maintains a well-diversified funding base and has a substantial amount of core deposits, thereby avoiding undue concentrations by counterparty, maturity, and currency. The Bank manages its liquidity position through asset-liability management activities supported by a well-developed funds management practice as well as a sound risk management system. As part of risk oversight, the Bank monitors its liquidity risk on a daily basis, in terms of single currency and significant currencies, to ensure it is operating within the risk appetite set by the BOD and to assess ongoing compliance with the minimum requirement of the liquidity ratios. Furthermore, the Bank has a set of policies and escalation procedures in place that govern its day-to-day risk monitoring and reporting processes.

The table below shows the actual liquidity metrics of the Bank as at December 31:

| | 2024 | 2023 |
|--------------------------|----------------|----------------|
| Liquidity coverage ratio | 117.19% | 133.97% |
| Net stable funding ratio | 123.42% | 135.91% |
| Leverage ratio | 13.63% | 10.83% |
| Total exposure measure | 52,800,142,894 | 43,493,133,715 |

21.3.2 Funding approach

Sources of liquidity are regularly reviewed by the Bank to maintain a wide diversification by currency, geography, counterparty, product and term.

21.3.3 Non-derivative cash flows

The table below presents the maturity profile of non-derivative financial instruments at December 31 based on undiscounted cash flows, including interest, which the Bank uses to manage the inherent liquidity risk. The analysis takes into account the maturity grouping based on the remaining period from the end of the reporting period to the contractual maturity date or, if earlier, the expected date the financial asset will be realized or the financial liability will be settled.

Cash and other cash items, due from BSP and other banks, and interbank loans receivable and SPAR

The fair value of floating rate placements and overnight deposits approximates their carrying amounts. The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using prevailing money-market interest rates for debts with similar credit risk and remaining maturity. All of these financial assets have a maturity of one year, thus their fair values approximate their carrying amounts.

Loans and advances

The estimated fair value of loans and advances represents the discounted amount of estimated future cash flows expected to be received. Expected cash flows are discounted with the use of assumptions regarding appropriate credit spread for the loan, derived from other market instruments.

Financial liabilities

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand.

The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using interest rates for new debts with similar remaining maturity.

Other assets and other liabilities

Carrying amounts of other assets and other liabilities which have no definite repayment dates are assumed to be their fair values.

The fair values of financial instruments that are not quoted in active markets are determined by using generally accepted valuation techniques. Where valuation techniques (for example, discounted cash flow models) are used to determine fair values, they are validated and periodically reviewed by qualified personnel independent of the area that created them. Inputs used in these models are from observable data and quoted market prices in respect of similar financial instruments.

All models are approved by the BOD before they are used, and models are calibrated to ensure that outputs reflect actual data and comparative market prices. Changes in assumptions about these factors could affect reported fair value of financial instruments.

There are no transfers between the fair value hierarchy above for the years ended December 31, 2024 and 2023.

22 Capital management

Capital management is understood to be a facet of risk management. The primary objective of the Bank is the generation of recurring acceptable returns to shareholder's capital. To this end, the Bank's policies, business strategies and activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various funders and stakeholders.

Cognizant of its exposure to risks, the Bank understands that it must maintain sufficient capital to absorb unexpected losses, to stay in business for the long haul, and to satisfy regulatory requirements. The Bank further understands that its performance, as well as the performance of its various units, should be measured in terms of returns generated vis-à-vis allocated capital and the amount of risk borne in the conduct of business.

Effective January 1, 2014, the BSP, through its Circular 781, requires each bank and its financial affiliated subsidiaries to adopt new capital requirements in accordance with the provisions of Basel III. The new guidelines are meant to strengthen the composition of the Bank's capital by increasing the level of core capital and regulatory capital. The Circular sets out minimum Common Equity Tier 1 (CET1) ratio and Tier 1 Capital ratios of 6% and 7.5%, respectively. A capital conservation buffer of 2.5%, comprised of CET1 capital, was likewise imposed. The minimum required capital adequacy ratio (CAR) remains at 10% which includes the capital conservation buffer.

The table below summarizes the Bank's CAR under the Basel III framework for the years ended December 31:

| | 2024 | 2023 |
|--|----------------|----------------|
| CET1 | 8,216,804,868 | 5,426,916,061 |
| Less: Regulatory adjustments to CET1 capital | 1,020,434,470 | 717,783,527 |
| Tier 1 capital | 7,196,370,398 | 4,709,132,534 |
| Tier 2 capital | 359,544,077 | 263,664,096 |
| Total qualifying capital | 7,555,914,475 | 4,972,796,630 |
| | | |
| Risk weighted assets | 45,549,964,297 | 33,686,718,954 |
| CET1 (%) | 15.80% | 13.98% |
| CAR (%) | 16.59% | 14.76% |

The Bank has fully complied with the CAR requirement of the BSP as at December 31, 2024 and 2023.

23 Summary of material accounting policies

The material information of the principal accounting policies applied in the preparation of the Bank's financial statements are set out below. These policies have been consistently applied to both years presented, unless otherwise stated.

23.1 Basis of preparation

The financial statements of the Bank have been prepared in accordance Philippine Financial Reporting Standards (PFRS) Accounting Standards. PFRS Accounting Standards comprise the following authoritative literature:

- PFRS Accounting Standards
- · PAS Standards, and
- Interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), Philippine Interpretations Committee (PIC), and Standing Interpretations Committee (SIC) as approved by the Financial and Sustainability Reporting Standards Council (FSRSC) and the Board of Accountancy, and adopted by the SEC.

The financial statements comprise the statement of condition, statement of income and statement of comprehensive income shown as two statements, statement of changes in capital funds, the statement of cash flows and the notes.

These financial statements of the Bank have been prepared under the historical cost convention, as modified by the revaluation of investment security at FVOCI and plan assets of the Bank's pension plans measured at fair value.

The preparation of financial statements in conformity with PFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and that the financial statements therefore fairly present the financial position and results of the Bank. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are shown below:

Critical accounting estimates

- Measurement of expected credit losses for loans and advances (Note 21.1.3)
- Pension liability on defined benefit obligation (Note 18)
- Useful lives of bank premises, furniture, fixtures and equipment (Note 7)
- Determination of incremental borrowing rate (Note 20)

Critical accounting judgments

- Realization of deferred income tax assets (Note 8)
- Determining the lease term (Note 20)

23.1.1 Changes in accounting policy and disclosures

(a) New standard and amendments to existing standards adopted by the Bank.

There are no new standards or amendments to existing standards effective January 1, 2024 that have a material impact to the Bank.

(b) New standards and amendments to existing standard not yet adopted by the Bank.

The following new accounting standard are not mandatory for December 31, 2024 reporting period and has not been early adopted by the Bank:

PFRS 18, 'Presentation and Disclosure in Financial Statements'

This is the new standard on presentation and disclosure in financial statements, which replaces PAS 1, with a focus on updates to the statement of profit or loss.

The key new concepts introduced in PFRS 18 relate to:

- The structure of the statement of profit or loss with defined subtotals;
- Requirement to determine the most useful structure summary for presenting expenses in the statement of profit or loss
- Required disclosures in a single note within the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general
- Amendments to the Classification and Measurement of Financial Instruments Amendments to PFRS 9 and PFRS 7

On May 30, 2024, the IASB issued targeted amendments to PFRS 9 Financial Instruments and PFRS 7 Financial Instruments: Disclosures to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities. These amendments:

- (a) Clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- (b) Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- (c) Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
- (d) Update the disclosures for equity instruments design

The adoption of PFRS 18 and amendments to PFRS 9 and PFRS 7 are not expected to have a material financial effect to the financial statements of the Bank.

There are no other standards, amendments to existing standards or interpretations effective subsequent to January 1, 2025 that are considered relevant or would be expected to have a material impact on the Bank's financial statements.

23.2 Financial assets

23.2.1 Classification

Th Bank classifies its financial assets as in the following measurement categories:

- those to be measured subsequently at fair value through other comprehensive income (FVOCI); and
- those to be measured at amortized cost.

The classification depends on the Bank's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at FVOCI, gains and losses will be recorded in OCI. For investments in equity instruments that are not held for trading, this will depend on whether Bank has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

The Bank reclassifies debt investments when and only when its business model for managing those assets changes.

In the determination of the business model, the Bank considers its past experience on how the cash flows for these assets were collected, how the assets' performance are evaluated and how risks are assessed and managed.

23.2.2 Recognition

Regular way purchases and sales of financial assets are recognized on trade date, the date on which the Bank commits to purchase or sell the asset.

23.2.3 Measurement

The classification requirements for debt and equity instruments are described below:

The Bank classifies its debt instruments at amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent SPPI, and that are not designated at fair value through profit or loss (FVTPL), are measured at amortized cost. The carrying amount of these assets is adjusted by any ECL allowance recognized and measured. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

Financial assets at amortized cost at December 31, 2024 and 2023 include cash and other cash items, due from BSP, due from other banks, interbank loans receivables and SPAR, loans and advances, and other assets.

Cash and cash equivalents consist of cash and other cash items, due from BSP and other banks and interbank loans receivable and SPAR with maturities of less than three months from the date of acquisition and that are subject to insignificant risk of changes in value.

Securities sold subject to repurchase agreements are reclassified in the financial statements as pledged assets when the transferee has the right by contract or custom to sell or repledge the collateral; the counterparty liability is included in deposits from banks or deposits from customers, as appropriate. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest rate method. Securities purchased under agreements to resell are recorded as loans and advances to other banks and customers and included in the statement of condition under "Interbank loans receivable and securities under agreement to resell." Securities lent to counterparties are also retained in the financial statements.

Business model: The business model reflects how the Bank manages the assets in order to generate cash flows. That is, whether the Bank's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at fair value through profit or loss. Factors considered by the Bank in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Bank considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

The Bank reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

Equity instruments

The Bank's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognized in other comprehensive income and are not subsequently reclassified to profit or loss, even on disposal. Impairment losses and reversal of impairment losses, if any, are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognized in profit or loss as other income when the Bank's right to receive payments is established.

The Bank's investment in a listed equity security at December 31, 2024 and 2023 is measured at FVOCI.

23.2.4 Impairment of financial assets at FVOCI and at amortized cost

The Bank assesses impairment as follows:

- individually for loans that exceed specified thresholds where there is an objective evidence of impairment, individually assessed provisions will be recognized; and
- collectively for loans below the specified thresholds noted above or if there is no objective evidence of
 impairment. These loans are included in a group of loans with similar risk characteristics and collectively
 assessed for impairment. If there is objective evidence that the group of loans is collectively impaired,
 collectively assessed provisions will be recognized.

The Bank assesses on a forward-looking basis the ECL associated with its debt instruments carried at amortized cost and FVOCI and with the exposure arising from loan commitments. The Bank recognizes a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

PFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarized below:

- A financial instrument that is not credit-impaired on initial recognition is classified in "Stage 1" and has its credit risk continuously monitored by the Bank.
- If a SICR since initial recognition is identified, the financial instrument is moved to "Stage 2" but is not yet deemed to be credit-impaired. The Bank determines SICR based on prescribed benchmarks approved by the Board of the Directors.
- If the financial instrument is credit-impaired, the financial instrument is then moved to "Stage 3".
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime ECL that results from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on ECL on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with PFRS 9 is that it should consider forward-looking information.

The Bank assesses on a forward-looking basis the ECL associated with its debt instrument assets carried at amortized cost and FVOCI. The Bank recognizes a loss allowance for such losses at each reporting date.

The following diagram summarizes the impairment requirements under PFRS 9 (other than purchased originated credit-impaired financial assets):

Change in credit quality since initial recognition

| Stage 1 | Stage 2 | Stage 3 |
|---------------------------------|---------------------------------|---------------------------------|
| (Initial recognition) | (Significant increase in credit | (Credit-impaired assets) |
| | risk since initial recognition) | |
| 12-month expected credit losses | Lifetime expected credit losses | Lifetime expected credit losses |

For ECL provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

Determination of SICR

The Bank compares the probabilities of default occurring over its expected life as at the reporting date with the probability of default occurring over its expected life on the date of initial recognition to determine significant increase in credit risk. Since comparison is made between forward-looking information at reporting date against initial recognition, the deterioration in credit risk may be triggered by the following factors:

- substantial deterioration in credit quality as measured by the applicable internal or external ratings, credit score or shift from investment grade category to non-investment grade category;
- adverse changes in business, financial and/or economic conditions of the borrower;
- early warning signs of worsening credit where the ability of the counterparty to honor his obligation is dependent upon favorable business or economic condition;
- the account has become past due beyond 30 days where an account is classified under special monitoring category; and
- expert judgment for the other quantitative and qualitative factors which may result to SICR as defined by the Bank.

Measuring ECL - Inputs, assumptions and estimation techniques

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. ECLs are the discounted product of the PD, EAD and LGD, defined as follows:

 The PD represents the likelihood that the borrower will default (as per "Definition of default and creditimpaired" above), either over the next 12 months (12M PD), or over the remaining life (lifetime PD) of the asset. EAD is based on the amounts the Bank expects to be owed at the time of default, over the next 12 months
(12M EAD) or over the remaining life (lifetime EAD). For example, for a revolving commitment, the Bank
includes the current drawn balance plus any further amount that is expected to be drawn up to the current
contractual limit by the time of default, should it occur.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

- For amortizing products and bullet repayment loans, this is based on the contractual repayments owed by the borrower over a 12-month or lifetime basis.
- For committed credit lines, the exposure at default is predicted by taking current drawn balance and adding a "credit conversion factor" which allows for the expected drawdown of the remaining limit by the time of default.
- LGD represents the Bank's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default.

The LGDs are determined based on the factors which impact the recoveries made post-default.

- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.
- For unsecured products, LGDs are typically set at product level due to the limited differentiation in recoveries achieved across different borrowers. These LGDs are influenced by collection strategies and historical recoveries.

The ECL is determined by multiplying the PD, LGD and EAD together for each individual exposure or collective segment. This effectively calculates an ECL for each future year, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the life of the loans. The maturity profile is based on historical observed data and is assumed to be the same across all assets within a portfolio and credit grade band.

Forward-looking economic information is also included in determining the 12-month and lifetime PD. These assumptions vary by product type.

The assumptions underlying the ECL calculation such as how the maturity profile of the PDs and how collateral values change are monitored and reviewed regularly.

The Bank's forward-looking, point-in-time PD models are driven by internal forecasts of MEVs over the next five years. These models were previously recalibrated annually, but in view of the COVID-19 pandemic, more frequent review and update of these models were conducted starting April 2020 as MEV forecasts were revised quarterly in response to changing macroeconomic conditions. Furthermore, the pandemic was expected to dampen demand for auto and real estate collaterals and thus decrease market prices, so appropriate haircuts were applied on estimated recoveries from collaterals. These haircuts, however, did not increase the Bank's LGD as these were offset by the Bank's favorable collection experience.

Forward-looking information incorporated in the ECL models

The Bank incorporates historical and current information, and forecasts forward-looking events and key economic variables that are assessed to impact credit risk and ECL for each portfolio. Macroeconomic variables that affect a specific portfolio's non-performing loan rate(s) are determined through statistical modelling and the application of expert judgement. The Bank's economics team establishes possible global and domestic economic scenarios. With the use of economic theories and conventions, expert judgement and external forecasts, the economics team develops assumptions to be used in forecasting variables in the next five (5) years, subsequently reverting to long run-averages. The probability-weighted ECL is calculated by running each scenario through the relevant ECL models and multiplying it by the appropriate scenario weighting.

The estimation and application of forward-looking information requires significant judgment. As with any economic forecasts, the projections and likelihood of occurrences are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The scenarios and their attributes are reassessed at each reporting date. Information regarding the forward-looking economic variables and the relevant sensitivity analysis is disclosed in Note 21.

Financial assets with low credit risk

Loss allowance for financial assets at amortized cost and FVOCI that have low credit risk is limited to 12-month ECLs. Management considers "low credit risk" for listed government bonds to be an investment grade credit rating with at least one major rating agency. Other debt instruments are considered to be low credit risk when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

Definition of default and credit-impaired assets

The Bank considers a financial instrument in default or credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria

The borrower is more than 90 days past due on its contractual payments (with the exception of micro-finance loans where a borrower is required to be over 10 days past due, respectively, to be considered in default).

Qualitative criteria

The counterparty is experiencing significant financial difficulty which may lead to non-payment of loan as may be indicated by any or combination of the following events:

- The counterparty is in long-term forbearance;
- The counterparty is insolvent;
- The counterparty is in breach of major financial covenant(s) which lead(s) to event of default;
- An active market for the security has disappeared;
- Granting of concession that would not be otherwise considered due to economic or contractual reasons relating to the counterparty's financial difficulty;
- It is becoming probable that the counterparty will enter bankruptcy or other financial reorganization; and
- Financial assets are purchased or originated at a deep discount that reflects the incurred credit losses.

The criteria above have been applied to all financial instruments held by the Bank and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the PD, EAD, and LGD throughout the Bank's ECL calculations.

The Bank's definition of default is substantially consistent with non-performing loan definition of the BSP. For treasury and debt securities, these are classified as defaulted based on combination of BSP and external credit rating agency definitions.

23.2.5 Modification of loans

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Bank assesses whether or not the new terms are substantially different to the original terms. The Bank does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Bank derecognizes the original financial asset and recognizes a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Bank also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognized in the statement of income as a gain or loss on derecognition.

If the terms are not substantially different, the Bank recalculates the gross carrying amount of the financial asset and recognizes a modification gain or loss in the statement of income. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets.

23.2.6 Derecognition of financial assets other than modification

The Bank enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Bank:

- (i) Has no obligation to make payments unless it collects equivalent amounts from the assets:
- (ii) Is prohibited from selling or pledging the assets; and
- (iii) Has an obligation to remit any cash it collects from the assets without material delay.

23.2.7 Write-off policy

The Bank writes off financial assets when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include (i) ceasing enforcement activity and (ii) where the Bank's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Bank may write-off financial assets that are still subject to enforcement activity. The outstanding contractual amounts of such assets written-off during the year ended December 31, 2024 was P1,901.35 million (2023 - P1,084.43 million). The write-off of loans is being approved by the BOD in compliance with the BSP requirements.

23.3 Financial liabilities

23.3.1 Classification

The Bank classifies its financial liabilities at amortized cost.

Financial liabilities measured at amortized cost include deposit liabilities, accrued interest and other expenses, and other liabilities (except tax-related or statutory payables).

23.3.2 Recognition and measurement

Initial recognition and measurement

Financial liabilities at amortized cost are initially recognized at fair value less transaction costs.

Subsequent measurement

Financial liabilities at amortized cost are subsequently measured at amortized cost using the effective interest rate method.

23.3.3 Derecognition

Financial liabilities are derecognized when they have been redeemed or otherwise extinguished (i.e. when the obligation is discharged or is cancelled or has expired).

23.4 Fair value measurement

The fair value of financial and non-financial liabilities takes into account non-performance risk, which is the risk that the entity will not fulfill an obligation.

The appropriate level is determined on the basis of the lowest level input that is significant to the fair value measurement.

For financial instruments traded in active markets, the determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations. This includes listed equity securities and quoted debt instruments on major exchanges and broker quotes mainly from PDEX and Bloomberg.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive. Indications that a market is inactive are when there is a wide bid-offer spread or significant increase in the bid-offer spread or there are few recent transactions.

For all other financial instruments, fair value is determined using valuation techniques. In these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows or other valuation techniques, using inputs (for example, LIBOR yield curve, FX rates, volatilities and counterparty spreads) existing at reporting dates. The Bank uses widely recognized valuation models for determining fair values of non-standardized financial instruments of lower complexity. For these financial instruments, inputs into models are generally market observable.

In cases when the fair value of unlisted equity instruments cannot be determined reliably, the instruments are carried at cost less impairment.

The fair value for loans and advances as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs. The fair values of contingent liabilities and irrevocable loan commitments correspond to their carrying amounts.

Non-financial assets or liabilities

The Bank uses valuation techniques that are appropriate in the circumstances and applies the technique consistently. Commonly used valuation techniques are as follows:

- Market approach A valuation technique that uses observable inputs, such as prices, broker quotes and other relevant information generated by market transactions involving identical or comparable assets or group of assets.
- Income approach A valuation technique that converts future amounts (e.g., cash flows or income and expenses) to a single current (i.e., discounted) amount. The fair value measurement is determined on the basis of the value indicated by current market expectations about those future amounts.
- Cost approach A valuation technique that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

The fair values were determined in reference to observable market inputs reflecting orderly transactions, i.e. market listings, published broker quotes and transacted deals from similar and comparable assets, adjusted to determine the point within the range that is most representative of the fair value under current market conditions.

The fair values of the Bank's foreclosed assets (shown as Assets held for sale) fall under level 2 of the fair value hierarchy using market approach. The Bank has no non-financial assets or liabilities classified under Level 3 as at December 31, 2024 and 2023.

23.5 Bank premises, furniture, fixtures and equipment

Bank premises, furniture, fixtures and equipment are stated at historical cost less accumulated depreciation.

Subsequent costs are included in the asset's carrying amount or are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the financial year in which they are incurred.

Depreciation on assets is calculated using the straight-line method to allocate cost of each asset less its residual value over its estimated useful life as follows:

| | Estimated useful life |
|------------------------------------|--|
| | Based on lease term or life of the leased item |
| Leasehold, rights and improvements | whichever is shorter |
| Furniture, fixtures, and equipment | 60 months |
| Computer equipment | 60 months |

Leasehold rights and improvements in progress are stated at cost. Costs are accumulated in the accounts until these projects are completed upon which these are classified to the appropriate property accounts and accordingly depreciated.

Major renovations are depreciated over the remaining useful life of the related asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value-in-use.

23.6 Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specified software. These costs are amortized on a straight-line basis over the expected useful lives of three to five years. Computer software is included in Other assets, net.

Costs associated with maintaining computer software programs are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.

Computer software is derecognized upon disposal or when no future economic benefits are expected from its use or disposal.

23.7 Impairment of non-financial assets

Asset that have indefinite useful lives are not subject to amortization and depreciation and are tested annually for impairment. Assets that have definite useful life are subject to amortization and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For purposes of assessing impairment, assets are grouped at the lowest levels for which there is a separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

23.8 Foreclosed asset

Assets foreclosed shown as Assets held for sale in the statement of condition are accounted for at the lower of cost and fair value less cost to sell, similar to the principles of PFRS 5. The cost of assets foreclosed includes the carrying amount of the related loan less allowance for impairment at the time of foreclosure. Impairment loss is recognized for any subsequent write-down of the asset to fair value less cost to sell.

These foreclosed assets are classified as assets held for sale since it is the intention of the Bank's management to principally recover the carrying amount through sale transactions and the sale is considered highly probable.

The sale is expected to be completed within one year from the date of classification. In case events or circumstances may extend the period to complete the sale beyond one year, the extension of the period to complete the sale does not preclude the asset from being classified as held-for-sale if the delay is caused by events or circumstances beyond the Bank's control and the Bank remains committed to its plan to sell the asset.

23.9 Provisions for legal or contractual obligations

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events; it is probable that an outflow of assets will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects the current market assessments of the time value of money and the risk specific to the obligation. The increase in provision due to the passage of time is recognized as interest expense.

23.10 Interest income and expense

Interest income and expense are recognized in the statement of income for all interest-bearing financial instruments using the effective interest rate method.

When calculating the effective interest rate, the Bank estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognized using the rate of interest used to discount future cash flows for the purpose of measuring impairment loss.

23.11 Service fee income

The Bank recognized revenue when (or as) the Bank satisfies a performance obligation by transferring a promised good or service to a customer (i.e. an asset). An asset is transferred when (or as) the customer obtains control of that asset.

Service fee income are generally recognized over time when the service has been provided and the control over the service is transferred to the customer. The service being rendered by the Bank represents a single performance obligation.

Service fees are recognized on an accrual basis when the service has been provided. Services fees compose of the processing fee and the motorized collector for both personal loans and SEME loans. Service fee income arising from loans, deposits and other banking transactions are recognized as income based on agreed terms and conditions.

23.12 Foreign currency translation

Functional and presentation currency

Items in the financial statements of the Bank are measured using the currency of the primary economic environment in which it operates (the functional currency). The financial statements are presented in Philippine Peso, which is the Bank's functional currency.

23.13 Income taxes

Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the country where the Bank operates and generates taxable income.

Management periodically evaluates positions taken in tax returns with respect to situations in which the applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax

The deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred income tax liabilities are recognized in full for all taxable temporary differences. Deferred income tax liabilities are provided on taxable temporary differences except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Bank and it is probable that the temporary difference will not reverse in the foreseeable future.

23.14 Employee benefits

(a) Short-term benefits

The Bank recognizes a liability, net of amount already paid and an expense for services rendered by employees during the accounting period. Short-term benefits given to its employees include salaries and wages, social security contributions, short-term compensated absences and bonuses, and non-monetary benefits.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

(b) Defined benefit retirement plan

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability recognized in the statement of condition in respect of defined benefit pension plan is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets. The defined benefit obligation is calculated annually by an independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The amount of pension asset recognized in the books is reduced by the amount of asset ceiling, as applicable.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

Past-service costs are recognized immediately in profit or loss.

For individual financial reporting purposes, the unified plan assets are allocated based on the level of the defined benefit obligation attributable to each entity to arrive at the net liability or asset that should be recognized in the individual financial statements.

(c) Defined contribution retirement plan

The Bank also maintains a defined contribution plan that covers certain full-time employees. Under its defined contribution plan, the Bank pays fixed contributions based on the employees' monthly salaries. The Bank, however, is covered under RA No. 7641, otherwise known as The Philippine Retirement Pay Law, which provides for its qualified employees a defined benefit minimum guarantee. The defined benefit minimum guarantee is equivalent to a certain percentage of the monthly salary payable to an employee at normal retirement age with the required credited years of service based on the provisions of RA No. 7641. Accordingly, the Bank accounts for its retirement obligation under the higher of the defined benefit obligation relating to the minimum guarantee and the obligation arising from the defined contribution plan.

For the defined benefit minimum guarantee plan, the liability is determined based on the present value of the excess of the projected defined benefit obligation over the projected defined contribution obligation at the end of the reporting period. The defined benefit obligation is calculated annually by a qualified independent actuary using the projected unit credit method. The Bank determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability (asset) and then, it takes into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to the defined benefit plan are recognized in the statement of income.

The defined contribution liability is measured at the fair value of the defined contribution assets upon which the defined contribution benefits depend, with an adjustment for margin on asset returns, if any, where this is reflected in the defined contribution benefits.

Actuarial gains and losses arising from the remeasurements of the net defined contribution liability are recognized immediately in other comprehensive income.

(d) Profit sharing and bonus plans

The Bank recognizes a liability and an expense for bonuses and profit-sharing, based on a formula that takes into consideration the profit attributable to the Bank's shareholder after certain adjustments. The Bank recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

23.15 Leases

The Bank recognizes leases as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use.

Assets and liabilities arising from long-terms leases are initially measured on a present value basis. The interest expense is recognized in the statement of income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the lease commencement date plus any initial direct costs incurred, less any lease incentives received. The right-of-use asset is subsequently depreciated on a straight-line basis over the lease term. The right-of-use asset may be reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the rate implicit in the lease or, if that rate cannot be readily determined, the Bank's incremental borrowing rate. Generally, the Bank uses its incremental borrowing rate as the discount rate. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

Payments associated with leases of low-value assets are recognized on a straight-line basis as an expense in the statement of income. Low-value assets comprise certain IT-equipment and office furniture.

24 Supplementary information required by BSP Circular No. 1074

Presented below are the additional information required by BSP Circular No. 1074 issued on January 8, 2020. This information is presented for BSP reporting purposes and is not required in the basic financial statements. The 2023 information is presented for comparative purposes only.

(i) Basic quantitative indicators of financial performance

The key financial performance indicators as at December 31 follow:

| | 2024 | 2023 |
|---------------------------------------|--------|--------|
| Return on average equity ¹ | 34.06% | 26.80% |
| Return on average assets ² | 4.83% | 3.91% |
| Net interest margin ³ | 19.88% | 17.82% |

¹Net income divided by average total equity for the period indicated. Average total equity is based on the year-on-year balance of equity for the years ended December 31, 2024 and 2023.

(ii) Description of capital instrument issued

The Bank considers its common shares as capital instrument for the purpose of calculating its CAR as at December 31, 2024 and 2023.

(iii) Significant credit exposures

Details of the Bank's loans and advances portfolio as to concentration to industry/economic sector (in %) at December 31 are as follows:

| | 2024 | 2023 |
|---|------|------|
| Private household with employed persons | 68 | 45 |
| Wholesale and retail trade | 25 | 25 |
| Real estate, renting and other related activities | 4 | 7 |
| Manufacturing | 2 | 2 |
| Consumer | - | 18 |
| Others | 1 | 3 |
| | 100 | 100 |

Details of the loans and advances portfolio as to concentration per industry/economic sector over Tier 1 Capital (in %) as at December 31 are as follows:

| | 2024 | 2023 |
|---|------|------|
| Private household with employed persons | 360 | 244 |
| Wholesale and retail trade | 134 | 133 |
| Consumer | 20 | 99 |
| Manufacturing | 12 | 12 |
| Real estate, renting and other related activities | - | 22 |
| Others | 5 | 37 |

²Net income divided by average total assets as at period indicated. Average total assets is based on the year-on-year balance of total assets as at December 31, 2024 and 2023.

³Net interest income divided by average interest-earning assets. Average interest earning assets is based on the year-on-year balance of interest earning assets as at December 31, 2024 and 2023.

(iv) Breakdown of total loans

Details of the Bank's loans and advances portfolio at December 31 as to collateral (amounts net of unearned discounts and exclusive of accrued interest receivable) are as follows:

| | 2024 | 2023 |
|-----------------------------|----------------|----------------|
| Secured loans | | |
| Real estate mortgage | 1,566,326,277 | 1,174,152,190 |
| Chattel mortgage | 151,202 | 282,384 |
| Large corporate customer | 31,931,909 | 40,489,706 |
| Small and medium enterprise | 857,806 | 5,136,569 |
| | 1,599,267,194 | 1,220,060,849 |
| Unsecured loans | | |
| Personal loans | 26,056,651,015 | 18,643,195,579 |
| Manpower/Microfinance loans | 14,525,928,658 | 9,507,502,908 |
| | 40,582,579,673 | 28,150,698,487 |
| | 42,181,846,867 | 29,370,759,336 |

Non-performing loans, net of allowance for credit losses, at December 31 are as follows:

| | 2024 | 2023 |
|--|-----------------|-----------------|
| Non-performing loans (NPL) | 3,122,385,636 | 1,958,240,842 |
| Accounts with specific allowance for credit losses | (2,279,709,950) | (1,445,884,536) |
| Net NPL | 842,675,686 | 512,356,306 |

BSP Circular 941, Amendments to Regulations on Past Due and Non-Performing Loans, states that loans, investments, receivables, or any financial asset shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and if there is an evidence that full repayment of principal and interest is unlikely without foreclosure of collateral. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement. Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after it has become past due. Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained.

(v) Information on related party loans

The Bank does not have DOSRI loans and loans to related parties as at December 31, 2024 and 2023.

(vi) Liabilities and assets pledged as security

There are no loans and advances at December 31, 2024 and 2023 used as security for liabilities.

(vii) Contingencies and commitments arising from off-balance sheet items

The Bank does not have any contingencies and commitments arising from off-balance sheet items as at December 31, 2024 and 2023.

25 Supplementary information required by the Bureau of Internal Revenue (BIR)

Below is the additional information required by Revenue Regulations No. 15-2010 that is relevant to the Bank. This information is presented for the purposes of filing with the BIR and is not a required part of the basic financial statements.

(i) Documentary stamp tax

Documentary stamp taxes paid through the Electronic Documentary Stamp Tax System for the year ended December 31, 2024 consists of:

| | Amount |
|----------------------------|-------------|
| Deposit and loan documents | 408,580,825 |
| Others | 5,931,558 |
| | 414,512,383 |

(ii) Withholding taxes

Withholding taxes paid/accrued and/or withheld for the year ended December 31, 2024 consist of:

| | Paid | Accrued | Total |
|---|-------------|------------|-------------|
| Final income taxes withheld on interest on deposits | | | |
| and yield on deposit substitutes | 328,798,784 | 30,242,532 | 359,041,316 |
| Income taxes withheld on compensation | 78,532,131 | 7,016,939 | 85,549,071 |
| Creditable income taxes withheld (expanded) | 40,110,531 | 7,690,700 | 47,801,232 |
| Final income taxes withheld on the amount withdrawn | | | |
| from decedent's deposit account | 1,343 | 27,688 | 29,031 |
| | 447,442,789 | 44,977,859 | 492,420,650 |

Withholding tax payable is presented under Other liabilities in the statement of condition.

(iii) All other local and national taxes

All other local and national taxes paid/accrued for the year ended December 31, 2024 consist of:

| | Paid | Accrued | Total |
|----------------------------------|-------------|-------------|-------------|
| Gross receipts tax | 623,268,052 | 188,416,541 | 811,684,593 |
| Municipal taxes / Mayor's permit | 49,354,996 | - | 49,354,996 |
| Fringe benefits tax | 34,017 | 1,142 | 35,159 |
| Real property tax | 1,369,164 | - | 1,369,164 |
| | 674,026,229 | 188,417,683 | 862,443,912 |

Except for the gross receipts tax which is netted against the related income, real property tax and municipal taxes/Mayor's permit are presented as part of Taxes and licenses and Others under Other operating expenses, respectively. Fringe benefits tax is presented as part of Compensation and fringe benefits in the statement of income.

(iv) Tax cases and assessments

As at reporting date, the Bank has no outstanding tax cases under preliminary investigation, litigation and/or prosecution in courts or bodies outside the BIR.

BPI Direct BanKo Inc., A Savings Bank Foreign Currency Deposit Unit

Financial Statements
As at and for the years ended December 31, 2024 and 2023

Independent Auditor's Report

To the Board of Directors and Shareholder of BPI Direct BanKo, Inc., A Savings Bank Foreign Currency Deposit Unit 220 Ortigas Avenue, BanKo Center North Greenhills, San Juan City Metro Manila

Our Opinion

In our opinion, the accompanying financial statements of the Foreign Currency Deposit Unit (FCDU) of BPI Direct BanKo, Inc., A Savings Bank (the "Bank") as at and for the years ended December 31, 2024 and 2023, are prepared, in all material respects, in accordance with the reporting guidelines of the Bangko Sentral ng Pilipinas (BSP).

What we have audited

The financial statements of the Bank comprise:

- the statements of condition as at December 31, 2024 and 2023;
- the statements of income for the years ended December 31, 2024 and 2023;
- the statements of total comprehensive income for the years ended December 31, 2024 and 2023;
- the statements of changes in due to Regular Banking Unit for the years ended December 31, 2024 and 2023.
- the statements of cash flows for the years ended December 31, 2024 and 2023; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

Isla Lipana & Co., 29th Floor, AIA Tower, 8767 Paseo de Roxas, 1226 Makati City, Philippines T: +63 (2) 8845 2728, www.pwc.com/ph

Independent Auditor's Report To the Board of Directors and Shareholder of BPI Direct BanKo, Inc., A Savings Bank Foreign Currency Deposit Unit Page 2

Emphasis of Matter - Basis of Accounting and Restriction on Use

We draw attention to Note 11 to the financial statements, which describe the basis of accounting. The financial statements are prepared in accordance with the reporting guidelines prescribed by the BSP. As a result, the financial statements may not be suitable for another purpose. Our report is intended solely for the information and use of the management of the Bank, and for purposes of submission to the BSP and Bureau of Internal Revenue and is not intended for any other purpose. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements in accordance with the reporting guidelines of the BSP as described fully in Note 11 to the financial statements, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent Auditor's Report To the Board of Directors and Shareholder of BPI Direct BanKo, Inc., A Savings Bank Foreign Currency Deposit Unit Page 3

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events in
 accordance with the reporting guidelines of the BSP, as described in Note 11 to the financial
 statements.

Independent Auditor's Report To the Board of Directors and Shareholder of BPI Direct BanKo, Inc., A Savings Bank Foreign Currency Deposit Unit Page 4

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

BPI Direct BanKo, Inc., A Savings Bank

Foreign Currency Deposit Unit

Notes to the Financial Statements
As at and for the years ended December 31, 2024 and 2023
(In the notes, all amounts are shown in Philippine Peso unless otherwise stated)

1 General information

1.1 Business information

BPI Direct BanKo, Inc., A Savings Bank (the "Bank") was incorporated in the Philippines and registered with the Securities and Exchange Commission (SEC) on September 26, 1986 primarily to engage in and carry on the general business of savings and mortgage banking.

The Foreign Currency Deposit Unit (FCDU) license was granted to the Bank on October 31, 2008.

The Bank is a wholly-owned subsidiary of Bank of the Philippine Islands ("BPI" or the "Parent Bank"), a domestic commercial bank with an expanded banking license, which is also its ultimate parent.

The Bank's registered office address, which is also its principal place of business, is 220 Ortigas Avenue, Banko Center, North Greenhills, San Juan City, Metro Manila.

The Bank has 3,192 regular employees as at December 31, 2024 (2023 - 2,915).

1.2 Approval of the Bank's financial statements

These financial statements have been approved and authorized for issuance by the Board of Directors on March 26, 2025.

2 Due from other banks

The account consists of deposits with the Parent Bank amounting to P181,470,606 as at December 31, 2024 (2023 - P168,442,075) and earns interest at prevailing rate.

Interest income recognized on deposits amounts to P1,868,154 for the year ended December 31, 2024 (2023 - P1,904,183).

Due from other banks is classified as current as at December 31, 2024 and 2023.

3 Deposit liabilities

The account consists of savings deposits amounting to P156,150,113 at December 31, 2024 (2023 - P145,504,618). All are payable on demand.

Interest expense recognized on deposit liabilities amounts to P360,831 for the year ended December 31, 2024 (2023 - P564,582).

The deposit liabilities under FCDU are not subject to the reserve requirement ratio of the Bangko Sentral ng Pilipinas (BSP).

4 Other liabilities

The account at December 31 consists of:

| | 2024 | 2023 |
|-----------------------------|------------|------------|
| Inter-unit clearing account | 24,427,700 | 22,103,361 |
| Miscellaneous liabilities | 17,994 | 17,319 |
| | 24,445,694 | 22,120,680 |

Inter-unit clearing account is related to the transfer of foreign currencies between regular banking unit (RBU) and FCDU and other inter-unit transactions aside from transfer of income or loss to the Bank's RBU.

Miscellaneous liabilities include withholding taxes and sundry credits.

Other liabilities are classified as current as at December 31, 2024 and 2023.

5 Service fee income

The account consists of service charges on deposit accounts for failure to meet minimum balance requirements which amount to P68,971 for the year ended December 31, 2024 (2023 - P111,110).

6 Miscellaneous expenses

The account mainly includes allocated costs from the Bank's RBU which amount to P293,718 for the year ended December 31, 2024 (2023 - P340,508).

7 Income taxes

Income subject to tax for the year ended December 31 consists of revenue generated from on-shore transactions of the FCDU.

A reconciliation between the income tax expense at the statutory income tax rate to the actual income tax expense for the years ended December 31 are as follows:

| | 20 | 24 | 20 |)23 |
|--|-----------|----------|------------|----------|
| | Amount | Rate (%) | Amount | Rate (%) |
| Statutory income tax | 320,644 | 25.00 | 277,551 | 25.00 |
| Effects of items not subjected to statutory tax rate | | | | |
| Non-deductible expenses | 152,067 | 11.86 | 198,495 | 50.85 |
| Income subjected to lower tax rates | (192,390) | (15.00) | (188, 337) | (49.94) |
| Income tax expense | 280,321 | 21.86 | 287,709 | 25.91 |

8 Related party transactions

In the ordinary course of business, the Bank has transactions with the Parent Bank and other related entities which are recognized in the FCDU books. These transactions usually arise from normal banking activities such as deposit arrangements and outsourcing of certain services primarily loans operations, branch operations and human resource-related functions. These transactions are done on an arm's length basis and are made substantially on the same terms and conditions as transactions with unaffiliated individuals and businesses of comparable risks under the same or similar circumstance.

Significant related party transactions at December 31, 2024 of the FCDU pertain to deposits with the Parent Bank amounting to P181,470,606 (2023 - P168,442,075). Related interest income is disclosed in Note 2.

9 Other commitments and contingent liabilities

There are no outstanding commitments and contingent liabilities involving the Bank's FCDU as at December 31, 2024 and 2023.

10 Financial risk and capital management

Risk management of the Bank, including the FCDU, covers all perceived areas of risk exposure, even as it continuously endeavors to uncover hidden risks. Capital management is understood to be a facet of risk management. The Board of Directors is the Bank's principal risk and capital manager and the Bank's only strategic risk taker. The Board of Directors provides written policies for overall risk management, as well as written procedures for the management of foreign exchange risk, interest rate risk, credit risk, equity risk, and contingency risk, among others.

The primary objective of the Bank is the generation of recurring acceptable returns to shareholder's capital. To this end, the Bank's policies, business strategies, and business activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various other funders and stakeholders.

To generate acceptable returns to its shareholder's capital, the Bank understands that it has to bear risk, that risk-taking is inherent in its business. Risk is understood by the Bank as the uncertainty in its future income - an uncertainty that emanates from the possibility of incurring losses that are due to unplanned and unexpected drops in revenues, increases in expenses, impairment of asset values, or increases in liabilities.

The possibility of incurring losses is, however, compensated by the possibility of earning more than expected income. Risk-taking is, therefore, not entirely a bad step to be avoided. Risk-taking presents opportunities if risks are accounted, deliberately taken, and are kept within rationalized limits.

The Risk Management Office is responsible for the management of market and liquidity risks. Its objective is to minimize adverse impact on the Bank's financial performance due to the unpredictability of financial markets.

Market and credit risks management in the Bank is carried out through policies approved by the Risk Management Committee and the Board of Directors. In addition, Internal Audit is responsible for the independent review of risk assessment measures and procedures and the control environment. For risk management purposes, risks emanating from Treasury activities are managed independently.

The most important risks that the Bank manages are credit risk, liquidity risk, market risk and other operational risks. Market risk includes currency exchange risk, interest rate and other price risks.

10.1 Credit risk

The Bank, including the FCDU, takes on exposure to credit risk, which is the risk that may arise if a borrower or counterparty fails to meet its obligations in accordance with agreed terms. Credit risk is the single largest risk for the Bank's business; management therefore carefully manages its exposure to credit risk as governed by relevant regulatory requirements and international benchmarks.

Credit exposure in the FCDU arises principally from financial assets at amortized cost consisting of Due from other banks and related interest receivable. The Credit Policy Group works with the Credit Committee in managing credit risks, and reports are regularly provided to the Board of Directors.

The maximum credit risk exposure relates to Due from other banks and accrued interest receivable, presented as part of other assets in the statement of condition, which amounts to P181,470,606 and P12,444, respectively, as at December 31, 2024 (2023 - P168,442,075 and P5,699, respectively), which are deposited in a reputable bank and are considered fully performing (Note 2). Deposits are made in a reputable bank with good credit ratings. Management has determined that there is a low risk of default on these deposits and interest receivable and has assessed that the said counterparty has strong capacity to meet its contractual cash flow obligations in the near term. Low credit risk assets are at a minimum subject to 12-month expected credit loss (ECL). Based on its assessment, management has ascertained that the corresponding 12-month ECL is not material for financial reporting purposes as at December 31, 2024 and 2023.

10.2 Market risk

The Bank, including the FCDU, is exposed to market risk, the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

Market risk management is incumbent on the Board of Directors through its Risk Management Committee.

10.2.1 Interest rate risk

There are two types of interest rate risk: (i) fair value interest rate risk and (ii) cash flow interest rate risk. Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Bank, including the FCDU, takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates. Interest margins may increase as a result of such changes but may also result in losses in the event that unexpected movements arise.

The Board of Directors sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored daily by the Risk Management Office.

Interest rate risk in the banking book arises from the Bank's core banking activities. The main source of this type of interest rate risk is repricing risk, which reflects the fact that the Bank's assets and liabilities are of different maturities and are priced at different interest rates.

The FCDU's financial assets and liabilities as at December 31 are all non-repricing and are broken down as follows:

| | 2024 | 2023 |
|------------------------------|-------------|-------------|
| Financial assets | | |
| Due from other banks | 181,470,606 | 168,442,075 |
| Other assets | 12,444 | 5,699 |
| Total financial assets | 181,483,050 | 168,447,774 |
| Financial liabilities | | |
| Deposit liabilities | 156,150,113 | 145,504,618 |
| Accrued interest payable | 16,716 | 126,074 |
| Total financial liabilities | 156,166,829 | 145,630,692 |
| Total interest repricing gap | 25,316,221 | 22,817,082 |

10.2.2 Foreign currency exchange risk

Foreign currency exchange risk is being managed on a Bank-wide basis. As at December 31, 2024 and 2023, the FCDU of the Bank is not engaged in transactions denominated in currencies other than its functional currency, US Dollar. Accordingly, it has no exposure to foreign currency exchange risk.

10.3 Liquidity risk

Liquidity risk is the risk that the Bank, including the FCDU, is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfill commitments to lend.

The Bank's liquidity management process, as carried out within the Bank and monitored by the Risk Management Committee and the Risk Management Office includes:

- day-to-day funding, which includes replenishment of funds as they mature or are borrowed by customers, managed by monitoring future cash flows to ensure that requirements can be met;
- maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring balance sheet liquidity ratios against internal and regulatory requirements;
- · managing the concentration and profile of debt maturities; and
- performing periodic liquidity stress testing on the Bank's liquidity position by assuming a faster rate of withdrawals in its deposit base.

Monitoring and reporting take the form of cash flow measurement and projections for the next days, weeks and months as these are key periods for liquidity management. The starting point for those projections is an analysis of the contractual maturity of the financial liabilities and the expected collection date of the financial assets.

Sources of liquidity are regularly reviewed by the Bank to maintain a wide diversification by currency, geography, counterparty, product and term. Assets available to meet all of the liabilities include due from other banks. The Bank would also be able to meet unexpected net cash outflows by accessing additional funding sources.

The FCDU's financial liabilities at December 31, 2024, which consist of savings deposits and accrued interest payable amounting to P156,150,113 and P16,716 respectively, (2023 - P145,504,618 and P126,074, respectively), have no stated maturity and are repayable on demand.

The Bank has sufficient liquid assets (mainly Due from other banks) to meet its financial liabilities as at December 31, 2024 and 2023.

Liquidity Coverage Ratio (LCR)

Pursuant to BSP Circular No. 905 issued in 2016, the Bank is required to hold and maintain an adequate level of unencumbered High Quality Liquid Assets (HQLA) that are sufficient to meet its estimated total cash outflows over a 30 calendar-day period of liquidity stress. The LCR is the ratio of HQLAs to total net cash outflows which should be no lower than 100% on a daily basis. It is designed to promote short-term resilience of the Bank's liquidity risk profile to withstand significant liquidity shocks that may last over 30 calendar days. HQLA represent the Bank's stock of liquid assets that qualify for inclusion in the LCR which consist mainly of cash, regulatory reserves and unencumbered high-quality liquid securities. HQLAs therefore, serve as defense against potential stress events.

The main drivers of the Bank's LCR comprise the changes in the total stock of HQLA as well as changes in net cash outflows related to deposits, unsecured borrowings and commitment facilities, if any.

Net Stable Funding Ratio (NSFR)

On January 1, 2019, the Bank adopted BSP Circular No. 1007 issued in 2018 regarding the NSFR requirement. The NSFR is aimed at strengthening the Bank's long-term resilience by maintaining a stable funding in relation to its assets and off-balance sheet items as well as to limit the maturity transformation risk of the Bank. The NSFR is expressed as the ratio of available stable funding and the required stable funding and complements the LCR as it takes a longer view of the Bank's liquidity risk profile. The Bank's capital, retail deposits and long-term debt are considered as stable funding sources whereas the Bank's assets including, but not limited to, performing and non-performing loans and receivables, HQLA and non-HQLA securities as well as off-balance items form part of the required stable funding. The Bank's NSFR is well-above the regulatory minimum of 100%.

The Bank maintains a well-diversified funding base and has a substantial amount of core deposits, thereby avoiding undue concentrations by counterparty, maturity, and currency. The Bank manages its liquidity position through asset-liability management activities supported by a well-developed funds management practice as well as a sound risk management system. As part of risk oversight, the Bank monitors its liquidity risk on a daily basis, in terms of single currency and significant currencies, to ensure it is operating within the risk appetite set by the BOD and to assess ongoing compliance with the minimum requirement of the liquidity ratios. Furthermore, the Bank has a set of policies and escalation procedures in place that govern its day-to-day risk monitoring and reporting processes.

The table below shows the actual liquidity metrics of the Bank (combined RBU and FCDU) as at December 31:

| | 2024 | 2023 |
|--------------------------|----------------|----------------|
| Liquidity coverage ratio | 117.19% | 133.97% |
| Net stable funding ratio | 123.42% | 135.91% |
| Leverage ratio | 13.63% | 10.83% |
| Total exposure measure | 52,800,142,894 | 43,493,133,715 |

10.4 Fair values of financial assets and liabilities

As at December 31, 2024 and 2023, the carrying value of the financial asset and liabilities approximates its fair value.

There are no financial assets and liabilities measured at fair value as at December 31, 2024 and 2023.

Due from other banks

The fair value of floating rate placements and overnight deposits approximates their carrying amount. The estimated fair value of fixed interest-bearing deposits is based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity.

Deposit liabilities

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The carrying amount of deposit liabilities approximates their fair value due to the short-term nature of these instruments.

Other assets

Carrying amounts of other assets which have no definite repayment dates are assumed to be their fair values.

10.5 Capital management

Capital management is understood to be a facet of risk management. The primary objective of the Bank, including the FCDU, is the generation of recurring acceptable returns to shareholder's capital. To this end, the Bank's policies, business strategies and activities are directed towards the generation of cash flows that are in excess of its fiduciary and contractual obligations to its depositors, and to its various funders and stakeholders.

Cognizant of its exposure to risks, the Bank understands that it must maintain sufficient capital to absorb unexpected losses, to stay in business for the long haul, and to satisfy regulatory requirements. The Bank further understands that its performance, as well as the performance of its various units, should be measured in terms of returns generated vis-à-vis allocated capital and the amount of risk borne in the conduct of business.

Effective January 1, 2014, the BSP, through its Circular 781, requires each bank and its financial affiliated subsidiaries to adopt new capital requirements in accordance with the provisions of Basel III. The new guidelines are meant to strengthen the composition of the Bank's capital by increasing the level of core capital and regulatory capital. The Circular sets out minimum Common Equity Tier 1 (CET1) ratio and Tier 1 Capital ratios of 6% and 7.5%, respectively. A capital conservation buffer of 2.5%, comprised of CET1 capital, was likewise imposed. The minimum required capital adequacy ratio (CAR) remains at 10% which includes the capital conservation buffer.

The table below summarizes the Bank's CAR (combined RBU and FCDU) under the Basel III framework for the years ended December 31:

| | 2024 | 2023 |
|--|----------------|----------------|
| CET1 | 8,216,804,868 | 5,426,916,061 |
| Less: Regulatory adjustments to CET1 capital | 1,020,434,470 | 717,783,527 |
| Tier 1 capital | 7,196,370,398 | 4,709,132,534 |
| Tier 2 capital | 359,544,077 | 263,664,096 |
| Total qualifying capital | 7,555,914,475 | 4,972,796,630 |
| | | |
| Risk weighted assets | 45,549,964,297 | 33,686,718,954 |
| CET1 | 15.80% | 13.98% |
| CAR (%) | 16.59% | 14.76% |

The Bank has fully complied with the CAR requirement of the BSP as at December 31, 2024 and 2023.

11 Summary of material accounting policies

The accompanying financial statements reflect the accounts maintained by the FCDU of the Bank. The material accounting policies applied in the preparation of the financial statements of the FCDU of the Bank are set out below. These policies have been consistently applied to both years presented, unless otherwise stated.

11.1 Basis of preparation

The financial statements of the Bank's FCDU have been prepared in accordance with the reporting guidelines of the BSP. In general, the said guidelines as they relate to the preparation and presentation of the FCDU financial statements of banks, include all applicable Philippine Financial Reporting Standards (PFRS) Accounting Standards, except with respect to the determination and translation of functional currency as discussed in Note 11.6.

PFRS Accounting Standards comprise the following authoritative literature:

- PFRS Accounting Standards
- PAS Standards, and
- Interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC),
 Philippine Interpretations Committee (PIC), and Standing Interpretations Committee (SIC) as approved by
 the Financial and Sustainability Reporting Standards Council (FSRSC) and the Board of Accountancy,
 and adopted by the SEC.

The financial statements of the FCDU of the Bank have been prepared under the historical cost convention.

The financial statements comprise the statements of condition, statements of income and statements of total comprehensive income shown as two statements, statements of changes in due to regular banking unit, statements of cash flows and the notes.

The preparation of financial statements in conformity with PFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting policies. Changes in assumptions may have a significant impact on the financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and that the Bank's financial statements therefore present the financial position and results fairly. There are no areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements.

11.1.1 Changes in accounting policy and disclosures

(a) New standard and amendments to existing standards adopted by the Bank.

There are no new standards or amendments to existing standards effective January 1, 2024 that have a material impact to the Bank.

(b) New standards and amendments to existing standard not yet adopted by the Bank.

The following new accounting standard are not mandatory for December 31, 2024 reporting period and has not been early adopted by the Bank:

PFRS 18, 'Presentation and Disclosure in Financial Statements'

This is the new standard on presentation and disclosure in financial statements, which replaces PAS 1, with a focus on updates to the statement of profit or loss.

The key new concepts introduced in PFRS 18 relate to:

- The structure of the statement of profit or loss with defined subtotals;
- Requirement to determine the most useful structure summary for presenting expenses in the statement of profit or loss
- Required disclosures in a single note within the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general

 Amendments to the Classification and Measurement of Financial Instruments – Amendments to PFRS 9 and PFRS 7

On May 30, 2024, the IASB issued targeted amendments to PFRS 9 Financial Instruments and PFRS 7 Financial Instruments: Disclosures to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities. These amendments:

- (a) Clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- (b) Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- (c) Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
- (d) Update the disclosures for equity instruments design

The adoption of PFRS 18 and amendments to PFRS 9 and PFRS 7 are not expected to have a material financial effect to the financial statements of the Bank.

There are no other standards, amendments to existing standards or interpretations effective subsequent to January 1, 2025 that are considered relevant or would be expected to have a material impact on the Bank's financial statements.

11.2 Financial assets

11.2.1 Classification

The Bank, including the FCDU, classifies its financial assets as those to be measured at amortized cost.

The classification depends on the Bank's business model for managing the financial assets and the contractual terms of the cash flows.

11.2.2 Recognition and derecognition

Regular way purchases and sales of financial assets are recognized on trade date, the date on which the Bank commits to purchase or sell the asset.

11.2.3 Measurement

The classification requirements for debt instruments are described below:

The Bank classifies its debt instruments at amortized cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at fair value through profit or loss (FVTPL), are measured at amortized cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognized and measured. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

Amortized cost financial assets of the FCDU as at December 31, 2024 and 2023 include due from other banks (Note 2) and other assets.

Cash and cash equivalents consist of deposits with the Parent Bank.

Business model: The business model reflects how the Bank, including the FCDU, manages the assets in order to generate cash flows. That is, whether the Bank's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Bank, including the FCDU, in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Bank, including the FCDU, assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Bank, including the FCDU, considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

The FCDU reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

11.2.4 Impairment and write-off

The Bank, including the FCDU, assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instrument carried at amortized cost. The Bank, including the FCDU, recognizes a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The FCDU's financial assets pertain to due from other banks and other assets. The FCDU applies the simplified approach, as permitted by PFRS 9, in measuring ECL which uses a lifetime expected loss allowance for financial assets. To measure the expected credit losses, financial assets have been grouped based on shared credit risk characteristics and the days past due. The forward-looking information on macroeconomic factors are considered insignificant in calculating impairment of the FCDU's financial assets.

11.3 Financial liabilities

11.3.1 Classification

The Bank, including the FCDU, classifies its financial liabilities at amortized cost.

Financial liabilities measured at amortized cost include deposit liabilities and accrued interest payable.

11.3.2 Recognition and measurement

Initial recognition and measurement

Financial liabilities at amortized cost are initially recognized at fair value less transaction costs.

Subsequent measurement

Financial liabilities at amortized cost are subsequently measured at amortized cost using the effective interest rate method.

11.3.3 Derecognition

A financial liability is removed from the statement of condition when it is extinguished, i.e., when the obligation is discharged or is canceled or expires.

11.4 Fair value measurement

The fair value of financial liabilities takes into account non-performance risk, which is the risk that the entity will not fulfill an obligation.

The appropriate level is determined on the basis of the lowest level input that is significant to the fair value measurement.

The fair values of due from other banks, other assets and deposit liabilities correspond to their carrying amounts.

11.5 Interest income and expense

Interest income and expense are recognized using the effective interest rate method.

11.6 Foreign currency translation

Functional and presentation currency

Items in the financial statements are measured using the currency of the primary economic environment in which the FCDU operates (the "functional currency"). In accordance with BSP Circular 601, series of 2008, the functional currency of the FCDU is US Dollar while the financial statements are presented in Philippine Peso (the "presentation currency").

For financial reporting purposes and following the requirements under Section 84 of the Manual of Regulations on Foreign Exchange Transactions (MORFXT), the functional currency of the Bank's FCDU is the US Dollar. The FCDU accounts are translated into their equivalent amounts in Philippine Peso. In determining the presentation currency of the FCDU, the Bank's management considered the primary users of these financial statements. These financial statements are prepared mainly for submission to the BSP and for filing with the Bureau of Internal Revenue along with the annual income tax return of the FCDU, which is also presented in Philippine Peso. Consistent with the provision of PAS 21, The Effects of Changes in Foreign Exchange Rates, the Bank's FCDU adopts Philippine Peso as its presentation currency.

The results and financial position of the FCDU are translated into Philippine Peso as follows:

- assets and liabilities are translated at closing rate at year-end;
- income and expenses are translated at exchange rates at the dates of the transactions; and
- all resulting exchange differences are taken to statement of total comprehensive income under cumulative translation adjustment.

Management assessed that the impact of the translation adjustment is insignificant and decided not to present the cumulative translation adjustment separately in the FCDU's financial statements as at December 31. 2024 and 2023.

11.7 Service fee income

The Bank, including the FCDU, recognizes revenue when (or as) the Bank satisfies a performance obligation by transferring a promised good or service to a customer (i.e. an asset). An asset is transferred when (or as) the customer obtains control of that asset.

Service fee income arising from deposits and other banking transactions are recognized as income based on agreed terms and conditions.

11.8 Income taxes

Income earned by the FCDU is taxed as follows: (a) offshore income is tax-exempt, (b) gross onshore income is taxed at 10%, and (c) all other income not classifiable as onshore or offshore is subject to the regular corporate tax rate of 25% of net taxable income.

Income derived by the FCDU from foreign currency transactions with local commercial banks, including branches of foreign banks authorized by the BSP to transact business with the FCDU is subject to 10% final tax. Also, interest earned on deposits with foreign currency denominated units of other banks is subject to 15% final tax.

11.9 Expense allocation

Certain expenses of the Bank are allocated to the FCDU which takes into consideration the specific transactions of the FCDU.
